BEARDED IRIS

★BAND LEADER (Lyon '59) #54-42-6 \$25.00

This brilliant interesting variegata of deep lemon yellow and antique ruby leads the parade with five points of merit; the very broad petals, excellent branching (4-way) and placement, vigorous growth, above average height (36") and a wonderful bloomer. M. (Ali Baba X Copper Medallion). H.C. '58

★CHANGING TIDE (Lyon '59) #52-48-4 \$15.00

The cool sea-green of sunset at sea, with silvery tones of reflected light on the water, make an interesting flower to those who enjoy the delicate colorings of the new green toned iris. Floriferous and perfectly branched. 36". M-L. (D60-50-1:Char-Maize x M101-47-1 X Unknown).

★GOLD CARGO (Lyon '59) #54-34-2 \$30.00

The insouciant flare of this exceptionally ruffled empire yellow flower contributes a debonair quality to this lovely satin smooth broad petaled pure gold iris. Beautifully branched stalks of 34"-36". EM. (Orange Creamo X Inca Chief). H.C.'58

★RARE PLEASURE (Coppedge '59) \$22.50

This calls to mind a large hat of the Victorian era, trimmed with willow plumes. The flowers, straw yellow overlaid gold, suggests the hat; soft crimson cascading over the broad flaring falls, the plumes. Well branched, 34". M. (Gay Welcome X Tabasco).

★TROY MEADOWS (DeFussi '59) #602-0 \$20.00

An interesting oncobred with standards of palest lavender flushed and veined straw yellow; falls chartreuse, blended brownish olive deepening at the shoulders, with a metallic gold overlay and a suggestion of a signal patch. Broad falls, ruffled and flared. Vigorous and floriferous. 36". E. (White Ruffles X Capitola). H.C.'57.

BAND LEADER

SPURIA IRIS

★AUTUMN GLOW (M.R.Walker '59) S25-55 \$15.00

The golden bronze effect of this delightful round petaled flower adds a new color combination to the Spuria group. The standards, orange yellow at the base are overlaid deep tan; falls orange yellow suffused golden bronze. 50". M. (Grace Perry Nies X Color Guard x Cherokee Chief).

1958 Introductions

MAGIC HALO

MALVA LACE

BEARDED IRIS

★GOLDEN ANNIVERSARY (M.R. Walker '58) \$20.00

The canary yellow standards, and precise band of wedding ring gold around the bridal satin falls, presents floral symbols reminding one of that memorable occasion. 34". EM. (Harvester X Mitchell 4-7). H.M.'58.

★MAGIC HALO (G. W. Coppedge '58) \$25.00

The subtle fascination of this artistic blend gives pleasure in all its blooming phases. Rosy orchid beard, shading to pearl gray at the edge of the petals, completely overlaid soft metallic gold creating a halo illusion. Ideal proportions, substance, and texture. Well branched. 36". M. (A8-51-10 X Mary Randall). HM'58

★MALVA LACE (D. Lyon '58) \$18.00

Noteworthy because of its intriguing pattern of bubbles and lace which extends well into the petals and is further accentuated by pequot edges. The delectable shades of mauve and orchid are blended beautifully over the broad petals of excellent substance and texture. Its long blooming season extends past other late blooming Iris. 38". (Happy Birthday X Convention Queen).

★TANGELO (D. Lyon '58) \$12.00

The dull satin texture and refined blending of nasturtium-orange and apricot enhance this symmetrical flower. The many blossoms and long blooming period contribute to its value as a garden subject. Free branching of sturdy tall stalks, combined with vigorous growth is unusual in iris of apricot color. 40". M-VL. ((D327-48-3: Cherie X Mellowglow) X Dolly Varden).

SPURIA IRIS

★EL CAMINO (M. R. Walker '58) \$15.00

The suede like texture of this outstanding deep orange yellow flower has a distinctive appearance; unusual in form, vigorous and floriferous. 50". (Grace Perry Nies X Wadi Zem Zem). H.M.'58.

★GAY LARK (M. R. Walker '58) \$15.00

This iris is a much improved yellow bicolor. The standards are broad and erect with very heavy substance; a soft white, blending to yellow at the center of the flower. The falls are a deep orange-yellow, edged white (1/2") and heavily ruffled. The overall effect of the flower is brilliant, and the quality is outstanding. 55". (Grace Perry Nies X Canary Island). H.M. '58.

CHAR-MAIZE

REJOICE

Glorious Bearded Iris

ALI BABA (Lyon '52) \$2.00

Standards spectrum taupe, flushed garnet-brown; broad flaring deep garnet-brown falls of the heaviest velvety texture; does not fade in the sun. Fragrant. 40". M-L. (Ranger X Cordovan). H. M. '54.

★ALLAGLOW (Tompkins '58) \$30.00

Excellently proportioned, huge, ruffled flowers. Bright sunburst gold, blended bittersweet orange with an all over flush of clear copper yellow, faintly tinted orchid at tip of the chrome beard. 37". M-L. ((Ballet Dancer x Lady Albright) X Golden Twilight) H.M. '58.

ANGELA MIA (Noyd '56) \$10.00

A ruffled white with crystalline sparkle and heavy substance. M-L. 36". (Dixie Belle X Spanish Peaks).

ANYTIME (Cavagnaro '56) \$12.50

A Eupogocyclus hybrid of white self, with pale chartreuse at the hafts. Immense flowers with very rounded wide petals of heavy substance. 38". M. (Alba Superba X Lady Mohr). H.M. '56.

APPLE CAPITOL (Noyd '57) \$15.00

A ruffled and waved dark red, with self beard tipped bronze, and very broad falls; 4-way branching. 32". M-VL. (Casa Morena X Plough red Sdlg.)

APRICOT DANCER (Noyd '58) \$15.00

A very large orange apricot self, even to the beard. Flaring falls and lacy style arms. L-VL. (June Bride X Temple Bells)

APRICOT DREAM (Noyd '58) \$15.00

A deep apricot self with a self beard, slightly ruffled and fragrant. 29". M-L. (((Reveille x New Horizon) x (Apricot Glory))X Temple Bells)

ARCTIC SPLENDOR (Dubes '56) \$12.50

This classic bi-tone white has wide slightly ruffled flowers of great beauty. The standards are arched and falls are semi-flared with a flush of lavender. Reputed to be a good parent. 36". M-L. (Katherine Fay X Violet Symphony) H.M. '56.

ASPENGLOW (Long for Loomis '56) \$7.50

Vivid cadmium yellow self, nicely formed, having an interesting pleating or tucking on the lower part of the standards. Good growth habits. 36". L. (DeForest #45-46 X Loomis yellow sdlg.) H.M. '58.

BABY'S BONNET (Baker '57) \$17.50

Pink amoena. Standards fully domed and pure white; falls semi-flaring, slightly rippled of salmon pink, with a tangerine beard. 34". M. (Gay Orchid X Loomis' seashell sdlg.) H.M. '57

BAND LEADER (Lyon '59) \$25.00

See introductions, page 2.

BANG (Craig '55) \$10.00

An interesting bitone whose standards are old cedar with flaring falls of Indian red. 38". L. (Savage X (Cordovan x Molton)). H.M. '55.

BAZAAR (Schreiner '55) \$3.00

Deep raspberry and white plicata; broadly rounded petals. Impressive. 36". L-M. (Harlequin X Raspberry Ribbon). H.M. '56.

BEACON HILL (Corey '54) \$5.00

A delightful pale blue self that holds its color without fading. The good sized flowers are smooth textured and nicely ruffled. 36". (Helen McGregor X Bay State).

BEECHLEAF (Kleinsorge '55) \$6.00

A ruffled and attractive coppery brown with a violet undertone; orange-brown beard. M, 38". (Thotmes111 X Pretty Quadroon). H.M. '55

BEISAN AGA (White '54) \$6.00

Eupogocyclus hybrid blend. Standards port-wine, penciled darker; falls buff, heavily penciled darkest hot purple-black, warm black signal patch, brown beard. 28". M.

BELLA MOHR (Ohi '55) \$5.00

A large deep red-violet self with Mohr form and substance, and no haft markings. 36". L-M. (Wm. Mohr X Sable). H.M. '56.

- BIG GAME** (Fay '54) **\$6.00**
A self of the deepest rich violet. Huge in size, and broad of parts, with a long flowering season. 38". E-M-L. (Fay 48-61: (Snow Flurry x Chivalry) X Fay sdlg. 48-43: (44-44 x Chivalry)) A.M. '58.
- BIG UTE** (Wallace '54) **\$5.00**
A large, well-formed, deep red with wide flaring falls and closed standards. Well-branched. 36". M. ((Grand Canyon) X (Lancaster x Three Oaks). H.M. '55.
- BLACK JOPPA** (White) **\$3.00**
A broad petaled violet Eupogocyclus hybrid. Standards aster, heavily veined prune purple; falls near Italian straw, penciled a little darker than Spanish raisin. 32". M.
- ★BLACK TAFFETA** (Songer '54) **\$8.00**
Unusually rich, dark black purple self, with matching beard. Ruffled in form, smooth and glistening in texture and finish. One of the best blacks. 28". M-L. (Black Forest X Muhlestein's 47-33: (Storm King x Sable)) A.M. '57.
- BLUE HAVEN** (Reynolds '57) **\$15.00**
A very large ruffled Chivalry-blue aristocrat. Floriferous. 30". M. (Sky Ranger X Great Lakes)
- BLUE SAPPHIRE** (Schreiner '53) **\$2.00**
A blue iris of exquisite purity that takes its place among the top rated blues. A good bloomer and has poise, substance and is ruffled. 40". E. (Snow Flurry X Chivalry). Dykes Medal '58.
- BLUE THROAT** (Loomis '56) **\$4.00**
An effective light sky-blue of delightful poise and form, with a blue tipped beard. 38". M-L.
- BOLD CONTRAST** (Linse '54) **\$5.00**
Standards are Inca Gold, with minute rose veining; broad, semi-flaring falls between raspberry and mauve rose, with a narrow edging of gold. 38". M-L. (Extravaganza X Rajah Brooke). H.M. '55.
- BOLERO** (Tompkins '57) **\$10.00**
A large broad round petaled flower with flaring form. Brilliant glistening copper with a smooth undertone of rich henna-red, and a coppery beard. Clean smooth hafts and well branched. 38". M. ((Aria x Defiance) x Rocket) X (Rio Valley x Glittering Copper)
- BREATH O'KILLARNEY** (O'Brien '58) **\$20.00**
Self of sap-green, ruffled, flaring, heavily subtanced, having individuality and charm. 36". E-M. (Green Pastures X O'Brien Sdlg. 48-13: (Sweet Alibi x Easter Morn)) H.C. '56.
- BRIGADOON** (Tompkins '55) **\$15.00**
A brilliant blend of Fuchsia red and Amethyst violet, with gleaming silken finish and no venations. 38". E-L. ((Honeyflow and Three Oaks x Seashell Pinks) X (Dark Fire x Cascade)). H.M. '55.
- BRIGHT GEM** (DeForest '53) **\$6.00**
A blending of deep golden brown and russet, intensified by the dark brown beard. Large wide and rounded petals with flaring form. 33" M. (Argus Pheasant X Garden Glory)
- ★BRONZE BELL** (Schreiner '57) (Plant Patented) **\$17.50**
The color is startlingly rich, like a piece of highly polished copper. There is a heavy metallic lustre over its surface, with a golden iridescence. Superb form and exuberant ruffling. 36". E. (Copper Medallion X Inca Chief). H.M. '57.
- BROWN ENSEMBLE** (Quadros '56) **\$8.00**
A rich brown, deepening in the heart of the flower, with darker brown markings accenting the hafts, a blue-tipped yellow beard. M. 36". (Casa Morena X Tobacco Road). H.M. '56
- ★BUTTERSCOTCH KISS** (Plough '57) **\$25.00**
A butterscotch yellow with a gold dust glitter over all. At times there appears to be an orchid infusion. Heavy substance and very heavily laced edges. M.L. 36". (Sdlg #49-67: Cascade Splendor x Honeyflow x Twenty Grand). H.M. '57.
- BY LINE** (DeForest '54) **\$4.50**
An interesting yellow plicata. Standards corinthian purple. Falls yellow, wide and rounded, heavily bordered corinthian purple. M. 36". (5-47B X Rodeo).
- CAPE COD** (Knowlton '53) **\$6.00**
An amoena triumph in breeding. The pure white standards, of gleaming texture, are well domed and fluted; falls are semi-flaring, of velvety red-purple. (Extravaganza X Wabash). H.M. '54.
- CARESSA** (Buss '56) **\$1.50**
Exceptionally lovely medium light blue self of luxuriant size. 38". M. (Chivalry X Spanish Peaks)
- CARIBOU TRAIL** (Plough '57) **\$15.00**
Rich golden brown with a bright violet blaze below the beard. All petal edges are heavily crimped and shirred on this unique creation. 32". M-L. ((Cascade Splendor x Honey Flow) X Twenty Grand) H.M. '57.
- CARMELA** (Schreiner '55) **\$5.00**
Crepny, sparkling petals are an apricot-russet with a coppery infusion. Flowers are large with broad petals heavily laced. Well branched. 36". M. (Russet Wings X (Midwest Gem x Chantilly)) A.M. '58
- CAROLINE JANE** (DeForest '51) **\$2.50**
A large glistening white plicata with blue-violet stitching is distinctive and a profuse bloomer. Nicely balanced. ((No P42X: Her Grace x Tiffany) X (New Hope)) M. 36". A.M. '55.
- CASCADIAN** (Linse '52) **\$2.00**
A ruffled, cool, crisp beauty. Clear white with a faint greenish cast through the center of the falls. Beard is white. Exceptionally vigorous. 36". E-M. (Snow Flurry X Cloud Castle). A.M. '57
- CASINO** (Plough '55) **\$3.00**
A huge self of rosy-mulberry with Mohr veinings, in an intricate pattern, on the falls. 40". E-L. (Wm. Mohr X Firecracker) H.M. '56.
- CELESTIA** (Pierce '55) **\$7.50**
A medium blus self, highly praised for its style and grace. 36" M. ((Snow Flurry x Lake Shannon) X (Helen McGregor x Chivalry)). H.M. '55.
- CELESTIAL SNOW** (Bro. Charles '57) **\$20.00**
Large heavily ruffled cool white self. The beard is white with a touch of lemon. Broad and flaring in form, and a vigorous grower. 38". M. (Snow Flurry X Celestial Blue) H.M. '57.
- CENTER GLOW** (Noyd '57) **\$7.50**
Lightly ruffled cream self with a glowing haft of peachy-apricot and a tangerine beard. M-L. 32". (Pink Mauve Mohr X (Midwest Gem x New Horizon)).
- CHANGING TIDE** (Lyon '59) **\$15.00**
See introductions, page 2.
- CHANNEL ISLANDS** (M.R. Walker '57) **\$8.00**
A flower which offers a strong color contrast. The standards are pure white, with Dresden yellow falls brushed antique gold. 34". E-M. (Pinnacle X (Fair Elaine x Sir Michael)). H.M. '57.
- CHAR-MAIZE** (Lyon '49) **\$1.50**
A large flowered iris of exceptional merit. Fine in proportion and heavy of substance, delicately ruffled. The deep yellow shows rich tones of chartreuse. Withstands degrees of heat and wind such as to wilt the average iris. 38". EM-LM. (Snow Flurry X Aztec Copper) A.M. '52. Runner-up for Dykes Medal '54 and '55.
- CHERITO** (Corey '57) **\$15.00**
Flaring, ruffled and lacy soft lemon-yellow self. L. 34". (Evening Star X Sugarplum). H.M. '57.
- CHINA GATE** (Plough '58) **\$15.00**
A stunning combination of white standards with pale canary yellow edges; falls of orange buff, flushed pink in the center, deepening toward the tangerine beard 40". E-M. (Gay Paree X Palomino)
- CINNAMON TOAST** (Sass '53) **\$3.50**
A plicata, which stems from Ruth Pollock hybridizing. Large broad petals, heavy substance and satin finish. Color is ivory, heavily sanded rich red-brown. M-L. 36". H.M. '53.
- CLASSIC YELLOW** (Murray) **\$12.00**
A brilliant classic yellow self, smooth texture, clean and clear, with an orange-yellow beard 42". M. ((Golden Ruffles x Dark Chocolate) X Glittering Gold)
- CLIFFS OF DOVER** (Fay '53) **\$2.50**
A charming pure white self with large ruffled form and great substance. Flowers have no haft markings and the beard is yellow. Vigorous 36". A.M. '55.
- COLONIAL BOUQUET** (Jonas '56) **\$10.00**
A rose-pink blend pleasing in color and quality 38". M. (Chantilly X Pink Sdlg: (Hall's pink x Mary Randall))
- CONCORD RIVER** (Butterick '56) **\$15.00**
Delightful and refreshing light blue self, broadly proportioned and exquisite in clarity in color and smooth fine texture. Very ruffled with white beard. 36". M. ((Helen McGregor x St. Regis) x Cloud Castle) X (Seafarer x Great Lakes) H.M. '56.
- COOL COMFORT** (Tompkins '58) **\$15.00**
The broad petals of excellent substance have a sparkling finish with a hint of lace. The closed standards and flaring horizontal falls are citron yellow. A self beard tipped green. 36". M-L. (Ruffled Gem X Song of Songs) H.C. '57.

- CORONATION GOLD** (H. F. Hall '52) **\$2.50**
Large non-fading, rich cadmium orange; smoothly finished flowers of semi-flaring form. 38". M-L (Sdlg. Y-40 X Francisella).
- CORONATION RED** (H. F. Hall '53) **\$2.50**
A velvety unfading oxblood-red. Orange beard. 39". M-L. (Color Sergeant X Garden Glory). H.C. '52.
- CRESCENDO** (Tompkins '55) **\$10.00**
Richly glowing deep crimson or oxblood-red, with smoothly finished broad petals and perfect branching. 38". M-L. (Manana X Garden Glory). H.M. '55.
- CRINKLED RIBBON** (Schreiner '56) **\$3.00**
A floral beauty of blended rose-tan, cedar-rose, and lavender, gracefully crinkled and ruffled. 38". M. (Pathfinder X Rose Splendor).
- CRISPETTE** (Schreiner '54) **\$3.50**
A tilting self of pearly orchid with fluted petals and a lacy edging. Ideally formed flowers 34" M-L. (Harriot Thoreau X ((Angelus x unknown) x (Matula x Schreiner sdlg. 8-37))). A.M. '57
- CROWN POINT** (Tompkins '58) **\$20.00**
Clear colors in a precise pattern of sky-blue stitching around edges of snowy petals that are broad, thick, and ruffled. 38". M-L. (Lela Dixon X Dotted Swiss)
- CRYSTAL** (Knowlton '56) **\$10.00**
An exquisite very ruffled frosted white self, flushed pale lavender-blue, with ten to twelve buds on a stalk which is well branched. 36". M. (Snow Flurry X Chivalry). H.M. '56.
- DAMASCUS BLADE** (C. G. White '53) **\$3.00**
Huge showy flowers in steel gray, overtones of mauve pink and brown, complete the enigma. Large blooms. A one-quarter onco, it is hardy, even in New England. Very late bloomer. 38".
- DARK BOATMAN** (Cook '54) **\$7.50**
One of the darkest iris, exceptionally rich in color. Standards anthracene violet; falls velvety black, tinged dark anthracene violet. Beard same. M. 34". ((Black Forest x Sdlg. #12047: Modoc x Black Wings x Sable) X (Sable x Modoc x Black Wings)) A.M. '56.
- DARK CHARM** (Coppedge '57) **\$7.00**
A ruffled and flaring rose brown. The style arms of deep lemon yellow, crested in brown, and the bronzed Indian-yellow beard, gives the flower a glowing heart. 36". L.M.
- DARK CHOCOLATE** (Murray '54) **\$5.00**
A true dark chocolate color and a complete self. Beautifully formed broad petals slightly ruffled, of heavy substance. 38". M. (Tobacco Road X Grand Marshal). H.M. '54.
- DEEP BLACK** (P. Cook) **\$8.00**
Flowers are a lustrous blackish violet. Deep violet beard. Excellent form, good substance and branching. 36". L. (Black Forest X Sdlg. 7847: (Captain Wells x Indiana Night) x ((Modoc x Black Wings) x Indiana Night)). H.M. '55.
- DEFIANCE** (Tompkins '53) **\$10.00**
Rich cardinal, nearly crimson-red. Smooth, velvety texture, excellent form and substance, and free of marking or veinings. Stands lots of sun. Nicely branched. M-L. 36". (Manana X Technicolor). H.M. '53.
- DESERT TWILIGHT** (Miess '52) **\$3.50**
A pastel shade of delicate violet-lobelia, fused with a warm mauve-wood brown at the haft. Deep golden beard. Slightly ruffled with a pleasing flare form. M. 38". (Sierra Snow X Ming Yellow). H.M. '52.
- DR. WANLASS** (Wanlass '56) **\$10.00**
Delightfully ruffled medium violet self with smoothly finished hafts, and a lemon yellow beard. 32". M-L. (Chantilly X Chivalry)
- DOTTED SWISS** (Sass '56) **\$15.00**
Refreshing, this delightful white ground plicata, stunningly marked in medium blue, of ideal proportions. EM. 36". AM '58
- DOWN BEAT** (Tompkins '56) **\$5.00**
Very deep true violet self, with bronze-gold beard. Large, tailored, with broad petals of heavy substance. Well branched. E-L.M. 39". ((Campanula x Gulf Stream) X Columbia) H.C. '55.
- DREAM DANCE** (Larsen '54) **\$5.00**
Light golden-tan self with a mother-of-pearl area in the center of the falls. Long blooming season. 38". H.M. '55.
- DUKE OF BURGUNDY** (Nelson '58) **\$20.00**
Dark burgundy self, wide brown beard. Huge in size, heavy in substance, good form, 4-way branching, and floriferous. 48". M-L. (Gene Wild X Black Hills) H.C. '57.

WOODLAND SPRITE

- ELEANOR'S PRIDE** (Watkins '56) **\$15.00**
An outstanding powder-blue self, having arched closely held standards and ruffled semi-flaring falls, with a white beard. 39". M. (Jane Phillips X Blue Rhythm). H.C. '52.
- ELIZABETH NOBLE** (Smith '55) **\$7.00**
An amoena which has balance and beauty. Standards opening palest lavender, quickly changing to white. The flaring true purple falls are lightly ruffled, white beard. M. 36". (Helen Collingwood x #9-62: (Extravaganza X Fort Ticonderoga)) H.M. '55.
- EMERALD BAY** (Schortman '55) **\$10.00**
Ice-blue self, green mid-rib and veining. Large, ruffled, good substance, with branching fairly high, excellent for background planting. 40". E-M. (Mt. Washington X Chivalry).
- ENCHANTED PINK** (Bro. Charles '56) **\$8.00**
A very clear baby-ribbon pink self with a deep pink beard. Flowers medium in size, having good substance and does not fade. 34". M. (Pink Sdlg. 50-33 X Pink Sdlg. 50-15)
- ★ENCHANTED VIOLET** (Hamblen '58) **\$17.50**
The gorgeous light violet with a flash of pink and orchid in the center of the falls might easily be called a break in breeding. The brilliant tangerine beard intensifies the effect. 36". E-M. ((Helen McGregor x Radiation) X Palomino) H.M. '58
- ENCOUNTER** (Benson '56) **\$10.00**
A reverter bicolor with golden yellow standards and snow white falls, evenly edged the same golden yellow. M. 38". (Bellerive x ((Valor x Dauntless) X Inspiration)) H.C. '52.

FATHER RIGNEY (Bro. Charles '56) **\$10.00**

Very large dark violet self with a dark brown blotch high on the shoulders. Excellent in form and substance. 42". M. (Violet sdlg. 51-43 X Fay sdlg. 51-6)

FIRE BRIGADE (Schreiner '57) **\$10.00**

This shapely glowing crimson red is a much improved Ranger, surpassing it in size, breadth of petal and degree of redness. Glowing with a ruddy incandescence EM. 36". (Pacemaker X Orelia).

FIRE FLURRY (Rees '57) **\$9.00**

Standards Erythrite-red; Falls Ruby-red with prominent white haft markings. 38". M. (Snow Flurry X Firedance)

FIRST VIOLET (DeForest '52) **\$6.00**

A manganese violet self with a blue undertone. Flowers are large, ruffled and well spaced on tall, sturdy stalks. An outstanding iris M. 38". (Chivalry X Spanish Peaks). Dykes Medal '56.

FLAME KISS (Plough '58) **\$15.00**

A bicolor of white standards and dresden yellow falls, with the yellow sweeping up into the base of the standards. Colors are bright and sharp, particularly in contrast to the tangerine beard. 40". E-M. (Gay Pree X Palomino)

FLAMINGO BAY (Muhlestein '53) **\$5.00**

A deep and distinct pink of good size and height with beautifully flaring falls and good substance. M. 36". (Salmon Shell X Pink Formal).

FLEETA (Fay '56) **\$15.00**

Medium light pink self with a pinkish-red beard from a Mary Randall seedling which is 1/8 Pallida, giving thickness of petal, and a large hardy plant with blue-green foliage. Large flowers nicely ruffled on well branched 37" stalks. A.M. '58.

FLUTED COPPER (Kliensorge '57) **\$8.00**

Metallic shades of hammered copper or bright coppery tan; curled and crinkled edges. 34". M. (Cascade Splendor X Spanish Fandango)

FORTUNE'S GIFT (Mitch '55) **\$6.00**

A very large flower of rich copper brown, which has broad petals and fine form. The self colored beard is accented by white veining at the hafts. 38". M-L. (Cordovan X Inca Chief). H.M. '56.

★**FROST AND FLAME** (D. Hall '57) **\$12.00**

A large very white flower of excellent substance with a brilliant tangerine-red beard. 36". E. (Sdlg. 52-41 X Sdlg. 52-02) H.M. '57.

FULL CIRCLE (Tompkins '58) **\$25.00**

A plicata of heavy white velvet, stitched with 1/2" of royal violet around the edges. A brilliant, very ruffled, broad petaled flower of great beauty. 39". E-L. ((Starkist Sib. x Sass' black plicate 50-96) X Dotted Swiss)

FUSILIER (Tompkins '58) **\$15.00**

A self of the deepest yellow, deeper than dandelion or Sunflower yellow; in fact, nearly chrome-orange. Self beard. Embodying all of the excellent qualities. 38". M. (Country Butter X Pagan Gold).

GAIL (Jensen '56) **\$10.00**

Deep orange self. Its large, wide, smooth, ruffled petals have excellent substance. Its color will be outstanding in any garden. (Apricot Glory X Dolly Varden). H.M. '57

Grayed blue-violet self with a lemon beard. Flaring form with exceptionally heavy substance. 34". E-L. ((Helen McGregor x Radiation) X Palomino).

GAY APPAREL (Schirmer) **\$20.00**

A blend; Standards peach and pink; Falls peach with blue and violet. 36". E-M. (Hall's 44-39 X Pink Reflection) H.M. '58.

GAY HAVEN (Reynolds '58) **\$20.00**

A gay flower of heavy substance and dainty ruffling in bright rosy-petunia and brilliant yellow beard 38". (Snow Flurry X Rose Sails.

RUFFLED ORGANDY

GOLD CARGO

GAY HEAD (Knowlton '54) **\$6.00**

A variegata of merit. The magnificence of the molten yellow standards, contrasted by the deep maroon falls, gives one a thrill. 36". M. (Mary Vernon X Wabash) H.M. '54.

GAY WELCOME (Coppedge '56) **\$6.00**

An outstanding performer. Standards mimosa yellow; falls white, widely edged in dark mimosa yellow. Beautifully ruffled, large flowers. 4 to 5 way branching. A vigorous grower and blooms over an extended period. 38". E-M (White Ruffles X Charmaize) H.M. '57.

- GENEROUS** (Muhlestein '55) \$4.00
A large Eupogocyclus hybrid, golden russet self. A dusky beauty of great symmetry of form. EM. 32". ((Utah Sunset) X (Elena Choosing) x (Zebulan x Golden Eagle)).
- GENE WILD** (Craig '52) \$4.00
A "fancy" in warm white with old rose plicatings. A prime example of the novel pattern for which Craig has become so well known. M-L. (Rich Raiment X Joseph's Mantle). H.M. '54.
- ★**GLITTERING AMBER** (Hamblen '57) \$20.00
A blended apricot and amber flower with lace that fairly glitters. Tangerine beard. 36". E-L. (Palomino X Muhlestein 51-11E, Sib. to June Meredith) H.C. '57.
- GOLD CARGO** (Lyon '59) \$30.00
See introductions, page 2
- GOLD CUP** (Murray '56) \$10.00
Really an "eye-catcher"! A deep golden yellow clear and glistening; flowers exceptionally fine textured with satin finish. Long lasting. 38". E-M. ((Brazil x Grand Marshall) X Tobacco Road). H.M. '56.
- GOLDEN ALPS** (Brummitt '55) \$4.00
An English hybridized Iris of creamy-white and deep yellow, it is rich in color and wide in petals 36". M-L. (Admiration X Seedling).
- GOLDEN ANNIVERSARY** (Walker '58) \$20.00
See introductions page 3:
- GOLDEN BLAZE** (Mitsch '56) \$7.50
Unusual brown and gold buds open into large burnished gold flowers. 32". M. (Hermit Thrush X Inca Chief)
- GOLDEN HAWK** (Smith '51) \$6.00
Imposing medium yellow of tailored semi-flaring form, with many buds carried on tall vigorous stalks. 40". M. (Cascade Splendor X (1-53 x Spun Gold)). H.M. '52.
- GOLDEN LANCER** (Pattison '57) \$7.00
Broad perfectly domed flowers of white and golden yellow. The standards are broad and a rich shade of pure golden yellow. The white falls are slightly ruffled with a deep golden yellow border; smoothly finished. 36". M.
- GOLDEN SPLENDOR** (Dubes '57) \$12.50
A stunning heavily ruffled deep yellow, semi-flared with excellent branching. 36". (Ola Kala X Cascade Splendor) H.M. '58.
- GOLDEN SUNSHINE** (Schreiner '52) \$2.00
A pure, soft, clear yellow self of lovely form, generous size, and vigorous growth. 38" M. (Goldbeater X Jasmine). H.M. '54. A.M. '56.
- GOLDEN TAN** (Craig '54) \$10.00
Golden tan self, with tones of carmel, titian and spice to Windsor tan 40". M-L. (Good News X Molten)
- GOLD FRILLS** (Suiter) \$2.50
Reverse bicolor of cream standards and white falls, shaded yellow around the laced edges. M. 36". ((Golden Spike x Hall #42-10) X Chantilly).
- GRACELE** (Albright '55) \$8.00
Smooth blend of rose-orchid, with wide laced, ruffled flowers, borne profusely on well branched stalks. 36". E-M&L. (Dream Castle X (Sister to Pink Salmon x President Pilkington)). H.M. '55.
- GRAND TETON** (DeForest '56) \$15.00
Shades of waxy yellow in flowers of huge size, heavily ruffled, with broad petals and crinkled style arms. Leathery substance. 36". M. (Yellow seedling X Cloudcap) H.M. '57.
- GRAY MOHR** (Paul '56) \$5.00
Yellowish-grayed chartreuse, falls flecked olive brown, resembling Gatesii in its odd beauty This oncocyclus hybrid increases well. 36". E-M. (Wm. Mohr X No. 18: Alta California x King Midas).
- GREAT DAY** (Tompkins '53) \$3.00
A rich, glowing carmine with clean hafts, heavy substance and a rich, glossy finish enhanced by some carmine-black overtones. M. 36". (Ebony Echo X Manana).
- HAPPY BIRTHDAY** (D. Hall '52) \$2.50
A rich and clear light pink with tangerine beard. Large flowers with crimped and ruffled edges. Good substance. 36". A.M. '54.
- HAPPY MEETING** (Lyon '55) \$8.00
Highly ruffled plicata of exceptionally heavy substance. The falls are white with a 1/4" pattern around the edges of deep violet-purple. Standards old ivory heavily sprayed with a lighter shade of violet-purple. The branching, spacing, size and form are of top quality. 36". M-L. (Lovelace X New Hope). H.M. '55
- HAPPY MEMORY** (Lyon '57) \$12.00
This plicata is a sibling to Happy Meeting. The petals are over 3" wide. Standards gold-flushed and heavily sprayed pansy-violet. The falls are white with a wide heavily sprayed band of pansy-violet; white beard. 42". M. (Lovelace X New Hope).
- HARBOR BLUE** (Schreiner '54) \$3.00
A light blue self of leathery substance, massive size, lavish form, glossy texture, richness of color and flawless branching. 40". M-L. (Jane Phillips X Quicksilver). A.M. '57.
- HARVEST HOLIDAY** (Lyon '57) \$17.00
An unusual color. Standards light buttercup yellow — shaded golden brown; the falls are a deeper buttercup yellow in the center, blending to a golden brown edge; beard saffron yellow. 38". M. ((D315-48-2:Char-Maize x Cherie) X Twilight Sky). H.C. '56.
- HELEN McCaughey** (Bro. Chas. '55) \$8.00
Delightful large blue-violet self of great prestige and grace; a bloom to add sparkle to any garden. 36". M. H.M. '56.
- HIGH BARBAREE** (Tompkins '58) \$20.00
A brilliant red between current red and carmine with no marks or veins. Broad, excellent substance, with rich and glossy finish and a full lemon beard. Well branched and vigorous. 38". E-L. (Sunstone x Colorglo) X Defiance) H.M. '58.
- HIGH-TOR** (Fielding '52) \$2.00
The flowers are huge and ruffled. Chicory-blue with a tinge of lavender and falls slightly deeper in color. Floriferous and very fragrant. (Snow Flurry X Azure Skies). H.M. '52.
- HINDU WAND** (Plough '58) \$20.00
A beautifully ruffled semi-flaring blend of light buff, straw yellow and chartreuse, with dark brown hafts and a bright orange beard. 32". EM-L. (Sdlg.51-119-3:(Tobacco Road x Casa Moreno) x Futuramic) X Innes Sdlg: (Ruth x Rainbow Room)) H.M. '58.
- HOT MUSTARD** (Nelson '57) \$10.00
Delightful flowers in shades of sulphur yellow highlighted by the orange beard, radiate a greenish glow producing an unusual effect. 42". M-L. (Gaylord X Pinnacle)
- HUSH-A-BYE** (Tompkins '55) \$3.50
Blended bicolor of white standards and squill blue over chartreuse. This unusual combination is most charming. 36". E-L. (((Shah Jehan x Burning Bronze) x Lamplit Hour) X New Era).
- ICE CARNIVAL** (R. Graves '54) \$6.00
A very flaring flower with white falls and full, light, azure blue standards. A frilled and ruffled reverse blue bicolor with cool, crisp iridescence. Excellent branching. 38". M-L. H.M. '54
- INCA CHIEF** (Mitsch '52) \$2.50
Inca chief lives up to its connotation of glorious wealth in color. A golden bronze, evenly flowing throughout. 32". M-L. (Mexico X Tobacco Road). A.M. '54.
- INVERNESS** (Ed & Art Watkins '57) \$18.00
Considered as the whitest white to come from the Watkins hybridizing. Wide in petals, flaring in form, and firm in texture. 36". M-L. (Helen McKenzie X Major Eff)
- JADE QUEEN** (Knopf '58) \$20.00
A lovely flower of willow and uranium green, nicely flared, with a glistening silver dust over the entire surface. 36". M-VL. (Pretty Quadroon X Maid of Cotton)
- JALLAH EFFENDI** (C. White '52) \$3.00
A sensational and impressive oncobred in color blendings found only in the oncos. Its standards are a clear yellow-green with delicate mahogany veins, red splashed. Its falls are yellow, red veined around the mustard-yellow beard, and purple splashed.
- JOAN CRAWFORD** (Benson '54) \$10.00
Broadly formed large silvery blue self, falls flaring and attractively rippled. One of the excellent additions to the blue group. 40". M. (((Tosca) x (Azure Skies x Great Lakes) X Distance). H.M. '56.
- JUBILATION** (Tompkins '55) \$7.50
Rich lemon plicata, with soft cinnamon emerging from the beard, continuing to the end of falls, sprayed rich chrome-yellow. 36". M. (((Orloff x Tiffany) x (Tiffanja) X Firecracker). H.C. '55.
- JUNE MEREDITH** (Muhlestein '54) \$10.00
A large and rich deep pink self, having smooth finish. Well balanced in form and of good substance; tangerine-red beard. 36". M-L. (Party Dress X Pink Formal). A.M. '56.

- JUNE SUNLIGHT** (McCormick '53) **\$3.50**
This handsome yellow is a light cadmium self, having flaring falls Hafts without veining. Smooth large flowers, nicely branched. L. 36". (Treasure Island X Spun Gold). H.M. '53.
- JUNGLE DRUMS** (Plough '56) **\$5.00**
An exotic novelty. Beautiful and strangely patterned oncobred. Standards grayed lavender splashed brown; falls buff splashed deep purple. 28". EML. ((Purissima x Capitola) X Joppa Parrot).
- KALIFA BALTIS** (White '54) **\$9.00**
Eupogocyclus hybrid. An exotic bicolor of olive and buff with a pronounced signal of bordeau. E. 36".
- KALIFA GULNARE** (White '54) **\$9.00**
Eupogocyclus hybrid, huge blooms of a lovely shade of pale lavender on standards, and rose with a suggestion of henna on the falls, with a deeper signal, and golden buff border. A beauty. E. 34".
- KENTUCKY COLONEL** (Stambach '56) **\$5.00**
A clear light flax blue; falls slightly flushed light wistaria blue, with shoulders brushed palomino. The heavy substanced, very large flowers stand adverse weather conditions. Winter hardy. 5-6 way branched. 40". M. (Dixie Belle X Gloriole).
- KINGPIN** (Lyon '56) **\$5.00**
This red-toned iris with its semi-tailored flowers of flaring form has standards of medium oxblood red; falls deeper oxblood red with a violet-purple splash. Beard antique yellow. 4-5 way branching. 36". M. (Auburn X Savage)
- *KISS ME KATE** (Cook '58) **\$10.00**
A charming and unique little iris. The flowers are sea foam green with a narrow margin of wistaria violet and a lemon chrome beard. 20". E-M. ((T.B. blue sdlg. 11152 x Progenitor) X (Progenitor x Shining Waters)) H.M. '58.
- KOL NIDRE** (Lyon '53) **\$3.50**
The violet of the standards merge with the deep dahlia-purple and plum-purple of the falls which deepen in the tone around the edges, embellished by the dark garnet-brown on the hafts. Beautifully flaring flowers, fine branching. 34". LM. (Vice Regal X Down East).
- LACY ORCHID** (Noyd '57) **\$7.50**
Laced pink-orchid with the center of interest created by a rosy-tan flush on the shoulders. M. 30". ((Prairie Sunset x Cigarette) X Pink Sensation).
- LADY ELSIE** (Lyon '57) **\$17.00**
Large flowers with very broad velvety petals. A bitone with standards of amethyst violet; falls plum purple, shaded darker in the center with an antique gold tipped beard. Excellently branched 38". M. (Kol Nidre X 643-51-1:Char-Maize x Elmohr) H.M. '57.
- LAND'S END** (Watkins '57) **\$10.00**
Quite blue, in the medium blue tones, and a self color. Very ruffled but well closed standards; falls wide at hafts and flaring. Very fragrant. M. 38" H.M. '57 (Chivalry X Snow Carnival).
- LA NEGRA FLOR** (Crosby '57) **\$20.00**
An unusually rich, dark black-purple self of large size and ideal form. Petals are heavily substanced, broad with waved and ruffled edges. Color is intensified by a dark beard. EM. 36". H.M. '58.
- LANTANA** (DeForest '54) **\$4.50**
A wonderfully brilliant of golden-tan and orange-rose; pleasing and unusual in the arrangement of color. M. 38". ((Sdlg. x Veishea) X (sdlg: Calderilla x Copper River)) H.M. '56.
- LASSES TAFFY** (Albright '55) **\$7.50**
Brilliant golden russet self, with a blue dot at the base of a gold beard. These delightfully ruffled, heavily substanced flowers bloom freely over a long season. 36". M. (Mexico X Moon-tide). H.C. '54.
- LAVISH LADY** (Buterick '54) **\$8.00**
Tall, winsome, sea-lavender-violet, lavishly ruffled, fresh in color. Most effective in the garden. 38". M. ((Snow Flurry x Ave Maria) X Cloud Castle). H.M. '54.
- LEMON MERINGUE** (Noyd '57) **\$7.50**
A lacy edged bicolor. Standards are lemon yellow; falls have a white area below beard and are edged same lemon yellow of standards. ML. 29". ((Midwest Gem x New Horizon) X Song of Songs).
- *LIBRETTO** (Tompkins '57) **\$15.00**
An outstanding flower of pale wisteria violet with very broad heavily ruffled petals and white beard, orchid tipped. 40". M-L. ((Spanish Peaks x One Clear Call) X Blue Throat)
- LILAC PARADE** (Noyd '58) **\$15.00**
A large smooth Persian lilac self with a bright tangerine beard. 29". M-L. ((Plough sdlg: ((Prairie Sunset x Cigarette) x Tell sdlg 47-31: (Sib. to Pink Formal)) X Mary Randall)
- LIMELIGHT** (Hall '52) **\$2.50**
Canary yellow, having a hint of green, with ruffles and lacings. Near orange beard. 35". (Sunray X Halls 46-42). A.M. '54.
- 'LINA BETH** (DeForest '54) **\$5.00**
Tall white self, with a pale pinkish yellow beard. Large crisp, delicately tinted flowers, from pink breeding. Excellent branching. 36". M. ((Alona x Hall's 42-10) X Sdlg.: Spindrift x 6-44).
- LULA MARGUERITE** (DeForest '56) **\$12.00**
A large ruffled bicolor; standards gray blue with border and mid-rib of gold leaf; falls gray blue, border and hafts of gold leaf. 38" M. (Rehobeth sdlg. X Cloudcap)
- *LYNN HALL** (D. Hall '57) **\$15.00**
A very deep and uniform shade of luscious pink. 32". M. (Pink sdlg. 51-07 X Sdlg. 51-28)
- MAGIC HALO** (Coppedge '58) **\$25.00**
See introductions page 3.
- MAJOR EFF** (Watkins '55) **\$10.00**
A medium blue violet and bluebird blue combination, with a white beard. Well formed, semiflaring good substance. M. 38". ((Shining Waters x Gloriole) x Great Lakes) X Cloud Castle H.M. '56.
- MAJORETTE** (Meiss '53) **\$4.00**
Vivid in coloring, medium red-violet shading to deep red-violet; white beard, unusual white plicata markings on the shoulders. Flaring falls, graceful ruffling. 36". M. (Golden Gleam X Wayfarer). A.M. '56.
- MALVA LACE** (Lyon '58) **\$18.00**
See introductions page 3
- MARDI GRAS** (K. Smith '52) **\$2.50**
A colorful late blooming neglecta. Standards light campanula violet; falls dark velvety purple smoothly overlaid brown. 36". ((Extravaganza x 5-30) X (Mme. Maurice Lassilly x Ilse Louise)).
- MARY McCLELLAN** (Craig '52) **\$6.00**
A Eupogocyclus hybrid self of deep violet blue. The large flowers are well formed and of excellent substance. 48". M. (Blue Ox X Chivalry).
- MARY RANDALL** (Fay '51) **\$5.00**
Deep rose pink self with tangerine-red beard; finely formed, well spaced and nicely branched. 36". M. (New Horizon X (Fay F2: Pink Cameo x Cherie)) Dykes Medal '54.
- MARY VALENTINE** (Craig '52) **\$2.50**
Among the finest of the blue Mohr hybrids, this is a self of soft powder blue that does not fade. It sports a blue beard, too. Good substance and branching. E-M. 40". (Purissima X Capitola).
- MAY MAGIC** (Schreiner '56) **\$7.50**
A fresh, radiant orchid-pink self, with a pearly opalescent finish. M. 33". (Crispette X Pathfinder) H.M. '56.
- *MELODRAMA** (Cook '56) **\$20.00**
A spectacular flower, large, flaring and broad petaled. Standards Pallid violet, paler in the upper parts; falls blended mauve to manganese violet. 38". M. (Dream Castle X 6050:Progenitor x Shining Waters). A.M. '58.
- MELBREAK** (Randall '57) **\$10.00**
Full firm textured flowers of rose opal with broad domed standards and white rounded falls that are flushed with pink. Sun resistant. 37". M-L. ((Cherie x Angela Borgia) X Mary Randall)
- MEMORIES** (Sass '53) **\$5.00**
A delightful addition to the pink group. In shades of light to medium peach, delicately beautiful. 34". M-L. (Saas 48-196 X Pink Sails) H.M. '53.
- MISSION STARLITE** (Hamblin '56) **\$7.50**
Silvery french-blue—rich violet veining at the hafts give it charm and individuality. The beard is also blue. M-L. 36". (Chivalry X White Wedgewood) H.M. '56.
- MISSION TRAILS** (Knopf '58) **\$20.00**
A beautifully formed blend of heavy substance with standards of pansy violet which are closed and ruffled; falls of the same with a heliotrope blaze around an orange beard 38". M-VL. (Spanish Peaks X Inca Chief)

- MISTY CHIFFON** (Jacobson '56) **\$15.00**
A novel iris, classically tailored. Flaring falls of a misty blue blending; standards of violet-blue, with a spraying of old gold over the entire flower. E-M. 36". (Jean Cayeaux X Midwest Gem).
- MOHR HAVEN** (Reynolds '57) **\$15.00**
This large ruffled gray blue oncobred is a glorified Blumohr with standards and falls perfectly balanced. 34". M. (Snow Flurry X Capitola) H.M. '57.
- MOHR LACE** (Recknor '58) **\$8.00**
An unusual laced violet oncobred of medium size with golden shoulders and beard. 39". VL. (Snow Flurry X Elmohr)
- MOHR LEMONADE** (Muhlestein '58) **\$15.00**
This iris shows the oncobreding in petal width and carries the Regelia and Hoogiana vigor. A very wide pale lemon self. 36". E-M. ((Ormaco x Cool Lemonade) X ((I. Hoogiana x Inca Chief) x Cool Lemonade))
- MONIQUE** (McKee '56) **\$10.00**
This ruffled yellow and white bicolor is rated as one of Mr. McKee's best. 36". L-M. This pattern is unusual and comes from (Fairday X Fairday line breeding for four generations).
- MY DARLING** (Daling '56) **\$10.00**
Blend; Standards orchid-lavender suffusion on off-white; falls off-white with darker suffusion, Burmese gold edge on both; green tinted mid-rib, deep orange beard. 38". M. ((Chantilly x Lavender and Gold Lace) X (Alexia x Easter Bonnet))
- MYSTIC LEGEND** (Webster '55) **\$7.50**
Large well formed flowers of grayed opalescent lavender. The white center area of the falls is flushed pale green beneath a dove gray beard. 40". (San Diego X Green Pastures).
- NEW ADVENTURE** (Muhlestein '54) **\$4.00**
A bright tangerine bearded plicata of white with violet markings. 36". E-M. (Loomis Sea Shell plicata X Pink Formal). A.M. '55.
- NOMOHR** (Gibson '55) **\$6.00**
This Eupogocylus hybrid is a cream bitone, falls, darker than the standards are flushed mulberry at the base. Its pleasing contours give it excellent garden value. 38". M-L. (Snow Flurry X Elmohr). H.M. '56.
- ON PARADE** (Crosby '56) **\$15.00**
Variegata; standards rich deep yellow, falls smooth rich deep burgundy red. 34". E-L. (Louise Blake X Mist Glow) H.M. '56.
- ORANGE CREAMO** (Muhlestein '53) **\$3.50**
Delightful flowers of apricot-orange, excellent substance and wide form. 38". M-L. ((Salmon Shell x Pink Formal) X Apricot Glory).
- ORANGE FRILLS** (Suiter '54) **\$5.00**
An orange apricot, very ruffled, smooth textured, which demands attention because of the brilliant color. 36". M. ((Midwest Gem x Chantilly) x Gold Rurries) X (trial 44-55 x Pink Formal). H.M. '54.
- ORCHID QUEEN** (Schortman '55) **\$5.00**
A bicolor of cream, overlaid orchid, creating the illusion of an unusual color. Vigorous plant, large flowers on well branched stalks. 38". E-M. (Snow Flurry X Sdlg.: Inspiration x Bal-mung).
- ORCHID RUFFLES** (Schreiner '54) **\$2.50**
This iris is a true lavender color with lacy ruffling and shimmering texture that gives it an especial charm 34". M. ((Harriet Thoreau) X ((Angelus x ?) x (Matula x Schreiner sdlg. 8-37))).
- ORIENTAL PEARL** (Lyon '56) **\$15.00**
A medium shade of orient pink with a flush of coral pink, brushed soft spinel pink in the center of the falls. The beard is deep mars orange. Petals are rounded and flaring with good substance and texture. Beautifully branched tall 40" stalks. M. ((Spindrift x Hall Pink sdlg.) x Carabella)) X Pink Formal) H.M. '57.
- ORIENT PINK** (Whiting '55) **\$3.50**
Rich Orient pink flowers of satin finish, broad petaled and heavy substance. Bright Chinese coral beard. 34". M-L. (Radiation X 4910)
- OZIE WATERS** (Linse '56) **\$10.00**
Huge deep rose oncobred, highly perfumed, with a prominent black signal patch, and a brownish suffusion at the hafts. Old gold beard. 36". E. (Spellbound X Capitola)

TANGALO

- PALOMINO** (D. Hall '52) **\$2.50**
The falls are pale ivory with an amber-copper overlay at the hafts, which extend around the outer edges in a narrow band. Beard reddish-orange. The standards ivory, soft amber-copper and pink, 36". A.M. '54.
- PARTY TIME** (Schmelzer '57) **\$15.00**
A ruffled blend of old parchment, deep rose-pink, and fawn, with golden brown on the hafts, and around the edges of the falls. M. 32". (Arlene Wood X Mary Randall).
- PATIENCE** (Schortman '55) **\$7.50**
A smooth magenta self with large, wide, heavy substantced flowers and pale lemon beard. Long blooming season. 36". M. (Snow Flurry X Inspiration). H.M. '56.
- PATRICIAN** (H.F. Hall '53) **\$5.00**
Pure velvet white with an overlay of Barium yellow on falls surrounding the full yellow beard. Flaring falls, wide ruffled petals, evenly balanced. 36". (Hall W36 X Hall W28) A.M. '58.
- PATRICIAN BEAUTY** (Lyon '57) **\$5.00**
Distinguished by its clarity of color, and the luminous quality of the slightly ruffled, smoothly finished flowers. Standards of dresden yellow and falls of silvery white, edged in dresden with a lemon beard. Ideal proportions. 35". M. (M101-47-2:Char-Maize x Green Pastures) X Pinnacle).

PERSIAN SARI (Lyon '57) \$7.50

It is unusual to find a plicata of this height and with onco breeding. It is silver-white with phlox-purple and garnet markings sprayed over the entire flower; beard lemon yellow. 44". M-L. ((D40-50-2: Aldura x Patrice) X Mohr Majesty).

PINK CONFECTION (Muhlestein '53) \$3.00

Clear true pink self with a deep pink beard. Smooth finish, well formed flowers of medium size. 35". M. ((Salmon Shell x Hall 44-09 X Muhlestein 49-11: sib. to Pink Fulfillment).

Lovely venition pink, medium sized flowers of good substance. Holds its color well in full sun. Rich cerise beard adds brilliance. 32". E-M. (Raspberry Ice Cream X 49-11) A.M.'57.

PINK SERENITY (Bro. Charles '58) \$20.00

A salmon pink self with a deeper pink beard Flowers are large and beautifully formed, slightly flaring and ruffled. 30". M. (Sdlg. 51-51 X Enchanted Pink)

PIN UP GIRL (Noyd '56) \$10.00

Creamy white standards and peachy apricot falls. An amoena, striking and different in its winsome color arrangement. M. 34". (Sdlg. N2-8: Midwest Gem x Heritage X Dolly Varden).

PRAIRIE JEWEL (Sass '53) \$2.50

Domed standards of clear shell-pink contrasting strongly with broad, dahlia-red falls and a vivid red beard. 38". M-L. H.M.'53.

PRAISEWORTHY (Muhlestein '55) \$3.50

Lovely light powder violet-blue self of pleasing and different tints. Flaring form. 36". M-L. (Sky Song X Blue Rhythm.) H.M. '56.

PURPLE HAVEN (Reynolds '57) \$15.00

This large purple self, free of haft markings, with a self colored beard, accentuating its charm and grace, is representative of the Haven Iris. 36". M. (Vatican Purple X Carpenter). H. M. '57

QUEEN'S LACE (Muhlestein '55) \$10.00

A creamy-white with very heavy Chantilly lace edging. The edges are light yellow as is the beard. An outstandingly fine iris. 35" M-L. ((Gold Ruffles x Chantilly) X Clara B.) A.M. '57.

QUEEN'S TASTE (Douglas '52) \$3.00

A lovely and novel color combination, with lavender-pink standards above semi-flaring blended red falls. 38". M. (Criterion X Olympian) A.M.'55.

RARE PLEASURE (Coppedge '59) \$22.50

See introductions, page 2.

RED BUTTERFLY (Linse '56) \$4.00

A novelty of red, white and gold. Standards are rose-red; falls white, lined dahlia purple, interspersed near the haft with lines of gold. M. 40". (Butterfly Wings X Spelbound).

REHOBETH (DeForest '53) \$4.50

The flowers are very large with exceptional substance, and the color is the softest conceivable sky-blue. M. 37". (Snow Flurry X Lake Shannon). A.M. '56.

★REJOICE (Dubes '58) \$35.00

Amazing is the beauty of this exquisite all white iris which is skyrocketing to fame. Flowers ruffled with excellent placement and balance. 38". M. (Sdlg. 49-26-1 X Arctic Splendor) H.M. '58

ROYALTY VELVET (Noyd '58) \$20.00

A clean velvety wine-red self with a golden brown beard and flaring falls. 32". M-L. ((Valiant sdlg. x Ruth) X Queen Elizabeth)

RUFFLED ELEGANCE (R. M. White '55) \$3.50

A rosy violet blend of both Petunia violet and Chinese violet with the margins darker. (Easter Bonnet X Remember Me).

RUFFLED STARLITE (Hamblin '56) \$3.50

The new trend in light blues is exemplified by this lovely french-blue self, with a lemon beard tipped blue. Satin textured, beautifully ruffled. 36". M-L. (Chivalry X White Wedgewood) H.M. '57

SABBATH MORN (Tompkins '55) \$5.00

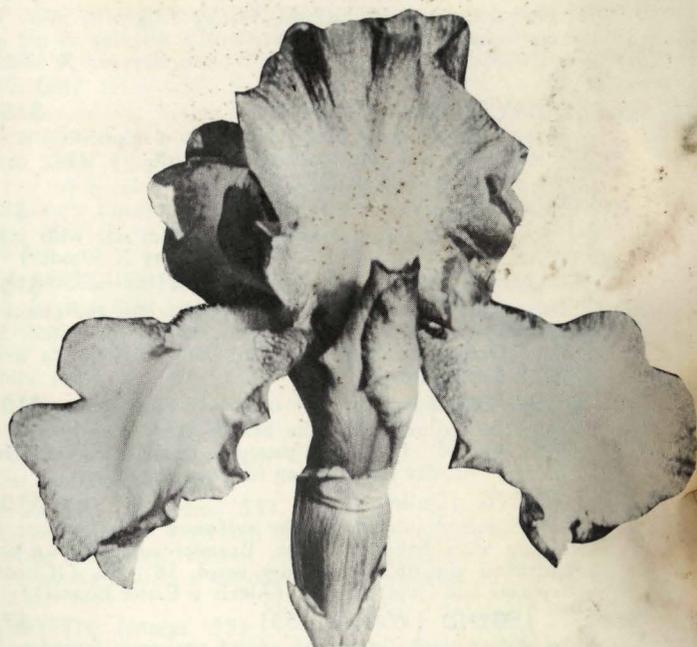

An ivory-cream self, shoulders brushed orchraceous-salmon Semi flared, smoothly finished and serenely regal. 36". M-L. (Sib to Lady Moon x Sib to Ivory Charm) X Vatican Purple).

SABLE NIGHT (P. Cook '52) \$5.00

A richly colored, blackish, red-violet self with a dark brown beard. Wonderfully rich, dark and silken with an unusual depth of color for such a dark Iris. 36". (((Captain Wells x Indiana Night) X ((Modoc x Black Wings) x Sable)). Dykes Medal '55.

SAFARI (Plough '55) \$1.25

A fancy plicata, pleasing in arrangement. Warm brown on white background, M-L. 39". (Firecracker X Late Sunset).

HAPPY MEETING

WINGED GODDESS

GOLD CUP

- SAFFRON GOLD** (Lyon '56) **\$5.00**
 Deep antique saffron gold self with a slight deepening of tone at the hafts beard is same color. Well formed standards arch and overlap with grace, falls are smooth and nicely flared. Large, heavy substanced, and well branched. 36". M. (MIOI-47XChar-Maize).
- SEATHWAITE** (Randall '52) **\$3.00**
 A large flowered, ruffled, light blue. Standards closely held, falls wide and semi-flaring with a ruffled contour. 38". M-L. (Helen McGregor X Cahokia). English Dykes Medal '52.
- SENIORITA ILSA** (Rogers '53) **\$3.00**
 A pure white of flaring form with white beard, standards beautifully domed and overlapping. Slightly ruffled falls wide hafts and heavy substance. (Helen McGregor X Sylvia Murray). H. M. '53.
- SERENE DUSK** (Lyon '57) **\$10.00**
 A petunia purple with a cobalt blue beard; there are no markings on the flower. The full petals have a velvety texture, and the blossoms are well proportioned. 34". M. (Kol Nidre X Cardinal's Robe).
- SIERRA SKIES** (Schortman '54) **\$6.00**
 These large, beautifully formed flowers of spectrum blue, are carried on well-spaced and ideally branched, tall stalks. 38". E-M. (Chivalry X (Santa Barbara x Sierra Blue)). A. M. '56.
- SKY CRYSTAL** (Sass '55) **\$10.00**
 A very pale blue of ethereal quality. The broad petaled flowers, semi-flaring, are slightly ruffled, giving grace and elegance. Well branched. 38". M. H. M. '55.

- SNOW BONNET** (Suiter '58) **\$15.00**
 One of the deepest color contrasts of all the yellow Amoenas. Standards pure white, falls deep clean golden yellow. Petals both wide and flaring. 30". M-L. (Pinnacle X Summit)
- SNOW GODDESS** (J. Becherer '55) **\$8.00**
 A warm white self that is big, wide-petaled, ruffled and altogether gorgeous. The yellow beard enhances the white flower. Well branched stalks. 38" E-M. (Snow Flurry X White Goddess).
- SOUTH PACIFIC** (K. Smith '54) **\$7.50**
 A self of light Windsor blue with a white beard. Silky texture and widely flaring falls. 40". M-L (Cahokia X Lady Ilse) A. M. '58.
- SPRING MELODY** (Miess '54) **\$5.00**
 Clear, dandelion-yellow with ruffled falls and domed standards. Good substance and even texture. 38". M. (547B X OlaKala) H. M. '55
- SPRINGTIME** (Lyon '57) **\$7.00**
 An appealing shade of lilac. Refreshing as spring itself. Large broad petaled flowers with ruffled edges and crystalline sparkle. 36". M. (D700-51-2: White Ruffles x Pattison white sdlg.) X (D25-49-4: Hit Parade x Dream Girl)).
- SPRING WITCHERY** (Murray '57) **\$5.00**
 Large flowers of good form and substance—a picture in delicate beauty. It is a chartreuse yellow bitone with a cream white area in the center of the fall petals, highlighted by a blue beard. 40". M. ((Appointee x Green Pastures) X Green Pastures).
- STARFIRE** (Wills '54) **\$6.00**
 Rich golden yellow with broad, full, fluted standards and ruffled flaring falls bordered golden and a lighter center. Excellent form, finish, and substance. 38". M. (Starshine X Ola Kala). H. M. '56.

- STARLIFT** (C. Benson '54) **\$5.00**
Smooth ruffled cornflower blue. This new shade is most interesting and different from former introductions. 38". M. (Tosca X Distance). H. M. '56.
- STARLIT HOUR** (Tompkins '55) **\$3.50**
Lovely plicata of pale aniline lilac with rich violet markings. Delicately ruffled petals and a broad stitched band. 38". E-L. ((Madame Louis Aureau x Blue Shimmer) X Captivation).
- SUGARPLUM** (Corey '53) **\$2.50**
A soft pink self with a yellow beard and hafts; lacy edges. M-L. 36". (Chantilly X 50H-L: Daybreak x Midwest Gem). H. M. '53.
- SUN FESTIVAL** (Noyd '57) **\$7.50**
Ruffled and laced flowers with contrasting colors of light yellow standards, and white falls edged yellow. 5-Way branching. Fragrant. M-VL. 35". ((Midwest Gem x Horizon) X Song of Songs).
- SUNFROST** (Peterson '57) **\$15.00**
White and lavender standards; medium yellow falls with orange beard. 34". M-L. ((Sdlg: (Wm. Mohr x (Happy Days x Wabash)) X Moontide)
- SURPRISE PARTY** (Kleinsorge '55) **\$5.00**
A reverse bicolor of lavender-violet and golden apricot, with gold haft markings and a gold beard. 36". M. ((Chamois x Cascade Splendor) X Opal Cloud). H. M. '56.
- SWAN BALLET** (Muhlestein '55) **\$15.00**
One of the finest fris in commerce. A beautiful white with a white beard. Very round falls that flare horizontally are lightly ruffled and of heavy substance. 40". M-L. (Spanish Peaks X ?) A. M. '57.
- ★**SWAN PRINCESS** (Birch '57) **\$17.00**
A top ranking pure white of generous proportion, slightly fluted and ruffled of excellent substance and good placement. (White Ruffles X Palomino).
- SWEET TOMORROW** (Lyon '57) **\$17.00**
This Iris reblooms in the fall. Standards of lilac-rose; falls light lilac-rose with an exceptional Chinese coral beard. A shimmering iridescence over the entire flower gives it a stunning effect. The large 3" wide petals are somewhat ruffled. 33". M. ((D628-51-14: Char-Maize x D321-48-7) X First Curtain).
- TABU** (Schreiner '54) **\$3.00**
A deep, blackish violet self with a velvety luster on the falls. The large flowers are held aloft on tall spikes. 36". M. (Black Forest X Storm King). H. M. '54.
- ★**TAHOLAH** (Gibson '56) **\$12.00**
A plicata of creamy ivory ground color. Standards are heavily stippled and sprayed burnt umber; falls are evenly brushed on hafts and at the outer edges. A lovely creation. 36". M. (No. 145A X Firecracker). A. M. '58.
- TALLCHIEF** (DeForest '56) **\$10.00**
Brazil-red to carmine in color. Smooth, tall, well branched and vigorous. 38". M. (Sdlg: (Agrus Pheasant x Garden Glory) X Sdlg. (Lockwood x General Patton)) H. M. '57.
- TANGELO** (Lyon '58) **\$12.00**
See introductions page 3
- ★**TECHNY CHIMES** (Bro Charles '55) **\$10.00**
Crisp, luminous, clear medium yellow with a bright tangerine beard. From pink breeding that gives clearness of color not found in many yellow iris. Falls very broad and semi-flaring. Nicely ruffled, good substance, well branched. 36". M-L. A. M. '57.
- THE CITADEL** (Watkins-Graves '54) **\$7.00**
Magnificent pure white with vellum-like texture and flaring form of great symmetry. Standards are broad and full with large falls spreading widely. 38". M. (Helen McKenzie X Jane Phillips). H. M. '54.
- THE MAD HATTER** (Lyon '51) **\$1.50**
A deep maroon, with heavy velvety falls, overlaid with blackish maroon. The standards are nicely arched, the form is semi-flaring. Well branched. 38". M-L. (Ranger X Cordovan) H. M. '51.
- THOTMES III** (Kleinsorge '50) **\$2.00**
A smooth self of glistening golden tan with a light bronze beard; extra broad falls, and heavy texture. 40" stalks. A. M. '53.

ORIENTAL PEARL

SPRINGTIME

KENTUCKY COLONEL

VEILED IN MYSTERY (Milliken '51) \$2.50

Antique satin-white with a dusting of pale chartreuse, a picture of rare beauty, due to the dainty fluting and ruffling. Violet beard. 40". M.

VIOLET GRACE (Wadland '55) \$8.00

A hardy iris that will take adverse weather conditions. Aster violet with a white flush at the hafts and around the beard. Very wide flowers, ruffled and of heavy substance. 38". E-M. (Violet Symphony X Gloriole). H. M. '55.

VIOLET HARMONY (Lowry '52) \$3.50

A lovely shade of violet with a light area on the falls. The form is exquisite with ideal ruffling and spacing of flowers on the stems. 38". M. (Snow Flurry X Cloud Castle) Dykes Medal '57.

★VIOLET HILLS (DeForest '56) \$17.50

Large flowers of clean clear coloring with graceful near horizontal falls and beautifully formed standards. This dark florite violet self with a taffeta like sheen and blue tipped beard, has no haft markings, M. 38". ((Sdlg: Her Grace x Sable x Storm King) X (Sdlg: Her Grace x Black Forest)). A. M. '58.

WAXING MOON (Fay '57) \$12.00

A real beauty of clean crisp rich ivory yellow with round full petals. 35". M. (Fay Sdlg. 47-2 X (Sunray x Dolly Madison)) H. M. '57.

WAYWARD WIND (Baker '58) \$15.00

Warm brushed antique bronze self with a slight infusion of chartreuse. Excellent tailored form, heavy substance. 36". E-L. (Sdlg. 49-2: (Sylvia Murray x Rocket) X Cordovan). H.M. '58.

★WEDDING BOUQUET (Butterick '52) \$3.50

A most desirable pure white with broad ruffled petals of heavy substance. Standards are domed and falls are broad and semi-flaring. 35". M. ((Snow Flurry x Sdlg) X Cloud Castle). A. M. '56.

WHITE PEACOCK (Pattison '52) \$3.00

A superb creation in softly alluring blue-white ruffled flowers of smooth finish. Large, broad petals of an exceptionally heavy substance, such as seldom seen in an iris. Well branched. One of the top rating iris. 40". (Katharine Fay X Lady Boscawen). A. M. '55.

★WHOLE CLOTH (Cook '58) \$20.00

A new color in amoenas. Distinct and most attractive iris with standards clear white and falls solid medium blue. 36". M. (Cahokia X 11253: (Blue Rhythm x ((Blue Sdlg. x Progenitor) x ((Distance x Blue Sdlg.))) H. M. '58.

WIDE WORLD (P. Cook '54) \$10.00

A reverse bicolor. Standards are pale wisteria blue deeper at the base; flaring falls white with white beard. 38". M. H. M. '54.

WINGED GODDESS (Lyon '56) \$17.00

Outstanding with unusual charm and refinement. Very light uranium green, flushed bluebird blue. Beard is bluebird blue. Petals are broad and rounded somewhat ruffled, and of smoothest satin texture. 36". M. ((Char-Maize x Green Pastures) X Self). H. M. '56.

WITCH DOCTOR (Plough '55) \$4.00

Very large onco of grayed blue-lavender with buff-tan haft and heart. Long season of bloom. 28". EML. (W-1 cream Sdlg. X Capitola). H. M. '56.

★WONDERMENT (Cook '58) \$20.00

Another of the wonderful new amoenas. Flowers are large, well proportioned, heavy in substance and broad petals. Standards clean white, falls pale bluish violet, conspicuous orange beard. 36". M-L. (Cahokia X Sdlg. 11253: (Blue Rhythm x ((Blue Sdlg. x Progenitor) x Blue Sdlg.))) A. M. '58.

WOODLAND SPRITE (Coppedge '57) \$15.00

An illusive suggestion of green, combined with the unusual violet beard, tipped blue, makes the name chosen most appropriate. A self of dresden yellow-green, semi-flaring form, broad petals and good branching. 34". M. (Char-Maize x Green Pastures).

YOUNG BRAVE (Peterson '56) \$12.50

A flared brown-toned red, with velvety fall petals beautifully blended and making a brilliant display. 34". M-L. ((Happy Days x Depute' Nomblot) X Red Waves). H. M. '56.

TOP HAT (Schreiner '54) \$3.00

Intense indigo violet self with a red sheen. Broadly rounded, large blooms of excellent form. The coloring is uniform throughout, even the beard is blended in a subdued tone. 40". M-L. H. M. '54.

TOTAL ECLIPSE (Fay '56) \$10.00

A very large and tall blue-black with a very dark beard, tipped light blue. Well formed flowers of good substance and no haft markings. 4-Way branching. 45". H. M. '56.

★TRIM (McKee '56) (Plant patented) \$15.00

A red self with no haft markings. Silky smooth, with a cast of glittering copper, giving it sparkle and finish. Good branching. 36". M. ((Pequot) x (Lights On x Moontide) X (Redwyne x Moontide)). H. M. '56.

TROY MEADOWS (DeFussi '59) \$20.00

See introductions, page 2

TRULY FAIR (Plough '56) \$6.00

Tall bright medium pink of good size and form on well placed stalks of 42" height. Intense red-tangerine beard accents its beauty. Floriferous. E-L. (Cloud Cap X Pink Formal). H. M. '56.

TRULY YOURS (O. Fay '49) \$2.50

An iris of distinction. The under sides of the fall petals are a solid yellow. The heart of the flower is bright yellow, which shades into an almost white at both the top of the standards and the lower edges of the falls which are laced and ruffled. L. 38". (((Rameses x Far West) x Hall's 42-35) X Zantha). Dykes Medal '53.

UINTAH (Crosby '57) \$15.00

A gorgeous flower of large beautifully formed white, with broad full standards, and ruffled flared falls. Well branched. E-L. 40". (Swan Ballet X Mount Emmons).

ULTRA VIOLET (Buss '55) \$5.00

Serenely beautiful, luminous deep violet self, with a touch of brown on the hafts. Petals are large and beautifully formed. Beard violet. E-M. 36".

★VALIMAR (Hamblen '58) 17.50

Exotic blend of peach pink and nasturtium with an orange influence. 36". M-L. ((Helen McGregor x Radiation) X Palomino) H. M. '58.

VALLEY DAWN (Lyon '57) \$12.00

This lovely deep pink has the beautiful coloring of Venetian pink with a salmon flush on the fall petals and a shrimp beard. Of free blooming habit. 32". M. (Convention Queen X June Meredith). H. C. '56.

OUR HALL OF FAME

THE STANDARD BEARDED IRIS VARIETIES

On this page we have listed a group of iris varieties that continue to be very popular just because they are so good they compete strongly with the new kinds. We have discarded many varieties through the years as being supplanted by better ones in the same color class, but we just can't drop these. Here's your chance, then, to buy excellent iris at very low prices. They are the ones which have stood the test of time in countless gardens. We must clear this stock to make room for the many new varieties coming in. We reserve the right to make substitutions in this collection, of equal or greater value, where items ordered are sold out.

MAYTIME—A lilac-pink amoena. 36"	2.00	YELLOW ORGANDY—Crisp pale yellow, green tinged	2.00

Spuria Iris

The Spurias, sometimes called the "Butterfly Iris," are hardy and easy to grow. They range from three to five feet in height and will grow in almost any location of the garden. They are especially fine for background plantings.

Their blooming season starts about the middle of the Bearded Iris season, thus prolonging iris display in the garden. Too, they are one of the finest for flower arrangements and especially fine for corsages, resembling orchids.

Once planted, they establish themselves and do not need to be transplanted for several years. Like other rhizomatous iris, they should be given shallow plantings, that is, just cover rhizomes with about 1" of soil. Plant 1½ to 2 feet apart.

For specimen blooms we suggest an application of steer fertilizer around your plants, in early spring, when new growth is starting up. A compost mulch is very fine too. Keep them well watered during their growing season, especially the pre-blooming growth.

In late summer when foliage has dried back somewhat, cut it back, leaving from 6"-10". This part is readily removed as new growth starts up in early spring.

SHIPMENTS will be made September and October.

- ★AUTUMN GLOW (M. R. Walker '59) \$15.00
See Introductions, page 2
- ★BIG CLOUD (Craig '50) \$4.00
Large white, broad petaled flowers, with a flush of canary yellow on the falls. Smooth in texture. Outstanding H.M. '58.
- ★BLACK POINT (Nies '55) \$4.00
Dark chocolate brown. The substance is firm, the texture smooth, with just enough yellow glow at the haft to brighten the flower into an eye-catcher. Sturdy of growth and a profuse bloomer. 48". H.M. '55.
- ★BLUE DISPLAY (Nies '47) 75c
This is a medium blue with a yellow signal patch. A strong grower, heavy bloomer, and a fine garden accent. Late. 42".
- ★BLUE NIGHTSHADE (M. R. Walker '57) \$12.50
Truly a gorgeous and brilliant color break in shades of Victorian violet with lemon yellow at the base. Smooth textured, 48." H.M. '57.
- ★CANARY ISLAND (M. R. Walker '48) \$1.50
Canary-yellow falls edged white; standards white with canary-yellow at the base. 44". H.M. '55.
- ★CHEROKEE CHIEF (Nies '51) \$2.50
A velvety deep brown with a rich yellow signal patch. H.M. 1951.
- ★DRIFTWOOD (M. R. Walker '57) \$12.50
It is rich in color resembling lovely shadings of wood weathered by the sun and sea. Both standards and falls are brown shaded lemon yellow at base of the broad pedals, 48". H.M. '57.
- ★DUTCH DEFIANCE (Nies '43) \$1.50
Blue with a yellow signal patch on slightly frilled falls. One of the largest. A.M. '49. 48". Late bloomer
- ★EL CAMINO (M. R. Walker '58) \$15.00
See introduction page 3.
- ★FAIRY LANTERN (Nies '56) \$6.00
The combination of blue and yellow is lovely. Standards are medium wisteria blue; falls deep canary yellow blend into a lovely medium flax blue border. H.M. '56.
- ★GAY LARK (M. R. Walker '58) \$15.00
See introduction page 3.
- ★GOLDEN NUGGET (Dean '31) 75c
Deep, rich yellow flowers on a free flowering plant, 48".
- ★INVESTMENT (Craig) \$4.00
Intense deep buttercup yellow flowers born in profusion on well-branched stalks. A vigorous grower, 42". H.M. '56
- ★KATRINA NIES (Nies '56) \$7.00
Standards are lovely dauphin's violet shaded aureolin at the base. Center of fall petals is deep aureolin, outer section light dauphin's violet. Ruffled form with smooth firm texture. H.M. '56.
- ★LARKSONG (Nies '46) \$2.50
Soft creamy-white standards and styles. Rich yellow flaring falls with frilled and ruffled edges of creamy white. 48". H.M. '46.
- ★MORNINGTIDE (M. R. Walker '56) \$7.00
Fresh as the early morning dew, and just as appealing These large ruffled, very pale astor violet flowers with light sulphur in the center might almost be called white. (Grace Nies Perry and Wadi Zem Zem.) 48". H.M. '56.

FAIRY LANTERN

- ★ORANGE DELIGHT (M. R. Walker '57) \$10.00
A satiny textured medium sized flower. A step closer to true orange. Standards are a canary yellow shaded darker; falls buttercup yellow with a lighter border. 40". H.M. '57
- ★PASTORAL (Nies '43) \$1.00
A yellow and lavender combination. Falls are deep yellow edged lavender; standards are yellow flushed lavender. 34".
- ★RUSSET FLAME (Nies '41) 75c
A distinctive glowing rich russet coloring with an undercolor of deep yellow. The falls are bordered dark brown. 40". H.M. '50
- ★RUTH NIES CABEEN (Nies '57) \$6.00
Almost a blue self. It is Dauphin's violet except for the small area of canary yellow at the base of this large ruffled flower. 48". H.M. '57.
- ★SUNLIT SEA (M. R. Walker '57) \$9.00
The standards and styles are Dauphin's violet; the broad falls have a large yellow signal center blending into aureolin and banded Dauphin's violet. 48". H.M. '57.
- ★SUNNY SIDE (Craig) \$3.00
Creamed standards and styles; canary-yellow falls, edged cream. Large flowers, broad petals. 42".
- ★SWEET BUTTER (Craig '50) \$4.50
A solid yellow smooth textured flower. Slightly recurving fall petals.
- ★VIOLET VEIL (M. R. Walker '57) \$10.00
These large broad petaled flowers are Dresden yellow, lined and shaded aster violet in a veil-like manner. 48". H.M. '58.
- ★WADI ZEM ZEM (Milliken '43) \$2.00
An extremely large clear creamy-yellow flower with broad petals. Excellent form, finish, and substance. 48". H.M. '52.
- ★WHITE HERON (Milliken '48) \$2.00
Flowers are a large creamy white with pale yellow flush in the center of the fall petals. Eric Nies Award '58.
- ★YELLOW SWALLOWTAIL (Nies '43) \$2.00
Light yellow standards and rich deep velvety yellow falls of very smooth finish, extra heavy substance. Not a fast increaser. 36".
- ★ZEPHROSO (Nies '53) \$3.50
Large, heavy textured flowers with beautiful ruffling. In color, a light honey with a rosy overlay.

DON'T BE CONTENT WITH BEARDED IRIS ALONE!

Daylilies

The Hemerocallis, or daylily, is the one perennial plant that comes close to being all things to all gardeners. They can be grown without fuss or bother, fitting into various conditions of soil, moisture and full sun or partial shade.

These pest-free plants will be a permanent addition to your garden. They need not be divided and transplanted for several years.

They are in full bloom in the middle of the hot summer when flowers are not too plentiful, and many varieties continue through with reblooming periods, clear up until heavy frosts.

SHIPMENTS will be made September and October.

AFTERGLOW (Stout '41) .75

A waxy textured buff, artistically blended pink which is accented in the throat and midrib of the flower. July. Evergreen. 36".

MARIE WOOD

BESS FORMAN (Bach '54) \$1.25
Medium pink petals and cream sepals. Floriferous, and a good grower. A twice bloomer. Semi-deciduous. 38".

BESS ROSS (Claar) \$10.00 NET
A large wide open, vivid velvety red, beautifully formed and re-curved, slightly frilled; a brilliant yellow throat. M. 36". H.M. '55 Semi-deciduous.

BESS VESTAL (House '49) \$1.50
Large 6" flowers with broad petals of bright red, with a yellow throat, 36". Early midseason. Rebloomer. Evergreen.

CARMELO (Milliken) \$1.25
A medium red, with just a hint of blue. Petals are extremely broad, overlapping sepals, and recurving, 36". Evergreen. M.

COPPER COLONEL (Sass) \$1.50
A beautiful rosy-copper blend, large recurving flowers. Free blooming. One of the finest, 40". Late-midseason Deciduous. A.M. '54.

CRADLE SONG (Milliken) \$1.50

A three-time bloomer that opens in the afternoon and lasts into the next day. Large, lovely, deep yellow flowers. Evergreen. 22".

FAIRY WINGS (Lester) \$10.00 NET

A delicate yellow of waxlike substance. There is a tint of an elusive pink light in the center of the petals. Cool green throat. M. 32". Semi-deciduous. H.M. '54

FOND CARESS (Milliken) 1.00

Lovely shimmering star dusted petals creamy yellow, lily-shaped with broad petals and sepals which overlap. Fragrant. Evergreen. 36".

GARNET ROBE (Milliken) \$1.00

A true garnet-red of heavy velvet texture, with a deep yellow-green throat. A vigorous grower and early blooming. Evergreen. 36".

GENE WILD (Lester) \$8.00 NET

Wide heavy petals and sepals ruffled and recurved, of soft peach-yellow with a faint lilac eyezone, and a rich velvet finish, giving distinction. E. 36". Evergreen. Repeats. HM '54

GOLD STRIKE (Milliken) \$5.00

Huge flowers of pure deep yellow with extra heavy petals and sepals, both strongly reflexed. 36". Midseason. Evergreen.

GRISELLE (Saxton) \$1.00

Full wide flowers of a very even shade of bright raspberry-scarlet, veined carmine 34" Late-midseason. Evergreen. H.M. '53.

H. HAROLD HUME (Taylor '53) \$3.00

Near cardinal red, the midrib of ivory is distinct; throat of canary yellow. 36". Open evenings. Early. Reblooms. Evergreen.

HIGH NOON (Milliken) \$5.00 NET

A beautiful deep rich cadmium yellow. Petals and sepals are thick and recurved, and both have deeply ruffled edges. Exceptionally broad and brilliant. 40". Midseason. Evergreen. A.M. '55.

JEAN (McDade) \$1.00

A gay brick red and yellow bicolor. Its edges are curly and fluted. Late. 48". Deciduous.

JEAN LAFITE (Claar) \$1.00

A deep garnet with a throat of cool chartreuse green. Wide petals and sepals. Early mid-season. 36" Semi Deciduous.

JEL RUSSELL (Russell) \$1.00

Large blooms of pale lemon yellow with ruffled edges. Petals are wide and recurved. Evergreen. 36".

JAPAHA (Watkins) \$1.00

A clear bright raspberry-red without midrib or eye-zone. Even the throat of the flower is the same. Evergreen. 36".

JACK ELLEN (Milliken) \$4.00

Large slightly ruffled flowers of watermelon pink flushed deeper shade. Truly outstanding. 34". Early, Reblooms, Evergreen.

MADCAP (Nesmith) \$1.00

An outstanding bright burnt orange which will be a distinctive addition to your daylily collection Very floriferous. Evergreen.

MADRIGAL (Milliken) \$2.00

Take the substance of Ruffled Pinafore, the crepe texture and width of petals of Colonial Dame and blend the colors of both parents, to obtain a warm apricot with a rosy dusting. The petals have a delightful reflex, which sets this daylily apart from the ordinary. Early mid-season. A rebloomer. 36". Evergreen.

MAID MARIAN (Lester) \$1.50

Large graceful flowers of coral pink with ruffled segments. Grows tall in the north and fairly low in the south. Good increaser. Deciduous.

MAJESTIC (Stout) \$1.50

One of the finest large daylilies of a very deep saffron yellow color. 36". Evergreen.

MARIE WOOD (Wood) \$8.00 NET

Near Azalea pink, with round, full flowers evenly toned and of firm, smooth texture. The petals are wide, and recurved, slightly ruffled. Deciduous. H.M.'54

MARY GUENTHER (Russell) 75c

A brilliant color contrasting bi-color of carmine-red and clear yellow. July. Recurrent bloomer. Evergreen. 36".

MATADOR (Nesmith '40) 75c

A full cup-shaped bright, rich mahogany, almost crimson, with deep red velvet flush on the wide petals 38". July-August.

MIDWEST STAR (Sass) \$1.50

A fine large pale yellow. Wide slightly ruffled petals of good substance. The large quantity of buds on a scape provide a long blooming period. 48". Reblooms. Midseason to late. Evergreen.

MRS. B. F. BONNER (Russell '42) .75

A dependable light lemon yellow Its petals are broad and of heavy texture. Evergreen. Recurrent. 36".

ORANGE BEAUTY (Sass '45) \$2.00

A broad-petaled clear golden orange with wonderful substance and excellent form. Very fragrant. Deciduous. Mid-late. 40".

PAINTED LADY (Russell) \$1.00

Gigantic flowers with wide ruffled sepals and petals, coppery cinnamon over yellow, with a coral throat. Evergreen 36". Stout Medal.

PINK BOWKNOT (Taylor) \$1.50

A lovely salmon pink with ivory midrib and daffodil throat. Heavy substance 42". Reblooms. Evergreen. A.M. '55

PINK CHARM (Nesmith '40) \$1.00

Large flowers with starlike petals and sepals. Coppery rose-pink with a light cadmium-yellow throat. Semi-deciduous. Mid-late. 48".

PINK DREAM (Childs) \$3.00

Dainty and delicate pink flowers, with wide petals and sepals. Holds its color beautifully in the garden, lasting into the evening hours. 34". Midseason and extended. Deciduous.

PINK RADIANCE (Douglas '49) \$3.00

A light, medium pink with a halo of a deeper tone of the same color just above the yellow throat. Blooms are both broad and full, with petals and sepals slightly fluted at the tips. Tall, well-branched, and with good sun-resistance.

PINK SATIN (Bach '53) \$2.00

A lavender-pink with a creamy throat. Midseason. 40" Semi-Decid.

POTENTATE (Nesmith '43) \$1.50

Pansy red-purple. Broad full petals and sepals; prolific bloomer from early 'til late. 42". Deciduous. Stout Medal '52.

PRIMA DONNA (Taylor) \$3.00

Beautiful blend. A combination of buff, copper, and peach; lovely, full formed flower of wonderful proportion. 36". Mid-season. Rebloomer. Evergreen. Stout Medal '55.

RAVEN (Wheeler) \$2.50 NET

A very dark velvety wine-red with a chartreuse throat. Outstandingly fine. E. 38". Re-bloomer. Evergreen. HM '53

RINGLETS (Kraus) \$3.00 NET

A superb miniature. Dainty and charming with its curled-back florets (3 1/2") in bright golden yellow, creped and ruffled. Free flowering. Deciduous. M. 34". H.M. '55.

RUFFLED PINAFORE (Milliken) \$2.50

Everybody's favorite yellow. The ruffled, creped and crinkled, wide, overlapping petals and sepals are a soft apricot-yellow with a chartreuse tint in the throat Evergreen. 34".

THE DOCTOR (Claar '50) \$3.50

Wide-petaled brilliant vermilion-scarlet of large size. Wide open and recurved in form. 36". Late. Semi-deciduous.

YELLOW ORCHID (Bach) \$3.00

A deep yellow with pinched and twisted petal tips. Flowers are large and open wide. Semi-deciduous. M. 40". J.C. '54.

PLANTING INSTRUCTIONS

for Bearded Iris

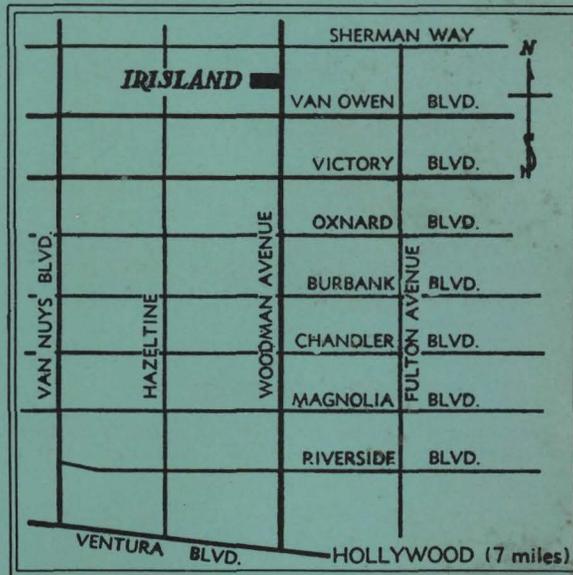

Iris will grow well and bloom freely if planted in well drained soil and have at least one-half day's sun. Dig the ground well to a depth of about 10 inches. Bone meal may be worked in if desired. When planting a rhizome, spread the small roots out; firm the soil about them and have the rhizome or bulb-like portion of the plant just below the soil level about one-half inch. Plant from 12 to 24 inches apart.

Water well after planting, keeping moderately moist until well established and growing. Thereafter, every 10 days or two weeks is sufficient, although judgement should be used according to the type of soil. Bearded iris like plenty of watering just before blooming time, although water should never be allowed to stand around the plants. Keep ground lightly cultivated and plants clean, so that the sun can reach the ground around them at all times.

The proper time to fertilize is after plants are well established (late winter or early spring). Barnyard steer manure, well rotted, is one of the best fertilizers. Be most careful not to allow any fertilizers to come in contact with plants, as this will cause rot.

It is advisable to divide and replant the iris every three years (June to October). A new location is recommended for best results and you will be well repaid by observing this.

MAP SHOWING LOCATION OF LYON'S IRISLAND:

VISITORS WELCOME

ROUTE: From Los Angeles, drive west on Hollywood Freeway to San Fernando Valley and continue on Ventura Blvd. to Woodman Ave., turn right to Irisland, at 7041 Woodman.

TO OUR CUSTOMERS

Our aim is to supply the finest Iris rhizomes and Hemerocallis plants that can be grown. We aim first of all to please, so if for any reason your order is not up to expectations we would appreciate your prompt notice.

Shipping Time—

(Special notes throughout catalogue) Bearded and Louisiana Iris, July, August, September and October.

Spurias, Siberians and Hemerocallis, September and October.
Douglasianas, November.

Orders will be shipped in rotation as received except when time is specified. We appreciate your telling us the best time for shipment to your locations.

Those wishing to call for their orders, PLEASE NOTIFY US SEVERAL DAYS AHEAD OF TIME if you did not set date when order was placed. Thank you.

Plants should always be set out immediately.

PRICE

HOW TO ORDER

Please use the attached order blank. Be sure your name and full address are clearly lettered to avoid delays or loss in transit. Please send check or money order with order. Stamps cannot be accepted.

Sales Tax—

Residents of California, include 4% Sales Tax.

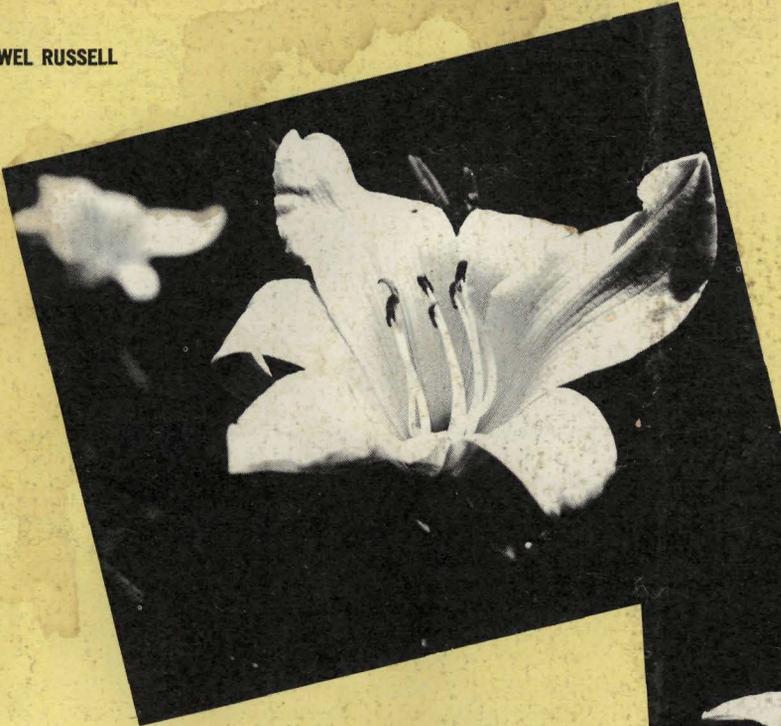

Substitutions—

Please list several extra varieties, which we may substitute, should we be short on any items ordered. If no extra items are given for substitutions, we will substitute a near color of equal or better value, on items listed at \$1.00 or less.

Members of—

The American Iris Society, Southern California Iris Society, and The American Hemerocallis Society.

Please Read Before Ordering

THIS CATALOGUE is free to all customers of record over a 2-year period, otherwise copies may be obtained for 20 cents. Please do not send larger denomination stamps than four cents.

ORDER EARLY to avoid possibility of certain varieties being sold out. We make no substitution of varieties, unless second choice is given, and if stock is sold out, refund will be made.

POSTAGE is paid on all Retail Orders in the U.S.A. that amount to \$5.00 or over. On smaller orders add 50 cents for packing and postage. If Special Handling is desired please add 35 cents to order. It is good insurance if you live at a distance.

TERMS are Cash with Order, Check, Draft, or Money Order. We allow a 10% discount on orders of \$20.00. Over \$20.00 we allow a 15% discount. This discount does not apply to items marked NET or to Collections which are strictly NET.

We guarantee good healthy stock, true to name, and that it reaches you in good condition, but we cannot guarantee the growth in your garden. If plants do not arrive in good condition return them to us at once, and restitution will be made either by supplying stock or cash refund whichever we deem best. Any error on our part will be carefully corrected for our success depends upon your satisfaction.

We reserve the right to accept or refuse an order or any part thereof, depending on quantity of stock and whether at shipping time it is in good condition to be sent.

SHIPMENTS: We commence filling Bearded Iris orders about July 25th and from then on until early October. Beardless Iris, Oriental Poppies, Hostas, and Hemerocallis are best shipped in late summer and autumn.

Foreword

Many moments make the hour,
busy hours—the day,
and then the days slip into weeks
that pass the time away.

Weeks speed quickly into months
and lo! the time draws near
to plan anew with hopes held high
the catalog for this year.

Today we are facing a future more strange and untried than any other generation has faced and modern life demands at least some respite from satellites, guided missiles and the uncertainties of these times. So if we can keep our feet on the ground and our eyes on the stars this will constitute a good sensible philosophy for working in our gardens and should give us a sense of inner peace and furnish some repose and faith in the more simple things of life.

It is cold in our Northland, but we know that Spring is in the offing for March heralds the end of winter and we are looking forward to its coming with courage and the trust that it will remain unspoiled by all these confused and difficult problems. So once again we say Welcome to Spring.

Our most sincere thanks for the many, many letters we have received from our customers praising the clean strong plants we send out and the care we take in filling orders as well as their gratitude for extras and their compliments on our careful packing, so that the plants reach them in excellent condition. It is our hope to always merit their continued patronage.

There are many iris and hemerocallis that I have growing in my garden from different hybridizers that have been sent me for exhibition to be observed and tested with the idea of future introduction. This year I have a most interesting group of bearded iris that came from a prominent hybridizer who lives in the much discussed United States Zone of Germany. For several years he has purchased many of the newest and best bearded iris for he is intensely interested in breeding finer varieties. Last year he sent rhizomes of some that he wished me to grow and compare with iris grown in the United States and to be evaluated as to their beauty and form with the idea that if I found them distinctive and worthy he wished me to introduce them in America. So I am awaiting their flowering with intense interest. He has been most active in the formation of their German Iris Society and I have great admiration for this real gentleman and his courage in surviving the many hardships he experienced during World War II.

The Iris and Hemerocallis that we are introducing this year are an impressive testimony to the skill of these hybridizers and many experienced Judges look forward with keen anticipation to the Introductions we present in our catalog. These consist of plants from prominent breeders and have all been tested in our garden for distinctive beauty, good growth and hardiness for these three essentials are most necessary in anything we introduce and are varieties that I am proud to present in my catalog.

The garden of Mr. and Mrs. Stedman Buttrick of Concord, Mass. is famous for its beauty and horticultural perfection and this year is being written up in the May issue of The National Geographic Magazine. There will be many colored pictures and an article describing its beauty as well as the historic interest of this place which has been in the Buttrick family long before the Revolution. So those that have not had the pleasure of seeing it may gain some idea of how much they have missed. The interest of Mr. Buttrick in hybridizing is centered in the breeding of finer iris and hemerocallis and a critical selection from his many beautiful seedlings has resulted in the choosing of four iris and five hemerocallis for introduction this year. I can assure you they merit the attention of all iris and hemerocallis enthusiasts for he is a most skillful and conservative hybridizer. The iris are: **Castanet**, a very ruffled cream white that has the airy grace of a Spanish dancer and received the Highly Commended Award in 1958. **Still River** is a very large ruffled blue-purple that has great depth of color and splendor. **Clarendon Springs**. An Intermediate of clear blue with a turquoise

flush that was given the Highly Commended Award in 1953. **Christmas Cove**. This charming and distinctive Intermediate has ruffled blue-white flowers centered with deeper blue and won the Award of Highly Commended in 1957.

The hemerocallis are: **Bourbon Prince** is well named for it is of regal form and carriage with large full ruffled flowers of Maize Yellow and a clear cut rose-red halo. **Sun Song** has creped and ruffled full blooms of luscious light yellow with a halo of delicate pink at the center. **Far Afield** has extremely large flowers of deep glowing orange that are precisely ruffled and are most sun resistant. **Summer Light** is a frosty glistening pale cream with ruffled petals of firm substance and wide branching. **Esther Murray**. A handsome hemerocallis of Empire Yellow with flaring ruffled petals and sepals with a light green infusion through the whole flower.

Mr. and Mrs. Harold W. Knowlton of Auburndale, Mass. are veritable travelers and last year journeyed to Australia and New Zealand where they were entertained by Mr. and Mrs. W. R. Stevens of New Zealand and saw many scenic wonders as well as interesting forms of primitive life. The garden is perfect in every detail and contains many beautiful iris and hemerocallis from all parts of the country, but the real interest is in the seedlings that have been bred by Mr. Knowlton. The iris that I am introducing of theirs is the handsome **Manomet** that is the most rich velvety red that I have seen and well deserving of the Highly Commended Award in 1957.

The garden of Mr. and Mrs. Harry Randall of England is famed for its beauty and artistic arrangement of color. It is the center of interest at iris time to the members of the English Iris Society and they are entranced by the remarkable advancement he has made in producing superior iris for he is the most successful hybridizer of iris in that country. Mr. Randall is well known in America and last fall we had the pleasure of having him with us at our Region 4 Fall Meeting of the American Hemerocallis Society and at that time he became a member for he is becoming interested in breeding hemerocallis as well as iris. Mr. Randall is most conservative in his selection of iris for introduction and this year I am presenting three distinguished iris that have been thoroughly tested in my garden. They are: **Sarah Elizabeth** has large firm textured flowers of clear pale blue with no trace of lavender in them. Selected for trial at Wisley. **Red Tarn** has aroused exceeding interest in England with its rich brilliant red color and velvety finish. Selected for trial at Wisley. **Lodore** may briefly be described as a much improved Mary Randall for it is better branched, more ruffled and of deeper rose color.

Mr. Edward Watkins of Concord, N.H. is a most successful hybridizer with long years of experience as has been demonstrated by the many beautiful iris that we have introduced in previous years and awards they have received. Edward due to infirmities no longer does active work in hybridizing and maintaining the garden. He plans the crosses and keeps accurate records so he can at once tell you the parentage of any new seedling. He is most ably assisted by his brother Arthur not only in keeping the garden in perfect condition and everything correctly labeled, but in carrying out Edward's ideas of what should be pollenized and occasionally doing some crossing of his own. I remember one lovely seedling that bloomed and Ed saying "who made that cross?" Arthur replied with a quiet smile "I did". The two we are introducing this year have great merit and beauty. **Charles Fowler** is a large full flaring flower of pure white of sturdy form and most weather resistant. **Berna Derby** has broad ruffled blooms of deep lavender violet, with three flowers open at one time on superbly branched stalks.

Mr. and Mrs. Jesse E. Wills of Nashville, Tenn. have a delightful garden that contains a careful selection of the newest and best iris beautifully arranged for color harmony. During the many years that I have introduced the iris of Mr. Wills there have been many notable ones that have won high awards. Always I have been impressed by the care and thought he uses in making crosses for this demonstrates his success in the constant improvement in hardy dependable iris. The three iris that I am introducing for him this year are shining examples of his progress. **Rose Tribute** is a luminous rose self with large firm textured flowers and splendid branching that won the Highly Commended Award in 1957. **Snow Tracery** is well named for it is a fascinating Plicata of pure white, lightly traced with blue at the edge and has a deeper blue heart. This was given the Highly Commended Award in 1958. **Brave Show** is a gay and festive variegata that has full flowers with bright golden yellow standards and red falls bordered with gold.

Each year Mr. and Mrs. Kenneth D. Smith are real globe trotters making trips to far distant places for they seem to get more entertainment and relaxation in travel. This year the last I heard from them they were in French Morocco, but plan to be at home in time to see their daffodils in bloom for the first time in many years. They are most competent hybridizers of iris and hemerocallis and this year I am introducing three of their iris and four hemerocallis. The iris are **Pearl Mosque**, a very ruffled pearly white with the wide flaring falls that are precisely netted with a gold filligree at the haft. **Regal Splendor** is a vibrant dark crimson that has wonderful garden value. **High and Mighty** has large broad flowers of clear medium blue of commanding form and all around excellence. The four hemerocallis are in varied colors and forms. **Brave Music** is a very large brilliant orange with wide petals and real individuality. **Fabiola** is a brilliant Spectrum Red that stays open evenings and has wonderful branching. **Wedding Bells** is well named for it is of palest cream with very broad full blooms that do not fade as do many of similar color. **Trick or Treat** has large jaunty flowers of Tangerine Orange with white borders on both petals and sepals.

Dr. Philip Corliss of Somerton, Arizona has many floral interests and is a versatile hybridizer of perennials especially Spurias, Louisiana Iris and Hemerocallis. For several years he has been intensely interested in breeding Spuria Iris and has produced some that are beautiful and entirely different from any that I have seen. The two that I am introducing this year are: **Heart of Blue** that has heart shaped flowers of Cobalt Blue with neat trim fluting and strong

sturdy stalks. **Brown Glory** is a most interesting and unique Spuria with rich reddish brown color that seems to have much better branching than any other brown. There are three Louisiana Iris that I have found thoroughly hardy in New England. **Arizona Rose** is a late blooming dusty rose. **Arizona Beacon** has Capsicum Red flowers of great brilliance. **Mary Redford** is a large orchid toned bicolor.

Seldom does one see such an artistic and beautifully arranged garden as that of Mrs. Irving Fraim of Waltham, Mass. She has a marvelous collection of rare perennials and shrubs so skillfully arranged that their color harmony is perfect. Her iris and hemerocallis interest has continued for several years and she grows many fine varieties and it has led to her doing a consistent amount of hybridizing. This year we have selected for introduction her lovely hemerocallis **Filligree** that is a creped and ruffled very pale cream with wide branching and long season of bloom.

I am introducing several hemerocallis of my own breeding that I have thoroughly tested for color, substance, hardness and branching. **Bonnie Treasure** is a delectable melon pink with many buds and wide branching. **Damask Rose** has large lustrous rose flowers and is very late flowering. **Gay Hussy** is a gay and frivolous miss of rich Chrome Orange with broad eye zone of red. **Berkshire Hills** has large flaring blooms done in rosy autumn colors. **Pink Pinafore**, beautiful in color and form with broad petals and sepals. **Orange Banner**, clear Chrome Orange with red halo. **Royal Pennant**, Rich Orient Red with ruffled petals and long season of bloom.

You are cordially invited to visit the garden at any time that suits your convenience. If you are unable to do so, and feel you need advice about varieties to choose, write me and I shall use the same care as if I were selecting for my own garden.

Lowell is 26 miles from Boston. From points north or south of Boston take Route #128. Turn off at Route #3 and then take Billerica exit which leads to Route #3A at Billerica Center. Follow this Route into Lowell until you come to Route #110 at the corner of Appleton and Gorham Sts. Turn right until you come to second traffic light. Turn right on Route #38. Take third left (Mansur St.) and then first right, which is Fairmount St. At the top of the hill you will find Fairmount Gardens.

There are express trains from Boston to Lowell with taxi service from the station to FAIRMOUNT GARDENS.

Our Exhibition Garden is located at 166 Fairmount St., Lowell, Mass., and telephone is Lowell, GL (GLenview) 4-7921 under the name of Thomas Nesmith.

Iris Introductions for 1959

Colors Taken from Wilson Horticultural Chart

39 **CASTANET 54-47** (Buttrick 1959) EM. Charm, personality and quality are combined in this delightful iris. Large cream white blooms with broad standards that are airily ruffled. The widely flaring falls are the same color and have glistening yellow epaulets on the upper part around the full beard. The firm textured flowers are extremely ruffled and retain their fresh delicate color with out any fading. The strong stalks have four branches and terminal, thus giving the flowers especially good spacing. Distinctive in both form and color combination, it attracts the attention of all iris Judges. Vigorous growth and of rapid increase. Flying Squadron x (Lavish Lady x Radiation). H.C., A.I.S. 1958. 36 in. \$20.00

39 **STILL RIVER 55-46** (Buttrick 1959) ML. Named for a quietly flowing stream that runs through the two old historic towns of Harvard and Lancaster. An imposing iris of commanding form and all around excellence. A pure self throughout of rich blue purple with the broad standards firmly domed. The falls are wide and very flaring with the blue beard tipped white, an added attraction. The vellum-like substance and full ruffling of the whole flower draws the eye by its beauty and style. Long and late flowering with vigorous growth and excellent branching it presents a noteworthy picture in the garden. Illustrated as a dark blue seedling in the May 1959 issue of The National Geographic Magazine. Concord River x Seafarer Seedling. 35 in. \$20.00

39 **CLARENDON SPRINGS 51-18** (Buttrick 1959) EM. Mr. and Mrs. Buttrick are devoted to Vermont and each year make a pilgrimage to this beautiful state. The name of this iris is in memory of the historic Spa in Vermont that was very famous even before the War between the States. It is still in existence, but no longer in fashion. This lovely clear blue with a turquoise flush is a beautiful Intermediate both as to color and form that is ideal for border planting and always attracts garden visitors. The standards are firmly domed, the falls arched and flaring. The flowers have a sparkling firm texture and the white beard is in pleasing contrast to the very blue coloring of the bloom. Vigorous growth and rapid increase. Helen McGregor x (Seafarer Seedling x Great Lakes). H.C., A.I.S. 1953. 21 in. \$10.00

40 **CHRISTMAS COVE 54-69** (Buttrick 1959) EM. Christmas Cove is a snug harbor on the coast of Maine and recalls to many New Englanders the beauty of this sheltered place. Ever since I first saw this iris I have been fascinated by the captivating arrangement of color and beauty of form. It is a clear blue-white with firmly domed standards and crisp horizontal falls that have a very blue area on the hafts with style branches of the same blue tone. All this with the blue beard give the flowers an intensity of color in the heart of the bloom. The flowers are very ruffled with firm texture and excellent branching. A delightful Intermediate that possesses great color appeal. Strong vigorous growth. Seafarer Seedling x Rehobeth. H.C., A.I.S. 1957. 22 in. \$10.00

22 **SARAH ELIZABETH** (Randall 1959) ML. This iris was named for the grandchild of Mr. and Mrs. Randall and is an important addition to the galaxy of blue iris. A clear pale blue with no trace of lavender in its make up. Large heavily substandard, neatly ruffled flowers with erect standards firmly held and falls that flare widely. There are no haft markings and over the whole flower there is a glistening sheen that adds to its beauty. Selected for trial at Wisley on one

year plants it put on a beautiful show and is described by some Judges as having the purest blue coloring of any iris seen in England. Excellent branching and vigorous in growth. Derwentwater x South Pacific. 38 in. \$15.00

12 **RED TARN** (Randall 1959) ML. Named after a beautiful place in the English Lake District. A self of rich ruby red with closely held standards and wide semi-flaring falls. The flowers have a very velvety texture with firm substance and are of true exhibition quality. It might be visualized as a darker and richer version of Carnton, one of its parents. It was selected for trial at Wisley and is enthusiastically praised by English Judges as a real red that has great brilliance with remarkable rich beauty and a distinct personality that will carry it to great popularity with all iris fanciers. Carnton x (Bankside x Red Waves). 34 in. \$15.00

12 **LODORE** (Randall 1959) M. Mr. Randall is a severe critic of his seedlings and I am quoting what he wrote about this iris. "Of the many hundreds of Mary Randall seedlings that I have raised or seen this is the best". I fully agree with the above for it is of outstanding beauty. Tall, with especially fine branching and many buds it is darker and more frilled than Mary Randall. It is a self with the standards firmly domed. The falls are broad and nicely flaring. There is a pleasing ruffling to the whole flower that has firm heavy substance and long lasting qualities. In color it might be termed a rosy mulberry, but it does not have the harsher tones that the word mulberry implies for it has a most refined rose coloring intensified by the tangerine beard. A brilliant iris with a shining luster. (Cherie x Angela Borgia) x Mary Randall. 36 in. \$15.00

50 **MANOMET** (Knowlton 1959) ML. An Indian name mentioned in Bradford's history in 1637 as an Indian plantation and is now the name of a town on Cape Cod. This iris is a handsome rich velvety red that has no venations as often found in a red iris. It is a self with firm well domed standards and flaring lightly ruffled falls deepening in color around the red tipped beard. Medium in height with ample branching, it seems to have everything to be desired in a red iris for it is the smoothest, velvety deep red that I have seen in any garden. Garden Glory x Red Cap. H.C., A.I.S. 1957. 36 in. \$15.00

51 **CHARLES FOWLER** (Watkins-Watkins 1959) ML. Large heavily substandard flowers of pure white with closely domed ruffled standards and flaring falls that are nicely fluted at the edges with the underside very pale green and as the buds unfold this adds to the extreme whiteness of the flowers. The blooms are most weather resistant and are carried on strong sturdy stalks with excellent branching. Beard tipped white. This is a recessive white from (Jane Phillips x Sister) and is proving to be an excellent breeder. 38 in. \$15.00

BERNA DERBY (Watkins-Watkins 1959) ML. A vigorous and colorful iris that under the number 51-49W was greatly admired in 1958 by visitors from many parts of this country. It is a large flaring very ruffled medium violet with firmly closed standards, flaring fluted falls and blue tipped beard. Tall and stately with three blooms open at one time on an extremely well branched stalk. It is most impressive in the garden. (Helen McKenzie x Major Eff). 38 in. \$20.00

London Town 39 40

7
ROSE TRIBUTE (Wills 1959) ML. Outstanding rose iris are not numerous, but this one seems to meet all the requirements for it is of large size, vigorous growth and great purity of color. It is a self of luminous rose with broad blooms of full rounded form. The standards are firmly domed. The semi-flaring falls have a light brown overlay at the haft around the deep yellow beard. The many flowers are exceptionally well formed and are poised on tall widely branched stalks that allow four flowers to open at one time on one stalk without any crowding, thus making a most handsome clump in the garden. (Red Amber x Prairie Sunset) x Lancaster x Rose Splendor. H.C., A.I.S. 1957. 38 in. \$25.00

39, 40
SNOW TRACERY (Wills 1959) EM. A quite different and charming plicata which attracted many iris fanciers that attended the Syracuse National Convention. The flowers have a basic color of pure white with the full standards lightly stitched with blue on the border. The wide falls are white with deeper blue toward the center and the styles are the same deeper blue thus making a delightful contrast to the white background of the bloom and giving a fascinating depth of blue to the heart of the flower. The blooms are large with firm substance and nicely spaced on well branched stalks. Sass 49-134 x Belle Meade. H.C., A.I.S. 1958. 36 in. \$25.00

38
BRAVE SHOW (Wills 1959) ML. A brilliant variegata that has intense color contrast and has been admired by numerous garden visitors. It is about the size and form of Nashborough, but is entirely different for Brave Show is a lighter and more gay iris. The full standards are clear golden yellow. The rounded arched and flaring falls are rich brownish red bordered by a distinct bright yellow edge. Bright and glowing the firmly substandard flowers are well spaced on strong sturdy stalks. (Arab Chief x Gay Troubadour) x (Tobacco Road x Prairie Sunset) x Lancaster. 36 in. \$15.00

18
PEARL MOSQUE 56-50 (C. and K. Smith 1959) ML. The name is most descriptive of this pearly white flower for the standards are domed and closely held reminding one of the rounded roof shape of an Oriental Mosque. The blooms are very ruffled with firm texture. The wide flaring falls are cleanly and precisely netted at the haft with a gold filigree that adds to its distinctive beauty. The strong sturdy stalks have wide branching. Thoroughly hardy and of rapid increase. Tradition x Silver Hawk. 40 in. Net \$20.00

27
REGAL SPLENDOR 57-1 (C. and K. Smith 1959) EM. Regal in form these rounded luxurious flowers according to the color chart are red-violet, but they give the effect of vibrant dark crimson that have exhibition quality and wonderful garden value for they stand out in any planting. The flowers are full with broad standards and widely flaring falls. The blooms are smoothly finished and the dark beard tipped brown adds depth of color to this handsome iris. Strong firm substance and excellent branching. Adirondack Chief x (Christobel x Lord Dongan) x Sable Night. 34 in. Net \$20.00

27
HIGH AND MIGHTY 51-58 (C. and K. Smith 1959) L. Large broad flowers of clear medium blue of commanding form and all around excellence. The blooms have great purity of color with broad domed standards and falls that flare widely. The firmly substandard flowers are very sun resistant and seem to have a different tone from any other blue in the garden. The name gives an excellent word picture of this tall late flowering blue. Complicated breeding from the Smith blues. 39 in. Net \$20.00

SPURIA IRIS

5
BROWN GLORY 56S18 (Corliss 1959) M. Few Spurias have the individuality and charm of this brown toned iris. The brown standards are flushed with soft silvery gray with neat ruffling on the edges. The flaring brown falls and styles are infused with tints of mauve. Small yellow signal. The whole flower is enriched with reddish brown hues and is quite different from other Spurias and seems to have more branching than any brown Spuria heretofore available. Larksong x Nies 49S6. 50 in. \$25.00

HEART OF BLUE (Corliss 1959) EM. A notable new hybrid that is an important addition to the Spuria group. It is a self of Cobalt Blue with erect firm standards and semi-flaring falls and the whole flower has trim fluting. A distinctive and fascinating feature is the deep indentation on both standards and falls which gives the standards heart shaped form and the falls that of an inverted heart. A vigorous iris with sturdy stalks that hold the large flower heads without need of staking. It seems unusually resistant to diseases which are prone to attack blue Spurias. 52 in. \$25.00

LOUISIANA IRIS

22
ARIZONA BEACON 58LX2 (Corliss 1959) L. Brilliant and most colorful the striking Capsicum Red flowers of this stunning variety open wide to display a very large signal of Nasturtium Orange. The intense signal is the largest we have yet seen and makes it the most eye-catching Louisiana iris imaginable. Haile Selassie x Creole Charm. 30 in. \$10.00

22
ARIZONA ROSE (Corliss 1959) L. This late flowering variety of smooth dusty rose (Rose Opal) has flat open blooms made brighter by the yellow signal. The flowering stalks of moderate height and the well spaced flowers make it most desirable for garden effect or flower arrangement. Delta Treasure x Creole Charm. 24 in. \$10.00

9
MARY REDFORD 57LR1 (Corliss 1959) M. This iris was named for the Secretary of The Spuria Iris Society in whose garden the plant first bloomed as a guest. The large 5 inch flowers are best described as an orchid toned bicolor. The standards are heliotrope and the lightly veined falls with medium orange signal are Campanula Violet, opening wide and flat. The flowers on the well branched stalks have beautiful garden value as well as being highly desirable for flower arrangement. Parentage includes The Kahn and Dorothea K. Williamson, thus giving large size and vigor. 30 in. \$10.00

Hemerocallis Introductions for 1959

Colors taken from Wilson Horticultural Chart

LATE SUMMER AND FALL DELIVERY

39 **BOURBON PRINCE 54-63** (Buttrick 1959) ML. This handsome hemerocallis is one of our favorites for it has perfection of form and delightful contrast of color. The six inch flowers have broad petals and sepals of sparkling Maize Yellow with a clear rose-red halo just above the cool green-gold cup. The sun resistant flowers have very firm texture with wide branching and sturdy growth. Tall and stately with 25 or more full ruffled blooms it presents a picture of remarkable beauty. Neyron Rose x 5-121. dor. July-Aug. 38 in. **\$20.00**

23 **SUN SONG 52-15C** (Buttrick 1959) ML. Few hemerocallis have the beauty and fascination of this creped and ruffled variety. It is a creamy Maize Yellow with a delicate pink halo toward the heart of the bloom. The petals and sepals are broad and full petaled with precisely ruffled edges. The whole flower has a frosty finish and the subtle blending of the two colors gives it a captivating and endearing charm. The flowers are firm substantiated with 24 blooms on a well branched stalk. Hardy and of rapid increase. Cellini x Devon Cream. dor. July-Aug. 35 in. **\$15.00**

40 **FAR AFIELD 52-64C** (Buttrick 1959) ML. This vibrant rich orange is so colorful that it has wonderful carrying qualities and attracts the eye from any place in the garden. It is a self with broad six inch flowers of Chrome Orange with the color extending down into the throat of blended green and gold. The blooms are heavily ruffled on the petals with the sepals neatly fluted. The beauty of the flowers is enhanced by the full form, heavy substance and excellent branching. Lady Fair x 50-35 (Bonny Ruffles x Fairy Lustre) dor. July-Aug. 39 in. **\$15.00**

39 **SUMMER LIGHT 54-218A** (Buttrick 1959) ML. A refreshing very pale cream that never fails to attract attention in the garden and justly so for it is a patrician flower of quiet elegance both in color and form. It is a self of large size with broad petals and sepals that are ruffled and over all there is a diamond dusting that sparkles in the sunlight. In spite of its almost white color it has extremely firm texture and does not bleach under hot sun. It has an abundance of bloom on well spaced and proportioned strong stalks. Seedling 52-105 x Seedling 52-15. dor. July-Aug. 38 in. **\$15.00**

59 **ESTHER MURRAY 54-161** (Buttrick 1959) ML. A distinctive hemerocallis with full six inch blooms of Empire Yellow that have a subtle infusion of cool green throughout to the very center of the flower. The ruffled and flaring petals and sepals are overlapping, thus adding to the fullness of form. This medium yellow has prolific bloom and seems to meet all the requirements for beauty as it has firm substance with strong graceful branching and long season of bloom. 52-16 (Cellini x Felicity) x State Fair Seedling. dor. July-Aug. 38 in. **\$15.00**

27 **BRAVE MUSIC 56-67** (K. Smith 1959) L. Entirely different and distinctive the extremely large trumpet shaped flowers of pure orange are very full with broad petals and sepals. The blooms have a satin smooth finish and the clear orange color extends down to a cool green cup. The heavy substantiated flowers have 20 or more buds on strong well branched stalks. A big brilliant flower with real individuality. dor. July-Aug. 26 in. **Net \$20.00**

23 **FABIOLA 56-28** (K. Smith 1959) EML. Named for the famous painting in the Louvre because the color of the flowers reminds us of the Vestal Virgin's head scarf of red with its play of light and shadow. The flowers seem true Spectrum

Red with a darker flush (Cardinal Red 822) above the small yellow throat with a green base. The 5 inch flowers stay open evenings and are carried on strong scapes which have five branches. When established the scapes will each develop 60 buds and it catches the eye from any place in the garden. Reblooms. dor. July-Aug. 33 in. **Net \$20.00**

12 **TRICK OR TREAT 54-38** (K. Smith 1959) EM. Lovely broad petaled six inch flowers of Tangerine-Orange (Wilson 9) that carry 25 buds on four way branching stalks. The flowers are gracefully ruffled and during the day develop a neat white 1/8 inch edge on petals and sepals. This was Harry Randall's favorite when he saw the seedlings in 1955. dor. July. 30 in. **Net \$20.00**

37 **WEDDING BELLS 56-34** (K. Smith 1959) EM. Beautiful extremely pale yellow with a white midrib on the petals which are very broad and overlapping and according to the Color Chart they are lightest Primrose Yellow. The flowers are 6 inch in diameter with 2 inch petals and 1 inch sepals. The 28 blooms have excellent substance with a long lasting quality which is unusual for such a pale yellow. It has great charm and refinement of form. dor. July. 25 in. **Net \$25.00**

40 **FILIGREE** (Leola Fraim 1959) ML. A delightful name for this full creped and fluted hemerocallis of pale cream that shades down to a delicate green cup. It is very free flowering with many fragrant flowers on especially well branched stalks, that gives it a long season of bloom that is so essential in any hemerocallis. dor. July-Aug. 38 in. **\$10.00**

8? **BERKSHIRE HILLS 50-16C** (Nesmith 1959) M. The color of this flower reminds me of the brilliant foliage seen in the Berkshire Hills in autumn. According to color charts the nearest is Geranium Lake, but the flowers have a patina that blends it to a smooth even deep rose. It is a self of flaring form with smoothly finished petals that have a midrib slightly lighter rose and the deep cream cup adds life and character to the whole effect of the flower. Lavender Lass x Heart Aglow. dor. July-Aug. 29 in. **\$10.00**

40 **BONNIE TREASURE 50-21D** (Nesmith 1959) ML. There does not seem to be anything in the color charts to give an accurate color picture of this lovely flower. It is a self of luscious melon pink with just a touch of pale green at the very heart. Full flaring blooms with ruffled petals and sepals lightly fluted. 25 or more buds on tall widely branched stalks, thus giving a long season of bloom. It has inherited the delectable coloring of Precious Treasure one of its parents and is an excellent example of line breeding. Precious Treasure x Maize Melody. dor. July-Aug. 38 in. **\$15.00**

5 **DAMASK ROSE 54-83A** (Nesmith 1959) VL. Full six inch flowers of lustrous rose that are most decorative in the garden or as a cut flower. It is a true self even to the stamens and pistil. The petals are ruffled on the border and lightly twisted at the tips. The sepals have fluted edges. The flowers have a smooth velvety texture and give the effect of a glowing rose-red. Long and late blooming with 25 buds, it lasted until September 15th, in our garden. Pink Damask x Rose Seedling. dor. July-Aug-Sept. 39 in. **\$20.00**

51
GAY HUSSY 51-184B (Nesmith 1959) ML. A pert and saucy minx decked out in gypsy colors might give a mental picture of this hemerocallis that ever since its first flowering has been sought by many daylily fans. The flowers are neatly ruffled with the dominant color on both sepals and petals rich Chrome Orange with a bright broad halo of Chrysanthemum Crimson just above the orange cup. The color combination is vivid, yet it is not strident in any way. Seedling 48-188C x Red Marvel. dor. July-Aug. 28 in. \$10.00

51
ORANGE BANNER 49-3B (Nesmith 1959) M. Gay and bright as the name implies, this is a full flower of rich Chrome Orange with broad semi-flaring petals that are ruffled on the border and sepals neatly fluted. A self except for the reddish Mars Orange halo above the shallow orange cup. Firmly substantiated flowers with good branching and sturdy growth. Bright Melody x Painted Lady. dor. July-Aug. 37 in. \$10.00

PINK PINAFORE 50-146A (Nesmith 1959) ML. Few pink hemerocallis that I have bred seem to have the charm and individuality of this clear pink self. A six inch flower with broad petals and sepals lightly ruffled above a full mellow buff cup that accentuates its beauty. The flowers are sun resistant with firm substance and long season of bloom and are carried on tall well branched stalks. Her Majesty x Pink Prelude. dor. Aug.-Sept. 38 in. \$20.00

50
ROYAL PENNANT 50-130F (Nesmith 1959) ML. The flowers are rich Orient Red with broad ruffled petals that have a raised midrib that is an attractive feature. The sepals recurving and smoothly finished. The green gold cup adds to the clarity of the bloom. A brilliant and glowing red that catches the eye of garden visitors. Seedling 47-85A x Imperial Velvet. dor. July-Aug. 35 in. \$12.00

A Selected List of Bearded Iris

ALERT (Barker 1957) L. Clear and bright as the name appropriately implies, this rich Buttercup Yellow (6) has great carrying quality in the garden. The warm yellow standards are arched and overlap with grace. The falls have a center of ivory white merging into and etched with a distinct margin of gold on the border. The whole flower has a gay, sparkling personality that is most inviting. Late flowering, with many blooms on very well branched stalks. 48-18 x Paradise Pink. 39 in. **\$8.50**

ANNE WICKERSHAM (Wickersham 1955) M. Fresh and clear as a lavender-pink orchid, this self colored flower has a cool iridescence that is most attractive. Beard pink. Lightly ruffled blooms on tall well branched stalks. 39 in. **\$4.50**

BAR HARBOR 53-36A (Nesmith 1958) M. Named for a famous summer resort on the coast of Maine and is suggestive of the clear deep color of the sea. This sturdy iris is a blending of Sea Blue (043) and Aconite Violet (937/3) and in effect is a firmly finished deep blue-purple of full rounded form, that has drawn the attention of many iris visitors. The blue tipped beard adds to the depth of color of the strong firm substanced flowers. Ideal in height with 4 branches and terminal. It is most decorative in the garden. 48-44C (Barbara Adams x Gulf Stream) x (Jane Phillips x Sylvia Murray). 38 in. **\$10.00**

BELLE MEADE (Wills 1952) M. Plicatas, unless they are clearly marked often lose their garden value, but Belle Meade viewed from a distance gives a very blue effect, and when closely examined one is delighted with the color pattern of a pure white background, distinctly feathered at the edges with clear blue-violet. A cross of Blue Shimmer and Snow Crystal, it has inherited the firm substance of Snow Crystal, and the flowering stalks are well branched and sturdy. H. M., A. I. S. 1952. 39 in. **\$6.00**

BETH COREY (Watkins-Watkins 1957) M. Blue iris are most essential in the garden picture for the color is particularly pleasing to the eye and this medium blue is especially effective for it has great clarity of color and beauty of form. The broad standards are firmly held and the wide flaring falls have an intriguing pattern of veining that is most fascinating. The firm textured blooms are well spaced on strong stalks. It is a husky grower and soon makes a most effective clump in the garden. (((Shining Waters x Gloriette) x Great Lakes)) x Chivalry))) H. M., A. I. S. 1957. 36 in. **\$10.00**

BIG TIME (Lapham 1951) M. A lustrous flower with bronzy red standards and falls of rose-red overlaid with a darker tone. Beard reddish yellow. Large flowers well spaced on sturdy stalks. Red Waves x (Redward x Copper Rose). 35 in. **\$1.50**

BLACK HILLS (Fay 1951) M. A rich blue-black with full broad standards and large flaring falls. The substance is strong and firm. The blooms have no haft markings and the blue-black beard adds depth of color to this handsome iris. Well branched and vigorous growth. (Black Valor x Gulf Stream) x Black Forest. A. M., A. I. S. 1954. 40 in. **\$2.00**

BLACK SATIN (Nesmith 1951) M. This has been in commerce for several years but still is the darkest blue-black and does not have any red-purple tones found in so many of the newer "black" iris. A self with a satiny sheen that does not fade or wilt under hot sun. Firm substanced and very well branched. H. M., A. I. S. 1951. 36 in. **\$2.50**

BLACK TAFFETA (G. Songer 1954) M. One of the best black-purples and is a most worthy addition to this color class. It is a self with large flowers and wide hafts that are without veining and very ruffled, thus giving the flowers great personality. Beard black-violet. A really fine advancement in the black-purples. Black Forest x Sib to Night Life. A. M., A. I. S. 1957. 34 in. **\$8.00**

BLUE SAPPHIRE (Schreiner 1953) E. Beautiful in color and form this lovely blue self is a great addition to any garden. A broad full flower that is heavily ruffled on both

standards and falls. The firm texture and glistening sheen gives it an individual beauty. Strong and sturdy stalks. English Dykes Medal 1958. 40 in. **\$2.00**

BLUE SERENE (Wills 1953) M. The cross of Blue Rhythm and St. Regis has produced a charming iris that is more blue than Blue Rhythm, but in a lighter tone. An iris that is well described by the name for it is a clear light blue with great nicety of finish, and performs well each year. H. M., A. I. S. 1953. 35 in. **\$5.00**

BOLD CONTRAST (Linse 1954) M. This is a great advance in variegatas and is well named for it is a bright, smoothly finished flower with clear yellow standards firmly domed, and rounded semi-flaring falls of deep red with a well defined clear border of the same yellow as the standards. This seems destined for great popularity. Extravaganza x Rajah Brooke. H. M., A. I. S. 1955. 38 in. **\$5.00**

BOUNDING MAIN 54-3 (C. and K. Smith 1958) EML. A most spectacular self with big bold flowers of medium blue that measure 7 x 7½ inches in size. The blooms have a silken texture and excellent substance so that they maintain perfect shape and form in all kinds of weather. The standards are lightly ruffled, the falls are not ruffled, but so broad they flare in voluminous folds. Beard pale yellow tipped white. There is an impression of great strength and vigor when one beholds these flowers. Valley Mist x Serene Valley. H. C., A. I. S. 1957. 39 in. **\$15.00**

BRAITHWAITE (Randall 1956) M. Most captivating and refreshing this two toned iris that is in effect an Amoena has a delightful interesting color pattern with very pale blue-lavender standards and flaring deep blue-purple falls, the edges of which have a border the same color as the standards and this border merges attractively into the main color of the falls. The firmly domed standards are very light and soon pale out to very near white. The clean colored falls flare widely and are heavy substanced. The stalks are strong and sturdy with good branching. Bronze Medal by The English Iris Society in 1952 and was selected for trial at Wisley. Helen Collingwood x Lothario. 34 in. **\$6.00**

BREAKING WAVE (K. Smith 1953) M. A large ruffled pure white with the form of Lady Ilse. In cold weather the 6½ in. flowers sometimes have a slight touch of blue. A most appropriate name, for the very ruffled flowers give the effect of swirling sea foam, and it makes a spectacular clump in the garden. 40 in. **\$3.50**

BRIGHT HOUR (G. Douglas 1952) M. A beautiful outstanding amoena. The closely cupped standards are silvery white, charmingly ruffled. The styles are white, shading to cream at the base and the beard is clear yellow. The falls are velvety purple with a clear ruffled border of white extending two-thirds of the way around the falls. It has great distinction in arrangement of color and quality of the flower. H. M., A. I. S. 1953. 36 in. **\$2.50**

BRONZE ARMOR (Wills 1957) ML. The name is most descriptive of this strong sturdy iris for the color gives the effect of golden bronze and has very firm substance. A smoothly blended flower of golden tobacco brown that is between Spanish Orange (0110/1) and Mars Orange (0113/1). The closely domed standards are slightly deeper because they are faintly flushed with rose, and the wide semi-flaring falls have a lighter tone around the deep gold beard. The large flowers are a darker brown than the parents, but are not dull in color for they have a metallic sheen that adds life and luster to the whole bloom. Centurian x Argus Pheasant. 34 in. **\$10.00**

BURNISHED BLACK (Nesmith 1954) L. This iris is a descendant of Black Satin that has larger flowers and although it is very dark it is more deep blue than its parent. The broad falls are flaring and smoothly finished with no haft markings around the aconite-violet beard. Firm substance with excellent branching and does not fade. (Barbara Adams x Gulf Stream) x Black Satin. 39 in. **\$2.00**

Blue Shimmer

CARISSIMA

PHOTO BY CORLISS

CARISSIMA (Nesmith 1955) M. Captivating and endearing this very ruffled and frilled flower of pure white is notable for its clarity of color and styling of the blooms. The standards are firmly domed and the semi-flaring falls are so heavily ruffled that the flowers have the swirling grace of drifting snow. Parentage Lady Boscawen x 45-52A (Sierra Snow x 43-62D) x (Chicory Blue x Azure Skies). A wonderful iris for hybridizing as it sets seeds, readily and carries the extreme ruffling to its progeny. 38 in. \$5.00

BUTTERMERE (Randall 1958) EM. An iris that is well named for it is a rich and brilliant Buttercup Yellow (5) self with broad firmly domed standards and wide arched and flaring falls. A very smoothly finished flower with no striations and the full yellow beard intensifies the depth of color. An early profusely blooming variety with firm substance and long lasting qualities that has great show and garden value. Selected for trial at Wisley. Jordans x Zantha. 37 in. \$8.00

BUTTERSCOTCH KISS (Plough 1957) ML. A butterscotch yellow with gold dust glitter over all. Falls have an infusion of orchid in center. Edges of falls and standards are heavily laced. Large blooms of firm substance carried on sturdy stalks. (Cascade Splendor x Honeyflow) x Twenty Grand. H.M., A.I.S. 1957. 38 in. \$25.00

CALEDONIA (Douglas 1957) M.L. The crisp white flowers with exceptionally fine branching allow four blooms to be open at once without any crowding. This iris drew the at-

tention of Judges at the Canadian and California Meetings not only for its form and purity of color but for the foliage with clean, narrow, erect leaves, so that the result is a neat, pleasing clump even after it has ceased flowering. The flowers have very fine texture with beautiful quality in the individual blooms. H.C., A.I.S. 1956. 38 in. \$10.00

CALL ME MADAM (J. Nelson 1957) M. Tall and stately this very flaring magenta rose iris has great carrying quality in the garden. The well formed flowers are intensified in color by the bright tangerine beard. Pagan Princess x Mary Randall. 44 in. \$12.50

CALYPSO (Douglas 1955) M.L. Tall, dark and handsome is probably the best way to describe this iris, certainly it is one of the best varieties for in spite of the depth of color it has a lustrous sheen that gives it great garden value. A deep Amethyst Violet (35) self with closely domed standards and flaring falls. There are no venations and the color extends to the very heart of the flower, even the styles and full beard are of the same tone. It is not a somber iris for a velvety luminous brightness adds life and brilliance to this firm subtanced and especially well branched iris. 38 in. \$6.00

CANOBIÉ (Barker 1955) M.L. Crystal clear as the lovely New England lake whose name it bears, this iris is distinguished by the clarity of color and definite style of form and finish. The nearest color in the chart is Butterfly Blue (645/3) and it is an absolute self even to the beard, with very closely held firm standards and wide hafted horizontal falls. A delightful silvery light blue with a cool crispy finish, very heavy substance. 36 in. \$4.00

CAPE COD (Knowlton 1954) M. This iris represents a great triumph in breeding for it is most difficult to create better Amoenas. The flowers have gleaming pure white standards, well domed, and delightfully fluted. The falls are semi-flaring of velvety red-purple with only a slight brownish flush at the haft, and almost no veining each side of the thick yellow beard. The blooms are clear and clean in color with strong well branched stalks. A beautiful iris of great charm and refinement. Extravaganza x Wabash. H.M., A.I.S. 1954. \$6.00

CARNTON (Wills 1955) M.L. This flower is a blend with the color effect of a red, deeper colored than most blends, but bright for a red. This iris adds a brilliant note that stands out in a garden picture. The predominant color is Cardinal Red (822/1) well infused with copper and in the sunlight the flowers glow and glisten with a brilliant sheen. The firm standards are blended red and copper, and the flaring falls are red with a suffusion of reddish copper around the full orange beard. Late flowering with firm subtanced flowers on widely branched sturdy stalks. 39 in. \$7.00

CARIBOU TRAIL (Plough 1957) ML. A colorful iris of rich deep golden brown with a bright violet area in the center of the falls. The edges of the standards and falls are heavily crimped and ruffled. The blooms are large and firmly subtanced. (Cascade Splendor x Honeyflow) x Twenty Grand. H.M., A.I.S. 1957. 32 in. \$15.00

CAROLINE JANE (De Forest 1951) M. A large flowered plicata, heavily ruffled with white ground, and violet edging. One of the loveliest of the new plicatas. A. M., A. I. S. 1955. 38 in. \$2.50

CASCADIAN (Linse 1952) E. M. This child of Snow Flurry and Cloud Castle is an especially good white iris. A ruffled cool, crisp flower with extremely broad standards and the large falls have a chartreuse midrib visible from beneath. Buds have a bluish tinge, but the flower opens a cool white with a white beard. A.M., A.I.S. 1957. 36 in. \$3.00

CASCO (Tobie 1955) E. Petite and charming this border iris is a cross of Amigo x Wabash. The white standards are full and closed, the flaring velvety falls have a white 1/8 inch border surrounding them. Full cream yellow beard. The myriad of beautifully formed flowers are well spaced on strong wiry stalks. It is particularly adapted to flower arrangement or front of the border planting. 28 in. \$2.00

CATHEDRAL BELLS (Wallace 1953) M. Tall and well branched this baby ribbon pink with wide flaring falls has excellent quality and is a great favorite. Although light in color it is definitely pink and the serrated edges give it an airy grace. (Seedling x Overture) x (Golden Spangle x Pink Tower). A.M., A.I.S. 1956. 38 in. \$2.00

CHERRY FALLS (Douglas 1953) M.L. Mr. Douglas in his breeding for Amoenas has had many interesting by-products, but none more so than this iris. It is a cross of (Extravaganza x Paillaise) x (Extravaganza x Wabash). Aglow with life and fire, the yellow standards are erect and firm, while the bright velvety red falls give dash and radiance to this sprightly flower. The blooms are well proportioned to the height of the sturdy stalk. H.M., A.I.S. 1953. 30 in. \$3.00

CHIQUITA (Knowlton 1951) L. The color pattern is most inviting with very light lavender-blue standards and the deep velvety purple falls are distinctly bordered with the same almost white color of the standards. H. M., A. I. S. 1951. 36 in. \$1.50

CHIPPITICA (Noyd 1956) M.L. A delightful plicata done in cream and brown tones. A wide hafted flower with cupped standards and full rounded falls. Firm substanced flowers and rapid increase. Chippewa x Cortica. 30 in. \$3.00

CLOUDLESS SKY (Watkins-Graves 1955) M. The name is most descriptive of this light Cerulean Blue (46/3) that has great purity of color and is void of any lavender infusion. It is a sister seedling of The Citadel and has the full rounded flaring form, but it is more ruffled and displays the same superior character that is found in so many of their iris. Firm textured flowers on sturdy well branched stalks. It attracts the attention of all garden visitors. 39 in. \$8.00

CLOUD PARADE (Plough 1956) M. Visitors to the garden of the originator have given high praise to this very showy pink. A clear, clean bright pink that is nicely ruffled and firmly substanced set off by a fiery red beard that adds great intensity of color to the flower. Strong sturdy stalks with good branching. Cloud Cap x (Gilt Edge x Hit Parade). 36 in. \$5.00

CONCORD RIVER 51-10A (Buttrick 1956) M. An iris of real distinction that has been a high ranking favorite with A. I. S. Judges and garden visitors ever since it first bloomed as a seedling. A delightful and refreshing very light blue iris, broadly proportioned and exquisite in clarity of color. This is due in a great measure to the absence of any veining that often detracts from the beauty of an iris. The standards are roundly domed and firmly held and the broad flaring falls are wide at the hafts. The whole flower has smooth firm texture and is very ruffled with the full white beard an added charm. It has an abundance of bloom with the flowers evenly spaced on strong well branched stalks. Thoroughly hardy and increases rapidly. An iris that merits the attention of all iris fanciers for its pure color and strong sturdy growth. This is from a long line of breeding involving Easter Morn, White Goddess, Seafarer, Great Lakes, Helen McGregor and others. H.M., A.I.S. 1956. 38 in. \$15.00

CONCORD TOWN (Buttrick 1958) M.L. This iris was named for the town of Concord, Massachusetts and is a delightful tribute to the historic town. Majestic in form this very handsome white has received most enthusiastic comments from all iris Judges and last year created a sensation with its great purity of color and beautiful form. The broad full blooms have perfectly domed standards and wide flaring falls that are distinctly ruffled at the hafts and have a fascinating light chartreuse influence around the pale yellow beard. Exceptionally well formed the flowers have such heavy substance that they remain in perfect condition during

strong wind and rain. Sturdy stalks and excellent branching. The Citadel x (The Admiral x Violet Symphony) x Chivalry) x (Snow Flurry x Ave Maria) x Cloud Castle). H.M., A.I.S. 1958. 36 in. \$15.00

COPPER GOLD (H. F. Hall 1952) M. The effect of this beautiful iris is a golden toned copper blend with enough yellow in its pigment to enliven the whole flower. The general color reminds one a bit of El Paso. The blooms are free from venations and have no heavy markings that so often detract from the beauty of a flower. The firm textured flowers are smoothly finished, and the stalks have excellent branching. There is a coppery sheen enveloping the whole flower that gives it great individuality and charm. 39 in. \$2.00

CORONATION GOLD (H. F. Hall 1952) M.L. The most outstanding deep yellow iris that I have seen. It is a self of rich cadmium orange with exceptionally large smoothly finished flowers of semi-flaring form. The whole effect is glowing golden orange with no trace of any other color, even the styles and beard are of the same tone. The firm substanced flowers that do not bleach or fade are nicely spaced on strong well branched stalks. 40 in. \$3.50

CORONATION RED (H. F. Hall 1953) M.L. A bi-tone of glowing Oxblood Red with large flowers of very heavy substance. The standards are very broad, and have a slightly lighter tone than the falls. The wide flaring falls have a lustrous velvety finish, and are void of haft markings that are so often found in red iris. Rich orange beard. The color does not fade and the substance remains firm throughout the day. Vigorous growth. H. C., A. I. S. 1952. 39 in. \$3.50

CREAM CHIFFON (Innes 1953) M. A lovely flower from the usual cross of Blue Rhythm x (Ola Kala x Gold Ruffles). The standards are light canary yellow, the falls are cream with a canary yellow beard. Large semi-flaring flowers, evenly spaced on tall well branched stalks. 38 in. \$3.00

CRITERION (G. Douglas 1951) M.L. The well domed standards are white, faintly veined with very pale blue; the semi-flaring falls are clear blue-violet with a distinct edging of white in sharp contrast to the center of the falls. A prolific bloomer, it is the best amoena that Mr. Douglas has developed from the standpoint of breeding, for it sets seeds both ways. The firm substanced flowers are carried on strong, especially well branched stalks. H.M., A.I.S. 1952. 38 in. \$1.50

CRYSTAL 48-119A (Knowlton 1956) M. Exquisite in form and color harmony this white iris is faintly flushed with light lavender-blue on the styles and the inside of the standards, but the complete effect is a white thick textured flower that is very ruffled, and over all these is a crystalline frost work reminiscent of a snowy winter morn. The standards are broad, arched, and ruffled and the wide falls are rippled on the border. Hardy and a good grower carrying ten to twelve buds on sturdy well branched stalks. Snow Flurry x Chivalry. H.M., A.I.S. 1956. 36 in. \$10.00

CRYSTAL WHITE 49-87B (Nesmith 1957) M. Frilled, fluted, ruffled and as white as newly fallen snow gives a good word picture of this winsome iris. The very ruffled standards are closely held by the strong midrib. The equally ruffled falls are arched and semi-flaring with firm substance. The whole effect is a very pure sparkling white possessing a touch of distinction in its very ruffled form that I have never found in an iris. One of the few of Snow Flurry ancestry that is thoroughly hardy in New England. Snow Flurry x 45-52A (Sierra Snow x 43-62D) x (Chicory Blue x Azure Skies). H.M., A.I.S. 1957. 35 in. \$12.00

DARK HALO (Tompkins 1956) M. This is the most handsome and darkest black plicata that has been introduced. Dark Halo has a white background with a broad border of such deep purple that even at a short distance it appears black. The blooms are large, well proportioned and have very heavy substance. A full rich very dark beard completes the color pattern. To me it seems a new color break that is sensational. Hardy and a good grower with tall well branched stalks. The parentage is most complicated and comes from a long line of breeding. 38 in. \$20.00

DARIEN 24-52 (Wills 1956) M. Lustrous and gay this iris is aglow with life and color and is a distinct innovation in this class. It is an absolute self of gleaming Spanish Orange (010/2) with firm highly domed standards and heavy sub-stanced flaring falls, made even more brilliant by the rich orange yellow beard. The symmetry of form and smooth finish add to the fascination of this sturdy well branched iris. It is hardy both in the north and south. Fort Ticonderoga x General Patton. 38 in. \$8.00

DAWN PINK (Nesmith 1953) L. Much deeper in color than Courtier, it is a bitone with standards of clear medium shell pink, and falls of rather deep azalea pink. The flowers have very smooth firm texture and do not fade under most trying weather conditions. A flaring heavy sub-stanced bloom that has been acclaimed by many visitors as the pinkest iris in the garden. H. M., A. I. S. 1953. 36 in. \$4.00

DEEP DEVOTION (Tompkins 1956) M. L. This iris is a great favorite in the Tompkins garden. A self of clear orchid pink with precisely domed standards and perfectly held semi-flaring falls. A light carnation-like crimping on the edges of the very broad petals adds to its beauty. A very stately iris of exquisite delicate coloring that is enhanced by an orange-red beard. Cotton Candy x Apricot Supreme. H. C., A. I. S. 1954. 39 in. \$10.00

DEMURE (Nesmith 1954) E. M. A demure and delightful reverse bicolor with standards of Orient pink and falls of creamy white. There is a flush of pink and pale yellow each side of the pink tangerine beard. The ruffled blooms are of semi-flaring form and stalks are well branched. 38 in. \$3.00

DERWENTWATER (Randall 1955) M. Charm and quality are united in this clear light Spectrum Blue (45/3) self and has been highly praised as being of perfect form with the color the purest blue making many other blues seem almost lavender by comparison. There are no striations and the nearly white beard adds to the pure color of the bloom. The firm textured flowers with wide hafts and flaring form are carried on strong well branched stalks. Bronze Medal English Iris Society 1953. Helen McGregor x Cahokia. 38 in. \$7.00

DEVOIR (Wills 1953) M. This decorative iris is a medium rose-pink with a slight coppery infusion throughout the flower. The standards are closed and firmly held, the falls are semi-flaring with a touch of soft brown around the yellow beard. A most attractive pink self with firm textured flowers nicely spaced on well branched stalks. Vigorous growth. 36 in. \$3.50

DOCTOR BOB 54-1 (C. and K. Smith 1958) E. This early one is a large flaring pure white with beautifully shaped flowers. The standards are broad and very ruffled with a firm midrib that has a cool chartreuse-white tinge. The falls are arched and flaring with pronounced ruffling at the tips. The blooms are very full and almost overlap around the creamy yellow beard. Firmly textured flowers on well branched stalks. An exquisite iris that has great charm. Valley Mist x Serene Valley. 34 in. \$15.00

DOLLY VARDEN (D. Hall 1950) M. A very attractive iris of light pink with a flush of salmon throughout. It is a self with no haft markings. The flowers are carried on sturdy stalks. H. M., A. I. S. 1950. 34 in. \$2.00

DONNA MARIE 52-51 (Watkins-Watkins 1958) M. L. An alluring iris with full rounded flowers of white and blue that are difficult to portray. The firmly sub-stanced blooms have white lightly ruffled standards that are flushed blue at the base. The blue-white falls are flaring and very ruffled with a tinge of blue at the hafts. The crests of the styles are tipped blue. All this gives the flowers a charming blue flush in the heart of the bloom. The branching is especially good with 3 branches and terminal well spaced on strong vigorous stalks. Jane Phillips x Big Blue Seedling. 40 in. \$12.50

DOWN BEAT (Tompkins 1956) E. M. L. This deep and very blue-violet self has large size and especially good form with broad heavily sub-stanced, cleanly tailored flowers. The hafts are smooth and the rich color extends to the very heart of the bloom. A good grower with widely branched stalks that often carry four open flowers at one time and always attracts attention in the garden. (Campanula x Gulf Stream) x Columbia. H. C., A. I. S. 1955. 40 in. \$5.00

EASTERMOHR (Weidner 1953) M. A Mohr hybrid that is a large full ruffled medium blue with firmly cupped standards and full semi-flaring falls. Tall sturdy three way branching stalks. Hardy and a good grower. It is a very blue Onco-hybrid and a great addition to this class. 40 in. \$6.00

EAST INDIES (K. Smith 1954) L. Arresting in its brilliance and vivid color pattern, it is one of the richest blends in recent years, and always attracts attention in the garden. The flowers are 4 in. by 6 in. wide, and the base color is Café au Lait with an iridescent overflush of violet and lavender. The broad full standards and falls are very crinkled and ruffled, giving an unusual fascinating effect. Well branched. H. M., A. I. S. 1955. 40 in. \$7.50

ELEANOR'S PRIDE (Watkins-Watkins 1956) M. This iris was named for the youngest daughter of Edward Watkins who shares his home. Majestic and beautifully branched, with vigorous growth this powder blue iris has quality in every detail and is destined for great popularity. It is an absolute self with broad beautiful arched standards closely held. The falls are wide and semi-flaring with firm substance and the full white beard is an added attraction. The whole flower is ruffled and has great weather resistance. Jane Phillips x Blue Rhythm. A. M., A. I. S. 1958. 39 in. \$15.00

ELIZABETH NOBLE (K. Smith 1955) M. L. I am very proud of my namesake that has won wide acclaim from iris fanciers. An Amoena in effect with standards opening palest lavender quickly changing to white. The flaring falls are lightly ruffled and the color is pure true purple to the very edge with no haft venations. The feathered crests are brushed with purple and the white beard adds to the color contrast. A distinct break in the Amoena class that has color, balance and beauty to a marked degree. Helen Collingwood x 9-62 (Extravaganza x Fort Ticonderoga). H. M., A. I. S. 1955. 36 in. \$7.00

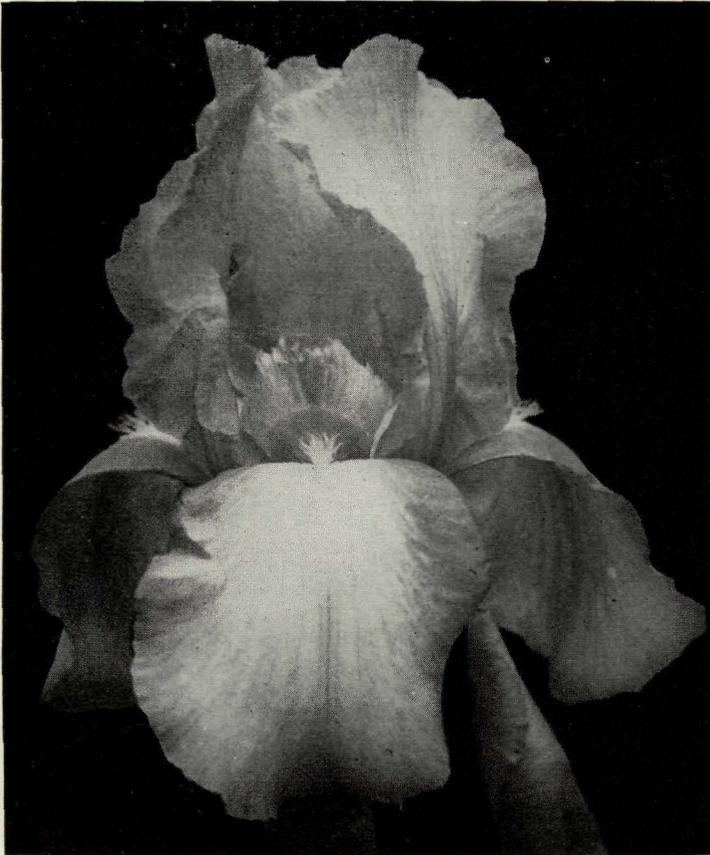

FIRST FLIGHT (Plough 1957) M. A blended flower of Bishop's Violet with nicely domed standards that are lightly suffused with buff. The falls are arched and flaring with heavily crimped and fluted edges on both standards and falls. Beard yellow. Quest x Cliffdell. H. M., A. I. S. 1958. 33 in. \$12.50

FIRST VIOLET (De Forest 1952) M. A remarkable iris with large flaring, beautifully formed flowers of clear sparkling violet. A super creation of ideal proportions. The wide clean hafts and the perfect spacing of the blooms on the sturdy stalks mark this as an excellent iris that has won high praise from all parts of the country. Chivalry x Spanish Peaks. Dykes Medal 1956. 38 in. \$6.00

FLYING SQUADRON (Buttrick 1957) M. The name of this beautiful white is well chosen for with three flowers open at one time on a perfectly branched stalk it is reminiscent of an old time trim clipper ship with sails aloft and flaring in the breeze. The blooms have great purity of color with firmly domed standards, broad falls that flare widely, and over all there is a frosty sheen that sparkles in the sunlight. The iris is highly praised by Iris Judges for the broad firm textured flowers, beauty of form, clarity of color and perfect spacing of the blooms. The Citadel x (Seafarer x Chicory Blue) x Great Lakes. H. M., A. I. S. 1957. 36 in. \$15.00

- FOLK SONG** (Tompkins 1956) M.L. A large flower of deep rich pink with an almost hidden undertone of very pale apricot that seems to heighten the pink coloring. This iris was chosen for introduction on account of its fine form, with extremely broad petals that have a silken finish. A fiery red beard further heightens the color with the long season of bloom an added factor that is most welcome. H.C., A.I.S. 1955. 38 in. \$7.50
- FOXFIRE** (Fox 1952) M. This deep glowing yellow with a lighter area below the brilliant beard has created a sensation in many parts of the country. It has flaring form and vigorous growth. Bryce Canyon x Ola Kala. A.M., A.I.S. 1957. 40 in. \$2.00
- FRANCES CRAIG** (Craig 1952) M. A mohr-hybrid with immense flowers of light greyed lavender well carried on tall stalks. Described by the originator as being tops in substance, quality and garden color. A.M., A.I.S. 1955. 40 in. \$2.50
- GALILEE** (Fay 1956) M. A delightful medium blue self which does not fade. The flowers are large, rounded and full petaled with no haft markings set off by a white beard. Last year in New England it seemed to be turquoise in color. Butterfly Blue x Bluebird Blue. A.M., A.I.S. 1958. 35 in. \$20.00
- GAY HEAD** (Knowlton 1954) M. Really good variegatas are scarce, and Gay Head is the largest and most smoothly finished of any in this group. The full closed standards are clear medium yellow firmly held and ruffled. The broad and rounded falls are deep velvety maroon-red with a border of yellow extending clear up to the center of the bloom. The flaring falls are remarkably free of haft venations, and the deep yellow beard gives added brilliance. H.M., A.I.S. 1954. 36 in. \$6.00
- GAYLORD** (Douglas 1949) V.L. Tall and distinctive, with broad white standards, and flaring falls of rich blue-violet, edged with a narrow border of white. A very handsome Amoena with wide hafts and thick orange beard. Sturdy three branched stalks. H.M., A.I.S. 1949. 40 in. \$2.50
- GAY SPRING** (Knowlton 1953) M. Most attractive in color and form, this clear golden yellow seems to fill the need for a firm substandard yellow with great clarity of tone that can withstand the elements. A ruffled eye catching flower with well domed standards, and wide flaring falls. There is a lustrous, almost velvety sheen throughout the bloom, and the deeper orange beard adds to the brilliant color. H.M., A.I.S. 1955. 38 in. \$3.50
- GLOWING GOLD** (Knowlton 1954) M. A most appropriate name for this deep yellow iris because it glows and glistens like sparkling gold. A cross of Golden Moon x Goldbeater, it has greater depths of color than the pollen parent, and a very broad haft with a flush of cream just below the deep yellow beard. The standards are rich yellow, firmly domed, and the styles are the same color. Firm substandard and with good branching it has a brilliance that makes it stand out in the garden. H.M., A.I.S. 1955. 38 in. \$6.00
- GOLD ANTHEM** (Douglas 1954) M.L. Yellow is a most necessary color in our gardens, and few iris have the abundant bloom of this high ranking exceptionally bright, clear yellow self with the color intensified by the bright yellow beard. The broad full petaled flowers are very sun resistant, and the tall widely branched stalks and long season of bloom give this iris special value both as a specimen stalk or as a clump in the garden. 40 in. \$5.00
- GOLDEN CORONET 54-65A** (Nesmith 1958) M. L. Beautiful in form and arrangement of color this white and gold iris has a real personality. The arched and firmly domed standards are clear white lightly ruffled at the edges. The white falls flare widely and are embellished with a broad smooth gold overlay on the upper portion that surrounds the rich gold beard. For comparison it can be visualized as a better Patrician for it has a smoother more mellow golden haft with larger flowers and much better height and branching. Firm substandard blooms on sturdy 3 way branching stalks. Warm praise has been given this iris by discriminating Iris Judges. (Helen McKenzie x Seedling 52-4A) x Patrician. 37 in. \$15.00
- GOLDEN DRAGON 49-90B** (Nesmith 1957) M.L. Two characteristics give this deep Indian Yellow (6) great garden value; the rich color that remains clear and fresh under most trying weather and the abundance of bloom on tall perfectly branched stalks. It is an absolute self with erect domed standards that are beautifully ruffled. The falls are generously fluted with no tinge of any other color and the deep yellow beard adds to the depth and brilliance. It is quite different from any other yellow for it has a luminous quality that always attracts attention. 47-53B (45-63A x Ola Kala) x Moontide. 39 in. \$10.00
- GOLDEN GARLAND** (D. Hall 1957) VL. Large handsome blooms of brilliant golden yellow and white that in effect is a reverse bicolor with lacework and crimping on the edges of both standards and falls. It somewhat resembles Truly Yours, but has a much stronger stalk and better form and is a more sturdy grower. H.M., A.I.S. 1957. 40 in. \$10.00
- GOLDEN HAWK** (K. Smith 1951) M. A handsome bright primrose yellow self. The large blooms have gently ruffled standards and neatly tailored semi-flaring falls. The stalks are wonderfully branched and often there are seventeen well spaced flowers on one stalk, very smooth and well substandard. H.M., A.I.S. 1952. A.M., New York Horticultural Society 1953. 44 in. \$6.00
- GOLDEN RULE** (H. F. Hall 1950) M.L. Distinctive among the rich yellows this late flowering variety is well worthy of a place in any garden. A deep aureolin self with a smooth finish devoid of venations. Heavy substandard with fine branching. 40 in. \$2.50
- GRASMERE** (K. Smith 1953) M.L. A large, very ruffled pale blue self with no striations. The standards are arched and closed with broad falls arched and flaring. Beard inconspicuous and tipped white. Flowers are 6½ inches wide with 5 branches. A most attractive iris. 42 in. \$3.00
- HAPPY BIRTHDAY** (D. Hall 1952) M. Large ruffled flowers with a deep tangerine beard that adds brilliance to the bloom. Similar in color to Heritage, but a larger flower. An iris of great charm with firm texture in both standards and falls. A.M., A.I.S. 1954. A.M., R.H.S. 1958. 34 in. \$2.50
- HAPPY WANDERER** (Lapham 1957) M. Clear Tapestry Red self with clean smooth haft and rich orange beard. The flowers are large with rounded falls and broad closely held standards. Excellent substance and weather resistant. Town Talk x Dress Rehearsal. 36 in. \$10.00
- HARRIETTE HALLOWAY 50-44** (K. Smith 1956) E.M. This iris is named in honor of Miss Halloway who for twenty-five years has worked tirelessly that the public planting in Cedarbrook Park at Plainfield, New Jersey should be a thing of beauty. According to color charts, the color is a light bluish violet, but the garden effect is very blue. It reminds one a bit of Keene Valley but a deeper color, more ruffled, and a broader large flower. Apart from the perfection of form, the blooms are very fragrant and have heavy substance. Keene Valley x Jane Phillips. 36 in. \$7.00
- HEART'S DESIRE** (J. Wills 1950) M. Brilliant rose-red in color with wide branching and strong sturdy growth. This iris has an exceptionally smooth finish, heavy substance and long season of bloom. The domed and overlapping standards are rose-red. The lightly ruffled falls a deeper velvety red with a touch of copper brown. 38 in. \$2.00
- HELEN COLLINGWOOD** (K. Smith 1949) M.L. A very brilliant iris in the neglecta class. The standards are light lavender, broad and firmly held. The bright violet-purple falls are flaring with wide hafts. The heavy substandard flowers have a neat ruffling at the border. The tall sturdy stalks are well branched and the growth is vigorous. A.M., A.I.S. 1952. 40 in. \$15.00
- HELEN MCKENZIE** (Graves 1950) M. Clarity of color and perfection of form are the outstanding features of this pure white iris; it is really white with no haft markings or touch of any other color in its makeup. The standards are perfectly domed and firmly held. The falls, flaring and broad, the firm, smooth texture of the blooms, have perfect placement on the well branched stalks. H.M., A.I.S. 1950. 37 in. \$15.00

JANIE VAUGHN

JANIE VAUGHN (K. Smith 1957) M. Most attractive is this cool lemon yellow that has a firm wax-like texture and rare perfection of form. The standards are broad and well domed. The falls have a large white area in the center surrounded by the same color as the standards. Delicate in hue it seems to have a fresh immaculate look that is most inviting. A great improvement over its parents, both in size and color. Marion Vaughn x Mattie Gates. 35 in. \$10.00

HUMMING BIRD (Knowlton 1952) M. Light and airy, the very ruffled flowers of Egyptian buff and white have great appeal in their luminous color harmony. The crisp fluted standards are buff, firmly held by the strong midrib. The broad flaring falls are white, lightly bordered with the buff of the standards, and the center of the flower is illumined by a deeper glow accentuated by the short orange beard. Strong well branched stalks. H.M., A.I.S. 1952. 40 in. \$2.00

HYBLAZE (H. F. Hall 1952) M. A brilliant rich red with chrysanthemum crimson standards and falls of oxblood red bordered by the same color as the standards. This iris has great sun resistance and is tall and well branched. 40 in. \$2.50

ICE CARNIVAL (Watkins-Graves 1954) M. L. This iris is derived from Jane Phillips x Mt. Jefferson and is a most distinctive break in color pattern. A very flaring flower with white falls, and full standards of light azure blue. The whole flower is very frilled and ruffled with cool crisp iridescence, and it is the best reverse blue bicolor that I have seen. Delightful and refreshing, it possesses an unusual and individual beauty. Tall with firm substandard flowers and excellent branching. H.M., A.I.S. 1954. 38 in. \$6.00

ILLUSTRIOUS (D. Hall 1953) L. A very late blue, flowering about the same time as Extravaganza. Large flowers of uniform deep blue with smooth brownish hafts and inconspicuous beard. Good substance and branching. 36 in. \$1.50

IMPERIAL WOMAN 55-61 (C. and K. Smith 1958) M. L. Tall and imperial in carriage, yet most womanly in its extreme ruffling, this blue-violet self has great individuality. Rich in color with satin smooth texture and very pale violet beard with flecks of turquoise on the crests. The extremely broad standards and falls are wonderfully ruffled and flaring with the flowers measuring 5 ½ inches high and 7 ½ inches wide. Strong widely branched stalks carry the firm substandard blooms with magnificent poise and placement. Vigorous growth with rapid increase. From involved Smith blue line breeding 52-27 x 51-9. 41 in. \$15.00

INCA CHIEF (Mitsch 1952) M. L. A spectacular iris with a lustrous golden bronze sheen. The lightly ruffled flowers are wide petaled and have heavy substance set off by a rich bronze beard. A.M., A.I.S. 1954. 35 in. \$2.50

INVERNESS (Watkins-Watkins 1957) M. This is the newest white from the master hand of Edward Watkins and was named for a town in Scotland. It does not seem possible to believe, but it is whiter than Helen McKenzie that has been considered the whitest of the whites, in fact it out does The Citadel, making it have a creamy tone by comparison. The standards are closed and firm. The arched and flaring falls are very wide at the hafts with no venations in the throat and a white beard. Mr. Watkins says that the blue of Major Eff has whitened the white of Helen McKenzie. Excellent substandard blooms are well carried on three way branching stalks. Helen McKenzie x Major Eff. H.M., A.I.S. 1957. 36 in. \$18.00

IRIDESCENCE (Nesmith 1955) M. Luminous flowers that glow and glisten in the sunlight. It is a self of Spinel Pink (0625/2) with roundly domed standards and strong midribs. The falls are broad and semi-flaring with a full pinky tangerine beard. The whole flower has very firm substance and is smoothly finished with almost no self venations. 47-11A (45-8B x Pink Cameo) x Radiation. 37 in. \$2.50

IVORY SNOW 54-50A (Nesmith 1958) M. A full petaled white of lovely ruffled flaring form and sparkling sheen. The very frilled standards with a strong midrib are firmly domed and the flaring falls have the same extreme frilling. There is an opaque quality in this iris that makes the whiteness unusually intense and the pale yellow beard tipped white completes the fascinating ensemble. Firm substandard blooms on 3 way branching stalks. Crystal White x W-63 (H. F. Hall white seedling) 37 in. \$10.00

IVORY WORK (Wills 1955) M. This iris is well named for it reminds one of the delicacy in detail that we find in a piece of beautiful carved ivory. The standards are cream, charmingly ruffled and firmly held. The arched falls are pale ivory with a narrow, but distinct border of the cream of the standards, broadening a bit on each side of the pale yellow beard. A cross of Star Shine x Amadine, it has inherited firm substance and great beauty of form from its parents. Few can resist the appeal of the delectable color of this winsome iris. H.M., A.I.S. 1957. 36 in. \$7.00

JAN HESS (Watkins-Graves 1955) M. Blue iris in varying shades are always welcome for they are needed to lighten up the color pattern of any garden. A broadly formed medium blue bitone that has a deeper coloring than Helen McGregor, Jane Phillips and Kiki. The broad well held standards are Sea Blue (043/3) and the flaring falls are darker but in the same general color tone. Firm substandard blooms well spaced on widely branching stalks. 39 in. \$5.50

JUNE BRIDE (D. Hall 1952) M. Large flowers of deep flamingo pink with a soft buff undertone giving the blooms an apricot pink flush that is most inviting. Heavy geranium pink beard. Good substance and height. H. M., A. I. S. 1952. 30 in. \$1.50

JUNE MEREDITH (Muhlestein 1954) M. L. A real self of very rich deep pink of ruffled form and a heavy tangerine beard. The flowers have good size with broad standards and falls that have excellent form and substance. A bright luscious pink that seems to be a real advancement in the deep flamingo pinks. A. M., A. I. S. 1956. 30 in. Stock Limited. \$10.00

KEZAR LAKE (Knowlton 1951) M. A clear medium blue self with broad firm standards and wide falls that are lightly ruffled. Strong sturdy stalks with perfect branching. H. M., A. I. S. 1951. 38 in. \$1.50

KIKI (Graves 1951) M. A self that has a slightly deeper tone than Jane Phillips and very clear in color, enveloped by a frosty sheen that sparkles in the sunlight. Form, substance and branching excellent. H.M., A.I.S. 1953. 39 in. \$6.00

LADY ISLE (K. Smith 1951) M. L. An exquisite powder blue iris all frilled and ruffled and over all a glistening sheen. The flowers have very firm texture, and the uniform color due to the absence of venations adds to its charm. A. M., A.I.S. 1955. 41 in. \$2.50

LANDS END 47-57F (Watkins-Graves 1956) M. The name was suggested by Mr. Harry Randall of England when he first saw this iris as a numbered seedling for he was very much impressed by its beauty. A blue that is a real blue self in the medium blue class for it has less lavender in the pigment than any iris that I have seen, and other Judges have said the same. A perfectly branched stalk and the flowers are evenly spaced with no crowding. A full clean flower with very ruffled well closed standards. The flaring falls are extremely wide at the haft, lightly fluted and rounded at the tips. A very fragrant iris with great garden value. Chivalry x Snow Carnival. H.M., A.I.S. 1957. 38 in. \$10.00

LARGESSE (Wills 1955) M. Captivating and refreshing this very large lemon cream combines size with good form and substance to a striking degree. The flowers are Primrose Yellow (601/3) with very broad standards and widely flaring falls that are waved and ruffled at the edges. There are no haft venations around the deeper Primrose beard. Well branched with three branches and terminal and nine or more buds evenly spaced on sturdy stalks. A cross of (Fairy Lustre x Golden Eagle) x Amandine. 39 in. \$8.00

Laurie Blakeney (Watkins-Watkins 1957) M. This iris was named for the granddaughter of Mr. Willis Thompson of Concord, N.H. It comes from the same line of breeding as Jane Phillips. Charming and delicate in color this clear very pale hyacinth blue has gracefully ruffled flowers that have a delightful personality. The blooms are large with firmly cupped standards and the broad falls are arched and flaring. The whole flower has a crisp cool appearance that makes it a great favorite in the garden and is one of the best in this pale hyacinth blue class. Helen McGregor x (Pale Moonlight x Great Lakes). 38 in. \$10.00

LAVISH LADY (Buttrick 1954) M. The name is most descriptive of this winsome lady for it is a very lavishly ruffled flower of Sea lavender violet that is delicate, yet fresh in color and is most effective in the garden. An iris that is difficult to portray for it has a delectable mauve coloring that is not in any measure described by the color chart, it must be seen to visualize the beauty of this lovely flower. The large broad, well spaced blooms with firm substance, make it an iris of unusual charm and refinement. I know of nothing quite like it in the light violet tone, and it has been admired by Judges and garden visitors for its exceptional distinction. H.M., A.I.S. 1954. 38 in. \$8.00

LEGIONNAIRE (Watkins-Graves 1953) M. An iris bred by Mr. Edward Watkins during his many years of association with the late Dr. Graves. An exquisite flower of palest blue with a deeper blue flush toward the center and hafts of the bloom. The crisp ruffling of the standards and falls gives an airy grace that is most delightful, and an added charm is the superb branching. H.C., A.I.S. 1952. 44 in. \$2.00

MAGIC CRYSTAL 54-42A (Nesmith 1958) M. L. Tall and stately this cool white iris has definite personality and charm. The crisp firm flowers have highly domed standards and the flaring falls are infused with a touch of pale crystalline green around the white beard. The well substantiated blooms are carried on tall firm stalks that have both high and low branching, something to be desired in any iris. This iris attracted many Judges and garden visitors last year. Sister of The Citadel x Crystal White. H. C., A. I. S. 1957. 38 in. \$15.00

MAGIC SAILS (Nesmith 1951) E. M. A huge rounded flower of very pale blue with especially strong firm substance. A cross of Helen McGregor and St. Regis, it has inherited many fine qualities from both parents, and has been greatly admired by many A. I. S. judges. A self with the exception of the beard which is very pale yellow heavily tipped with white. The whole slightly ruffled flower has a silvery lustre not found in many pale blue iris. The flowering stalk is sturdy with good branching. H. M., A. I. S. 1951. 38 in. \$4.00

MAJOR EFF (Watkins-Watkins 1955) M. Much darker in color than other blues from the master hand of Edward Watkins. It is a medium violet blue self and Bluebird Blue (042) is the nearest tone in the Color Chart. The standards are well closed and upright, the falls broad and semi-flaring with neat ruffling at the rim and the almost white beard is in sharp but pleasing contrast to the dark rich color of the bloom. Firm substantiated, with three branches and terminal. Parentage (Shining Waters x Glorioso) x Great Lakes x Cloud Castle. H.M., A.I.S. 1956. 39 in. \$10.00

MARY RANDALL (Fay 1951) M. Few iris have created as much interest as this deep rose pink self. It is a new break in color. The large well formed flowers are heavy substantiated and are nicely spaced on well branched stalks. Pollen fertile and it sets seed in abundance. Dykes Medal 1954. 36 in. \$5.00

MAYFLOWER 51-H.21A (Knowlton 1958) M. L. Mr. Knowlton has achieved an advancement toward the true blueness of an iris in this blue that has size, vigor and perfection of form. A self with large flowers of clear medium blue having roundly domed standards and flaring rippled falls with a light area at the haft surrounding the pale primrose beard that is tipped white. The flowers are so firmly substantiated that they have a frosty enameled finish. It was warmly praised by Iris Judges in 1957. Widely branched with vigorous growth. Chivalry x Jane Phillips. H. C., A. I. S. 1957. 38 in. \$12.00

MAY HALL (D. Hall 1954) M. Mr. Hall considers this the best pink that he has produced and has named it for his wife, a most lovely gentlewoman. A clear and very bright shade of pink that is highlighted by a vivid beard. Many flaring flowers with good branching. A handsome iris. Dolly Varden x Pink Seedling. A.M., A.I.S. 1956. 36 in. \$5.00

MAYTIME (Whiting 1950) M. L. A lilac pink amoena of clean fresh coloring. The wide standards are clear orchid pink, the broad flaring falls are deeper in tone. A new color combination that has won high praise. Good branching and growth. A.M., A.I.S. 1953. 36 in. \$2.00

MELBREAK (Randall 1957) M. There are many pink iris, but Melbreak is a new break in this class and a very handsome flower. Deeper and more warmly colored than the iris Mary Randall, the nearest shade is Rose Opal (022/2) and this gives a depth of tone that I have never seen in any pink iris. A full firm textured flower with broad firmly domed standards and wide rounded falls that have a flush of glowing pink, as if a painter had blended pink and warm brown on his palette before applying the pigment to the bloom. A smoothly finished flower with no venations and the very full tangerine beard intensifies the gradation of color. The blooms are very sun resistant and are nicely spaced on three way branching stalks. A most resplendent iris of great garden value. (Cherie x Angela Borgia) x Mary Randall. Preliminary Commendation of the British Iris Society and selected for trial at Wisley 1956. Silver Medal British Iris Society 1958. 37 in. \$10.00

MEMORIES (H. E. Sass 1953) M. L. A delightful pink that has many fine qualities. The large flowers are heavy substantiated and widely ruffled with a deeper pink beard that accentuates the beauty of the bloom. Excellent branching, sturdy stalks and a fine parent. H.M., A.I.S. 1953. 36 in. \$7.50

MEXIGLOW (Crosby 1953) M. Large widely flaring flowers of golden brown and copper with a flush of rich violet in the falls. A most luscious color. Mexico x Mellowglow. H. C., A.I.S. 1951. 35 in. \$3.00

- MISS CHRISTINE** (Watkins-Watkins 1954) M. Some iris depend on color for their beauty, others for perfection of form and finish, and this iris is a combination of both. The large flowers of rich creamy yellow have broad falls, lightly fluted and ruffled. The standards are firm and rounded with smoothly finished texture. The wonderful mellowness of color coupled with the fine form and substance places this iris in the front ranks of the modern yellows. 39 in. \$5.00
- MOONLIGHT MIST 55-15** (C. and K. Smith 1958) EL. An exquisite flower of pale lavender-blue with smooth light yellow hafts and bright full yellow beard, thus making a beautiful and unusual combination of color. The flowers are of traditional formal shape not marred by coarse veining with blossoms 5½ inches high and 6½ inches wide, delicately rippled at the edges and carried on well branched strong stalks. A cool frosty sheen covers the entire bloom that has a very smooth firm texture. Garden visitors in the past two years have urged the introduction of this iris. South Pacific x (Admiration x Blue Valley). 36 in. \$15.00
- MYSTIC LAKES** (Barker 1954) M. L. Blue as a clear mountain lake, this iris always attracts the eye of garden visitors. A medium blue self with smoothly domed standards, and almost horizontal falls that are nicely ruffled at the rim. There is no coarse veining in the blooms, and only slight venations at the haft. Of uniform color throughout, this strong sturdy iris has very firm texture, and especially long season of bloom. H.M., A.I.S. 1954. 36 in. \$4.00
- NASHBOROUGH** (Wills 1957) E. M. Rich and colorful this handsome variegata has been a great favorite with garden visitors since its first flowering. The ruffled firmly domed standards are Indian Yellow (6/3) with wide arched and flaring falls of rich Ruby Red (827/1) that have a velvety finish. The styles are the same color as the standards with the crests tipped ruby red, and the full gold beard adds to the life and brilliance of the whole flower. The development in variegatas has been slow, but Nashborough is a vast improvement in this class for it is very smoothly finished without the usual haft markings and venations that are often in a variegata. The flowers have heavy substance and withstand rain, cold, and heat without bleaching. Strong sturdy stalks with three branches and terminal. This iris comes from a complicated breeding with Gay Troubadour in its ancestry. H.M., A.I.S. 1957. 36 in. \$22.00
- NIGHT STORM** (De Forest 1954) M. Quite different in its rich coloring is this variegata with standards of golden bronze and falls of smooth velvety blackish purple. Orange beard. 35 in. \$2.50
- NORTHWESTERN** (F. Cook 1951) M. This iris ranks high as one of the best royal purples. A majestic clear pure self even to the hafts and beard with large flowers well spaced on tall sturdy stalks. Blue Glow x Gulf Stream. A. M., A. I. S. 1953. 39 in. \$2.00
- OLYMPIC STAR** (Douglas 1957) M.L. This is a sister seedling of Queen's Taste that came from Amoena breeding and charmed many visitors in Lowell and at Nashville. Lovely in color and form with highly domed standards of palest blended lavender and semi-flaring falls of very deep, bright, maroon with no haft markings. The prominent white beard is an added attraction in the delightful color contrast of the flower. The lightly ruffled blooms of firm texture are carried on tall, well branched stalks. This most unusual and fascinating iris was sired by the giant Olympian and has been named Olympic Star. (Extravaganza x Wabash) x Olympian. 38 in. \$8.00
- OLYMPUS SKIES** (Carlston 1955) E. M. A clean white and blue plicata with very wide petaled flowers having a pure white background with delicate blue plicata markings on both standards and falls. Snow Flurry x Aludra. 40 in. \$3.50
- PAGAN GOLD** (G. Douglas 1951) M. L. A very large flower of heavy substance and almost velvety finish. A self of rich clear yellow with broad cupped standards and wide flaring falls that seem a tone deeper on account of their velvety texture. 8 to 10 flowers on well branched sturdy stalks. H.C., A.I.S. 1948. 40 in. \$3.50
- PAGAN ROYAL** (G. Douglas 1951) M. Some iris are especially good for garden value in that their rich coloring stands out from afar. Such an iris is Pagan Royal with its big bold flowers of deep red-violet. A self with broad domed standards and large flaring rounded falls. The flower gives the effect of a glowing rich purple that is vivid and different from other dark purple iris. The branching and the placement of the blooms is excellent. H. M., A. I. S. 1952. 40 in. \$2.50
- PARTY DRESS** (Muhlestein 1951) M. L. A lovely ruffled pink of airy form and grace. The color is clean and fresh with an abundance of flowers on well branched stalks. A. M., A.I.S. 1954. 36 in. \$1.50
- PATH OF GOLD** (E. L. Hodson 1943) E. A delightful yellow dwarf iris that is well named for it literally makes a Path of Gold. The plants are very floriferous and hardy, a gem for bordering a path. Dwarf Iris Society Awards; Special Merit, 1951. Blue Ribbon, 1954. Silver Medal, 1955. The last is the highest honor that a dwarf iris can obtain and is equivalent to the Dykes Medal Award for the Tall Bearded. The Caparne Award 1957. 6 in. \$2.00
- PATRICIAN** (H. F. Hall 1953) M. There does not seem to be words to adequately portray the beauty of this iris. It is a pure white of flaring form with a decidedly broad overlay of Barium Yellow on the upper part of the falls each side of the full yellow beard. The standards are highly and firmly domed with smoothly finished texture. The falls are very flaring, and are ornamented by the golden escutcheon toward the center of the bloom. Highly praised by A.I.S. judges. Very heavy substantanced flowers with good branching, and hardy vigorous growth. A.M., A.I.S. 1958. President's Cup 1958. 36 in. \$5.00
- PERSONALITY PLUS 51-11** (K. Smith 1956) E. M. This iris is well described by the name for it has charm, personality, and quality to a marked degree. The well domed standards are clear flamingo pink. The flaring falls are lilac pink set off by a bright tangerine beard. The large blooms have firm substance and are very broad and ruffled. Hardy and the growth is vigorous with four way branching stalks. The most colorful pink in the garden. Angela Borgia x Radiation. 35 in. \$8.00
- PINK BOUQUET** (D. Hall 1953) M. A delicate baby ribbon pink. The ruffled flowers are borne in great profusion and a clump provides a lovely mound of soft but definite pink. 30 in. \$2.50
- PINK FULFILLMENT** (Muhlestein 1954) M. L. Full fashioned flowers of rich deep pink with a heavy tangerine beard. The blooms are quite large with broad standards and semi-flaring falls. The flowers are well substantanced and some people like this better than June Meredith. Complicated parentage of various pinks and yellows. President's Cup 1954. A.M., A.I.S. 1955. 36 in. \$22.50
- PLACID HARBOR 54-61B** (Nesmith 1958) M. L. There have been many pink iris introduced in recent years and after all this furore the name of this one seems most expressive for it is a smoothly finished flower of mellow Azalea Pink (618/2) accented by a rosy tangerine beard. The broad conic standards are strong and firm with wide hafted falls that are neatly ruffled. The luscious firm textured flowers are borne on tall 3 way branching stalks. I have tested this iris for several years and garden visitors agree with me that it is well worthy of introduction. Memories x Dolly Varden. 38 in. \$12.00
- PRECIOUS DAYS** (K. Smith 1953) E. M. L. This is very similar in color to Grasmere, but in a more formal shape. The very pure blue flowers are nicely poised on strong well branched stalks, most vigorous in growth, each rhizome usually sends up 3 magnificent stalks with 5 branches with the lowest re-branched. One of the first to bloom in the garden, and one of the last to go because of the prolific bloom. Judged the best stalk in the May Show of the New York Horticultural Society in 1953. A. M., Hort. Soc. of New York 1953. 39 in. \$3.50
- PRETTY GAY** (Plough 1957) M.L. An exciting novelty is this white iris with a fiery red beard. A self with broad domed standards and wide semi-flaring falls with many flowers on well branched stalks. An innovation in iris breeding. Party Dress x Mary Randall. H.M., A.I.S. 1955. 34 in. \$10.00

PRETTY QUADROON (Kleinsorge 1948) L. A dusky beauty done in tan and brown with undertones of lavender and gold throughout the flower. A smoothly finished flower enlivened by a metallic sheen. A.M., A.I.S. 1950. 34 in. \$2.00

PRIVATEER (Tompkins 1954) M. L. A brilliant red self of large size with broad petals and neat flaring form. The finish is velvety and smooth with no haft markings and the flowers do not burn or fade. Ebony Echo x Technicolor. H. M., A. I. S. 1954. 36 in. \$5.00

PURISSAMOHR (E. Weidner 1952) M. L. A pure white ruffled Onco-hybrid that is thoroughly hardy in New England. The large flowers with firm texture have closely domed standards and broad semi-flaring falls. The beard is golden tan. The strong stalks have excellent branching that permits ten blooms to be well displayed. Wm. Mohr x Purissima. H.M., A.I.S. 1952. 40 in. \$2.00

QUEEN'S LACE (Muhlestein 1955) M. L. Graceful, heavily laced and crimped creamy white flowers with the edges of the petals, the hafts and beard tinted light yellow. The blooms have such a heavy lace edge that sometimes they have difficulty in unfolding. An unusual and fascinating iris. Clara B. x Gold Ruffles x Chantilly.) A.M., A.I.S. 1957. 38 in. \$10.00

QUEEN'S TASTE (G. Douglas 1952) M. L. This lovely iris occurred as a by-product of Amoena breeding. The well domed standards are light lavender pink with semi-flaring falls that are a rich tone of blended red, very rich and velvety. The flowers are firm textured, the branching of the stalk is good and the growth vigorous. A fascinating iris. Criterian x Olympian. A.M., A.I.S. 1955. 38 in. \$3.00

RADIANT RED (H. F. Hall 1953) M.L. Rich and smooth, the bold flaring flowers are Indian Lake in color, but the effect is a bright mahogany bitone. Rich orange beard. Abundance of bloom on strong well branched stalks. 39 in. \$1.50

RED CAP 49-79A (Knowlton 1958) M. Rich red in color this bitone has a smooth velvety finish with an absence of veining on the hafts and an exceptionally well branched stalk not often found in a red iris. The falls are deep clear velvety red and flare horizontally bordered by a lighter tone that is the same color as the firmly held standards. Thick orange beard. A most welcome addition to the limited number of good reds. Mary Ellen x Quechee. H. C., A. I. S. 1952. 36 in. \$12.00

REHOBETH (DeForest 1953) M. Exquisite in color this palest sky blue has received high praise from all parts of the country. Large flowers of such exceptional substance that they seem carved from porcelain. The seven inch blooms are flaring and have a smooth satiny finish. Etheral flowers of refined color and beauty. Snow Flurry x Lake Shannon. A. M., A.I.S. 1956. 36 in. \$4.50

RIGHT ROYAL (Wills 1954) M. L. We have many red iris but I do not know of one that is more smoothly finished or warmly colored than Right Royal. The standards are cupped and firmly held, the falls are semi-flaring and have great nicety of form. A rich rose red that is well branched with three flowers open at one time with no crowding. It has great concentration of color. 36 in. \$4.00

RIVIERA (Plough 1957) M.L. Large full flowers of Dresden Yellow with a blue-white area just below the orange beard. The heavily ruffled blooms are carried on well branched stalks. Vigorous growth. (Gold Ruffles x Cherie) x Twenty Grand. H.M. A.I.S. 1958 34 in. \$12.50

ROBERT J. GRAVES 55-70 (C. and K. Smith 1958) L. This late flowering iris is a very large flaring pure white with a pale yellow beard. The blooms are similar in form to those of South Pacific, but are more broad both in the closely held standards and the very wide full falls that are nearly horizontal. The flowers measure 7 inches wide and 5 1/2 inches high and are generously ruffled. A handsome iris with firm subtanced flowers well spaced on strong, sturdy stalks. South Pacific x Valley Mist. 35 in. \$15.00

ROSE GARLAND (Wills 1954) M. Few iris have the perfection of form and poise of this very large rose flower. Tall and well branched, the firm subtanced blooms make a most colorful garden picture. It is self of Rose opal with a touch of golden copper at the haft each side of the coppery gold beard. The roundly domed standards and broad flaring falls have very firm texture and retain their clear rose color in most adverse weather. 40 in. \$4.00

SABLE NIGHT (P. Cook 1952) M. Tall and stately this extremely dark iris merits all the praise that it has been given since its introduction. The standards are nicely domed, the falls semi-flaring and the great depth of color is not dull but wonderfully brilliant. An iris of distinction with great refinement in form and finish. Dykes Medal 1955. 38 in. \$5.00

SAFARI (Plough 1955) M. L. A fancy typed plicata that is washed and veined with thread-like lines of warm brown. The firmly held standards are bright tan. The falls have a cream background with an all over wash of the tan color of the standards. There is a small lighter area at the tip of the yellow beard. A fascinating flower with sturdy growth and it is a good breeder. Firecracker x Late Sunset. 30 in. \$1.25

SAILOR HAT (Henderson 1955) E. M. Picture a crisply styled bloom with broad firm standards of light cream and flaring falls of white with a contrasting neat yellow ruffling that gives a jaunty whirl to the very border and you will have some idea of its beauty. Another fascinating touch is the yellow color on the underside of the white falls that is reminiscent of Star Shine. Exceptionally floriferous, firm subtanced, and well branched. H.C., A.I.S. 1954. 39 in. \$3.00

SAPPHIRE SEA (Noyd 1956) M. The light blue flowers are very large and ruffled with domed standards and broad waved falls. A clear blue iris that is extremely fragrant and does not fade in hottest sun. Sturdy stalks with very good branching. Helen McGregor x Spanish Peaks. 38 in. \$5.00

SARAH FOWLER 50-71 (Watkins-Watkins 1958) M.L. Blue iris are essential in any garden and this one is a descendant of very famous parents. Uniform in color this clear medium blue has a bewitching charm due in great measure to its silvery glistening texture and lovely form with no fading or changing of color. The standards are firmly domed with arched flaring falls that are both ruffled and fluted. The white beard tipped blue adds to the personality of this firm subtanced well branched iris. (Helen McGregor) x (Pale Moonlight x Great Lakes) x (Jane Phillips.) H. C., A. I. S. 1954. 36 in. \$18.00

SARAH SHOCKEY 52-40 (K. Smith 1956) M. This iris named for Mrs. Smith's mother was selected as a personal tribute to this delightful lady. It is the lightest possible blue, and in spite of the delicate color it never becomes white. The blooms are very broad and ruffled with suede-like texture and the color is uniform with the exception of the lovely orange beard. Beautifully branched stalks with the lowest branch re-branched, thus giving a long season of bloom. Serene Valley x Lady Ilse. 36 in. \$7.50

SCIMITAR (Wills 1954) E. M. Rich and resplendent this coppery-rose and brown iris glows and glistens in the garden, and brings to this class a warmth of color seldom seen in an iris. The firmly held standards are brown lightly flushed with coppery rose. The flaring falls are bright rosy brown with an electric blue blaze at the base of the bright yellow beard. Firm subtanced, and well branched this early flowering variety is a novelty in color. 36 in. \$5.00

SEAFARER (Buttrick 1949) M. L. The name suggests the clear blue waters of the sea and it is most appropriate. A true medium to deep blue self, free from veining, thus has great clarity of color and is more blue than any others of similar color depth. Firm subtanced flowers with fine low branching. H.M., A.I.S. 1949. 36 in. \$2.00

SEA MASTER (H. Sass 1956) M.L. A most impressive flower that is large in size and broad in form with clear deep medium blue (Moorish Blue 739/1) ruffled blooms and is quite different from other blues in this color class. There is a white area around white tipped beard. An iris of individual richness that has firm substance and strong stalks. Chivalry x Porcelain Blue. H.M., A.I.S. 1956. 38 in. \$15.00

SEATHWAITE (Randall 1955) M.L. Good form, color substance and branching are characteristics of this clear blue iris. The color is not far from Cahokia, but it is much larger, better substandard with fine branching and thoroughly hardy. Seathwaite flowers in great profusion and stands up in strong wind without stalking. It won the English Dykes Medal in 1952. Helen McGregor x Cahokia. 38 in. \$5.00

SERENE VALLEY (K. Smith 1952) E. A large ruffled light blue self that is lighter than Keene Valley and a more pure blue in color. The 7-inch flowers are in excellent proportion to the tall well branched stalk. H.C., A.I.S. 1951. 41 in. \$3.00

SHADRACH (Watkins-Graves 1956) M. A most interesting and fascinating iris and from an artistic standpoint the pattern has attracted artists and engravers for they are charmed by the unusual color design. The broad highly domed standards are a blending of veronica-violet and soft chartreuse. The wide semi-flaring falls are veronica-violet lightly bordered and ruffled with the same elusive color of the standards. There is a flush of buff at the center of the blooms that is intensified by the full yellow beard. 38 in. \$5.00

SHILOH (Wills 1954) L. Tall and handsome this iris has an individual and most attractive combination of color. The standards are aster violet and have very firm texture. The heavily substandard falls are spectrum violet with almost no haft markings around the thick beard that is tipped white. The whole flower is a bicolor with the standards giving a very blue effect in contrast to the deeper blue-purple falls. Late flowering. H.M., A.I.S. 1957. 40 in. \$5.00

SIKHMORH (Weidner 1953) M. An outstanding Onco-hybrid with large flowers of rich rose-red of exceptionally heavy substance, and with a new depth of red tones for this kind of iris. A cross of William Mohr x (Dauntless x Sikh), and in the parentage of Sikh we find Dominion blood, this combined with Dauntless no doubt accounts for the red color of this fine and unusual iris. A very stunning iris. 36 in. \$4.00

SILVER FLAME (Wills 1953) M. This delightful iris comes from a long line of breeding for yellow Amoenas. The contrast between the pure white standards and yellow falls is very definite and ornamental, and it is a great advancement in this color class. Tall and well branched, it has great garden value. 39 in. \$2.50

SILVER HAWK (K. Smith 1954) M. Lustrous, yet delicate in color, this iris was named Silver Hawk because it is particularly silvery in contrast to one of its parents Golden Hawk. The large full flowers have a light chartreuse overlay on the falls, this with the pale green midrib of the standards, and beard of the same tone give it a crystalline sparkle throughout. The blooms are very big, very ruffled, and have especially strong firm substance. H.C., A.I.S. 1953. 42 in. \$5.00

SKY ABOVE (P. Cook 1952) M. A light blue self that is more blue and deeper in color than Distance, one of its parents. Full ruffled flowers of most pleasing form and excellent substance. A charming iris with great garden value. H.M., A.I.S. 1953. 36 in. \$3.00

SOFT ANSWER (Wills 1953) M. Mr. Wills is very conservative in selecting iris to name, and it was from over twenty selected Amoena seedlings that Soft Answer and Silver Flame were chosen as being well worthy of introduction. Soft Answer has a more flaring flower with standards of warm white, and the broad falls are deeper yellow and more smoothly finished than those of Pinnacle. The pollen is fertile. H.M., A.I.S. 1953. 39 in. \$2.50

SOUTH PACIFIC (K. Smith 1954) M.L. Blue iris are great favorites in the garden, and all that have seen South Pacific have been impressed with its many fine qualities. Tall and commanding, it is a self between pale Windsor blue and light bright blue. A large flower with standards well domed, and firmly held by the strong midrib. The full rounded falls flare widely, and the pale almost white beard gives a cool contrast to the clear blue color. The very broad flowers (6 in. by 6½ in.) open slowly, and it takes two days for the blooms to reach their full size. A fragrant iris of beautiful form and heavy substance, the many flowers are well spaced on strong sturdy stalks. A.M., A.I.S. 1958. 41 in. \$7.50

SPANISH MAIN (Wills 1955) M. Brilliant and colorful this large flowered blend instantly catches the eye of garden visitors. A big bold bloom with closely domed standards of copper (Majolica 09/1) flushed with golden brown (Burnt Orange 014). The falls are broad and semi-flaring of the same colors with a rich gold haft extending to the end of the full yellow beard. The flowers are lightly ruffled with firm texture and are carried on well branched stalks. The Color Chart is lacking in copper and brown tones so it is difficult to describe this iris, it must be seen to appreciate the glowing coalescence of color. 38 in. \$7.00

SPELLBINDER (K. Smith 1952) M.L. This iris is well named for it has a pleasing and unusual arrangement of color. The standards and underside of the rather flaring falls are cool naphaline yellow, so that against the light they have a chartreuse tone, but the top surface of the falls is oyster white giving the effect of a reverse bicolor. The green gold lines at the haft, together with green midrib of the standards intensifies contrast of color. The entire flower has a picoteed and fluted edge of bright yellow gold. 34 in. \$1.50

STARFIRE (Wills 1954) E.M. Yellow iris play a most important role in our gardens for they are needed to enliven the whole color scheme. Starfire is a child of Star Shine and has inherited the very firm substance of its parent. The deep golden yellow standards are broad and full and heavily fluted. The falls flare widely and are very ruffled with the same deep yellow, bordering a lighter area around the rich gold beard. The color pattern, flaring form, and extreme ruffling is most pleasing. H.M., A.I.S. 1956. 38 in. \$6.00

STORMY SKIES (Plough 1953) M. A distinctive and unusual blend of buff with a violet flush below the wide very rich yellow beard. The large flowers are heavily substandard with broad standards, and ruffled flaring falls. Growth vigorous. Arctic x Tobacco Road. H.C., A.I.S. 1952. 38 in. \$2.00

SUE REVELL (Douglas 1953) M. L. Most attractive in color and form, this flaring blue is a cross of St. Regis x Lake Shannon. It has inherited the broad full petals of St. Regis with the wide branching from Lake Shannon. A Flax Blue self with strong cupped standards, lightly ruffled, and so broad that they almost encircle the styles. The flaring falls are firmly textured and very wide at the hafts. Medium in height, and very free flowering, it increases rapidly, and makes a clump completely covered by the clear blue flowers. 30 in. \$3.50

SUMMER SONG (Nesmith 1951) M. Brilliant and glowing this iris has great carrying qualities in the garden. A self of very deep orange buff with perfect flaring form. The standards are domed and closely held; the heavy substandard falls are almost horizontal and the rich orange buff beard adds depth of color to the flower. The exceptional lasting qualities of the flowers kept them in perfect condition for three days when many iris in the garden were torn and broken. Three branches and terminal. H.M., A.I.S. 1952. 39 in. \$2.00

SUN VALLEY (K. Smith 1957) M. This is a bold and dazzling iris of deep clear yellow, just a little deeper than Golden Hawk. An absolute self even to the beard with very firmly cupped standards and flaring horizontal falls. The whole flower is lightly ruffled and seems to be powdered with sparkling golden crystals. The deep yellow color is the purest and richest of any yellow iris that I have seen. Admiration x Golden Hawk. 38 in. \$10.00

TALLY HO (D. Hall 1949) M. Deeper in color than any of the flamingo pink strain from Mr. Hall, it is one of the most valuable parents for increase in size and variation in color. The upper part of the falls is close to the bright color we find in fuchsia toned orchids. The standards and lower part of the falls are of a lighter shade. H.M., A.I.S. 1950. 34 in. \$3.00

TARN HOWS (Randall 1955) M. Rich Cedar Wood Brown that glows and glistens in the sunlight best describes this iris. The flowers are finely formed with broad domed standards and wide flaring falls and great clarity of color seldom found in a brown iris. A great favorite in England. Tall well branched with many flowers, it is a handsome and distinctive iris. English Dykes Medal 1958. 38 in. \$6.00

TAWNY PINK 51-49 (K. Smith 1956) M.L. The blending of the two shades in this iris gives it a delightful color combination. The firm standards are deeper pink with a suffusion of tawny chamois. The flaring falls are deeper pink and have a lighter blending of the same chamois color. The whole flower glows and glistens in the sunlight. Delectable and different it is a distinct color break that reminds one of a luscious Elberta peach. Broad firmly textured flowers that bloom freely on widely branched stalks. 35 in. \$5.00

THE CITADEL (Watkins-Graves 1954) M. A magnificent white that is larger and if possible more pure white than Helen McKenzie, one of its parents. It has no trace of any other color even in the heart of the flower. A very large flaring bloom with great symmetry of form and nicety of finish. The standards are broad and full with large falls spreading widely. The whole flower has a vellum-like texture. An iris that has been especially admired ever since its first blooming. Sturdy stalks in keeping with the large flowers. H.M., A.I.S. 1954. 38 in. \$7.00

THORWALD (Knowlton 1955) M. L. Unique in color pattern, this large broad petaled orange blend is an impressive variety of sturdy form and substance. The standards are Yellow Ochre (07/3) lightly ruffled and firmly held. The fluted flaring falls have a base color of Yellow Ochre flushed at the center with Spanish Orange (010/2) around the rich orange beard. A rich colorful blend that flowers with great freedom on tall well branched stalks. 39 in. \$2.50

THOTMES III (Kleinsorge 1950) M. A huge flower of glistening golden tan with a light bronze beard. An imposing iris of sturdy flaring form and excellent growth. A.M., A.I.S. 1953. 40 in. \$2.00

TIMES SQUARE (Tompkins 1956) M. L. Rich and colorful this bi-toned blend has great carrying quality in the garden. The lightly ruffled well domed standards are light golden copper. The broad falls are brilliant copper-red with a central flush of bright violet-blue, accentuated by the full golden beard. Many flowers on tall well branched stalks. Oriental Bazaar x Lady Albright. 36 in. \$10.00

TINTED PORCELAIN (Brown 1952) M. A large firm flower of deep pastel lilac with a smooth porcelain-like finish, and over all a sparkling luster. It is a self with the color evenly suffused throughout the bloom. The standards are closed, and the falls broad and flaring. The sturdy stalks are widely branched with no crowding. A notable iris that gives a new tone of color. H.M., A.I.S. 1955. 36 in. \$3.00

TOP FLIGHT (D. Hall 1953) M. More deeply colored than Temple Bells, but more apricot than yellow. The standards and falls are about the same shade, and the thick beard is fiery orange-red. A.M., A.I.S. 1955. 34 in. \$2.00

TRADITION (K. Smith 1953) M. A clear lavender-blue self without any other color showing at the hafts. The large flaring ruffled 6 inch flowers are exceptionally well spaced on very tall sturdy stalks. Reminds one a bit of Violet Harmony in color, but it is taller, and a more flaring flower. 41 in. \$5.00

TRANQUILITY (Fay 1950) M. Large milk-white flowers with white beard. Round full petaled flaring falls and domed standards. The haft is wide and clean and the blooms are carried on perfectly branched stalks. A.M., A.I.S. 1953. 38 in. \$1.50

TREASURE CHEST (Douglas 1953) M.L. Mr. Douglas has produced several excellent yellow iris, but none with finer branching, more brilliant color, and long season of bloom than this heavy subtanced Saffron Yellow. It comes from a long line of breeding for yellows that has culminated in a very handsome flower. The large blooms are semi-flaring and well proportioned with firm texture and smooth finish. Exceptionally well branched stalks. 40 in. \$4.00

TRIUMVIRATE (Watkins-Watkins 1957) M. An innovation in the breeding lines of Edward Watkins has resulted in this deep black-purple iris. The over all effect is an amazing deep glowing purple with trimly fashioned standards that have a lustrous sheen. The arched and flaring falls are very velvety while the black-purple beard adds to the ensemble of the flower. Very free flowering, good branching and vigorous growth. Black Forest x Indiana Night. H.C., A.I.S. 1955. 34 in. \$10.00

TROUTBECK (Randall 1956) M. Rich, deep golden brown is the effect of this sturdy iris and it brings to this class a warmth of color seldom seen in an iris. A self of large flaring form with closely domed standards and very broad horizontal ruffled falls. It is not a somber iris for the blooms have a glowing sheen and are evenly colored throughout. A most welcome addition to this group for the color does not fade and the firm subtanced flowers are very resistant to inclement weather. An iris that has received ardent praise in England for its many fine qualities. Bronze Medal in 1952 by the English Iris Society. Alpine Glow x Melodist. 34 in. \$6.00

TRULY FAIR (Plough 1956) EML. Tall and colorful this bright medium pink has great carrying qualities in the garden. The standards and falls are broad and well subtanced and the color is intensified by the red tangerine beard. Cloud Cap x Pink Formal. H.M., A.I.S. 1956. 48 in. \$6.00

TRULY YOURS (Fay 1949) M.L. Truly a sensational iris of bright yellow shading to near white at the top of the standards and base of the falls. The entire flower is ruffled and has a lacy edging. Tall with good branching. Dykes Medal 1953. 38 in. \$2.50

VIOLET HARMONY (Lowry 1952) M. L. This large ruffled violet is a self except for a lighter flush at the haft and around the beard. The broad blooms have well closed standards with semi-flaring falls. The firm texture and extreme ruffling give it an airy grace. The President's Cup 1953. Dykes Medal 1957. 40 in. \$3.50

VIVEZA (White 1954) E. M. A very brilliant and vivid yellow bitone with clear Empire yellow standards and falls of burnt sienna. Similar in form to Rocket with waved and crinkled standards, a very bright flower that has great carrying qualities in the garden. One quarter onco blood. 40 in. \$2.00

WEDDING BOUQUET (Buttrick 1952) M. Distinctive, in the crowded field of white iris, this large flowered self merits the attention of all iris enthusiasts who are looking for a white that has great individuality and beauty. The pure white ruffled flowers are broad, full petaled and heavy subtanced with especially well domed standards, and very broad semi-flaring falls. The chartreuse buds are fascinating, and as they unfold this color is on the underside of the falls, thus adding to the purity and charm of the flowers. The spacing of the blooms on the well branched stalk is most pleasing, and the growth is vigorous. Hardy and a good bloomer. A.M., A.I.S. 1956. 35 in. \$3.50

WELL CONTENT (Wills 1954) M.L. Lovely in form and finish the smooth flowers are majolica yellow overflushed with Empire rose and have great color appeal. The standards are a fusion of the two colors, and the broad rounded falls are of the same general tone with the Empire rose predominating around the thick yellow beard. Strong stalks and long season of bloom. 38 in. \$3.00

WHEEL OF FORTUNE 8.34 (K. Smith 1955) L. Certain iris are superior to others for garden effect and this is very true of this variety. Broadly formed flowers of brilliant clear Buttercup Yellow (5/1) with no venations or tinge of brown to mar their beauty. The whole flower is generously ruffled, in fact it is the most ruffled yellow that I know. The standards are firm and well held and the falls flare widely. The buds are especially intriguing for they give a hint of the ruffles to come in an opened bloom. (Admiration x 5-39) (Yellow Glory x Siefried) x (Spun Gold). 32 in. \$5.00

WHITE FOAM 47-29A (Knowlton 1958) M.L. This iris is appropriately named for the flowers reminds one of the white foamy crest of an ocean wave. A very large pure white with ruffled conic standards that are firmly closed. The full flaring falls are fluted at the edges and are void of venations on the hafts. The full beard is pale yellow in the throat and tipped pure white. The flowers are well spaced on 4 way branching sturdy stalks. The whole flower has a glistening texture that is most appealing and it is always admired by garden visitors. Snow Flurry x Cloud Castle. H.M., A.I.S. 1958. 36 in. \$12.50

WHITE SPRITE (Cassebeer 1951) M. A very white iris with no trace of blue or yellow, even in the beard. The delicately ruffled flowers have an airy charm and grace that is most appealing. The firm textured blooms are nicely spaced on wind-resistant stalks. H. M., A. I. S. 1952. 38 in. \$1.50

WITCH DOCTOR (Plough 1955) E.L. This is an early onco-bred that is a strong and vigorous grower. The standards are blue-lavender with a creamy buff midrib. The falls from the center down are a lighter blue-lavender with a cream buff haft and heart. The beard is yellow, blending out to blue at the tip. Cream Seedling x Capitola. H.M., A.I.S. 1956. 39 in. \$4.00

YULETIDE (Nesmith 1954) M. L. Happily the blue flowered iris that are so necessary to the beauty of our gardens vary in shades and season of bloom. This one is cool light blue with a frosty sheen, that reminds one of the blue tones of frost crystals on a snowy Christmas morning. A self with roundly domed standards, closely held by the strong midrib. The falls are arched and flaring with delightfully ruffled edges. The light cream almost white beard adds to the clarity of color. Fragrant and free flowering, but with no crowding, it is a truly lovely clear blue with 8 to 10 flowers on tall well branched stalks. 39 in. \$3.00

The Lilliput Hybrids

Fairmount Gardens, Co-introducer with Brentwood Gardens.

An amazing series of rather early iris for rock garden and front of the border planting that will add charm and color to any garden.

JACK O'HEARTS (Douglas 1955) M. L. Rich and colorful, this violet self with a deeper overlay on the falls surrounding the lavender beard is a distinctive break in color pattern. 8 in. \$2.00

TINKERBELL (Douglas 1954) E. A neat flaring blue with deeper blue spot in the center of the falls. The extreme ruffling of the flowers is most attractive. Lovely for border planting. H.M., A.I.S. 1957. 12 in. \$1.50

SMALL WONDER (Douglas 1954) E. A clear medium light blue self of Helen McGregor parentage. Its smooth blue tones remind one of Helen in a smaller edition, but just as lovely. Free flowering and delightful in every way. H.M., A.I.S. 1957. 12 in. \$1.50

POGO (Douglas 1954) E. Bright and cheery, this one is a clear yellow with a red thumb print in the center of the falls, giving great color contrast. H.M., A.I.S. 1957. 15 in. \$2.00

PICTURE YELLOW (Douglas 1954) E. Delightful and different, this two-toned yellow when it first opens is a bi-tone with the standards lighter than the falls. As the flower develops the standards become almost white, giving the effect of a yellow Amoena. 10 in. \$1.00

HAPPY THOUGHT (Douglas 1953) M. Many iris enter into the parentage of this soft sulphur yellow self. Very floriferous and the color is lovely. Fragrant. 10 in. \$1.00

LILLIPUT (Douglas 1953) M. L. (Helen McGregor x pumila blue). The tall bearded parent has given a great purity of color never seen before in small iris. The standards are light Lobelia-violet. The falls have the same color overlaid with a spot of deeper blue. White beard. Ruffled-flaring flowers. Fragrant. 15 in. \$1.00

LITTLE ROSY WINGS (Douglas 1955). Charming flaring flowers of clear bright rose. There is an abundance of bloom and it is delightful for border or rock garden. 8 in. \$2.00

PAGAN MIDGET (Douglas 1953) M.L. A dark red-purple self with an almost black overlay of velvet around the haft. Beard light blue and very conspicuous. One of the last to bloom. Fragrant. H.M., A.I.S. 1958. 12 in. \$1.00

PIGMY GOLD (Douglas 1953) M. L. The color is bright chrome with very velvety flaring falls. A very brilliant self with good form and habit. Long season of bloom. Very fragrant. 10 in. \$1.00

Evansia Iris and Miscellaneous Plants

CRISTATA LAVENDER (Nesmith 1955). Petite and dainty these delightful bright lavender blooms are especially adapted to rock garden planting or extreme front of the border. Very floriferous and increases rapidly. 3 in. \$3.00

TECTORUM, BLUE. Lavender blue flowers. 8 in. \$1.00

TECTORUM, WHITE. Exquisite white; crests are marked with gold. \$2.00

ECHINOPS RITRO. So many people have admired this when visiting the garden that I have decided to list it in the catalogue. The common name for this is Globe Thistle. The full round blooms are globular in form of a beautiful clear blue color. Thistle-like silvery green leaves are in refreshing color contrast. Late blooming it adds a much needed blue color to the garden picture. 45 in. \$1.50

NEILLIA SINENSIS. The most handsome of this species in cultivation and is hardy in my garden. This is a rare and graceful shrub with spreading branches and green ovate leaves carrying lovely light pink flowers in terminal racemes. This is native to China and is a beautiful border shrub. Height three to four feet. Blooms in early June. \$3.00

Spuria Iris

The beardless group is not well known, but really contains some of the most attractive, delicate flowered irises of the genus. Most of them bloom after the peonies have passed and are a great addition to the garden.

AZURE DAWN (Nies 1942). A blue lavender flower of uniform color except for a pale yellow patch on the falls. 50 in. \$2.00

BATHSHEBA (Washington 1936). Medium sized flower of white and yellow, flaring falls and deep yellow signal. \$2.00

BLUE ACRES (Mrs. T. A. Washington 1948) L. Full broad petaled blooms of palest Windsor blue (Ridgway). In effect it is a self with large cupped standards and almost horizontal falls. An exquisite shade of blue with a frosty silvery lustre on the heavily substance petals. Dainty and charming. Strong clean foliage. 45 in. \$4.00

BLUE CORSAGE No. 55-S2 (Corliss 1956) E. This beautiful Spuria was bred from Lark Song and Two Opals and combines many fine qualities of these two famous iris. The clear, medium blue flowers with large flaring segments have gold signals and radiating lines that blend into the lacy ruffled borders, and over all there is a sparkling sheen. Delightful for corsage work, flower arrangement or garden beauty, it is a handsome early blooming variety with four pair of large six to seven inch flowers well spaced on tall sturdy stalks. H.M., A.I.S. 1958. 48 in. \$25.00

BRONZSPUR (Nies 1941). The combination of sepia, old gold, and yellow is most unusual and pleasing. Lovely for flower arrangement, under artificial light. 55 in. \$1.50

DOROTHY WARENSKJOLD (Corliss 1957) E. Delightful in harmony of color, it is a blended flower with slate-gray standards and flaring falls that are flushed brown-mauve with a suggestion of a yellow pencil edging on the border. It is crisply ruffled maintaining perfect form and poise throughout the season and is the earliest one to bloom. June. 48 in. \$25.00

DUTCH DEFIANCE (Nies). Very large bold, blue flowers that attract a great deal of attention. Splendid in form, finish, and substance, its charm is enhanced by a yellow signal on the falls. 38 in. A. M., A. I. S. 1949. \$2.00

GOLD BEACON (Corliss 1957) E. An early blooming variety having broad full blooms with an unfading color of deep gold that is amazing in its intensity of tone. The large bold flowers are closely carried on strong stalks and glow like a beacon light in the garden. June. 39 in. \$15.00

GOLDEN AGATE (Nies) Rich yellow undercolor with a dark brown overlay and a broad brown band running entirely around the blade, giving the effect of a golden brown flower. 36 in. \$1.50

GOLDEN SCEPTRE (Mrs. T. A. Washington 1948). An iris of distinction, and the most beautiful yellow Spuria that I have seen. The flowers have an under color of cream, heavily flushed with glowing yellow. The blooms are broad in form and charmingly fluted on both standards and falls. Tall well branched. 42 in. \$5.00

HAZY HILLS (Washington 1931). S. deep delft blue; F. hazy blue with old gold flush. Brilliant yellow signal and throat. Styles are smoky blue and old gold. 4 ft. \$3.50

LUMIERE (Washington 1936). Semi-erect standards of white with yellow midrib; Falls very flaring, of pale chrome-yellow with deeper yellow signal. Luminous center to the flower. 4 ft. \$2.50

MONTEAGLE (Washington 1936). Bronzy red purple self with yellow halo and deeper yellow signal. S. semi-erect; F. flaring. Late blooming. Glowing color. \$3.00

WHITE BRANCH

WHITE BRANCH (Corliss 1958) M. Beautifully formed, the name is most appropriate for this new spuria that has large pure white flowers with exceptionally fine branching. Firmly substance blooms with fluted standards and flaring falls lightly recurved at the tips. Widely branched with at least 4 blooms open at one time. It is ideal for flower arrangement or display in the garden. June 50 in. \$25.00

ROYAL TOGA (Nesmith 1955) M. Unique, yet beautiful is probably the best way to describe the color combination of this Spuria. The standards of Campanula Violet (37) are very erect and firmly held. The falls are white, clearly veined with the same violet of the standards with long raised bright yellow signal. Firm textured standards and semi-recurring falls. The decided contrast between standards and falls is most effective. 42 in. \$5.00

RUSSET FLAME (Nies). A vigorous free flowering Spuria of rich russet coloring. Especially good as a cut flower. H. M., A. I. S. 1950. 40 in. \$1.50

SUNNY DAY (H. P. Sass 1932). A tall gleaming yellow spuria of great beauty and form. The Eric Nies Award 1957. 40 in. \$2.00

TWO OPALS (Nies). Outstanding blend of pale lavender and cream. Erect standards and nearly horizontal falls, nicely ruffled with firm substance. A. M., A. I. S. 1950. 40 in. \$1.50

WADI ZEM-ZEM (Milliken). Huge flower of heavy textured deep cream. A great favorite on the Pacific coast. Eric Nies Award 1956. 55 in. \$2.00

ZEPHYROSO (Nies 1949) Lovely light honey colored flowers with a rosy overlay. Large firmly textured and delightfully ruffled, very graceful and floriferous. Stock Limited. \$6.00

Siberian Iris

CAESAR'S BROTHER (Morg. 1932). The darkest and best Siberian; black pansy-purple; tall and late blooming. H. M., A. I. S. 1936. Morgan Award 1953. 40 in. \$1.00

COOL SPRING (W. L. Kellogg 1940). A charming Siberian with many flowers on widely branched stalks. The standards and styles are pearly blue. The very horizontal falls are much deeper on the upper part, blending out to the pearly blue of the standards. H. M., A. I. S. 1951. 30 in. \$1.50

GATINEAU (Preston 1932). A wonderful clear blue iris with extremely large flowers on tall, sturdy stems; outstanding. \$1.00

HELEN ASTOR (Whitney-Kellogg 1938). A very lovely and distinctive variety. S. are wide and slightly fluted on the edge. F. are broad and round of rosy red with a white halo near the throat which is flushed with blue. H. M., A. I. S. 1941. A. M., A. I. S. 1942. 30 in. \$1.00

KENOGAMI (Preston 1938). A striking dark blue of stately habit. A great addition to the garden. 40 in. \$2.00

MOUNTAIN LAKE (Gersdorff 1938). A delightful clear medium blue self with semi-erect standards and flaring falls which are slightly ruffled at the edge. The center of the flower and styles are lighter blue. The flower has a crisp, cool appearance that is most effective in the garden. A. M., A. I. S. 1944. 36 in. \$2.00

MOUNTAIN POOL (Clev. 1932). Beautiful clear sky blue with full smoothly finished flowers, exceptionally good. \$1.00

MOUNTAIN STREAM (Hodson 1955) M. This Siberian iris is most appropriately named for it is truly a lovely sparkling blue as cool and clear as a rippling mountain waterfall. The standards are erect and firm and the rounded flaring falls have a definite white area at the heart. Fine form, substance and branching this iris is a welcome innovation in the Siberian group. 24 in. \$5.00

OTTAWA (Preston 1928). A very distinctive iris with bright blue standards and falls in sharp but pleasing contrast to the white center of the flower. A. M., R. H. S. 1928. 36 in. \$1.50

ROYAL ENSIGN (H. F. Hall 1951). Bright flowers that carry well are always welcome in the garden, and this stunning new Siberian has great life and beauty in its unusual combination of color. The standards are lilac purple (No. 031), erect and firm, the rounded falls are the same color as the standards with a sea blue area (No. 043) in the heart of the flower. Full firm substandarded flowers and excellent branching. A very brilliant iris that is a valuable addition to the Siberian group. H. M., A. I. S. 1953 38 in. \$3.00

SNOWCREST (Gage 1932). Tall white; large perfect flowers. H. M., A. I. S. 1936. \$1.00

SNOW WHEEL (Hodson 1955) M. A tall and stately white of beautiful form and finish. It is the largest of the white Siberians with erect standards and broad falls that have a horizontal spread with a smooth chalk-like finish. The flowers resemble pure white butterflies charmingly poised on sturdy graceful well branched stalks. A distinct addition to the Siberian class. 38 in. \$5.00

TYCOON (Clev. 1938). The largest Siberian iris to date. The huge flowers of violet blue are of splendid proportion and are outstanding in the garden. H. M., A. I. S. 1950. Morgan Award 1951. 38 in. \$2.00

YANKEE TRADER (W. A. Wheeler 1956) M. The happy combination of blue and white is one of the special charms of this distinctive Siberian Iris. The standards are clear deep blue and firmly held upright. The rather flaring falls have a base color of the same blue as the standards and white lines radiate from the heart of the bloom that widen out into broad white stripes until they almost cover two thirds of the lower part of the falls except for a band of blue at the very edge. The styles are blue with a pinky lavender flush. The whole flower has an almost plicata pattern, arranged in an intriguing fashion. H. C., A. I. S. 1953. 30 in. June. \$6.00

Louisiana Iris and Hybrids

ARIZONA BEACON (Corliss 1959) See Introductions.

ARIZONA ROSE (Corliss 1959) See Introductions.

CADDO (Trichel 1950) M. L. The flowers are rounded and very flaring with a large rich gold, almost circular signal patch on the heavy substandarded petals. The stalk is strong and sturdy, allowing four flowers to be open at one time with no bunching or crowding. Thus it is an ideal variety not only for exhibition but also for beauty in garden planting. Hardy and of rapid increase. H. M., A. I. S. 1950. Mary Swords Debaillon Award 1950. 36 in. \$2.00

CAJAN JOYEUSE (Thomas Geo. 1943). The large flowers open deep brilliant rose, gradually lightening to bright rose pink. It blooms very freely over a period of several weeks. One of the brightest. 30 in. \$1.00

CARDINALIS (McMillan 1943). Very firm flowers of brilliant cardinal-scarlet opening out almost flat with long narrow yellow crests. The flowers are large and are borne on gracefully curving stems. One of the most floriferous of this class of iris. 36 in. An Abbeville Red. \$2.00

HAILE SELASSIE II (Trichel 1951). Dark, rich, and handsome, this very deep maroon is even more brilliant than its parents Haile Selassie and Dark Mystery (an almost black seedling) and combines the good qualities of both. The flower is a self with the very velvety broad sepals enlivened by the intense gold signal patch. Full open flowers on erect stems, it is free flowering and increases rapidly. 34 in. \$2.50

JEUNE FILLE (DeBaillon 1943). Frilled white flowers with recurving petals. Floriferous and very lovely. 30 in. \$1.50

MARY REDFORD (Corliss 1959) See Introductions.

NAKATOSH (Trichel 1953) M. L. The flowers are firm textured with flaring recurved blooms, very creped and ruffled. The sepals are red, and the petals rose with a striking gold signal patch that gives added brilliance to this glowing bicolor. The growth is strong, and it is adaptable to dry or wet growing conditions. In 1952 at the Louisiana Society Show it was entered in the Bicolor Class, where it won the First Award under the name "Trichel's Big Crested Red. H. M., A. I. S. 1954. 30 in. \$3.00

PORCELAIN PINK (Corliss 1958 M. The name of this Louisiana hybrid well describes the color of this clear rose-pink iris that is very outstanding in this class and is hardy in our northern climate. It is floriferous with many branches. Vigorous growth and rapid increase, thus making it an ideal variety not only in flower arrangement, but for beauty in the garden. June 36 in. \$10.00

SIBYL SAMPLE (Trichel 1950) M. L. Wide spreading five inch flowers of almost mahogany red that soon after opening change to bright soft rose, but retain all their brilliance and substance, thus making a two-toned effect on one stalk that is unique and very attractive. Lovely for flower arrangement or in the gardens. 36 in. \$2.00

A Selected List of Hemerocallis

Colors taken from Wilson Horticultural Chart.

50
24
AMBASSADOR (K. Smith 1956) M. Large semi-recurving flowers of rich Currant Red (00823/1) shading down to the pointed Indian Yellow cup. The sepals are smoothly finished and of a lighter hue than the petals. Aside from the beauty of the blooms, they have the advantage of remaining open in the evening. A handsome hemerocallis with twenty seven or more buds on strong four way branching stalks. dorm. A.M., R.H.S. 1957. July-Aug. 40 in. \$6.00

50
60
53
AMBER LUSTRE 45-84 (Nesmith 1949) Hemerocallis lovers have come to realize that they need soft blended colors to intersperse among the deeper tones, and Amber Lustre is excellent for this purpose. The background of the large full flowers is apricot yellow with a pigmentation of light pinky orange on both sepals and petals. Heavy substanced flowers, strong sturdy stalks. July-Aug. 47 in. Dor. \$2.00

51
ARCTIC STAR 39-43 (Nesmith 1940). Starry trumpet shaped flower of Bartya yellow flushed slightly deeper toward the center. The effect of the large flower is a creamy buff lightly waved and fluted at the edge. Aug. 40 in. dorm. \$2.00

45
ATLAS (Kraus 1952) M. A very beautiful light yellow with large bold flowers that are heavily creped and ruffled. There is a flush of chartreuse in the center of the bloom that adds to its beauty. H.M., A.H.S. 1955. dor. July-Aug. 36 in. \$4.50

51
AUTUMN DAWN (Nesmith 1946) 45-166 L. Clear and cool as autumn sunlight at dawn this empire yellow is a valuable addition to the late blooming hemerocallis. Wide open flowers of heavy smooth substance with broad petals and sepals recurving at the tips and lightly ruffled. The stalks are sturdy with wide branching. dor. Aug.-Sept. 39 in. \$5.00

12
BAGATELLE 4-41 (K. Smith 1958) M. Delightful in color harmony this clear pink is a most appealing variety. The graceful flowers of Coral Pink (0619/1) have a firm midrib and ruffled edges of a slightly lighter tone on both petals and sepals. A self with recurving firm textured blooms that have a small yellow-green cup adding to the clarity of color. Vigorous growth and many proliferations. Pink Damask x Seedling 8-20. dor. July 32 in. \$15.00

50
BANNER BRIGHT 52-53A (Nesmith 1957) M. A big bold flower of Jasper Red (018/1) with an orange Buff (1507/2) throat. The full re-curving flowers have a lighter buff midrib on the petals and the sepals are faintly bordered with the same buff. A handsome hemerocallis that stands out in the garden. Parentage Golden Armor x Felicity. dor. July-Aug. 38 in. \$15.00

22
BEACON HILL 50-7A (Nesmith 1956) M. L. Large luminous flowers of Porcelain Rose (620/2) with a slightly deeper rose halo just above the Chinese Yellow (606/3) cup gives some idea of the form and color of this handsome hemerocallis. A six inch flaring flower with broad ruffled petals and fluted sepals. The blooms are thick textured and very sun resistant. Rather late flowering with twenty eight or more buds on tall widely branched stalks. Parentage-Seedling 48-156 x Pink Prelude. dor. July-Aug. 40 in. \$4.00

28
BEAU BRUMMELL 48-124A (Nesmith 1956) M. L. Brilliant and dapper as the famous English fashion leader of olden times, this Capsicum Red (715) self has very flaring fluted petals, lightly twisted at the tips with the sepals slightly recurving and over all there is a bright velvety flush deepening just above the pale green-gold cup. Late flowering with twenty eight or more buds on very well branched stalks, it gives a bright spot of color in the garden. Ruffled Bloodroot Seedling x Bloodroot. dor. Aug. 38 in. \$7.00

713
BESS ROSS (Claar 1954) M. A large wide open red of great beauty with the broad petals and sepals recurving and are lightly frilled. The uniform rich red color of the whole flower extends down to a golden throat above the cool green cup. A very handsome hemerocallis. H.M., A.H.S. 1955. dor. 36 in. \$10.00

45
20
BETSY B (Vestal 1952) M. A very bright glowing red with a lustrous velvety finish and flaring form. Tall with excellent branching, it is a stunning hemerocallis and a great garden favorite. H. M., A. H. S. 1955. ev. July-Aug. 38 in. \$1.50

59
BIG TIME (Saxton 1954) MLa. A large glowing orange scarlet blend that stands out in the garden. Emperor Jones x Ileen. dor. 40 in. \$3.00

5
BLACK JEWEL (Vestal 1950). A very dark velvety marooned with recurving petals and sepals. The flowers have an especially fine finish and the scapes are tall with good branching. 38 in dorm. \$2.00

51
BLOODROOT 40-388 (Nesmith 1946). A self between scarlet and Brazil-red (Ridgway). The color reminds me of the sap that exudes from a broken bloodroot stem. A self with a velvety finish that extends to the inconspicuous yellow throat. July-Aug. 36 in. dor. \$3.00

51
BONNY PINK 45-1R (Nesmith 1955) A winsome lass of Azalea Pink (618/2) with a soft rosy halo at the center. Not tall, but well branched with 5½ inch flowers, it is ideal for flower arrangement or front of the border planting. Parentage 45-20 x Pink Prelude. semi-ev. July-Aug. 25 in. \$4.50

52
27
50
2472
BONNY RUFFLES 48-14 (Nesmith 1949). A cup shaped flower of Chalcedony yellow with slightly recurving petals and sepals. The flower is a self even to the center of the cup. Both petals and sepals are fluted giving a very ruffled effect. It is an evening bloomer, opening about five o'clock in the afternoon. 36 in. ev. \$2.00

39
BURMESE RUBY 56-19 (K. Smith 1958) MLa. This hemerocallis has a rich endowment of color for it is a deep crimson with a glowing yellow throat. The nearest equivalent in color charts is Ridgway's Ox-blood red. The petals and sepals are broad and ruffled with a strong 5 branched scape that produces 42 buds. Strong robust growth with numerous proliferations. Line breeding with seedling 51-1. dor. July-Aug. 35 in. \$15.00

52
BUTTERBALL (Schlumpf 1954). Charming and floriferous this early blooming hemerocallis is well described by the name for it is a lovely rounded flower of clear buttercup yellow. The blooms are medium in size, and although it has evergreen foliage, it comes through our New England winters without injury. The flower remain open until quite late in the evening and are very sun resistant. A repeat bloomer with clean compact foliage. ev. 38 in. \$3.00

51
CANDY HEART 39-188 (Nesmith 1947). Charming and delicate in color, this dainty hemerocallis is especially suited to front of the border planting. A very pale flesh pink with a well defined halo of Carmine rose in the heart of the flower. A thick textured bloom with great nicety of finish. Strong sturdy stalks with good branching. Aug. 38 in. dorm. \$3.50

644?
360
159
CANYON PURPLE 45-50 (Nesmith 1949). A distinctive new break in color. Large full open flowers of raspberry purple with a deeper flush just above the pale lemon cup. Both petals and sepals are lightly ruffled at the tips. A self, even the stamens and pistil are purple. Strong stalks and fine branching. H.M., A.H.S. 1953. July-Aug. 45 in. \$2.00

50
13
CARE FREE 49-93A (Nesmith 1958) MLa. Large blended flowers of Delft Rose (020/2) with a light lemon yellow midrib on the broad petals. The sepals have an infusion of rose and lemon with a ruffled border of Delft Rose. The center of the flower has a creamy lemon throat shading down to a pale chartreuse base. Late blooming the flowers have a distinctive color pattern with 30 buds borne on very sturdy stalks. Strong vigorous growth. Pink Lotus x Felicity. dor. Aug. 40 in. \$8.00

CANDLE GLOW

PHOTO BY CORLISS

51
6
CANDLE GLOW 46-21R (Nesmith 1953). Few hemerocallis display as pleasing color contrast as this full recurving flower of amber yellow with a brilliant Jasper Red halo shading down to the cool chartreuse cup. The petals are ruffled with sepals smoothly finished, and the flower glows in the center as if it were lighted by a candle flame. The substance is strong, and the branching exceptionally good, often with four or five flowers open at one time with no crowding. July-Aug. 40 in. \$7.00

16
CARMINE ROSE 47-37C (Nesmith 1955) Notable for the clarity of color and styling, this brilliant rosy red has won warm approval from many Hemerocallis Judges in the last three years. According to the Color Chart it is a self of Claret Rose (021/1) with a small gold cup at the heart of the flower. Velvety firm finish and non fading qualities add to the charm of this high ranking favorite. 30 buds, well branched stalks. dor. July-Aug. 39 in. \$3.00

52
CARISSIMA (Nesmith 1945) ML. The light pink flowers are heavy subtended and the lovely color is enhanced by the deeper pink halo. Late blooming with many flowers on well branched scapes. Withdrawn to increase stock. I am pleased to offer it again this year. dor. Aug. 38 in. \$4.00

58
CARVED IVORY 47-12 (Nesmith 1950). Beautifully formed, this exquisite pale ivory self seems as if carved from glistening ivory. The very heavy subtended flowers are open and flaring in form with no trace of any other color—even the stamens are ivory. The nearest to white that I have produced, and it has received high praise from Hemerocallis enthusiasts. dor. H.M., A.H.S. 1952. July-Aug. 30 in. \$5.00

27
CHINESE CORAL 56-50 (K. Smith 1958) MLa. Large broad wide open flowers of great beauty and were given this name for on opening the color is Chinese Coral (614), but quickly changes to a more luscious tone of lighter coral (614/2) and retains this color until it closes in the evening. The semi-recurving blooms have a slightly deeper flush where the chamois yellow throat joins the petal and sepals. The flowers are 6½ inches in diameter with very wide segments and are held on strong 4-way branching stalks that proliferate. dor. July-Aug. 34 in. \$15.00

19
CHLOE'S CHILD 51-4 (Nesmith 1953). A hemerocallis that is hard to describe. The throat and undercolor is soft Indian Yellow with a heavy pigmentation of deep Majolica. A very broad full flower with petals almost overlapping the sepals. The sepals are deeper in color than the petals, giving the effect of a reverse bicolor, and over all there is a frosty sheen that sparkles in the sun. J. C., A. H. S. 1952. dor. July-Aug. 35 in. \$7.00

50
COCKADE (Taylor B. 1952) M. A soft Primuline Yellow with a deeper eyezone and excellent substance. ev. 36 in. \$2.00

13
CONTESSA (Fisher 1957) M. The flower is a delicate buff flushed pink with a deeper pink halo on petals and sepals near the yellow throat of the wide open flaring blooms. A fascinating hemerocallis. Prima Donna x Ruth Lehman. H.M., A. HEM. S. 1957. dor. 40 in. Net \$20.00

50?
CORAL CRAB (Douglas 1955) M.L. A delightful coral-pink hemerocallis with a coral-rose halo. The cup of the bloom shades down to a light green giving the flower a very cool effect on a hot summer day. 25 blooms on well branched stalks. dor. July-Aug. 28 in. \$2.00

15
CORSAGE 48-158 (Nesmith 1955) The name seems most suitable for this palest Egyptian Buff (407/3) for the flowers are so heavy subtended and perfect in recurving form that one bloom will make a lovely corsage. The flowers are compact with semi-flaring ruffled petals and fluted sepals that are firmly finished. The garden effect is a very pale chamois-buff. dor. July-Aug. 39 in. \$7.00

CRIMSON GLORY (Carpenter 1952) M. A most descriptive name for this rich red hemerocallis of firm substance and great color value. It is a self with broad ruffled petals and sepals that blend down into an inconspicuous yellow cup. Tall with good branching it is most decorative in the garden. H. M., A.H.S. 1955 dor. July-Aug. 40 in. \$2.50

45
21
CRIMSON STAR (G. Douglas 1950). Large open flower of crimson, flushed deeper on the petals and sepals just above the gold cup. The brilliance of the flowers is outstanding, and it makes a stunning clump in the garden. 15 or more buds. ev. H.M., A.H.S. 1952. July. 36 in. \$1.50

5
44
CRIMSON VELVET 45-50A (Nesmith 1953). Brilliant and glowing, this velvety crimson with open flaring flowers stands out like a beacon light in the garden. The nearest color is Chrysanthemum Crimson, but the very velvety finish gives a richer tone to this self with the solid color extending down to the shallow yellow cup. Even the stamens and pistil are red. July-Aug. 39 in. dor. \$5.00

50
64
CROWN JEWEL 47-15 (Nesmith 1952) M. One of the most admired red hemerocallis in the garden. The open flaring flowers of deep currant red have a very velvety finish that extends down to the rich orange cup. Both petals and sepals have a tiny rim of yellow at the very border of the fluted flower. Fine branching. July-Aug. 40 in. dor. \$1.50

5
12
CURRANT RED 47-38A (Nesmith 1954) A big bold flower that in color always reminds me of bright red ripe currants, hence the name. Large open flowers with semi-recurving petals and sepals that are smoothly finished and retain their clear clean color throughout the day and evening. Tall with 30 or more buds it has great carrying quality in the garden. dor. 40 in. \$3.50

65A
59
CYCLOPS (G. Douglas 1950). Well named for it is a giant in height of stalk and size of the flower. The huge light chrome yellow blooms have a reddish cinnamon wash at the center of the petals. The leather-like substance of the flowers is the heaviest I have ever seen in a hemerocallis. dor. July-Aug. 60 in. \$4.00

44
16
10
DAPHNE PINK 45-1T (Nesmith 1953). The color is well described by the name except that the whole flower has a more mellow tone. An open flower with ruffled petals and smoothly finished sepals. The flower shades deeper toward the Chinese Yellow center that forms a star-shaped cup. Very vigorous and of rapid increase it makes a bright rose clump that is most effective. It comes from a cross of Pink Prelude. dor. July-Aug. 39 in. \$3.50

43
DARK HARBOR 48-3A (Nesmith 1957) M. L. Dark Harbor seems an expressive name for this deep, dark red-purple (Maroon 1003) self that is a deeper purple than Potentate and has 35 to 40 blooms on tall widely branched stalk, thus giving a long season of bloom. The pale chartreuse cup is in pleasing contrast to the great depth of color. Parentage Potentate x Black Magic. dor. July-Aug. 40 in. \$6.00

50
DAWNING LIGHT 48-68 (Nesmith 1952) M. L. Clean and crisp, this fragrant canary yellow lights up the garden from dawn until after dark. It is an absolute self even to stamens and pistil. The open bell-shaped flowers have fluted petals and smoothly finished sepals with very firm substance and great lasting qualities. Few creamy yellows have the fine branching, sturdy stalks, and long blooming season of this great garden favorite. dor. July-Aug. 49 in. \$4.00

53
49A
DAYBREAK SPLENDOR 47-369 (Hodson 1956) M. Full broadly petaled blooms that are well described by the name for the color reminds one of the deep glowing pink that we see in the splendor of the sky at early dawn. The luminous quality of this deep pink is difficult to picture in words, but the color is clean and fresh with thirty or more flowers that have firm substance and are carried on tall well branched stalks. dor. July-Aug. 39 in. \$5.00

160

104
15A
DEVON CREAM (Nesmith 1945). Few hemerocallis have the thick heavy substance of this pale creamy yellow. The blooms have wide petals and sepals that are beautifully fluted on the edges. Strong sturdy stalks. A. M., A. H. S. 1952. July-Aug. 39 in. Semi-ev. \$2.00

10
46
DIAMOND DEW 52-43C (Nesmith 1958) MLa. Quiet and restful is this full flaring flower of palest cream that has a crisp frosty sheen and ruffled firm texture. There is a delicate flush of light chartreuse toward the heart of the bloom that adds to the clarity of the broad flowers that remain fresh and clear without fading. The exceptionally sturdy stalks carry 30 buds with wide branching. Midwest Majesty x (Mission Bells x Carved Ivory). dor. July-Aug. 38 in. Net \$15.00

10
DUNE SPRITE 45-113 (Nesmith 1950). The soft delectable color we find in a sun ripened cantaloupe best describes the shade of this large, full petaled flower. The nearest color to it is medium Egyptian Buff. A hemerocallis of great charm, its beauty seems to be in the soft melon color accentuated by the white midrib on the petals. 20 or more buds. dor. July-Aug. 39 in. \$2.50

22
ELIZABETH NESMITH (Spalding 1956) M. I am very honored in having this beautiful clear coral pink hemerocallis named for me. It is an enchanting flower with full formed blooms that have broad lightly ruffled petals and sepals more smoothly finished. There is a frosty sheen enveloping the whole flower that adds to its beauty. Tall and well branched with an abundance of blooms that are most sun resistant. Truly a very lovely pink of great charm and refinement. dor. 39 in. Stock Limited. \$25.00

50
160
EVELYN CLAAR (Kraus 1951) M. This deep salmon pink was named for Mrs. Elmer Claar and is a lovely tribute to a charming lady. A blended self of deep salmon pink with recurving form and a flush of yellow toward the center of the flower. Strong sturdy stalks with adequate branching, it is very sun resistant and of rapid increase. A. M., A. H. S. 1955. dor. July-Aug. 30 in. \$2.50

60B
FAIRY GOLD 48-38 (Nesmith 1951). A delectable small flowered variety of Egyptian buff (No. 407) that gives the color effect of a rich ripe cantaloupe. An absolute self even to the center of the bloom. Firm substanced flowers on slender but strong, widely branched stalks. 30 to 40 buds. 47 in. dor. \$2.00

FAIRY WINGS (Lester 1954) EM. The name is most descriptive for it truly is a fairylike flower. The 5 inch blooms edged with tiny ruffles are pale yellow delicately flushed pink on the center of the petals with a delightful cool green throat. dor July-Aug. A.M., A.Hem.S. 1957. 34 in. \$7.50

FANDANGO (K. Smith 1957) M. L. Gay and festive in color this bright hemerocallis is a distinctive flower of yellow-orange and deep burnt orange with firm textured blooms that have a crepe-like finish. The petals and sepals are nicely ruffled with a smooth blending of the colors so that the garden effect is a very rich deep orange. dor. July-Aug. 37 in. \$6.00

59
FAR HILLS (Saxton 1952) MLa. Large blooms of rich Beetroot Purple that are edged with lilac. The cool green throat is in delightful contrast to the broad full flower. Marcy x (Melo x Rosalind). dor. 40 in. \$4.00

50

52
FAR NORTH 45-180 (Nesmith 1946). There is a great demand for good large flowered light yellow hemerocallis, for most of our gardens need them to lighten up drab spots in late summer to say nothing of their cool refreshing charm. The heavy substanced flowers are large and full borne on very strong sturdy stalks. Aug. 52 in. dor. \$1.50

46
FELICITY 46-225 (Nesmith 1947). The very large, full, firm textured flowers of light Aureolin yellow are cup-shaped with petals and sepals recurving at the ruffled edges. The very sturdy well branched stalks have from 35 to 40 flowers, and it has the longest season of bloom of any hemerocallis that I know., dor. July-Sept. 40 in. \$2.00

96A
5
FIESTA PINK 45-11M (Nesmith 1955) Charming and delightful in color this Orient Pink (416/1) is a self of semi-flaring form with a slightly deeper halo of Azalea Pink (618/2) just above the small chartreuse cup. A six inch flower with ruffled petals and smooth sepals and a lighter midrib on the petals. Parentage seedling 45-40 x Pink Prelude. 28 buds on well branched stalks. dor. July-Aug. 36 in. \$4.00

50
FIRE DANCE 9-24 (K. Smith 1955). The dash and vibrancy of this glowing polychrome gives it important value in the garden picture. Aglow with fire, the flowers are a blending of Cardinal Red, Orange Buff and Oxblood Red, surmounting a cool green cup. Difficult to describe but it is a very widely spreading 6½ in. flower and the manner in which it is blended is an important feature in the charm of this brilliant hemerocallis that remains open until 10 P.M. 25 buds on three branched stalks. semi-ev. July-Aug. A.M., R.H.S. 1958. 41 in. \$4.00

59
FIRST CHOICE 55-1 (Leola Fraim 1956) M. Delightful firm textured flowers of creamy apricot with a lovely halo of delicate rose. The blossoms have broad petals that are lightly ruffled and the sepals are smoothly finished. Of the many seedlings Mrs. Fraim has produced, this is the first one chosen for introduction, thus the name seems most appropriate. A full six inch flower of spreading form with twenty five or more blooms on tall well branched stalks. Hardy and of rapid increase. J.C., A.H.S. 1956. dor. Aug. 39 in. \$7.00

51
50th ANNIVERSARY (Stout). A distinctive and exotic arrangement of color. The broad petaled flowers are rich deep orange with a brilliant red halo. July-Aug. 38 in. ev. \$3.00

FORTUNES FAVOR

54
FORTUNES FAVOR 48-41C (Nesmith 1957) M. L. A full recurving six inch flower of Erythrite Red (6027/2) with ruffled petals and smoothly finished sepals. It is a self giving the effect of a rich glowing lavender purple. I have been doing extensive breeding for lavenders and this is a new break in color that has been highly praised by Hemerocallis Judges. Day blooming with extended bloom, and re-flowers late in the summer. Parentage Seedling 45-28 x Lavender Lass. Number of buds 27. J.C., A. HEM. S. 1956. July-Aug. dor. 38 in. \$25.00

50
 51
FLAMBOYANT (G. Douglas 1947). The name is most descriptive of this stunning hemerocallis. The petals and sepals are brilliant deep Indian yellow set off by a bright red halo. The gracefully recurving petals and sepals are medium in width with heavy fluted edges. The stalks are tall and strong. A.M., A.H.S. 1953. July-Aug. 42 in. dor. \$2.00

50
FORMALITY 46-19R (Nesmith 1955) Distinctive in form with precise styling the name seems most appropriate, for it is a formal flower of palest cream (Naples Yellow (403/3) of amazing substance with flaring petals and recurving sepals. An absolute self even to the stamens and pistil. It has exceptionally smooth firm substance with 30 buds and excellent branching. Parentage pale yellow seedling x Far North. Sets seeds. semi-ev. Aug.-Sept. 38 in. \$5.00

17
 112
GALATEA 48-67A (Nesmith 1956) L. Lovely in form and color this daylily is a delightful companion for the hemerocallis Pygmalion, just the same as she was to the Pygmalion of Grecian mythology. Late flowering this variety is a bright pink of Begonia Rose (619/1) with the sepals a tone lighter shading down to the pale lime green cup. The fluted petals are semi-flaring and the sepals evenly blended and over all there is a crepe-like frosty finish. Cool and refreshing in color it is very late flowering, thus prolonging the season of bloom in the garden. Slender but sturdy stalks with 26 buds and vigorous growth. Pink seedling 45-29 x Pink Prelude. dor. Aug.-Sept. 35 in. \$7.50

50
GARNET GARLAND 51-126A (Nesmith 1958) MLa. Rich Garnet Lake (828) in tone yet possessing a brilliance rarely associated with a hemerocallis that has such depth of color. The 6 inch flowers are of widespread form and are very deep dark purple with rippled petals and smoothly finished sepals. A handsome hemerocallis with 25 buds on strong well branched stalks. Line breeding of 2 dark seedlings. dor. July-Aug. 40 in. \$12.00

19
 15
GAY NINETIES 51-226E (Nesmith 1958) MLa. All frills and furbelows and gaily decked with color that is reminiscent of the glamorous age known as the Gay Nineties. A large recurving flower of Rose-Red (0211/2) with broad petals that have ruffled edges of Egyptian Buff with raised midrib of same buff. The sepals are a blending of rose and buff and are smoothly finished. The large firm subtended lily-like flowers are cheery and bright, carried on tall widely branched stalks. 48-85 Rose Seedling x Wanda. dor. July-Aug. 40 in. \$12.00

51
GOLDEN ARMOR 47-22 (Nesmith 1953). Glowing Gold and a deep orange seedling produced this deep Cadmium Orange self. It has very heavy substance and flaring cup-shaped form. An absolute self with no other color showing in the center of the flower, even the stamens are the same rich orange. Beautifully branched with many blooms, this late flowering variety has been highly praised by garden visitors. Aug. 40 in. dor. \$3.50

51
GOLD VELLUM 49-163B (Nesmith 1956). The name is most descriptive of this strong sturdy flower with a vellum-like texture. It is an absolute self of Orange Buff (507) with broad ruffled petals and semi-recurving sepals that blend into the shallow chartreuse cup. The blooms have a raised midrib on the petals and the whole flower is finished with a greenish gold sheen that adds to the clarity of color. Open in the evening. Mystic Moon x Magic Moonlight semi-ev. July-Aug. 37 in. \$8.00

GOLD VELLUM

PHOTO BY CORLISS

52
50
GOLDEN COCKEREL 48-70A (Nesmith 1953). A brilliant combination of red and yellow that stands out in the garden. A blended flower with a background of Majolica Yellow, lightly veined and flushed Saturn Red, intensified by a halo of Mandarin Red just above the Majolica center of the bloom. The flowers are very full and ruffled, the texture firm and sun resistant. dor. July-Aug. 42 in. \$3.50

43
GOLDEN TRIANGLE (Traub USDA 1953). Large triangular-shaped flowers of light Buttercup Yellow shaded lighter at the edges. The petals are twisted at the tips adding to the distinctiveness of the bloom. A.M., A. HEM. S. 1957. ev. 40 in. \$3.50

14
GOOD COMPANION (K. Smith 1957) M. Taller than Pink Damask, the perfectly formed flowers are clear coral pink with graceful flaring petals that are crimped on the edges. The sepals are smoothly finished and the green-gold cup is an added joy. Free flowering and of rapid increase it is very sun resistant and lovely in the garden. dor. July-Aug. 36 in. \$7.00

HEART AGLOW 49-3 (Nesmith 1952) M. L. One of the most lovely and fascinating hemerocallis that I have bred. The flowers are medium in size with the base color shell pink, shading deeper into spinel red toward the throat. The petals are slightly twisted at the tips and shade from shell pink to a spinel red halo just above the glowing yellow cup. The sepals have a clean cut border of shell pink. The blending of the colors is especially pleasing, and no description will convey the beauty of this flower. dor. July-Aug. 38 in. \$5.00

21
HER MAJESTY 45-10B (Nesmith 1952) M. All hemerocallis enthusiasts have admired this seedling ever since its first blooming. A large and beautiful self of shell pink, shading into the creamy throat. The full flowers are reflexed and smoothly finished except for a light-ruffling on the petals. A child of Pink Prelude, it is lighter in color with heavy substantanced flowers well spaced on tall graceful scapes. A diamond dusted flower of great beauty. 30 buds. 6 in. flower. H.M., A.H.S. 1955. dor. July-Aug. 40 in. \$6.00

HIDDEN HEART 50-122B (Nesmith 1956). Distinctive and delightful is this lavender hemerocallis for it is not only lovely in tone, but is a new break in color. The large, full semi-recurving six inch blooms of Pastel Mauve (433/1) have a deeper halo of Rose Opal (022/1) shading down to a cool green cup. The whole effect is a ruffled light, lavender flower of ethereal beauty with twenty-five to thirty buds on well branched strong stalks. It was a great center of interest in the garden last year and was awarded a Junior Citation by the A. H. S. in 1955. Lavender Lass x Fortunes Favor. dor. July-Aug. 39 in. Stock Limited Net \$25.00

50
56
HOLLYBERRY RED 48-158B (Nesmith 1958) M. A most descriptive name for this bright glowing red for it is very gay and festive in Christmas color. A 6 inch flower of Cardinal Red (822/1) with ruffled petals that have a lighter mid-rib of rich gold that extends down to the mellow golden cup. The slightly recurving sepals smoothly finished and of the same rich color. A very brilliant red that stands out in the garden picture. Smooth firm substance and excellent branching. Pink Prelude x Royal Ruby. dor. July. 38 in. \$15.00

53
492
HONOR BRIGHT 45-293 (Hodson 1954) A diamond dusted radiant heavily textured cherry red of jewel-like brilliance. The recurving petals are ruffled at the edges with a deeper red halo above the golden throat. The very recurved sepals are cherry-red, brushed with gold. Great carrying quality in the garden and very floriferous, it is delightful for border planting. dor. July-Aug. 24 in. \$4.00

19
IDLE HOUR 48-26G (Nesmith 1958) La. Luminous flowers of lavender-rose Rose Opal (022/3) precisely formed and frilled that have a sparkling iridescence and always attracts the eyes of garden visitors. Full ruffled blooms of lovely clear lavender-pink that have a quiet elegance. 4½ inch flowers with multiple branching on tall strong stalks and a long season of bloom. 47-65 x Lavender Lass. dor. Aug. 39 in. \$15.00

HALOLIGHT

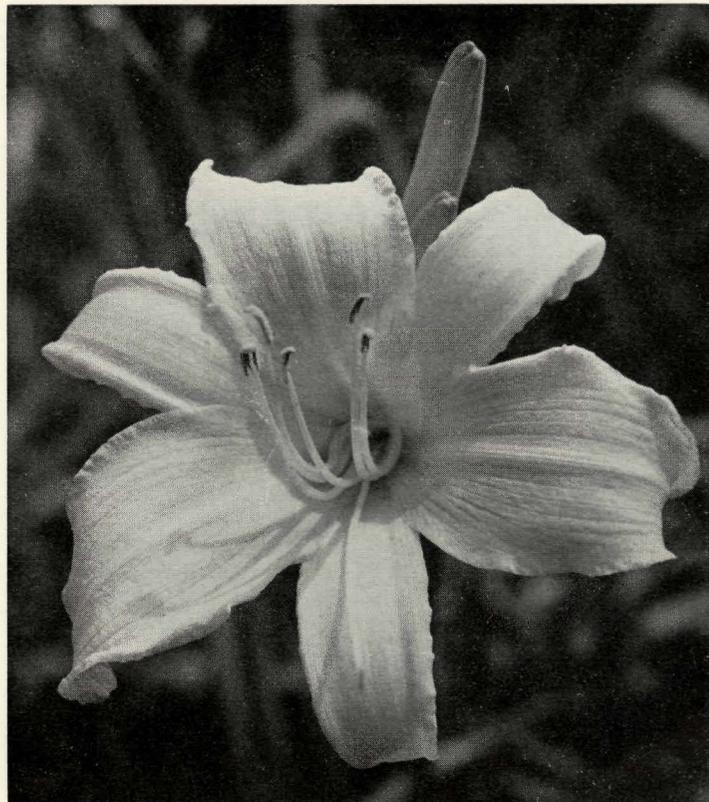

PHOTO BY CORLISS

44
*
HALOLIGHT 45-41C (Nesmith 1956). Most attractive and of regal carriage this full six inch flower of creamy yellow with a delicate tracery of rosy pink forms a most artistic color pattern. A large flower of Egyptian Buff (407/3) with broad fluted petals and slightly recurving sepals. A delicate flush of Azalea Pink (618/1) toward the center gives the harmonious effect of a light frosty cream with a delightful pink halo. Twenty-five buds well spaced on sturdy stalks. (Cream Seedling x Pink Prelude) x Killarney Lass. dor. 38 in. \$8.50

44
IMPERIAL VELVET 48-94A (Nesmith 1954) Rich and very brilliant, this deep red-purple hemerocallis always attracts garden visitors. A very full flower of heavy velvety substance with the solid color extending down to the shallow light chartreuse cup. Good branching and vigorous growth. J.C., A.H.S. 1952. dor. July-August. 39 in. \$8.00

42
INNOCENT (K. Smith 1956) E. M. Cool and clear with the glistening freshness of morning sunlight well describes this lovely hemerocallis. A re-curving lily shaped flower of Canary Yellow (2/2) with broad petals and sepals not quite as wide. An absolute self shading down to a green-gold cup. It has a long season of bloom, commencing to flower late in June with second bloom stalks coming later. A beautiful flower of firm substance that keeps its clean lovely color throughout the day and into the evening. Twenty or more buds on four way well branching stalks. Semi-ev. July. 46 in. \$7.50

25
97
IVORY CHALICE 40-503 (Nesmith 1946). Full medium sized flowers of very pale yellow (reed yellow). Lightly ruffled at the edges. The flowers have very heavy substance and are borne on tall closely branched stalks. Very lovely as a cut flower. Aug. dor. 40 in. \$2.00

15
JACK FROST (Lester 1953) MLa. Cool and frosty as lemon ice this beautiful flower has very firm substance and full triangular form with recurving sepals. Delightful in every way. A.M., A. HEM. S. 1957. dor. 38 in. \$4.00

Levittan 52
Gay Hurray 52

44
52
JOLLY TAR (E. L. Hodson 1952) E. A very early blooming hemerocallis that is exceptionally good for front of the border planting. The full broad flowers are a light garnet brown with a deeper eye zone just above the golden throat. The scapes are slender, but strong and upright. Floriferous and gaily colored, it is most effective for flower arrangement or in the garden. dor. May-June. 16 in. \$3.00

59
KARISTA (Saxton 1951) EM. A large scarlet blend with broad full petals. dor. \$1.00

49A
KARL LORENZ (Leonian 1957) M. A broad petaled flower of Chrysanthemum Crimson (824/3) with a glowing Chrome Yellow (605) center that forms a perfect circle in the heart of the bloom. It is a self with flaring petals and sepals that overlap and are lightly bordered by a lighter rim that adds to the richness of the color. Intermediate in height with firm substance and sun resistance it is ideal for front of the border planting. July-Aug. dor. 24 in. \$4.00

19
KATE TYLER 56-42 (K. Smith 1958) M. Charm, personality and quality are combined in these large pink flowers and it was named for a very dear friend of Mr. and Mrs. Smith. Luxuriant in form the blooms closely match Spinel Pink (0625/2) in color with a halo of deeper tone and a soft pale gold star-shaped throat that extends upward to form prominent midribs on the petals. The ruffled flowers measure 6¼ inches with 15 or more buds on well branched stalks. dor. July. 25 in. \$15.00

64
75
KILLARNEY LASS 39-121 (Nesmith 1944). Captivating and charming, it gives a very pink effect in the garden. The center of the petals is bright geranium pink bordered by soft flesh pink. The sepals are flesh pink lightly flushed deeper. A very lovely hemerocallis and a splendid parent for breeding pinks. dor. Aug. 36 in. \$3.00

51
60
73
LADY FAIR 39-105 (Nesmith 1946). Some flowers are brilliant in the garden while others are entrancing with their delicate colors and Lady Fair is one of the latter for it is a blending of Jasper and flesh pink with a creamy undertone. The large flowers have a glistening sheen and give a charming effect in the garden. A. M., A. H. S. 1954. Semi-ev July-Aug. 38 in. \$1.25

42
6
LAVENDER LASS 46-26 (Nesmith 1952) M.L. This hemerocallis has been highly praised by many hemerocallis enthusiasts since its first blooming. The open flaring flowers are Empire rose shading into a deeper tone and eyed with Persian lilac just above the cool chartreuse cup. The subtle gradation of color from light to deeper tones gives a very lavender pink effect in the garden. H.M., A.H.E.M.S. 1957. dor. Aug. 40 in. \$8.00

11
13
LAVENDER LYRIC 48-31D (Nesmith 1958) MLa. Personality and quality are displayed by this lavender self. According to the color chart it is a light Rose Opal (022/2) of open flaring form that is lightly ruffled and the whole effect is a clear light lavender with a slightly deeper halo shading down to a cool green cup. A captivating and endearing flower of symmetrical full form and discriminating judges have eagerly awaited its introduction. Long and late flowering with 30 buds on strong well branched stalks. Lavender Lass x Lavender Seedling. dor. July-Aug. 40 in. Net \$20.00

50
LAVENDER MIST 50-21F. (Nesmith 1957). M. A self of Pastel Mauve (433/2) with a slightly deeper halo above the cool chartreuse cup. Full six inch flowers of light lavender that are most distinctive both in color and charm. Lovely as a cut flower or in the garden. Parentage 48-50B (Pale cream seedling x Lavender Lass) x Heart Aglow. Number of buds 28. Day blooming with extended bloom. dor. July-Aug. 39 in. \$10.00

59
MAGIC MORN (Saxton 1955) MLa. A full rounded flower of sparkling rose-red. Tall with good branching. Royal Beauty x Myrna. semi-ev. 40 in. \$2.00

LOTUS LAND

PHOTO BY CORLISS

52
LOTUS LAND (Nesmith 1956) 50-30A. M. Few lilies have the beauty, fragrance and firm texture of this large semi-recurving six inch flower of light Maize Yellow (607/1) with broad ruffled petals that seem reminiscent of the Oriental beauty of the lotus flower. An absolute self with color going to the very center of the bloom. Sturdy well branched stalks with thirty or more buds, it has great color appeal. dor. Canari x Midwest Majesty. 38 in. \$8.50

59
MAIZE MELODY. 49-247A (Nesmith 1957) M.L. All creped and frilled, this delectable creamy melon Maize Yellow (607/3) is a child of Precious Treasure. It is an absolute self with 5½ in. flowers of strong crinkled texture with just enough pale green in the throat to give it character. One garden visitor remarked "What a beautiful hemerocallis, it looks good enough to eat." Tall with excellent branching it remains open until late in the evening. Parentage Precious Treasure x 46-114 A. dor. Late July-Aug. 39 in. \$20.00

50
MARION VAUGHN 8-62 (K. Smith 1955). Exquisite wax-like blossoms of cool lemon yellow with a soft glistening sheen places this hemerocallis as one of the highest ranking clear yellows of the present day. The flower is a self of true Easter Lily form with the lovely cream color deepening slightly as it reaches the luscious green throat. The broad full flowers have exceptionally firm texture, and an added note of interest is the delicate raised almost white midrib that is on the petals. A lovely ethereal flower, 25 or more buds on five branched stalks. A.M., R.H.S. 1956. First Class Certificate R.H.S. 1958. dor. July-Aug. 42 in. \$10.00

51
49A
MASQUERADER 45-301 (Hodson 1954). A large 6½ in. flower of magnificent coloring and beautifully formed. The flaring petals are a rich velvety brilliant red with a glowing center stripe of gold. The recurving sepals are rich yellow, heavily brushed with red. The very full firm substandard flowers are borne on strong scapes. A stunning hemerocallis. July-Aug. 38 in. dor. \$4.00

23
MATCHMAKER 4-58 (K. Smith 1958) MLa. Most decorative and exciting in color, the flowers are Rhodonite Red (0022) that in effect are raspberry-rose, so bright that they seem almost cerise. A very glamorous lily-like bloom 4½ inches in diameter with a star-shaped throat and cool green cup. The petal edges are fluted with the sepals lightly crimped and recurving at the tips. Firmly substandard flowers with 15 or more buds well spaced on 3 way branching stalks. dor. July-Aug. 31 in. \$15.00

46
29
MAYFLOWER 45-38K (Nesmith 1952) M.L. A clear porcelain rose, that in color reminds one of the pinkness of the arbutus flower or as we in New England call it, the Mayflower. It is a self except for a slightly deeper flush above the light apple green throat. A cross of Killarney Lass and Pink Prelude it makes a very bright rose-pink clump and has great carrying qualities in the garden. 5¼ in flower. July-Aug. 39 in. dor. \$4.00

45
64A
72
MISSION BELLS (D. Hall 1945). Large wide petaled ruffled flower of clear medium yellow producing up to 52 flowers to a stalk on established plants. A fine variety that is a strong grower and a free bloomer. A. M., R. H. S. 1956. A. M., A. H. S. 1951. dor. July-Aug. 40 in. \$1.50

27
MOONFACE 52-24 (K. Smith 1958) M. Satin smooth flowers that open Empire Yellow (603/1) and deepen to Canary Yellow (2/2) in the throat that extends down to a chartreuse cup. The blooms are wide and flaring with vellum-like texture and the petals have white midribs. All parts of the flowers except the throat change to white by noon, but retain their lovely firm finish until they close at night. Tall with 6 inch flowers they create a charming picture in the garden. dor. July. 44 in. \$15.00

51
60B
MOONLIGHT COCKTAIL (G. Douglas 1946). Cool and refreshing, this lovely pale apricot is charming for flower arrangement or in the garden. The flowers have broad petals with a creamy midrib, and over the whole bloom is a very frosty sheen. July. 48 in. dor. \$3.00

65A
47b
MOUNT JOY 46-19A (Nesmith 1953). A gay and festive flower that stands out in the garden. The petals are Vermilion and are slightly twisted at the tips. The recurving sepals are Nasturtium Red, and all this bright color is made even more brilliant by the Persimmon Orange center of the flower. The whole flower is most striking and unusual in color. July-Aug. 40 in. dor. \$3.50

51
MRS. DAVID HALL (Kraus 1951) M. Pleasing cadmium-yellow to buff-orange with a large bright triangular sharply pointed eye zone of deep carmine. A refined bright flower. dor. July-Aug. H.C., R.H.S. 1958. 30 in. \$3.00

37
MULTNOMAH (Kraus 1956) MLa. Luscious bold flowers of apricot-melon flushed pink. A very sensational flower. J.C., A.Hem.S. 1956. dor. 34 in. Stock Limited. Fall Delivery. \$50.00

23
NASHVILLE (Claar 1952) M. A full overlapping flower of triangular form with petals lightly twisted at the tips and sepals recurving. Toward the center of the bloom there is a contrasting band of orange-red that adds beauty and life to the ensemble. Hardy and sun resistant. A.M., A.HEM.S. 1957. dor. 39 in. \$10.00

16
NEHOIDEN (Merry 1951) M. L. Extra fine huge deep orange with very heavy substance. Strong sturdy stalks with excellent branching. A very handsome hemerocallis. dor. July-Aug. 39 in. \$3.00

50
NEYRON ROSE (Kraus 1952) M. Bright Neyron Rose with darker veins and prominent cream band on each petal. A most popular variety. A. M., A. H. S. 1956. dor. July-Aug. 36 in. \$6.00

11
NORTH STAR (Hall 1946) M. Large open flowers of very pale yellow with good form and branching. Cool and refreshing it is very effective in the garden. A. M., A. H. S. 1955. dor. 38 in. \$2.50

25
ON PARADE 47-64 (Nesmith 1954). This hemerocallis has an unusual and very attractive arrangement of color. A lily-like flower with center of petals and sepals cardinal red shading deeper toward the yellow cup. Both petals and sepals are bordered by a distinct band of apricot. The stamens and pistil are red, a very smoothly finished flower with 20 buds on well branched stalks. July-Aug. 39 in. dor. \$2.00

50
ORANGE MARMALADE 51-27A (Nesmith 1958) MLa. The color is well described by the name for it is the richest, deepest orange that I have seen. A large flaring flower of deep Orpiment Orange (10) of amazing substance and regal form. An absolute self even to the stamens and pistil with the color going down to the heart of the flower. The 2½ inch petals have a ruffled ¼ inch border with sepals recurving and ruffled at the edges. The whole flower has a firm velvety texture that does not fade in hottest sun. Tall with ample branching it stands out in the garden. Glowing Gold x Seedling 48-175C. dor. July-Aug. 40 in. \$12.00

59
60B
PETITE MIGNON 48-67 (Nesmith 1951). A self of clear Chinese yellow (No. 606) with recurving petals and sepals. An open full flower of multiflora parentage, it has strong firm substance and is lovely in the garden as well as being especially suited to flower arrangement. 35 to 40 buds on widely branched stalks. 48 in. Semi-ev. \$2.50

52
46
PETROUCHKA 48-156A (Nesmith 1953). Always, garden visitors are attracted to this unique and fascinating hemerocallis. A pale cream flaring flower with an almost white midrib on the petals. A rose red eyezone on the petals but not on the sepals stands out in strong contrast to the smooth creamy tones of the bloom. Heavy substandard flowers, and especially good branching. July-Aug. 40 in. dor. \$5.00

32+
33
PEPPERPOT 49-45A (Nesmith 1957) M. A very brilliant flower of Capsicum Red (715/1) with an Amber Yellow (507/1) cup. A medium sized glowing pepper red that makes a gleaming mass of color on account of its profusely blooming habit. Moderate in height it is excellent for front of the border. Parentage Pirates Treasure x Mount Joy. dor. July-Aug. 18 in. \$2.00

50
PICTURE (Lester 1952) EM. Charming in its bright rose color this 6 inch flower always attracts attention of garden visitors. An absolute self with a cool green cup that is in delightful contrast to the clear color of the bloom. Sun proof and remains open until after dark. A.M., A.HEM.S. 1957. dor. 40 in. \$3.00

50
18
23
PINK BOWKNOT (Taylor 1952) E. A lovely light salmon pink with a heavy ivory midrib on the petals. The triangular form gives it a very distinctive touch. A. M., A. H. S. 1955. ev. July. 42 in. \$2.00

51
3
PINK CREPE 47-38C (Nesmith 1955). The name is most descriptive of this intriguing Shell Pink (516/3) flower with a Begonia Pink (919/2) halo and delicate lines of the deeper pink on the petals and sepals just above the small lime green cup. The 5½ inch blooms are ribbed and ruffled and have a heavy crepe-like texture. Parentage 45-41 (51-19 x Killarney Lass) x Pink Prelude. dor. July-Aug. 38 in. \$4.50

4

415
PINK DAMASK (Stevens). A beautiful smoothly finished rose pink with semi-recurving petals and sepals. It is a self with the color extending down to the cool yellow cup. A lovely flower of great charm and refinement. A.M., A.HEM.S. 1957. dor. July-Aug. 38 in. \$2.00

23
PINK DELIGHT (Douglas 1952) M. L. A light rose pink with a yellow tone adjacent to the pink that changes to greenish yellow in the center of the flower. The bloom is almost a self with a light halo of deeper rose. 36 buds per scape. dor. July-Aug. 36 in. \$2.00

59
PINK DREAM (Childs). A very light baby ribbon pink that is a good grower, and well worthy of a place in any garden. The color is clear and fresh and the flowers retain their substance even under hot sun. A. M., A. H. S. 1956. ev. July-Aug. 36 in. \$3.00

Mr. Raymond Kelley Shaw Hill Pa

50
25
PINK INTERLUDE 47-59B (Nesmith 1954). A child of Pink Prelude, this delectable pink hemerocallis was the center of attention at the time of the 1952 National Meeting. A clear bright pink self shading a bit deeper just above the cool javel green cup. The blooms have smooth firm texture and are lightly ruffled on the border. The color is clean and fresh and does not fade even in hot sun. Tall with excellent branching the 30 or more buds are well spaced on the strong stalks. July-Aug. 39 in. dor. \$5.00

17
44
PINK LOTUS 45-237 (Nesmith 1949). Large and very spreading flowers of light pink coral with the heart of the bloom shading out to pale creamy buff. A very open flower of attractive and unusual form. July-Aug. 35 in. dor. \$3.00

PINK PARADISE (G. Douglas 1950). Appropriately named, for it is a heavenly pink color. An open-cup-shaped flower of pale Jasper Red with a slightly deeper overlay of pink on the petals blending down into the cool Mimosa Yellow throat. Delicate and dainty in color, it stands hot sun and does not wilt or fade. July-Aug. 38 in. dor. \$4.00

50
11
PINK PRELUDE 45-37 (Nesmith 1950). This is the lovely Dawn Pink that many will remember under the number 45-37 for since its first flowering it has been in high favor with all hemerocallis fanciers that have visited the garden. A self except for a pale flesh pink mid-rib on the petals and just a touch of cool yellow at the base of the sepals and petals. Large full flowers and good branching. A.M., A.H.S. 1955. July-Aug. 39 in. dor. Selected for trial at Wisley in England. H.C., R.H.S. 1958. \$5.00

17
51
PINK PROFUSION 50-127A (Nesmith 1955). A luxuriant pink that has many appealing qualities and impresses one with its smoothly blended colors. The large recurring flower is a self of Spinel Pink (0625/3) with a maize yellow heart that lights up the center of the bloom, resulting in a bright glowing mauve pink of large size (6½ in.) and non fading habit. (Fair Morn x Pink Prelude) x Rose Rhythm. dor. Late July-Aug. 40 in. \$6.00

23
17
45
PINK RADIANCE (G. Douglas 1949). The name is most descriptive of this beautiful hemerocallis. It is a light geranium pink with a halo of a deeper tone just above the yellow throat. The blooms are broad and full with petals and sepals slightly fluted at the tips. Tall with good branching, it holds its color well under hot sun. July-Aug. H. M., A.H.S. 1952. 39 in. Semi-ev. \$4.00

52
PIRATE'S TREASURE 45-85A (Nesmith 1951). A very brilliant flower with the basic color Saturn red (13/2) flushed with Dutch vermilion (717/3) extending into the Saturn red cup. A descendant of Bloodroot and Royal Ruby, it has much larger flowers carrying the general color of Bloodroot, deepening into a flush and venations of Royal Ruby tones. The blooms are broad and recurring with especially well branched stalks. 35 to 40 buds. dor. July-Aug. 38 in. \$4.00

10
64A
45
POTENTATE 39-100 (Nesmith 1943). Luminous flower of pansy purple, so smoothly finished that the surface of the bloom has a distinct satiny sheen. It is a self with broad full petals and sepals, even the stamens and pistils are done in purple. Outstanding in this color. Stout Medal A. H. S. 1952. dor. July-Aug. 42 in. \$1.50

20
60
65
POWDER PINK 46-81 (Nesmith 1950). Colorful and charming is this lovely watermelon-rose flower (Rose Opal). A self except that the petals and sepals are slightly lighter at the tips. Cup-shaped, graceful flowers of medium size and exquisite color. July-Aug. 36 in. dor. \$2.00

49
PRECIOUS 48-37 (Nesmith 1952) M. Perfectly formed 3-in. flowers with under-color of Egyptian buff flushed with Chinese coral on the fluted petals and sepals. Of multiflora parentage, it has more than 30 buds on strong exceptionally well branched stalks. July-Aug. 40 in. dor. \$2.00

15
PRECIOUS TREASURE 46-152A (Nesmith 1954). No color description will adequately picture this lovely hemerocallis. A full flower of glistening melon pink, reminding one of the delectable color of a sun ripened cantaloupe. It is a self with

broad full petals and sepals, lightly fluted at edges, with the color extending down to the tiny apple green cup. The 5-inch firm subtended blooms are well spaced on tall strong stalks. An entirely different and subtle color that has been highly praised by all hemerocallis judges. H.M., A.H.S. 1955. Late July-Aug. dor. 40. in \$15.00

59
PREMIUM (Saxton 1955) MLa. A very large, bright coppery gold flower with a cream midrib on the 2 inch petals. It makes a fine show clump in the garden. dor. 46 in. \$7.50

13
PRETTY PET 43-28 (Nesmith 1953). Dainty and delightful are the cool tones of this luminous, medium sized flower. The petals are Venetian pink with sepals a shade lighter, and over all there is a frosty sheen that adds to its charm and beauty. A great favorite of Dr. Corliss. dor. July-Aug. 40 in. \$3.50

18
PRIMA DONNA (Taylor 1946) M. A delightful flower of buff, copper and peach, charmingly blended and gives the effect of a soft pastel peach. A lovely flower of great charm. Stout Medal 1955. ev. July-Aug. 36 in. \$3.50

15
50
65
PURPLE PAGEANT 47-66 (Nesmith 1953). An open flaring flower of Fuchsia Purple with a deeper halo just above the chartreuse cup. Both petals and sepals are ruffled at the edge. A descendant of Potentate, it is a self of new and unusual color that gives a deep amethyst effect in the garden. dor. July-Aug. 38 in. \$2.00

14/13
50
60B
PYGMALION 44-1 (Nesmith 1948). The charm of this winsome bicolor is in the skillful blending of coral pink and creamy yellow. The pastel pink petals and sepals of deep ivory merging into creamy yellow in the heart of the flower. The stalks are exceptionally well branched with many buds. July 1st to Aug. 20th. 40 in. dor. \$2.00

19
RED MARVEL (Douglas 1953). There is no color chart that shows the richness of this flower. The nearest is Currant Red, but Red Marvel is deeper and has a velvety sheen that adds to its depth and brilliance. An absolute self except for the small yellow cup. July-Aug. 39 in. \$3.00

RED PARAGON (G. Douglas 1950). The name suggests a flower of special excellence and it is well suited to this glowing red self. The larger star-shaped blooms are Chrysanthemum Crimson with a deeper velvety halo of Oxblood Red just above the small deep yellow cup. Finely formed heavy subtended blooms. July-Aug. 36 in. dor. \$2.00

19
46
RED RESPLENDENCE 48-113A (Nesmith 1955). Here is a brilliant flash of color that stands out in the garden. A self with large 6 inch flowers of deep rich red (Indian Lake 628). The broad semi-flaring flowers have a metallic sheen that seems to accentuate the glowing color. Vigorous growth. Resplendent x Crown Jewel. dor. Aug. 39 in. \$5.00

50
RED TORCH (K. Smith 1956) E. M. This hemerocallis has a most descriptive name for it is deep, but brilliant Cardinal Red (822/1). A full semi-recurring flower with broad ruffled petals and sepals smoothly finished. The whole bloom has a velvety flush that is intensified by the gold halo blending into a green-gold cup. Rich in color with especially well branched stalks that carry forty or more buds, thus giving a long season of bloom. dor. Late June-July-Aug. 38 in. \$6.00

17
31
REGENCY ROSE 45-11C (Nesmith 1954). Regal in form, this Rosy mauve hemerocallis was highly praised by visitors at the time of the 1952 National Meeting. The soft deep rose coloring is a different shade from any other hemerocallis that I have seen, and the broad petaled flowers have an iridescent sheen that gives it great garden value. 30 flowers with excellent branching. dor. July-Aug. 40 in. \$5.00

50
26
RESOLUTE 9-18 (K. Smith 1955). Strong and sturdy, this Garnet Brown (00918/2) self has a halo of velvety maroon (1030) extending down to the tiny Majolica Yellow (09) cup. The petals are finely ruffled and sepals smoothly finished. It is both glowing and brilliant and makes a stunning clump in the garden. Well subtended flowers with good branching. ev. July-Aug. 30 in. \$6.00

RESPLENDENT 48-31A (Nesmith 1951). The name is most descriptive of this big bold flower. The deep velvety red petals of chrysanthemum crimson (No. 824) are broad and semi-curving. The sepals are the same color made more brilliant by the wide deep yellow midrib that extends into the shallow orange cup. A great favorite with garden visitors. Tall sturdy stalks with 25 buds. dor. July-Aug. 40 in. \$1.00

RIBBON PINK 43-49 (Nesmith 1952) M. L. A slender petaled flower of shrimp pink. A self except for the chartreuse cup which is very shallow. Gives a very pleasing pink effect in the garden. Recurring sepals. Stamens pink. 4½ inch flower. 35 buds. June 25-Aug. 5th. 38 in. dor. \$3.00

ROSE BOWL 47-562 (Hodson 1956) E. M. Here we have an alluring hemerocallis with Ashes of Roses color that has grace and refinement in the quality and form of the beautiful blooms. A large full firmly textured self of soft rose-pink tone with very flaring ruffled petals and the sepals that re-curve are bordered by a lighter frilled edge. It is a quiet, serene restful flower of great charm and decorative value. Most floriferous with perfect branching it won the warm hearted approval of garden visitors at the time of the 1953 National Meeting of the American Hemerocallis Society. dor. Early July-Aug. 40 in. \$7.00

ROSE BROCADE 45-8R (Nesmith 1953). Full recurring blooms of deep Delft Rose, really more rose than shown by the color chart. Both petals and sepals have a distinct cream border, while the deeper rose shading just above the cool green cup accentuates the contrast of the flower. Another offspring of Pink Prelude. dor. July-Aug. 40 in. \$3.00

ROSE OPAL 51-71C (Nesmith 1958) MLa. Deep vibrant rose-purple Rose Opal (620/3) flowers that have a velvety lustre and are attractively flared. The semi-recurving petals and sepals have a lighter midrib of Porcelain Rose (620/3) and are both margined with ruffles of the same color. 25 or more buds evenly spaced on graceful, strong stalks. The description does not convey in any measure the beauty of the flowers. Wanda x Imperial Velvet. dor. July-Aug. 39 in. \$12.00

ROSE OVERLAY (Douglas 1954). The name is most descriptive of this very handsome hemerocallis. The base color is a light pinkish tan; this is very heavily flushed with deep velvety rose, giving the effect of a glowing rose with a narrow border of light pink. The center of the flower has a deeper rose halo just above a rich gold area in sharp contrast to the green cup of the bloom. dor. Aug. 39 in. \$3.00

ROSE RHYTHM 48-186A (Nesmith 1954). An early flowering variety with large recurring bloom of bright rose. The petals are very broad and ruffled at the edges. Sepals lightly fluted. A deeper rose halo just above the cool lighter cup adds brilliance to this stunning flower. June-July. 38 in. dor. \$3.00

ROYAL CRIMSON 50-130A (Nesmith 1955). Lustrous, yet very velvety, this full crimson flower is always especially admired by garden visitors. It is a self of Chrysanthemum Crimson (824) with broad 6 inch flowers, enlivened by a tiny yellow cup. Few hemerocallis have the regal carriage of this well branched variety. Parentage Imperial Velvet x 45-14A. It is larger but just as velvety as its Imperial parent. dor. July-Aug. 39 in. \$5.00

ROYAL GUEST (G. Douglas 1949). Mr. Douglas considers this one of his best hemerocallis. A beautiful rose purple with a cool green throat. Large well shaped blooms with an exquisite finish to the whole flower. The stalks are very well branched, and it increases rapidly. July-Aug. 38 in. ev. \$2.00

ROYAL RUBY 39-116 (Nesmith 1942). A flower of almost crimson red with glow and life throughout. A smoothly finished flower with full semi-reflexed petals and sepals; a self with almost no yellow in the cup. The stalks are regular height with good branching. A.M., A.H.S. 1950. dor. July-Aug. 37 in. H.C., R.H.S. 1958. \$1.00

RUFFLED DELIGHT 50-55A (Louise Knowlton 1956). M. This lovely hemerocallis is well portrayed by the name for it is a delight to see and is more distinctly ruffled than any variety that I have seen. A large recurving flower with petals of Lemon Yellow (41/2) and the sepals are the same color

overlaid with Egyptian Buff (407) with the faint halo just above the greenish cup giving additional character to the bloom. To quote from one famous Judge "If ruffling is wanted the finest of this type is Mrs. Knowlton's Ruffled Delight." Strong sturdy scapes with good branching. Mission Bells x Painted Lady. J. C., A. H. S. 1955. July-Aug. dor. 37 in. \$6.50

RUTH LEHMAN (Kraus 1951) M. A fascinating flower of melon-pink with the melon color predominating. Hardy, but slow of increase. H.M., A.Hem.S. 1954. dor. 36 in. Stock Limited. Fall Delivery. \$15.00

SALMON SHEEN (Taylor 1950). This is a luscious hemerocallis of salmon pink with excellent form and substance. A free blooming variety with large full flowers nicely spaced on tall well branched stalks. A. M., A. H. S. 1956. ev. July-Aug. 38 in. \$12.50

SAMARKAND (Stevens 1954). Fascinating blooms of large size that resemble an Amaryllis in their full broad form. The wide segmented flowers of Capucine Yellow are suffused with English Red and the petals are crimped and ruffled. The green gold throat is in pleasing contrast. A stunning variety of great garden value. dor. July-Aug. 30 in. \$7.50

SHADOWBROOK 51-71B (Nesmith 1958) MLa. A sister seedling of Rose Opal, but quite different in color and form. Deep, yet glowing Purple Madder (1028) flowers of very firm texture and entirely different tone of color from any hemerocallis that I have bred. It has inherited the deep velvety sheen from Imperial Velvet and its height and branching from Wanda. A self with 2 inch petals that are neatly ruffled on the border and have a firm midrib that is a shade lighter. The sepals are smoothly finished and the whole flower has great clarity of color that is in pleasing contrast to the cool green cup. Wanda x Imperial Velvet. dor. July-Aug. 39 in. \$15.00

SHOOTING STAR (D. Hall 1953) MLa. A very light cream with wide petaled recurring blooms. It is similar to North Star in color, but is a more full flower. H.M., A.HEM.S. 1954. dor. 38 in. \$4.00

SILKEN SHEEN 50-13E (Nesmith 1957) M. L. A. Few hemerocallis have the smooth silky texture of this deep rose (Spinel Red (0023) variety. The name is a good portrayal of this dark rose self that has widely spreading 5½ in. blooms and a shallow lime green cup that gives accent to the flower. It is larger and deeper than Neyron Rose and more smoothly finished due to the absence of any veining. Parentage (Pink Prelude x Royal Ruby seedling) x Killarney Lass. dor. Aug. 36 in. \$8.00

SPARKLING BURGUNDY 50-104F (Nesmith 1956). Deep and lustrous reminding one of the sparkling effervescent glow of red wine, thus the name seems most appropriate for this rich Cardinal Red (822/1) flower. A self with large six inch flowers having broad petals and sepals of flaring form embossed with velvety deeper red that adds to the brilliance and depth of tone. Firm substanced non-fading blooms with twenty six or more buds on well branched sturdy stalks, it seems to be the best red I have produced and attracted the attention of all garden visitors. (Royal Ruby Seedling x Pink Prelude) x Imperial Velvet. dor. July-Aug. 38 in. \$10.00

STARBRIGHT (K. Smith 1955). We need many yellow hemerocallis for the lighter colors are essential in greater quantity than the darker ones. This is a large star-shaped flower of Buttercup Yellow (5/1) that has great garden value. The blossoms are beautifully formed with broad petals of remarkably heavy substance and are carried on tall stately five branched scapes. dor. July-Aug. 43 in. \$6.00

STATE FAIR (Buttrick 1957) L. Distinctive in form, substance and color this handsome hemerocallis is an absolute self of Chrome Yellow (605) even to the heart of the flower. The broad six inch blooms have a firm crepey texture accentuated by a strong midrib on the petals. A very full open flower having wide 2¼ inch petals and 1 inch sepals with blooms remaining open until late in the evening. Late flowering and with a long season of bloom. Few hemerocallis have the beauty and refinement of form of this sturdy well branched rich yellow. (Autumn Dawn x Kentucky Cardinal) x Reliant. dor. Aug. 36 in. \$9.00

SYLVAN NYMPH

SYLVAN NYMPH 51-6 (Nesmith 1956). Captivating and most attractive this hemerocallis is difficult to portray in words for it has a charm that has attracted many garden visitors. A full wide open flower of Naples Yellow (403/1) with a light suffusion of pale Chartreuse (66/3) toward the center of the bloom. The whole flower is creped, ruffled and frosted and of most unusual form with the broad petals and sepals definitely pointed at the tips. Strong well branched stalks with twenty-four buds of very firm substance. Yellow Seedling 45-113 x Pale Yellow Seedling 45-114A. dor. July-Aug. Stock Limited. Net \$20.00

SU-LIN 40-215 (Nesmith 1941). The name is Chinese and freely translated means "a little bit of something precious," therefore it seems a fitting name for this lovely bi-color of pale mauve and creamy yellow. The flower is open and flaring with petals of orchid pink and sepals of light yellow. A.M., A.H.S. 1952. July-Aug. 35 in. dor. \$1.50

SWEET REFRAIN (D. Hall 1955) M. A medium toned pink that is almost a self and has good sized blooms with excellent branching. The color holds well in the sun. One of the parents of several of Mr. Hall's new pinks. The clones are not large but have vigorous growth and soon form an attractive clump. H.M., A.H.S. 1955. dor. July-Aug. 30 in. \$5.00

TEMPLE ORANGE (Baker 1958) ML. Large, broad petaled, flaring, intense orange that has also proven a good performer in southern gardens. An absolute self with color running down into a tiny green tinted throat. (Triumph x Glowing Gold) x Naranja. dor. July-Aug. 30 in. Stock Limited. Net \$8.00

THE DOCTOR (Claar 1950) EM. A rich red with wide open recurved flowers that are lightly frilled on both petals and sepals. It is a self with a velvety texture that adds depth and beauty to the bloom. A.M., A.H.S. 1955. H.C., R.H.S. 1958. dor. 36 in. \$4.00

THE ELEPHANT (Nesmith 1954) This hemerocallis was given the name on account of its huge size and spreading form. A self of rich chrome yellow with petals and sepals medium in size and recurving. A spectacular flower with rather high branching. 38 in. dor. July-Aug. \$5.00

THISTLEDOWN 48-15 (Nesmith 1952) M. The name seems most fitting for this fragrant, free flowering, very pale cream flower. It is an evening bloomer with wide flaring flowers that open about five P.M. and last well through the next day. Cool and refreshing, the flowers have ruffled petals and sepals, and are carried on strong well branched scapes. July-Aug. 38 in. dorm. \$4.00

TOURMALINE 41-119 (Nesmith 1953). Cool and refreshing, this Oriental Pink is a charming pastel self done in light lavender-pink tones. Exceptionally free flowering with 69 buds on one tall sturdy stalk, thus giving a long season of bloom. Aug. 49 in. dorm. \$5.00

TRUE DELIGHT 50-124 A. (Nesmith 1957) M. Delightful in color and form, this bright clear pink has attracted wide attention from garden visitors. It is a self with broad re-curving flowers of Porcelain Rose (620/1). The 2½ in. petals have a lighter pink midrib extending down to a mellow gold cup flushed with chartreuse in the heart of the bloom. Well branched with 25 buds it has great garden value. Parentage. 48-75 D x 45-84 B (velvety rose) Extended bloom. dor. July-Aug. 36 in. Net \$15.00

VALIANT (Cook 1943). An impressive glowing orange with large flowers of spreading form and firm substance. A very worthy hemerocallis. A.M., A.H.S. 1953. July. 40 in. dor. \$1.50

VENUS 50-125 (K. Smith 1955) Broad full petaled flowers of luscious salmon pink with a nice satiny texture. The petals have a raised midrib and the sepals are in a lighter tone resulting in a delightful bicolor, and as the day advances the bloom develops a lavender hue that adds to the charm of the ensemble. dor. July-Aug. 39 in. \$6.00

VESPERS 38-161 (Nesmith 1941). There is quiet elegance about this very pale cream that gives it great distinction and beauty. A deftly turned bloom of extremely heavy substance and open flaring form with petals and sepals lightly ruffled at the edges. The flowers open late in the afternoon and remain fresh during the next day. When plants are established they throw second bloom stalks lasting into September. Selected for trial at Wisley in England. H.C., R.H.S. 1957. July-Sept. dor. 39 in. \$2.50

VILLAGE VAMP 45-100 (Hodson 1955) Glowing and brilliant this absolute self of deep rich Cadmium Orange (8/1) stands out in the garden. The wide goblet shaped flowers are recurved and ruffled with a leather-like substance that makes it very sun and rain resistant. dor. July-Aug. 36 in. \$4.00

VITALITY 8-21 (K. Smith 1955) The name is most descriptive of this distinctive flower for it is filled with life and vigor. The base color is Persimmon Orange with chevrons of Pansy Purple (928/1) on the petals but not on the sepals. The large star-shaped cup is Cadmium Orange (8/1) with the sepals very recurving, petals flaring and ruffled. The charm of the flowers is in their informal grace and intense showy color. Open evenings. semi-ev. July. 30 in. \$6.50

VOODOO (K. Smith 1957) M.L. Dark and unusual in color the name seems most descriptive of this deep red and purple hemerocallis having boldly recurving blooms with a broad throat of bright yellow. The wide petals are lightly fluted and the sepals smoothly finished. The whole effect is a wine red flower with great freedom of bloom on four way branching stalks. dor. July-Aug. 39 in. \$6.50

WANDA (Vestal 1955). A very large semi-flaring flower of clear rose-red edged with a light ruffling of creamy yellow. The cool green throat adds to the beauty of this tall well branched hemerocallis. I have found it to be a very valuable parent to use in hybridizing. July-Aug. 38 in. \$2.00

Wander (Maerz) 41
Wedding Bell 37

Yoko 59

WAXWING 45-38G (Nesmith 1953). A wax-like flower for which the name seems most fitting. The full recurving blooms are of large size and Coral Pink in color. It is a self except for the creamy yellow throat, and there seems to be a frosty sheen enveloping the whole flower. A little lighter in color than Her Majesty, but equally lovely. Tall and stately, with many blooms on adequately branched stalks. H.M., A.H.S. 1956. July-Aug. 40 in. dor. \$8.00

WINDSOR TAN 41-63 (Nesmith 1948). This brownish bi-color of Windsor Tan (Maerz & Paul) and Buff Yellow has impressed many as being very distinctive. The petals are

broad and firm of glowing golden brown with sepals of yellow lightly flushed with warm sepia. H. M., A. H. S. 1952. July-Aug. 34 in. dorm. \$12.50

WITCHCRAFT. 50-85A. (Nesmith 1957) M. Unique in combination of color this deep Barium Yellow (503) self has a dark Spinel Red (0023) halo that gives a weird yet bewitching contrast to the flower. The blooms are full and recurving with two inch petals and one inch sepals well spaced on tall sturdy stalks. Parentage Big yellow seedling x Purple seedling. dor. July-Aug. 40 in. \$4.50

Hostas or Plantain Lilies

The Hostas are excellent for edging borders, mass planting or in front of shrubbery. If you have a shady spot under trees that seems devoid of interest, then by all means try some of these interesting plants for they are at their best grown in

such a location where their large sturdy leaves seem almost tropical in growth and very decorative. The racemes of bell-like flowers of lilac, blue lavender, and white rise well above the foliage.

HOSTA AOKI. A rare and delightful Hosta that is sturdy in growth and of rapid increase with fairly broad leaves 7 inches wide and 8 to 9 inches long and soon forms a full rounded clump. The flowers are very pale lavender with a delicate penciling or flush of deeper tone on the petals and are borne on tall graceful stalks. July. 27 in. \$3.00

HOSTA LANCIFOLIA HYBRID (FRW #537). A most charming Hosta that was bred by Mrs. Frances R. Williams. The leaves are similar in shape to those of Minor Alba and are distinctly margined with white. The pure white blooms are well spaced on strong slender flowering scapes. Dainty and beautiful, it is delightful for border planting. Aug. \$5.00

HOSTA CAERULEA. The true variety has the bluest flowers of any of the Hostas. It is the next largest in size of flower to H. plantaginea with very round puffed out bells of lavender blue distinctly penciled on the inner surface with deeper color. The leaves are glossy green of large size and graceful form. Use for border planting with pale yellow Hemerocallis in the background. July-August. 3 ft. \$1.00

HOSTA LANCIFOLIA var. fortis. One of the narrow leaved varieties of later blooming habit than most of the Hostas. The medium lavender bells are more flaring and rise well above the waxy green foliage. Aug.-Sept. 2 ft. \$1.00

HOSTA DECORATA. This variety has rather small oval leaves margined white and make lovely rosettes of leaves with lavender purple blooms veined white extending at right angles from two foot stalks. Early August. \$2.00

HOSTA LANCIFOLIA TARDIFLORA. A rare variety that is very late blooming. It is especially good for the warmer climates for often in New England the blooms are taken by the first frost. The leaves are slender and the flowering stalk is strong and sturdy with many wide open blooms of delicate lavender. Distinctive and charming. In the north plants should be heavily mulched after the ground is frozen. 18 in. \$5.00

HOSTA ERROMENA. A robust plant forming clumps of dark green leaves with curved veins either side of the midrib. The pale lavender flowers of bell shaped form with violet margined anthers are carried on strong scapes well above the foliage. A rare variety. July-Aug. \$1.50

HOSTA MINOR ALBA. Dainty and charming, this rare variety has pure white blooms well spaced on the strong but slender flowering stalks. Aug. 15 in. \$2.00

HOSTA FORTUNEI. Often this variety is confused with H. Sieboldiana, but it is quite different for the leaves are smaller and less glaucous and the racemes of flowers are more open and stand well above the foliage. Aug. 2 ft. \$1.00

HOSTA PLANTAGINEA. The largest flowered variety of the group with long tubular flowers of pure white carried well above the large light green leaves. The flowers are sweetly scented, and it is lovely planted on the border of a terrace. Late August. 2½ ft. \$2.00

HOSTA FORTUNEI var. marginato alba. The most decorative of the variegated Hostas. The large glossy green leaves with broad irregular margins of pure white are tall and arching and sweep over to the ground in the most graceful manner. Pale lavender, almost white flowers rise well above the foliage. Exceptionally lovely planted in moist shady places. July-Aug. 3 ft. \$2.50

HOSTA SIEBOLDIANA. The true variety is the most rare and handsome of the Hostas. The large, broad rounded leaves are overlaid with a heavy grey blue lustre that reminds one of the thick frost crystals found on windows after a cold wintry night. The creamy pale lavender flowers have heavy substance and are borne on short clustered scapes. Plant in shade. Too much cannot be said in praise of this silvery foliage plant. June-July. 2 ft. \$4.00

HOSTA FORTUNEI var. viridis marginata. A very attractive and unusual variety with large pointed leaves of light green with a definite broad margin of dark green. The bell shaped flowers are pinkish in color and are carried on two foot scapes. July. 2 ft. \$3.00

HOSTA SIEBOLDIANA YELLOW EDGE. A new and very rare variety that seems to be a hybrid or sport of Sieboldiana for it has rather rounded glaucous leaves with a decided border of yellow almost surrounding each leaf making a most decorative plant in the garden. The flowering racemes are about the height of Sieboldiana and are pale lavender to creamy white. This handsome Hosta is so rare and stock so limited that I can allow only one to a customer. July-Aug. 2 ft. \$10.00

HOSTA GLAUCA. A delightful and different variety that has blue-gray leaves which are more smoothly finished than those of Sieboldiana and is especially adapted to a semi-shady place in the garden. July. 30 in. \$3.00

HOSTA UNDULATA. A low growing border plant with very ruffled leaves of light green, splashed with creamy white. Interesting on account of the unusual coloring of the leaves. 15 in. \$1.00

HOSTA HONEYBELLS. A charming new hybrid with light lavender-lilac flowering spikes that have a delicious fragrance. The blooms are evenly spaced on sturdy scapes rising well above the clear green foliage. A great addition to the group of Hostas. 30 in. \$1.50

HOSTA UNDULATA var. univittata. The heavy waxy green leaves are most decorative with creamy white bands on the center of the leaves. The lavender flowers are borne on wiry scapes well above the foliage. July-Aug. \$3.00

HOSTA LANCIFOLIA var. albo marginata. This narrow leaved variety is a rapid grower with long light green leaves with a narrow border of pure white. The purple flowers are penciled with white and rise well above the foliage. Excellent for low border. July. 18 in. \$1.50

Oriental Poppies

AKSARBEN. Tall and very large, this lovely light pink is very distinctive with its deep base spots and fluted edges. Sturdy stalks. **\$2.00**

ALICE LOUISE BRAUNLIN. A beautiful La France pink with medium sized flowers. The very crinkled petals and dainty purple base spots add greatly to its beauty. **\$1.50**

BIG JIM. Handsome flowers of rich maroon. Brighter in color and larger than the old time Lulu Neeley. **\$1.50**

CORAL CUP. A beautiful six petaled poppy of real pink coral tone; velvety rose-purple stamens; almost no basal blotch; exceedingly tall and a late bloomer. My introduction. **\$2.50**

ECHO. A charming flower of light silvery pink with almost no base spots and a frosty glistening sheen. **\$1.50**

ENCHANTRESS. A Neeley hybrid of soft lilac-rose coloring; an improved Masterpiece and extremely popular; rare. **\$2.00**

HELEN ELIZABETH. Heavily crinkled petals of pale La France pink with no dark markings. Nice planted with delphiniums. **\$1.50**

MARY FINAN (R. Burke 1955). This variety was originated by Mr. Roy Burke of Paulding, Ohio. He was associated with Dr. Neeley, the famous hybridizer of Oriental Poppies. The flowers are very large of bright chrysanthemum crimson with deeply lance-stitched petals giving a very fringed effect. The most stunning and different Oriental Poppy that I have seen and one that I am delighted to sponsor. **\$3.00**

MARY TYNE. This poppy was named for an ardent gardener who considers it has an especially attractive color. A profusely blooming variety with full rounded flowers of rich vermilion red of very firm substance that are carried on strong sturdy stalks. **\$1.50**

MAXIMA SUPERBA. Tall and commanding, this cardinal red poppy is the most handsome in the garden. Strong, sturdy stalks and long season of bloom. A rare variety that is admired by all garden visitors. Stock Limited. **\$6.00**

MRS. HEENK. Full flower of beautiful rose pink that has lightly ruffled petals and is of rapid increase. **\$1.50**

NEW PERFECTION. Delicate sea-shell pink with feathery black stamens. The petals are so heavily fluted that it has the crisp appearance of being starched. **\$1.50**

SEASHELL (Nesmith 1938). A very delicately colored poppy with the creamy iridescence of pink seashells. The cup-shaped blooms are of heavy wax-like substance. **\$2.00**

TANAGER. A radiant deep red of extreme height and beauty. Selected as the finest red of last year by garden visitors. **\$2.00**

WATTEAU. Delightful in color this light flesh coral of moderate size is ideal for flower arrangements or in border planting. **\$1.50**

WHITE DELIGHT. A lily white poppy with fan shaped petals and dark base spots. **\$2.50**

Special List of Well-Known Bearded Iris
