The Power of Protest - Catalogue reprieve!!

When I first told you about my decision not to send autumn catalogues any more, a great number of you were so disappointed that I tried to find a way round this and continue to send you standard spring flowering bulbs (we will be keeping the collection of Alec Gray Hybrids etc. here). I approached a colleague in the business and he is now going to handle the actual bulb despatch for me. His company predates mine and like us prides itself on high quality bulbs and personal service. The bulbs will be the same, and from the same source, just posted in Kent not Somerset. For those of you who ordered from our special daffodil offer in the spring catalogue these will be sent directly from here. I will continue to produce the catalogue, experiment with pots and keep an eye out for new varieties but I will also be free to travel.

Our front cover this year is one of a pair of pots that have bowled over our garden visitors. It features two of the finest late flowered double tulips – **Blue Diamond** and the slightly later flowering **Angelique**. It flowered for a month – the colours gradually fading until they look like an exquisite Victorian fabric. They truly deserve their name peony flowered. The other outstanding tulip was one of a new group of multi-headed tulips. **Candy Club** opens the palest primrose yellow, gradually fading to white with deep rose flashes. It then matures to a delicate old rose shade.

T. Blue Diamond & Angelique with visiting Peacock

A wonderful and mysterious tulip which packs a huge amount of flower power. In time we hope to offer more of these excellent varieties (keep an eye on the website).

Our garden continues to be open for St Margaret's Hospice and of course we are still running the nursery. As I write the dwarf bearded iris are in full flower and later the Agapanthus and Crocosmia are a dramatic sight in the field. These will be available to order online next winter/spring.

Christine Skelmersdale

those plants given the Award of Garden Merit by the RHS.

RHS Perfect for Pollinators

Please see **Terms of Business on Page 33** for details of postal charges.

All bulbs in this catalogue are commercially propagated.

These bulbs are for garden decoration only and should not be eaten.

Front cover picture: T. Blue Diamond & Angelique at Broadleigh

Our Spring List of plants in growth, especially Snowdrops, Agapanthus, Hellebores etc., will be online from January. **The garden is open to view every weekday (charity donation)** but please note that we are a working mail order nursery and not a garden centre.

METHOD OF PAYMENT. Payment may be made by cheque (payable to Broadleigh Gardens), Postal Order, Cash, our own Gift Tokens (we regret we cannot accept National Garden Gift Tokens), also our own Credit Notes. COMPLAINTS. Should there be any cause for complaint, please write within seven days of receipt of the package. We cannot guarantee flowering, which depends on horticultural conditions, but we believe that all bulbs and plants despatched by us are fine, healthy stock.

SUBSTITUTIONS. It is really impossible to forecast exactly what customers will wish to buy and so ensure adequate stocks of everything. We do our best as we wish to give absolute satisfaction, *but we reserve the right to vary the items in Collections at any time.*

VALUE ADDED TAX. This is included at the rate of 20% in all prices quoted in this catalogue. Should the rate change during its life, we reserve the right to alter our prices.
