NEW INTRODUCTIONS FOR 1937

(Names subject to A. I. S. approval)

CUCAMONGA (1937).—A rich blending of colors in an unusual association, especially for so early an iris, flowering here with the intermediates and one of the first tall irises to bloom. S. opalescent Aconite Violet shot with Vinaceous Brown; F. Auricula Purple overlaid Ox-blood Red, the haft white around the Cadmium Yellow beard, at the sides Old Gold veined Dark Brown. A sister seedling of Dayspring. Strong growth; 4 ft.\$10.00

MINNETONKA (1937).—Large flower of delightfully clean pure bright lavender coloring on relatively slender stems, the color solid to the orange-tipped beard; of exceptional charm in the garden picture; 4 ft.....\$10.00

MORONGO (1937).—Large, finely formed, dark wine-red flower of heavy substance, almost a self; a seedling of Acropolis by King Tut; late mid-season; 3½ ft.....\$15.00

SEBAGO (1937).—Garden visitors for two years have been generous in praise of the fine blue-violet coloring of this large and well-formed flower; outstanding in garden value; 3½-4 ft.....\$15.00

(Complete set of 1937 Introductions \$42.50 net).

SPECIAL COLLECTION OFFER

One plant each of 25 selected varieties, \$5.00 postpaid;
same collection in triplicate, 75 plants in all, \$10.00

EASTERN CUSTOMERS WILL FIND OUR ABILITY TO SHIP BOTH IRISES AND DAFFODILS IN EARLY SUMMER AN INESTIMABLE ADVANTAGE, GIVING THE PLANTS AN EXTRA LONG PERIOD OF ROOT-GROWTH BEFORE THE ONSET OF WINTER.

SPECIAL NOTE

Our garden is not a large one, nor grandly landscaped, but it contains its full quota of rare and interesting plants, and those who will but remember that it is simply a horticultural workshop and do not expect too much of it otherwise, are always welcome visitors. In addition to our innumerable daffodils and irises, which form a collection not easily surpassed, we grow various species of Moraea and Nerine, a very fair array of freesias and Hemerocallis, and divers odds and ends in small bulbs, rock plants, peonies, and other perennials. Late spring and early summer and again the fall are in general the most favorable times to secure stock for planting, but to view the flowers our spring months are best, February and March for daffodils and April to June for irises.

THOSE COMING FROM OUT OF TOWN MAY APPRECIATE THE CONCLUDING REMINDER THAT REDLANDS IN ROSE AND ORANGE-BLOSSOM TIME IS A SIGHT WORTHY A FAR JOURNEY TO SEE.
