1958 INTRODUCTIONS

BEARDED IRIS

★ **GOLDEN ANNIVERSARY** (M. R. Walker '58) #15-55 **\$25.00**

The highlight of seedlings in Marion Walker's Garden, at the A.I.S. '56 Convention. It made its debut on Mr. Walker's parents Golden Anniversary. We have received many inquiries regarding its introduction and we are grateful for the opportunity to introduce this iris.

Canary yellow standards, and the precise band of wedding ring gold around the bridal satin falls, presents floral symbols reminding one of that memorable occasion. 34". EM. (Harvester x Mitchell #4-7). H.C. '56.

★ **MAGIC HALO** (G. W. Coppedge '58) Sdlg. #126-54-1 **\$30.00**

The subtle fascination of this artistic blend gives pleasure in all its blooming phases. Rosy orchid heart, shading to pearl gray at the edge of the petals, completely overlaid soft metallic gold creating a halo illusion. Ideal proportions, substance, and texture. Well branched. 36". M. (A8-51-10 x Mary Randall). H.C. '57.

★ **MALVA LACE** (D. Lyon '58) Sdlg. #53-15-3 **\$20.00**

Noteworthy because of its intriguing pattern of bubbles and lace which extends well into the petals and is further accentuated by pequot edges. The delectable shades of mauve and orchid are blended beautifully over the broad petals of excellent substance and texture. Its long blooming season extends past other late blooming Iris. 38". (Happy Birthday x Convention Queen).

★ **TANGELO** (D. Lyon '58) Sdlg. #52-40-9 **\$15.00**

The dull satin texture and refined blending of nasturtium-orange and apricot enhance this symmetrical flower. The many blossoms and long blooming period contribute to its value as a garden subject. Free branching of sturdy tall stalks, combined with vigorous growth is unusual in iris of apricot color. 40". M-VL.

MAGIC HALO

SPURIA IRIS

EL CAMINO (M. R. Walker '58) **\$15.00**

A child of Wadi Zem Zem that carries its good qualities with a few added interests. According to the color charts it is a deep orange-yellow self. The falls are flaring and somewhat unusual in form for a spuria, which gives the flower a distinctive appearance. This plant is a hardy grower and should make a fine parent. 50". (Grace Perry Nies x Wadi Zem Zem).

GAY LARK (M. R. Walker '58) **\$15.00**

This iris is a new, much improved yellow bicolor out of Canary Island. The standards are broad and erect with very heavy substance. A soft white, blending to yellow at the center of the flower. The falls are a deep orange-yellow, a singing vivid shade, edged white (1/2") and heavily ruffled. The over all effect of the flower is brilliant, and the quality of bloom is outstanding. 55". (Grace Perry Nies x Canary Island).

- ★ **DARK CHARM** (Coppedge '57) Sdlg. L49-3 \$10.00
Ruffled and flaring, two qualities one seldom sees in an iris of walnut brown overlaid garnet. (00918/3). Style arms of deep lemon-yellow are crested in brown and the deep bronzed Indian-yellow beard gives the flower a glowing heart. 36".
- ★ **GOLDEN LANCER** (Pattison '57) \$10.00
Broad perfectly domed flowers of white and golden yellow. The standards are broad and a rich shade of pure golden-yellow. The white falls are slightly ruffled with a deep golden yellow border; the same shade of velvety yellow extends far down on the hafts. Flowers are smoothly finished.
- ★ **HAPPY MEMORY** (Lyon '57) Sdlg. No. 493-51-13 \$15.00
This plicata is a sister seedling to Happy Meeting. The petals are over 3" wide; beautifully branched. Standards gold-flushed and heavily sprayed pansy-violet (033/1). The falls are white with a wide heavily sprayed band of pansy-violet; white beard. Violet crested style arms are banded gold on both sides of a violet mid-rib. 42". M. (Lovelace x New Hope).
- ★ **HARVEST HOLIDAY** (Lyon '57) Sdlg. No. 617-51-1 \$20.00
A very unusual color with an amazing ability at obtaining everyone's attention. The full petals have a velvety texture, and the bloom as a whole is well proportioned—making it a picture to behold. A stalk of Serene Dusk is a bouquet in itself. 32". M. (Kol Nidre x Cardinal's Robe).

The color is refreshing as spring itself. Large broad petaled flowers with ruffled edges of a medium lilac. 36". M. (D700-51-2: White Ruffles x Pattison White seedling) x (D25-49-4: Hit Parade x Dream Girl)).

- ★ **WOODLAND SPRITE** (Coppedge '57) Sdlg. No. A8-51-11 \$17.00
An illusive suggestion of green, combined with the unusual violet beard, tipped with blue makes the name chosen most appropriate. A self of dresden yellow-green (64/2), semi-flaring form, broad petals and good branching. 34". M. (Char-Maize x Green Pastures).

This velvety oxblood-red does not fade nor does it show haft markings. An orange beard lends charm to this vigorous iris. 39". M-L. (Color Sergeant x Garden Glory). H.C. '52.

CORONATION TAPESTRY (T. Craig '53) **\$3.50**

Here is a striking and novel flower. A blend, the standards are rosedust blending through maroon to old gold at the midrib with a lilac iridescence on the inner midrib. Falls are travertine washed and veined purple. Eupogocyclus hybrid. 36". E-M. H.M. '55. (Gay Senorita x Joppa Parrot).

OUR HALL OF FAME

THE STANDARD BEARDED IRIS VARIETIES

On this page we have listed a group of iris no longer new to gardens, but they are varieties that continue to be very popular just because they are so good they compete strongly with the new kinds. Where, for instance, is an iris that surpasses Amigo in its wonderful color combinations? We have discarded many varieties through the years as being supplanted by better ones in the same color class, but we just can't drop these. Here's your chance, then, to buy excellent iris at very low prices. They are the ones which have stood the test of time in countless gardens. We must clear this stock to make room for the many new varieties coming in. We reserve the right to make substitutions in this collection, of equal or greater value, where items ordered are sold out.

Spuria Iris

The Spurias, sometimes called the "Butterfly Iris," are hardy and easy to grow. They range from three to five feet in height and will grow in almost any location of the garden. They are especially fine for background plantings.

Their blooming season starts about the middle of the Bearded Iris season, thus prolonging iris display in the garden. Too, they are one of the finest for flower arrangements and especially fine for corsages, resembling orchids.

Once planted, they establish themselves and do not need to be transplanted for several years. Like the other rhizomatous iris, they should be given shallow plantings, that is, just cover rhizomes. Plant from 1½ to 2 feet apart.

For specimen blooms we suggest an application of steer fertilizer around your plants, in early spring, when new growth is starting up. A compost mulch is very fine too. Keep them well watered during their growing season, especially the pre-blooming growth.

SHIPMENTS will be made from September 1st to December.

They are in full bloom in the middle of the hot summer when flowers are not too plentiful, and many varieties continue through with reblooming periods, clear up until heavy frosts.
