(In front of Dr. Kleinsorge, his SPANISH FANDANGO)

We humbly dedicate this 1960 edition of our catalog to Dr. R. E. Kleinsorge of Silverton, Oregon, in grateful appreciation for his magnificent and enduring contributions to adorn the world with ever more beautiful bearded irises. Dr. Kleinsorge's achievements have been the stepping stone for many hybridizers and these will always remain a monument to his unexcelled brilliance in the hybridizing of bearded irises. We extend our eternal thanks for a work-of-love well done.

CHRISTMAS PRIMROSE (Mrs. L. W. Ollmann, Menlo Park, Calif.) Early — Midseason, Re-blooms. 30 in. (White Ruffles x Spring Moon) Very smooth cream or primrose-yellow self; falls have a slightly lighter area. Good substance maintains the domed standards and very wide, flaring, falls through the life of the flower. An excellent addition to this color class even without its dependable re-blooming habit in favorable climates **\$20.00**

DELIGHTFUL (F. Harold Alexander, High Point, N. C.) Midseason — Very Late 39 in. (Sky Ranger x New Snow) Violet iris have been among the leaders in popularity and DELIGHTFUL is an excellent new addition to this color class and one that will rank high for many years to come. According to color charts it is Aster Violet. The flowers are large, wide, have excellent substance and are nicely placed on well branched, heavy stalks. Typical Snow-Flurry-ruffling add to the charm of this grand flower. Wonderful breeding potentials in this beauty. **\$20.00**

DESIRE ME

DESIRE ME (Mrs. David (Betty) Wanberg, Murray, Utah.) Midseason 30 in. (Happy Birthday x Ruffled Apache) Medium, chrome-yellow falls have a light area in the center. Standards and falls heavily laced. Branching is close and buds turn in to the stalk (as with Matula derivatives) but in spite of these obvious faults the flower has such charm and wonderful breeding possibilities for laced breeding that all who saw "desired it" so Betty decided the name should be "DESIRE ME". The first to be named by this avid and careful hybridizer and one that will be in demand by hybridizers seeking lace in yellows, pinks, orchids, and perhaps blends. Closed (domed) standards and flaring falls. Deeper gold lines at the hafts give this iris distinction. **\$20.00**

DOCTOR K (Muhlestein) (Midseason — Late 30 in. (Pretty Quadroon x Bill Brown) X ((Arab Chief x Stag at Eve) x (Glistening Copper)). Doctor Kleinsorge has done more to advance the work in BROWN iris than any other hybridizer, and since this lively smooth, golden brown self seemed to culminate my efforts in this direction I was pleased when permission was granted by Dr. Kleinsorge to name this iris in his honor. It is my feeling that DOCTOR K has the qualities this great man exemplifies. Doctor K is not as large as some of the browns we have, but its shape, substance and form are excellent and the flower has a certain charm and personality that set it apart. There is a bit of ruffling at the hafts and color holds in the heat of the late season for the life of the flower. Easy parent both ways. Few judges have seen it because of its season of bloom. No. 57-155. Limited stock. **\$35.00**

GOLDEN SPICE (Muhlestein) Midseason — Late 36 in. (Rodeo x Fire Dance) X (Sass's 46-165) The finest yellow-ground plicata I have produced. The yellow is clear, the ginger-brown plicata markings on the falls are nicely applied, and the flaring, tailored falls give the flower a jaunty appearance. Has a fine stalk and branching with many buds. No. 57-42-A **\$25.00**

1960 INTRODUCTIONS — Continued

- FALL GOLD** (Z. G. Benson, Wichita Falls, Texas) Midseason and Reblooms. 34 in. (Ola Kala x Miogem) This has a strong tendency to reliable reblooming habits and will be especially useful to hybridizers, and those living in favorable climates where early frosts are not common. Fertile pod and pollen parent, good branching. Color deep gold with a light splash of white on falls below the orange-lemon tipped beard, flaring falls, domed standards and good substance make Fall Gold a useful addition to this popular class needing such quality. **\$10.00**
- LACED ARMOUR** (Muhlestein) Midseason-Late 40 in. (Armour Bright x Inca Chief) Golden brown of very large size and the first laced brown I have introduced. Actually the falls are the laced part and are down-hanging. The hafts have reticulations, but I feel it will be most useful in a brown and laced program. Good grower and fast of increase. I should like to see this crossed with Doctor K, and the border I am introducing this year as Golden Copper. Well worth its low introductory price. No. 57-102 **\$5.00**
- LADY OF NEPAL*** (Muhlestein) Early-Midseason 40 in. (McLeod's: Snow Flurry x Luna) X (Asoka of Nepal) Wide, rounded flower with flaring falls. Standards cream, falls yellow with buff hints as it opens but this pales to yellow as the flower ages and the edges of the falls are cream. This actually gives an Amoena effect in the garden. Occasionally has pollen, but is rather an easy pod parent—especially crossed with some of the pollen-fertile C. G. White hybrids. No. 59-9 **\$20.00**
- MAIN EVENT** (Les Peterson, Salt Lake City, Utah) Midseason 35 in. (Char-Maize) X (Sdlg. from two sister seedlings from: (Happy Days x Depute Nomblot) x (Bryce Canyon x Moontide). Blended red of Indian Lake and Garnet Lake that is almost a complete self save for the dull yellow beard. A duplicate of its pod parent, Char Maize, for size, shape and substance. Has slight reticulations at the haft which should easily be cleared up in the next generation if crossed with Privateer, Forward March, etc. Because of its Kleinsorge lines, Dominion and Snow Flurry blood, I feel it holds unlimited possibilities for improvements in modern reds, browns and coppers as well as fine yellows. Awarded an Exhibition Certificate in 1957. The heavy Snow-Flurry-type stalk, with better branching, are added assets. **\$25.00**
- MISS ALAMEDA** (Midge Awalt, Castro Valley, Calif.) Mid-season-Late 38 in. (Sass 49-100 x Belle Meade) X (Caroline Jane) Plicatas are "a dime a dozen" but not of the quality Miss Alameda is blessed. The huge, full, ruffled blooms have such substance they stand up to heat and weather five and six days. The white ground is very clean and bright and the violet edging is heavier on the standards and at the hafts, but circle the falls neatly, gradually narrowing toward the tips. The big flowers are well spaced on heavy, well-branched stalks. MISS ALAMEDA'S royal breeding insures her success as a potentially great breeder. Vigorous and healthy grower with excellent blooming habits. May be seen in the Noyd Garden at Wenatchee, Washington. No. 581-A. **\$25.00**
- NEGLIGEE** (L. Crosby) EL 38 in. (Snow Flurry x Gold Ruffles) X (Queen's Lace) Deeply fluted and heavily ruffled cream with excellent substance and many buds. As lovely as a bride's frothy Negligee. Marvelous blood for ruffles and lace in blues, whites, creams, yellows, blends, pinks and possibly even plicatas. No. 56-30 E. **\$20.00**
- ROYAL CANADIAN** (Rev. A. K. Edmison, Brighton, Ont., Canada) Midseason 40 in. (Black Hills) X (Katherine Fay x Great Lakes). Royal Blue or Ultramarine violet self with a dark blue harmonizing beard. Gorgeous flaring blooms with domed standards make this a flower approaching perfection. The branching is excellent. All in all Royal Canadian is an iris any hybridizer would be happy to have produced, and one Rev. Edmison must be justly proud. This should be a great breeder for blacks, blues, violets and whites. Will also be useful for breeding blue and black beards in many colors. I should like to see this crossed with Allegiance and Marriott. No. 58-55. **\$35.00**
- SPEAK SOFTLY** (Muhlestein) Midseason-Late 40 in. Sib. to Utah Cream x Spring Sunshine) X ((Gold Ruffles x Pink Tower) x (Raspberry Ice Cream)) Large, wide, heavily subtended ivory-cream self with a large, wide, lush, soft peach colored beard. Holds unlimited possibilities for breeding pinks, laced things, whites with peach and tangerine beards, etc. Heavy stalks with excellent branching. A "soft-spoken" charmer with that heavy magnolia-like texture. No. 59-38 **\$25.00**
- SMOKE MIST** (George Mayberry, Provo, Utah) Midseason-Late 36 in. ((Sib. to Utah Cream x Yellow Tower) x (Salmon Shell x Pink Fullfillment)) X (Mary Randall). With such a pedigree this had to be a wonderful cross. Smoke Mist has a charm and personality all its own with its blended colorings of soft pinkish-apricot-salmon lightly overlaid with mauve. A great breeding potential. No. M55-21 G. **\$25.00**

1960 Border Iris
INTRODUCTIONS

SNOW AND GOLD (Jan Muhlestein) Midseason 36 in. (Mission Madonna x Summit) I feel this is an important addition to the yellow amoena class. Clean contrast between white standards and the wide, flaring, rich yellow falls. Fine, well branched stalk. **\$15.00**

SULTAN'S MUSIC (Ted R. Elstrom, R 1, Concordia, Kans.) Early-Midseason 36 in. (Sultan's Robe x 50-20) Unusual, perhaps, as the music to be heard in a Sultan's private chambers. This gorgeous smoky violet blend has a blue blaze in the very round, wide and perfectly horizontally flaring falls. Ted Elstrom has been hybridizing many years and this is his first seedling to be named. Will be received with praise by those who like quality and the unusual. Already this is proving a splendid parent and has produced some white offspring. I should like to see this crossed with Jungle Bird, Jungle Rose, Smoke Mist, Gracelle, Laced Armour, Royal Ruby, Bang and Stormy Skies. No. 55-3 **\$25.00**

VENETIAN PINK (Margaret Albright, Salt Lake City) Early-Midseason 34 in. (Gracelle x Pink Enchantment) Venetian Pink according to Wilson Color Chart. A lovely pink self close to the coloring of Native Dancer, though deeper and the beard is also a deeper pink. Introduced for breeding purposes only for it has proven its worth as a parent but blooms too heavily so it is difficult to propagate commercial stock. Only a few to release. **\$15.00**

WONDERFUL SKY (Muhlestein) Midseason-Late 36 in. ((Pierre Menard x (Sky Song x Cahokia) X (Utah Sky). Large, wide, clean medium blue self with pale lemon-yellow beard. Branching is high, but the individual blooms are magnificent and the color is close to spectrum blue. Sister to Violet Leather and White Leather. Received the award of HC. 1958. No. 57-111 **\$25.00**

WONDERFUL WHITE (Muhlestein) Midseason-Late 40 in. (Swan Ballet x Star Cross'd). Evidently most of the good genes combined to produce this gorgeous pure white with white beard. The heavy mangolia-like substance has great lasting qualities even in the heat of the late season. Domed standards and wide flaring falls slightly more tailored than its Dykes Medal winning mother. Heavy stalk with good branching that displays three and four blooms to perfection. Unfortunately WONDERFUL WHITE is slow to establish and increase and does not always bloom the first year after being transplanted, but well worth waiting for. Stock is limited and only a few will be released this season. No. 57-144 **\$35.00**

WHITE LEATHERETTE (Muhlestein) Mid-Late 36 in. (Sister to Wonderful Sky) Wide, nicely sub-stanced, heavy white with light yellow beard. This was the only white from several generations of blue breeding, and a good one it is. Fast of increase and vigorous. A good stock permits a low introductory price. Branching, like Wonderful Sky, could be better. No pollen, but will set pods. **\$5.00**

BABY DOLL (L. Crosby) ML 18 in. (Mary Randal x Queen's Lace) Miniature flowers in keeping with the size and height of the stalk. Cream but the falls have an opalescent center. Entirely laced the lace edge is of a darker cream. A real charmer. Could breed tall as well as border irises. No. C 57-25 **\$20.00**

BORDER GOLD (Muhlestein) Late 20 in. (Gold Torch x Solid Gold) Rich, deep clean yellow that for sheer brilliance has no counterpart among my new seedlings. Will be useful for the front of the border in the late garden. Only 4 to 5 buds. No. 697. **\$5.00**

COCKLE SHELLS (Agnes Whiting, Mapleton, Iowa) Midseason-Late 24 in. (Tribute: Pathfinder x Cherie) X (Orient Pink) Shell pink self (Wilson 516-3) with deep coral beard. The standards are wide and closely cupped, falls wide and flaring, substance heavy and the color does not fade. Free of haft markings or brushing of off-color. Vigorous grower but produces medium to small rhizomes. Very free blooming. We think it has a tremendous appeal both for itself as a border plant and for its grand breeding possibilities for border plants as well as standard tall-bearded. No. 551 **\$15.00**

GOLDEN COPPER (Muhlestein) Midseason-Late 20 in. (General Patton x Glistening Copper) Another triumph in breeding with Dr. Kleinsorge's fabulous brown and copper lines. This is a rich and smooth golden copper-brown with lots of life and free of haft markings. Selected in 1952 some of the stock was accidentally lost when a box containing a few rhizomes of this fell from a truck and was run over. Not, anyway, a fast grower, nor an easy breeder. No. 52-42 **\$15.00**

LADY KAY (Muhlestein) Early-Midseason 18 in. (Spinkston S 6 S: Snow Flurry x Cherie) X (Gracelle). Small-flowered orchid self with perfectly round and horizontally flaring daintily laced falls. Lady Kay is named for Kay (Mrs. Jack O.) Riley of Denver, Colorado. I feel certain Kay shall never be ashamed of her namesake for "she" is quality and charm all the way through. There is no other color in the flower save the lighter beard. With this breeding should produce great seedlings. Has no pollen, but will set seed. HC '59. No. 56-9 **\$25.00**

MAKE-BELIEVE* (Lloyd Paul, Salt Lake City, Utah) Early-Midseason 20 in. (Aldura x Capitola) I think this marbled light blue with irregular white markings on both standards and falls is about as perfect an onco-derivative as I have seen. The wide, round and horizontal falls are perfection and beautiful to look upon. Easy grower and perfectly hardy. Lloyd Paul embryo-cultured this. **\$25.00**

1960 INTRODUCTIONS — Continued

SANDRA LOU (L. Crosby) ML 26 in. (Little Sweet-heart x Azure Lake). Gorgeous light blue with flaring falls and ruffling around both standards and falls. Lemon-tipped beard. Substance is excellent and the branching ideal. Carries a lovely fragrance. No. C 57-27 **\$20.00**

SAUCY PEACH (Muhlestein) Midseason-Late 20 in. (Golden Flash x Yellow Dresden). Small-flowered, jaunty peach-pink self. This should be great to cross with Cockle Shells, Jan Elizabeth, Rosedale, etc. for other fine border iris. No. 56-33 B **\$15.00**

From Eugene Sundt of Albuquerque, New Mexico, Five Exciting Arilbred Iris:

ARDIMAC* (Ardrun x Ib-Mac) Early to Early-Midseason 26 in. Violet purple standards (Wilson 7-33-3) and Maroon falls (Wilson 10-30-3) Falls have strong black signal spot at tip of blackish beard. Haft greenish-yellow, veined maroon, styles bronze-gold tipped and ribbed violet-purple. Pods easily to the fertile C. G. White things and has fertile pollen. 7 inch. blooms on stalks that carry one or two branches. Standards a bit weak as with Ardrun. Fast of increase, easy of culture, requiring no special attention. No. 5631-U **\$10.00**

HOOGIMAC* (Spotless x Ib-Mac) Early, Early-Midseason 26 in. Strongly regelia in form and foliage. Evidently the dwarf and regelia chromosomes smothered Ib-Mac which is usually quite a dominant parent. Could be useful to dwarf and median breeders as well as Aril Fanciers. Standards Campanula Violet (Wilson 37-1) at tips shading to 37-3. Falls are Spectrum Violet 7-35 shading to near-white beard which shades to greenish-yellow under the style arms which are 37-2. Has pollen and will set seed. Sundt has had crosses from Hoogimac and Saffron Charm and tetraploid regelias. Has retained some of the fragrance of Spotless. No. 5602-8 K **\$5.00**

MOHR IVORY* (Purissamohr x Frost & Flame) Midseason-Late 35 in. Large, heavily substandard globular flower with gorgeous flaring, wide, falls that tend to curve under at the tips in onco fashion. This flower shows much more Onco than its pod parent: Bred to the new C. G. White hybrids, Mohr Lemonade, Cream Crest, Yellow Dresden, Speak Softly should give some gorgeous cream-colored iris. Crossed with Magic Light, Rojo Grande (Sundt '61 Susiana x Pink Formal), Party Pink, Spring Tonic or L'Amour should produce some tangerine-bearded and unusual hybrids. **MOHR IVORY** is pale Dresden yellow, has heavy midribs and perfectly domed standards. Fertile, and vigorous. No. 5578-8 A **\$20.00**

SUSIMAC* (I. susiana x Ib-Mac) Early 15 in. In coloring like the pollen parent, Ib-Mac, in size more like I. susiana. Fertility uncertain, but with persistence some pods should be had. This was embryo-cultured. Onco in growth, but of easy culture, fast of increase and plants do not die down in the summer if watered. **\$5.00**

VIOLET SPLASHES* (Snow Flurry x Isis) Early-Midseason 34 in. Another "feather in the cap" of Snow Flurry. A self of Mauvette (Wilson 5-37) which carries a variable splashing of Spectrum Violet streaks (Wilson 7-35-1) Beard light brownish-green with a light greenish infusion surrounding beard area on falls. No pollen but will pod to other fertile onco-breders. Won Exhibition Certificate at New Mexico Iris Society Show May 17, 1959. No. 5651-8 c. **\$20.00**

*It's not a pickin' garden,
It's a settin' one!*

GEDDES DOUGLAS' LILLIPUT (MEDIAN)

LILLIPINKPUT (Geddes Douglas) EM 12 in. (Pink Formal x Wewon). I advised Geddes that I thought the name should be "LILLICOT" since the color is actually very smooth apricot (even to the richer beard) but the name had been conferred and the plant put in several of the Median test gardens so it was felt unwise to change the name. This is the finest of a new color in the MEDIANS and should produce this color, pinks and orchids with relative ease if bred to them. Produces pollen, but I did not find it fertile on the few attempts I made, however, pods rather easily to a wide range of Median and T.B. pollens. HM '58 **\$20.00**

BEARDED IRIS FOR 1960

(* marked contain Oncocyclus or Regelia blood)

- ADDED ATTRACTION** (C. Rees '59) M 48 in. (Hall's 44-09 x Golden Eagle) x (Hall #22) Rosy Orchid with full coral beard. **\$15.00**
- AHOY** (Tompkins '57). M. 38 in. (50-116, pod parent of Brigadoon, x Defiance.) Close to Carmine by Ridgeway color chart. Appears to be a bright rosy-toned cherry-red. Well branched, heavily substanted, non-burning. HC 1955. **\$10.00**
- ALERT** (Barker '57). L. 39 in. ((Copper Rose x Day-break) x (Overture)) x (Paradise Pink). Buttercup yellow; falls have a center of Ivory. Many blooms on well branched stalks. This should be a blood refreshment for pinks and apricots and could breed fine blends, yellows and creams. **\$5.00**
- ALICE LEMEN** (Plough '57) M 31 in. (Gold Ruffles x Cherie) X (Twenty Grand) Crimped and fluted lemon yellow with white area in falls. Blood for lace, blends and pinks. **\$12.50**
- ALLAGLOW** (Tompkins '58). ML 37 in. (Ballet Dancer x Lady Albright) x (Golden Twilight). Sunburst-gold blended bittersweet orange, flushed orchid at tip of beard and sprinkled with gold dust. An excitingly beautiful blend. HC '57, HM '58. **\$20.00**
- ALLEGIANCE** (P. Cook '58) M 38 in. (Dark Boatman) X (Distance x blue sdlg.) x Pierre Menard) Standards violet ultramarine; falls Rosylyn Blue, beard medium blue tipped yellow. HC '57, HM '58 **\$25.00**
- ALTAR LIGHT** (O. Brown '54) M-L 40 in. (Gold Ruffles x Alpine Glow) Bold ruffled, well substanted yellow with heavy amber at hafts.. A great breeder. HM '54. **\$3.00**
- AMBUSH** (K. Craig '56). M 36 in. (Molten) x (Savage x Mexican Magic). Blended reds; near Java Brown and horse chestnut **\$5.00**
- AMELITA** (M. Albright '54) M-L 36 in. (Amigo x (Melitza.) Neglecta of unusual quality. It undoubtedly has an upset number of chromosomes **\$2.00**
- AMETHYST FLAME** (Schreiner '58). M-L 38 in. (Crispette) x (Lavanesque x Pathfinder). Lilac blue-lavender overlaid with soft pink sheen. The ruffled flowers are of heavy and superb substance and the falls are flared to perfection. HC '57, HM '58. Plant Patent #1793. **\$15.00**
- ANEMBO** (G. Bootes) EM 38-40 in. (Helen McGregor) X (Hit Parade x Pink Formal) Huge, heavily substanted light yellow with lighter area in falls; beard richer. Great blood here for many colors. Branching could be better, stalks are very heavy. **\$15.00**
- ANGELA MIA** (Noyd '56) M 36 in. (Dixie Belle x Spanish Peaks) Gorgeous, large ruffled white with slight greenish cast. Four-way branching. HM '59 **\$7.50**
- ANGEL CURLS** (Branch '57). ML 34-in. (Azure Skies x Cahokia) X (Cahokia). Ruffled medium blue self with substance. HM '58 **\$15.00**
- ANGEL GLOW** (Murray '57). M-L 38 in. (Snow Flurry) x (Chivalry x now Flurry). Grand big white with much substance and quality; yellow beard. Great blood for breeding blues and whites. **\$5.00**
- ANKARA** (I. Craig '56). E-M 36 in. (Joseph's Mantle x Gene Wild). Deep velvety fancy plicata, richer than the grandparent Rich Raiment. Throat and beard yellow **\$5.00**
- ANTHEA** (Corey '53) M (Pink Salmon x Pink Formal.) Semi-flaring salmon-pink that makes an outstanding garden clump. HC '51 **\$3.00**
- ANTHEM** (Schreiner '58). E-M 40 in. (Gypsy Rose x Auburn) X (Savage). Imposing blend of fuchsia-purple with generous margining of bronze around the flaring falls **\$7.50**
- ANTIQUE CHESTNUT** (Lyell '51) M (Burning Bronze x Garden Magic.) Wine standards, pansy brown-red falls. Impressed us very much with its rich coloring and all-around good quality **\$2.00**
- ANYTIME*** (Cavagnaro '56). M-L 38 in. (Alba Superba x Lady Mohr.) This is absolute perfection. Very round, wide, perfectly horizontal falls, huge globular standards all of superb, heavy substance. Off-white because of the Chartreuse lines at the hafts. Some purists might object to these, but to those who know quality the marvelously perfect bloom overcomes the slightly "dirty" appearance of the falls upon close inspection. Pollen somewhat fertile and will pod. It should hold great promise as a breeder when used to other fertile Oncocyclus hybrids, or to use with things that need width of parts. HC 54, HM '56 **\$10.00**
- APRIL SHOWERS** (Craig '54). M 45 in. (Mariposa Mia) x (Tiffany x Los A.) x (Belle Brunette) x Joseph's Mantle)). Yellow and white bi-color with light "fancy markings", yellow beard. Wonderful plicata blood **\$2.50**
- APPIAN WAY*** (Plough '58) EM 45 in. (Snow Flurry x Capitola) Standards light violet; falls Mineral violet, deeper each side of beard **\$7.50**
- APPLE CAPITOL** (Noyd '57) M-VL 32 in. (Casa Morena x Plough 6127-55, red) Dark red self, beard same, tipped bronze. **\$10.00**

- APRICOT DANCER** (Noyd '58), L-VL 25 in. (June Bride x Temple Bells) Rich Orange-apricot falls flared and laced. HM '59 **\$10.00**
- APRICOT DREAM** (Noyd '58) ML 29 in. ((Reveille x New Horizon) x (Apricot Glory)) X (Temple Bells). Fine Apricot **\$10.00**
- APRIL SHOWERS** (Craig '54) M 45 in. (Mariposa Mia) X ((Tiffany x Los A.) x (Belle Brunette) x (Joseph's Mantle)) Very pale bi-colored lemon fancy plicata with yellow beard **\$2.50**
- ARABI PASHA** (G. Anley '53). M-L (Mirette Blue Ensign x Windermere) x (Blue Ensign). A flaring deep cornflower blue with a blue-tipped beard. The flowers are tailored and smoothly finished yet the falls have a wave or dip in the very center giving it a jaunty appearance. Dykes Medal Award in England, 1953. 36 inches **\$2.00**
- ARCTIC SPLENDOR** (Dubes '56). M 38 in. (Kath-erin Fay x Violet Symphony.) Large white self of quality. The parent of REJOICE. HM '57. **\$7.50**
- ARDRUN*** (McLeod '54) E 36 in. (Artemis x Gud-run.) Huge purplish-red with flaring falls that carry a wide, unusual, brownish-black beard. Fertile both ways. HC '53 **\$5.00**
- ASOKA OF NEPAL*** (C. G. White '50) E 24 in. (Onco blood.) Similar in coloring to Joppa Parrot. Yellow, buff, flecked unevenly with maroon. Rather easy to grow. Very fertile pollen. **\$5.00**
- ASPENGLow** (Loomis '56) M-L 36 in. (Fr. Loomis and a DeForest seedling.) Wonderfully rich, full, and beautifully formed deep yellow with just a touch of ruffling. Strong well branched stalks insure a long season of bloom. This one can stand the hottest competition of this color class **\$5.00**
- AUSSIE JESTER** (Spinkston '56) EM 36 in. (Snow Flurry x King's Jester) Bi-colored fancy plicata with flaring falls. Great blood for breeding with Blue Freckles, Orchid Queen, Memphis Lass, Lake Isabella and other Snow Flurry derivatives. **\$5.00**
- AZURE HAVEN** (Reynolds '57) EM 38 in. (Snow Flurry x Chivalry) X (Azure Skies) Very wide light blue self, lighter beard and haft. H.C. '56. H.M. '57 **\$10.00**
- AZURE LAKE** (Muhlestein '52) EM (Azure Skies x Mirror Lake.) Smoothly finished blue with falls that flare horizontally and have the most heavy ruffling of any blue iris I know. 36 inches tall, not well branched, but makes a stunning clump. C. of C. and HC 1951. H.M. '54 **\$2.00**
- A. Z.WELLS*** (Luella Noyd '53). E-M (Ormohr x Indian Hills.) Simply huge rich purple in the color tones of its pollen parent, and retaining some of the Mohr characteristics **\$2.00**
- BABY'S BONNET** (Baker '57). E-L 34 in. (Gay Orchid x Loomis sea shell sdg.) Standards white, falls pale salmon-pink. One of the first of the so-called pink amoenas. This should be good crossed with Pin Up Girl. HC 56, HM '57 **\$17.50**
- BALI AGHA*** (White '51). E-L 33 in. Bi-color. Standards lavender veined in purple. Falls rich buff veined and splashed red **\$3.00**
- BANBURY CROSS** (Brummitt 1959). M 40 in. (Snow Flurry x Arabi Pasha.) Spectrum violet with blue-tipped beard. Has beautiful branching, grows vigorously and pods easily. Described by H. Senior Fothergill in the 1958 British Iris Society year book on page 112. **\$10.00**
- BANG** (Craig '55) EM 36 in. (Savage) x (Cordova) x (Molten). Bold red on the brown side with wonderful substance in the standards due to Cordovan blood. Tested over the country but does especially well in the mild climates. Great blood for the hybridizer of reds and rich blends. Slight reticulations. HC '54, HM '55, AM '59 **\$7.50**
- BANNER BRIGHT** (L. Crosby '54) ML 36 in. (Mel-lowglow x Sunset Serenade) X (Cascade Splendor) Unusually bright self of orange-yellow-buff. Proving a great breeder for blends, tans and browns. HC '53, HM '54. **\$2.00**
- BARTOW LAMMERT** (C. Brown '58) M 34 in. (Spanish Peaks x Cloudless Sky) Large pure white self. H.C '57, HM '58 **\$8.00**
- BASIN STREET** (Gaulter '59) M 38 in. (Storm Warning x Sable Night) Deep purple self with red undertone. **\$2.00**
- BEARDED LADY** (Craig '55). M 38 in. (Joseph's Mantle x Novelty) x (Heatherlands). White ground, Orchid-marked plicata with a "horned" beard often two inches long. The best of these oddities and fine blood for plic. breeding as well as for re-bloomers. **\$10.00**
- BEECHLEAF** (Kleinsorge '55) M 36 inches (Sdlg. of Pretty Quadroon). Brown with a violet undertone, more ruffled than parent. HM '55, AM '59 **\$5.00**
- BELLA MOHR*** (Ohl '55). M 36 inches. (Wm. Mohr x Sable). A "Sable" grown up to Elmohr's size and shape. A lovely purple free of haft markings. HM '56 **\$3.00**
- BELLE MEADE** (J. Wills '52). M 39 inches. (Blue Shimmer x Snow Crystal.) Sturdy, heavy sub-stanced blue-marked plicata. HM '52 **\$5.00**

- ELYSIAN GOLD** (DeForest '55) M 38 in. (Cloudcap x Lemon seedling from Blue Shimmer.) Light Sulphine yellow self (Chartreuse Gold) beautifully ruffled. This should be a natural to cross for tangerine bearded placatas like New Adventure, Captain's Lady, Captured Heart, etc. and for new blood in plics. **\$5.00**
- EVELYN BYE** (Kleinsorge '56) EM 36 in. (Cascade Splendor x sdlg.) X (Lovelight) Pastel blend, standards tan; falls violet, edged same as standards. **\$3.50**
- EVENING STAR** (Corey '55). ML 35 in. (Snow Flurry x Golden Treasure) x (Daybreak x Midwest Gem.) Stunningly perfect is this quiet lemon-cream self with flaring, waved falls. HM '55. **\$7.50**
- EVER THINE** (Tompkins '59) ML 48 in. (Surrender x Truly Yours) Large flaring, ruffled apricot with geranium red beard. Grand blood to put to Anembo, Golden Masterpiece, Yellow Dresden, Glittering Amber, Jan Elizabeth, Riviera, Frilly Finges, etc., and for possible use for Tangerine-bearded picatas. **\$20.00**
- EXOTIC BLUE** (Randolph '58) EM 36 in. (Mata Hari x Black Forest) X (White Wedgewood). Light lavender-blue self with darker center; brown beard tipped blue. Could be useful for blacks as well as blues with blue beards. HC '57, HM '58 and runner-up for Pres. Cup '58. **\$15.00**
- FABIOLA** (Wallace '54) M 32 in. (Sdlg. of Favori) Lovely magenta or grape-purple that makes a bright border. Could be an excellent mate with Chivalry, its seedlings like Dr. Wanlass or with Patience. **\$1.50**
- FANCYWORK*** (Craig '51) EM 40 in. ((Tiffany x Los Angeles) x (Sib.)) x Capitola). Fancy, Mohr-type flower and veining. Burgundy over lighter ground. **\$2.50**
- FIERY GLEAM** (Murray '57). EM 40 in. (Glittering Gold x (Melitza x Buffawn). Bright bitoned ruby red with heavy yellow caterpillar like beard. Has height, size and good growing qualities for mild climates and may be one to use to get the red beard or tangerine beard in the reds. **\$10.00**
- FASHION SHOW** (Hamblen '59) EML 36 in. (Helen McGregor x Hit Parade) X (Mary Randall). A glorified Grand Canyon-type with bright orange beard. Good branching, heavy stalk. Unusual blood for many colors and combinations of colors. HC '58, HM '59 **\$20.00**

- FILAGREE** (J. Milrose '58) M 34 in. (Truly Yours x Lilac Lane) Gorgeous bright, laced yellow self. Wonderful blood for lace, pinks, blends, yellows, etc. I should like to see this crossed with Jan Elizabeth, Anembo, Glittering Amber, Desire Me, Golden Masterpiece, Ever Thine, Dr. Wanlass and Queen's Lace. **\$15.00**
- FINEST HOUR** |Stevens '58) EM 38 in. (((Naranja x Redmayne) x (Lagos) x ((Gudrun) x (Lady Morvyth)) x (Rangtira))) X (Russet Mantle x Three Sisters). A breeder's achievement in a red and white amoena. Haft still marked. Bred to smooth-hafted things should be a wonderful parent. Try with Queen's Taste. **\$10.00**
- FIREBIRD** (Tompkins '54), ML 38 in. ((Cape Bon x Seashell) x (Sib.)) x (Color Carnival). Hollyhock or aster purple with tangerine-red beard. Coarse, but could be useful in a red program to get the beard. **\$2.50**
- FIRE BRIGADE** (Schreiner '57) EM 36 in. (Pacemaker x Orelia) Glowing red self, very smoothly finished. Should make a fine red breeder to Bang, Privateer, Great Day, Ahoy, and Main Event. HM '58 **\$6.00**
- FIREBRIGHT** (Craig '54), ML 38 in. (Savage x Molten.) Blend, deep red with violet on falls. Great blood for rich blends. REDS, and possibly rebloomers. **\$6.00**
- FIRE CHIEF** (Dr. F. Gaylon '59) ML 46 in. (Gypsy x Louise Blake) Clear and brilliant variegata with yellow standards, rich red falls without a border. Branching a bit high for such height. This should be useful to cross with Night Storm, On Parade, Nashborough, Golden Crown and Finest Hour. HC '58, HM '59 **\$20.00**
- FIRE FLURRY** (Rees '57) M 46 in. (Snow Flurry x Fire Dance.) Ruffled, reticulated, ruby red bicolor. Could breed great things in reds and plicatas as well as other colors. Would suggest using with Orchid Queen, Rare Marble, Fancy Feather, Bazaar, Zulu Warrior, Taholah, Memphis Lass, Lake Isabella, Cinnamon Toast, etc. Three branches and terminal. **\$7.50**
- FIRENZE** (O. Brown) '58) M 40 in. (Esquire x Chivalry) X (Mary Randall). Violet self with Tangerine beard. This would be wonderful crossed to Gay Adventure, Anembo, Berta B., Dr. Wanlass, Enchanted Violet and Fashion Show. HM '58 **\$15.00**
- FIRETAIL** (Shreiner '55) ML 40 in. (Frolic x Rodeo) Yellow plicata marked cinnamon. Tall, well-branched. A good mate for my new Golden Spice. **\$3.00**
- FIRST CURTAIN** (Tell '57) EM 24 in. (Sib. to June Meredith). Very clear pink with deeper pink beard. Laced petals and style arms which show to advantage with the cupped standards. Has a reblooming tendency in favorable climates. A great breeder for pink color, lace and width. **\$20.00**
- FIRST FLIGHT** (Plough '57) M 33 in. (Quest x Cliffdell) Laced Bishop's violet self, haft tan, yellow beard. Could be a good parent with Gay Adventure, Glittering Amber, First Curtain, Berta B and Dr. Wanlass. HM '58 **\$12.50**
- FIRST KISS** (V. Jacobson '58) EM 40 in. (Snow Flurry x Dr. Loomis' "Cream Mohr") "Cream Mohr" was not named or introduced and was a laced yellow that was a smoother Gold Ruffles type. First Kiss is a heavily ruffled and fluted white with warm yellow beard. Won Seedling Cup at Ogden, 1957. **\$10.00**
- FIRST VIOLET** (DeForest '52) M 38 in. (Chivalry x Spanish Peaks.) Manganese violet with blue undertones giving the impression of a rich violet self. Grand. HM '53, AM '55. Dykes Medal '56. **\$4.00**
- FLAME KISS** (G. Plough '58) EM 40 in. (Gay Paree x Palomino) White standards with Dresden-yellow base; falls Dresden yellow; beard tangerine. HM '59 **\$10.00**
- FLAMING BEARD** (Noyd '58) M 32 in. ((Buffawn x pink sdlg.) x (New Horizon)) X (Salmon Shell) Peach-apricot with an amazing, long red-tangerine beard that extends well down the falls. Ruffled at haft. Good blood here for many colors and to get "the BEARD" **\$10.00**
- FLAMINGO BAY** (Tell '53) EM 36 in. (Salmon Shell x Pink Formal.) Medium deep pink self that is proving a marvelous parent used with Pink Enchantment and June Meredith **\$5.00**
- FLEETA** (Fay '56) ML 37 in. (51-29 x T 51-60). Contains blood of Mary Randall and 1-16th pallid blood. Light pink self with great substance. Conic standards. Healthy blue-green foliage. HC '54, HM '56, AM '58 **\$10.00**
- FLEUR DE BLANC** (Gaulter '59) M 36 in. (Snowsheen x Miles blue sdlg.) Ruffled and deeply fluted in the same manner as First Kiss — one would think they might be sister sdgls. This will be a wonderful parent for ruffles, lace and border irises. This should be great with Yellow Dresden, Queen's Lace, Dr. Wanlass, Celestial, Snow, Swan Ballet, First Kiss, and Poet's Dream. **\$5.00**
- FLUTED HAVEN** (Reynolds '58) EM 35 in. (Snow Flurry x Cloud Castle) Gorgeous is the word for this wide, clean ruffled white with falls so deftly fluted. One of the very finest of the new whites. Limited stock. HC '57, HM '58 **\$25.00**
- FLYING HIGH** (D. Waters '57). M 36 in. (Cahokia x Kenne Valley.) Very blue medium blue Broad falls that flare horizontally, white beard. HC '56, HM '57 **\$10.00**
- FOLK SONG** (Tompkins '56) ML 38 in. (Apricot Supreme x Tell's 49-21-50: 47-72 A x Pink Formal.) Deep pink self, red beard, slight infusion of gold or apricot. HC '55 **\$5.00**

- GAY PAREE** (G. Plough '55) EM 38 in. (Hall pink sdlg. x The Capitol) X (Loomis pink sdlg. x Golden Eagle) White with falls flushed and lined chartreuse (especially at hofits), giving a coarse appearance. Standards open, Tangerine beard. Has produced some good seedlings. Would suggest very smoothly finished mates with closed or conic standards. HM '55 **\$3.50**
- GAY PRINCESS** (O. Brown '57) M 34 in. (June Bride x Alter Light.) Wide flaring, laced lemon-yellow self, slightly haft marked. Great blood for pinks and laced things. HM '57 **\$10.00**
- GAY STRIPES*** (R. Fielding '58) EM 34 in. (From two one-fourth Anco blooded sdgls. of C. G. White's.) Fancy plicata. Standards are sivery grey, falls same with violet lines which radiate over falls like the markings of some exotic butterfly. Pods easily; vigorous. **\$7.50**
- GAY WELCOME** (Coppedge '55) EM 38 in. (White Ruffles x Char-Maize) Light mimosa yellow standards; falls white edged Mimosa yellow; beard buttercup yellow. Double Snow Flurry breeding and should be a wonderful parent. I believe this would be good crossed with Anemo, Golden Anniversary, Yellow Dresden, Nona, Mixed Emotions, Ruffled Organdy, and Dream Dance. **\$4.00**
- GENEROUS*** (Muhlestein '55) EM 24-36 inches. (Utah Sunset) x (49-2: Elena Choosing x sdlg.: Zebulon x Golden Eagle.) Extremely large golden-russet. Fertile both ways. Could be useful with other onco-blooded iris. Crossed with Dark Chocolate produced wonderful tans and browns. Would recommend its use with Bingham, Capitola, Ib-Mac and the fertile White hybrids. **\$3.00**
- GENE WILD** (Craig '52) ML (Rich Raiment x Joseph's Mantle.) Simply stunning is this warm white and old rose fancy plicata. One of Craig's very best. HM '54 **\$3.00**
- GEORGIA MAESER** (Crosby '58) EML 36 in. ((Tell's 46-204: Midwest Gem x Mayday) x (46-2 F: S. Q. 72 x Hall's 42-10) x (Song of Songs)) X (Pink Enchantment.) Heavily substantanced yellow with laced edges. Won the Seedling Cup in Utah, 1957 and C.O.C. HM '58 **\$15.00**
- GINGER** (Schreiner '53) EM 36 in. ((Bryce C.) x ((P. Sunset) x (Aubanel x 38-36))) x Casa Morena. Sparkling ginger-tan or brown. Top blood for this color, blends, coppers and reds. **\$2.00**
- GLACIER MOHR*** (Crosby '57). EM 36 in. (Purissima x Capitola.) Cool blue-gray with subdued onco veining in falls. Full, wide "Mohr" shape. Vigorous rhizomes and foliage. **\$5.00**
- GLISTENING COPPER** (Tell '53). ML 32 in. (Sister to Utah Sunset.) Brilliant, gay, smoothly finished copper. A remarkable parent. HC '51 **\$2.50**
- GLITTERING AMBER** (Hamblen '57) EM 36 in. (Palomine x June's Sister.) Brilliant blending of peach, apricot and amber. Ruffled, very wide, flaring falls. Standards cupped and open give a striking appearance to this huge, colorful creation. HC '55, HM '56 **\$17.50**
- GLITTERING GOLD** (Murray '55) EM 38 in. (Sister to Dark Chocolate.) Lovely clear, bright yellow. Tender in some areas. **\$2.00**
- GLOBTROTTER** (Linse '56) M 42 in. ((Tobacco Road) x Casa Morena) x (Bryce Canyon)) X (Orangeman) Blend of golden tan and rosey buff carried on heavy well branched stalks. **\$5.00**
- GLOWING AMBER** (Craig '53) M 36 in. (Joseph's Mantle x Rich Raiment.) Golden amber overlaid with a smoky umber and sepia. A true fancy. HM '54 **\$6.50**
- GLORIETA** (G. Murray '58) M 42 in. (Jasper Agate x Nightingale) X (Apricot Glory x Melody Lane) Lovely apricot that may have good genes for copper and red breeding. **\$20.00**
- GLOWING GOLD** (Knowlton '54). M 38 in. (Golden Moon: O. K. x Golden Maj.) x (Goldbeater). Deep orange-yellow self, light area in center of falls. HC '51, HM '55 **\$4.00**
- GOLD ANTHEM** (G. Douglas '54). ML 40 in. (Mimosa Gold x ?). Rich golden yellow self. Many buds on well branched stalks **\$5.00**
- GOLD CUP** (Murray '56). EM 38 in. (Brazil x Grand Marshal) x (Tobacco Road). Very large slightly ruffled rich, deep yellow. Runner-up for the President's Cup '55. Slightly tender. HM '56 **\$6.00**
- GOLDEN ALPS** (Brummitt '55) HM 36 inches. (Admiration x ?). Very smooth, bi-colored yellow — almost an amoena. Falls have a slight ruffle, giving it distinction. Dykes Medal, England 1957. **\$4.00**
- GOLDEN ANNIVERSARY** (M. Walker '58) EM 34 in. (Harvester, a Pres. Pilkington sdlg. X Mitchell 4-7) Looking for all the world like a lemon-yellow recessive from plicata breeding. The white of the falls is very clean and the lovely yellow contrast of the border and standards is delightful. This made such a hit at the 1955 Convention, receiving an HC that year. HM '58. **\$15.00**
- GOLDEN CHEER** (C. Rees '59) EM 35 in. (Yellow Organdy x Party Dress) Yellow self with deeper beard. This should have great breeding qualities for producing width. **\$15.00**
- GOLDEN CROWN** (Kleinsorge '54) M 40 in. (Spanish Fandango) x (Cascade Splendor x 368). Nicely shaped, tall variegata in gold and maroon-brown. Best when established. HM '57. **\$2.50**

- GOLDEN FLASH** (Noyd '55) EM 36 inches (Midwest Gem x Heritage). Yellow with tangerine beard. This should produce laced seedlings, salmons, pinks and other interesting colors. Crossed with Yellow Dresden produced a most remarkable lot of laced seedlings and some very small, delightful, table iris well in proportion to the 10" to 24" stalks. This is a great potential to things like Queen's Lace, Carmela, Twenty Grand, Cliffdel, Cracelle and Limelight. **\$2.00**
- GOLDEN GARLAND** (Hall '57) M 35 in (50-33 x Palomino.) Laced beauty with standards of golden yellow, falls cream edged gold. A stunning flower. HM '57, AM '59 **\$7.50**
- GOLDEN GLADIATOR*** (Jack Craig '58). M 28 in. (Lady Mohr x Goldbeater.) Huge globular golden onco-bred of light yellow with deeper beard. The large, wide styles are short, but show themselves deep within the flower. As the flower ages the standards fade, giving it the appearance of a yellow neglecta. Region 14 Seedling Award '57, HC '57, HM '58 **\$25.00**
- GOLDEN HAWK** (K. Smith '51) M 40 in. (Cascade Splendor) X (1-53 x Spun Gold) Large medium yellow. Great breeding for blends, yellows, ruffling and even lace. HM '52 **\$5.00**
- GOLDEN LANCER** (Pattison '57). M 36 in. (Misty Gold x ?, prob. Sun Gold.) Golden yellow, falls have white area, shaded velvety gold at hafts. A clean combination **\$4.00**
- GOLDEN MASTERPIECE** (Eva Smith '58) M-VL 34 in. (Mary Randall x Truly Yours) Large, wide, clean, bright yellow with white area on falls which are deftly ruffled. This is sure to be one of the most popular of the newer introductions. Branching could be better, but we feel this is a minor fault. Will be a marvelous parent. HM '59 **\$15.00**
- GOLDEN PERCH** (Craig '51) EM 40 in. (Shady Lady: Prairie Sunset x Sultan's Robe) x (Cascade Splendor). Lovely, smooth blend of golden tan, onion-skin pink and a flash of violet in falls. Scarce. **\$15.00**
- GOLDEN RIPPLE** (Craig '56). M 40 in (Cascade Splendor x Summer Sun.) Beautiful ruffled yellow. Great blood for blends as well as yellows and ruffled things **\$2.00**
- GOLDEN SHELL** (R. Goodman '54). M 38 in. (New Gold, descended from Golden Eagle, Purissima, Eilah, Happy Days) x (Sun Gold). Clear rich yellow self. Hardy and vigorous. Could breed pinks or yellow with tangerine beards, good creams or whites **\$2.00**
- GOLDEN STAIRS** (F. Crandall '57) M 40 in. (Bryce Canyon) X (49-63: National White x Spring Sunshine) Rich yellow bi-tone. Gorgeous branching. If you want to breed for height or better branching try this. HC '56 **\$5.00**
- GOLDEN SPLENDOR** (Dubes '57) M 36 in. (Ola Kala x Cascade Splendor) Heavily ruffled. Yellow. HM '58. **\$8.00**
- GOLDEN TAN** (Craig '44). M 45 in. (Good News x Molten. Bright golden-tan self **\$10.00**
- GOLDEN VALLEY** (O. Brown '56). M 36 in. (Pretty Quadroon x Ruth.) Bright yellow self, wide semi-flaring falls, domed standards, well branched. Great blood for yellows, tans, blends and lacing. HM '57 **\$6.00**
- GOLDEN VANITE** (Randall '53). M 36 in. Lovely clear yellow **\$2.00**
- GOLDEN ZEBRA** (Sass '56) M 34 in. (Tobacco Road x 43-40) X (Russet Wings sdlg.) Orange-yellow, falls striped brown. **\$10.00**
- GOLD SPLENDOR** (Murray '55) EM 36 in. (Sib. to Dark Chocolate) Rich golden yellow. Slightly tender. **\$3.00**
- GOSPER** (O. Brown '58) ML 38 in. (Gold Ruffles v Spanish Peaks) Huge cream and primrose yellow. Well branched stalks. This is good blood for whites, creams and ruffling. Would like to see this crossed with Cream Crest, Swan Ballet and Queen's Lace. **\$3.00**
- GRACELINE** (W. Buss '56) M 42 in. (Spanish Peaks x Vista Veronica.) Clematis or Campanula Violet. A perfect self, grace and refinement in every line. Spread over 8 in. A lovely flower **\$10.00**
- GRACELLE** (M. Albright '55) EML 36 inches. (Dreamcastle) x (Sister to Pink Salmon x Pres. Pilkington). Smooth blend of pinkish-lavender. A big, wide, laced and ruffled flower on heavy stalks not perfectly branched. We saw some most unusual seedlings from this lovely iris crossed with Pink Enchantment and Mary Randall. Sure to be a marvelous parent for many colors although it appears to be quite dominant. Truly one of the greatest breeding iris of this generation. Its seedlings are a smoothness of finish and variety of color as to defy description. Bred to laced things like Queen's Lace gave some heavily laced seedlings with surprisingly good branching. HC '54, HM '55 **\$5.00**
- GRACIOUS LADY** (C. Taylor '52) EM (Lake George x Great Lakes.) Large smooth blue with a delightful dip in the center of the falls. A grand pollen parent. 34 inches **\$2.00**
- GRAND COULEE** (Plough '58). ML 34 in. (Futuristic x Mary Randall.) Large, very wide, heavily ruffled blend. Standards pale blending of tan and rose, falls same with a touch of yellow. Great blood for many colors. This should be marvelous crossed with Glittering Amber, Jan Elizabeth, Gay Adventure, Valimar, Anembo and Dr. Wanlass. HM '59. **\$17.50**
- GRAND TETON** (DeForest '56) M 36 in. (Yel. sdlg. 5-47B x Cloudcap) Huge 7 to 8 in. flower of wax yellow, falls slightly deeper. Shows strongly its shape from Cloudcap. Could be useful for pink, plicata and blend breeding. HM '57. **\$12.00**

Tender ain't it?

GRASMERE (K. Smith '53) ML 42 in. (Keene Valley x Jane Phillips.) Ruffled pale blue, beard tipped white. With such breeding it cannot miss as a top-notch breeder **\$3.00**

GRAY MOHR* (C. J. Paul '56.) EM (Wm. Mohr) x (Alta Calif. x King Midas). Greatly resembling I. gatesii for size and shape. Grayed yellowish-chartreuse flecked olive-brown. Odd, rather than beautiful. **\$3.00**

GREAT DAY (Tompkins '53) ML 36 inches. (Ebony Echo x Manana.) Flaring, ruffled, rich glossy non-fading deep red devoid of haft markings. HM '53 **\$2.00**

GREEN CHANCE (Murray '55). EM 40 inches. (Appointee x Green Pastures). CHARTREUSE bi-color. The falls have more actual green than any other T.B. iris I have seen. As the name implies it should be a good "green chance" breeder. **\$2.00**

GREEN ECHOES (M. Wallace '58) ML 34 in. (((Morocco Rose) x (Golden Eagle x SQ72)) x Tell's 46-48)) X (sdlg. 49-51 pink). Yellowish-chartreuse self looking as though it had come via Char-Maize. Good for breeding for greens, yellows and pinks. **\$2.00**

GREEN IVORY (Muhlestein '53): ML 36 inches. (Desert Song x sister to Greenglow.) Very large, wide ivory with greenish cast. Flowers so large they have a tendency to touch one another, but if used with Spring Romance, Char-Maiz, Spring Sunshine, and other branched varieties, should produce good seedlings **\$2.00**

GREEN MOHR* (Muhlestein '51) ML (Wm. Mohr x Chosen.) Strong greenish-chartreuse self—the falls having a slight lavender flush when first opened. Full "Mohr" shape. Will set seed. Won Seedling award Salt Lake City and C. of C. '50. HM '52. **\$1.50**

GREEN TINGE (Noyd '58) ML 32 in. (Dixie Belle x Spanish Peaks) White with strong green cast, greenish beard and haft. **\$5.00**

HALLMARK (Hall '54). EM 34 in. (Two pink Sdgs.) Rosy pink self with red beard. HM '54. **\$2.50**

HALOLIGHT (Schreiner '53) ML 42 in. (Alpine Glow x Gypsy Rose.) Self blend of soft buff-tan **\$3.00**

HAPPY BIRTHDAY (D. Hall '52) EM 36 in. (Melody Lane x Heritage.) Large, bright, full salmon-pink. HM '54, AM '54 **\$1.50**

HAPPY MEETING (D. Lyon '55). ML 36 inches. (Lovelace x New Hope). An altogether lovely, clean and charming plicata of ivory white bordered lilac. HM '55 **\$5.00**

HAPPY MEMORY (Lyon '57) M 42 in. (Sib. to Happy Meeting) White-ground plic. banded and sprayed pansy violet. **\$9.00**

HAPPY TALK (Mary Ollmann). ML 36 in. (Elsa Sass x Cortica.) Flaring very yellow plicata, deep rosy-red edges **\$2.00**

HAPPY WANDERER (Lapham '57) M 36 in. (Town Talk x Dress Rehearsal) Large Tapestry red self, dark orange beard. **\$10.00**

HARBOR BLUE (Schreiner '54) M 36 inches. (Jane Phillips x Quicksilver). A medium blue with lots of quality. Blood here for great blues and whites. HM '55, AM '57 **\$2.00**

HARRIET BELLE RIGG (Ricker '54) ML 40 in. (Three Oaks x Caroline Burr.) Light wisteria violet with lighter area at tip of golden beard. Good blood here for creams, yellows, blends and amoenas with something like Gaylord Pinnacle, Melodrama, etc. HC '56, HM '59 **\$5.00**

HARVEST MEDLEY (Tim Craig '58) M 42 in. (Ball Gokn x Wardance) X (Spice). Standards brown blended sepia; falls a blending of gold, brown and gold at hafts, violet blaze at tip of beard. Margin of Mocha. **\$8.00**

HARVEST TIME (Tim Craig '58) M 38 in. (Involved sdlg.: China Maid, E. B. Williamson & Hazel Reed) X (Golden Tan). Standards Tuscan-tan; falls Topaz with gold beard **\$10.00**

HAZEL E (Schmelzer '58) M 36 in. (Pink Sensation x Pink Bouquet) Baby pink, beard tangerine tipped pink. The breeder named it for herself, if this has any bearing on its quality. **\$5.00**

- HEADLINES** (Brummitt '54) ML-VL 36 inches. (Extravaganza x Louise Blake.) A stunning addition to the amoena-neglecta class. Standards have a blue cast when flower first opens, but fade to white shortly thereafter. A fine iris and a good one to extend the late season. Selected for Trial at Wisley. Dykes Medal, Eng. '59. **\$7.50**
- HEARTBEAT** (Lapham '58) ML 34 in. (C 48: Bonny x Forerunner) X (2-52: Paradise Pink x Pink Formal). LaFrance pink self with long prominent Eosine-pink beard which gives the flower an unusual quality. Proving an excellent parent for its breeder. We'd like to see this used with a wide range of the newer pinks and pink-blends. HM '58. **\$15.00**
- HEATHERMIST** (Lowry '57) M 38 in. (Violet Harmony x Chantilly) X (Chantilly). Violet bi-tone with standards of Pastel lilac; falls lighter with flush of Mauvette at hafts, deepening to Mineral-violet at edges. Ruffled and laced. Blood for lace in violets, whites and blues. This should be good with Dr. Wanlass, Queen's Lace, First Flight, Gay Adventure and Grand Coulee. HC '54, HM '57 **\$12.50**
- HELEN KENNEDY*** (F. Kennedy '53) EM (Snow Flurry x Luna.) Blue with a white beard. A wide, full flower. Should be most interesting to use with other Onco and regelia-blooded iris **\$2.50**
- HELEN McCAUGHEY** (Wild '55). M 36 in. (Sdgs.) Grape hyacinth blue self with spot of white on the falls. Ruffled, no haft markings. Should be a natural to use with Violet Grace, Senorita Estella, High Heaven, Chivalry or Sierra Skies. HC '54, HM '56 **\$5.00**
- HELLEBORE** (C. Taylor '53) M 38 in. (Gentle Florence x Tobacco Road) Rich, smooth, hellebore-red brown with lovely form. This crossed with Privateer and other new reds should give fine red seedlings. **\$3.00**
- HER LADYSHIP** (D. Palmer '56) EM (Tosca x Blue Valley.) Lovely, waved, medium blue self. Grand addition to the blue class. HC '55, HM '56. **\$7.50**
- HERMIT THRUSH** (Mitch '55). M 36 in. (Sister to Inca Chief.) Wide, beautifully formed golden brown. Better height and branching than its famous sister. HM '56 **\$4.00**
- HIGH BARBAREE** (Tompkins '58) EM 38 in. (Sunstone x Colorglo) X (Defiance) Current-red and Carmine; lemon beard. Grand blood for reds, deep yellows and blends. HC '57, HM '58 **\$15.00**
- HIGH FASHION** (Crosby '56) ML 38 in. (Gold Ruffles) x (Sib. to Salmon Shell x 46-2F: SQ 72 x Hall's 42-10). Ruffled and laced light cream self of large size carried on strong stalks. Blood for pinks, creams and lacing. **\$3.00**
- HIGH HEAVEN** (Plough '54) 38 in. (Snow Furry x Great Lakes.) Wide, heavily substantanced quality light blue with blood to produce the greatest **\$3.00**
- HIGH NOON** (Gibson '56). SML 38 in. (Misty Rose x 115 A) x (201 C). Yellow ground plicata with white area in falls and copper stippling. **\$3.00**
- HINDU WAND** (Plough '58) EML 32 in. ((Tobacco Road x Casa Morena) x (Futuramic) X Innes sdlg.: (Ruth x Rainbow Room). Ruffled and laced blend of light buff, straw yellow and Chartreuse with solid brown hafts each side of a bright orange beard. HC '57, HM '58. **\$15.00**
- HOT MUSTARD** (J. Nelson '57) ML 42 in. (Gay lord x Pinnacle) Standards sulphur yellow, falls deeper. Has a greenish cast and just cries out for attention. HC '56 **\$7.50**
- HUMMING BIRD** (Knowlton '52) M (Snow Flurry x Daybreak.) Buff and white bi-color marked with the distinction that Snow Flurry bequeaths to her children. HM '52 **\$2.00**
- HUNT MOHR** (E. Hunt '56) ML 36 in. (Elmohr x prob. Great Lakes.) Beautifully formed, slightly ruffled, flaring, Mohr-shaped flower. A self of violet-blue with those full "onco" style-arms. **\$8.00**
- HUNTSMAN** (Sass '55) M 36 in. (Red sdgs.): (involving: The Red D., Garden Flame, Starless Night, Golden Age, Prairie S., Orloff, Tiffany, Casque D'Ore x Hans. Sass' first red sdlg.) x (Red Chieftain). Ruffled, blackish-red-brown. HM '55 **\$7.50**
- HUSH** (K. Craig). E. Reb. 40 in. (White Ruffles x Craig sdlg.) Straw yellow with oyster-white area at center **\$3.00**
- ICE 'N' LIIME** (Tompkins '58) EL 38 in. ((Lamplit Hour) x (Shah Jehah x Burning Bronze) X (Pinacle x Sass 50-429). Icy-white standards; falls cool yellow between lemon and lime. Blood for amoenas, neglectas, variegatas and plicatas. **\$10.00**
- ICE CANYON** (Voris '56) ML 36 in. (Extravaganza x Pinnacle) Amoena with white standards and pale ice-blue falls. **\$5.00**
- ICE CARNIVAL** (Watkins '54) ML 38 inches. (Jane Phillips x Mt. Jefferson). Frilled and ruffled flowers of great charm and quality. Standards azure-blue, falls white. This with Sea Lark, Wide World and Blue Sapphire should produce some interesting seedlings. HM '54. **\$5.00**
- IDAHO GOLD** (E. Smith '59) ML 40 in. (Mary Randall x Thotmes III) Deep yellow self. Wonderful blood for many colors. This should be good crossed with Glittering Amber, Jan Elizabeth, Grand Coulee, Anembo, Hindu Wand, Butterscotch Kiss and Gracelle. **\$15.00**
- IMAM AHMID*** (White '56) E 30 in. Oyster-white standards, falls primuline yellow edged lighter, beard straw yellow. Full, wide onco form **\$20.00**

- IMAM JABAN*** (White) EM 30 in. Standards Oyster-white, cream lines; falls primuline yellow edged lighter straw color. **\$15.00**
- IMMORTAL HOUR** (Fothergill '59) EM 36 in. (Helen McKenzie x Dorothy King) Gorgeous, wide white having a warm beard. Pictured page 451 in the new book by the A.I.S. **GARDEN IRISES**. This tells more than words. Marvelous breeding for blues and whites. Selected for Trial at Wisley, 1956. **\$17.50**
- INCA CHIEF** (G. Mitch '52) ML 35 in. (Mexico x Tobacco Road.) Ruffled burnished bronze. Quality and charm mark this large, wide flower. HM '58, AM '54 **\$2.00**
- INCANDESCENT*** (Plough '58) EM 26 in. (Inca Chief x Asoka of Nepal.) Standards straw yellow, falls brownish yellow with molasses-red overlay radiating out from the brown beard—giving the effect of a signal. Stunning. Should go well with the White hybrids **\$10.00**
- INDIGLOW** (Schortman '59) ML 34 in. (Sable x Destiny) X (Chivalry) Violet blue self, wide, full, commanding flower with orange to blue self beard. What wonderful breeding for darks. This should be an excellent mate for Allegiance, Marrott, ROYAL CANADIAN and Exotic Blue for blue bearded things. HC '58 and Region 14 cup winner. HM '59 **\$25.00**
- INGENUA** (Lapham '56) EM 24 in. (Paradise Pink x Pink Formal) Light Safrono Pink with deep grenadine-red beard. Nicely formed, small, border iris that I should like to cross with Mrs. Whiting's new Cockel Shells, or Lady Kay, Yellow Dresden, Saucy Peach, Jan Elizabeth, Rosedale and Party Dress for small things. **\$3.00**
- INKY BLUEBEARD** (Noyd '56) EL 36 in. (Black-Forest x Storm King.) Small-flowered dark purple with bluish beard **\$5.00**
- INVERNES** (Watkins '57) ML 36-40 in. (Helen McKenzie x Major Eff) Lovely white self including beard. Fine breeding lines for both blues and whites. - JOEL AGA*** (C. G. White '53). E. Oncobred. A dark, rich colored hybrid with heavy pattern of purple stipples on a buff ground. **\$3.50**
- JUBILATION** (Tompkins '55). M 36 inches. ((Orloff x Tiffany) x (Tiffanja) x (Firecracker). Rich lemon plicata with soft cinnamon emerging from beard and continuing to end of falls. HC '53 **\$5.00**
- JUEGO*** (Tompkins '58). EM 35 in. (Whiting sdlg.: Elmahr x Gypsy Rose) X (Caribbean Sky). Intense shade of blue with a rich blue beard. Great blood for blue-bearded things as well as Onco-blooded hybrids **\$1.00**
- JUNE MEREDITH** (Tell '54) ML 36 inches. (Party Dress x Pink Fulfillment.) Very pink self proving a fine parent for breeding deep color and form. HC '53, HM '54, AM '56, Runner-up for Dykes Medal A.I.S. '58 and '59. Selected for Trial at Wisely (Eng.) '58. **\$6.00**

- JUNE'S SISTER** (Tell '59) ML 36 in. (Sib to June Meredith). This is the Laced apricot-amber blend with deeper apricot beard that produced Glittering Amber and when you see it you will know where G. A. received its wide parts and open standards. A good parent, but would suggest using with things having closed or domed standards. A natural to cross with Valimar. \$5.00
- JUNE SUNLIGHT** (McCormick '53) L 36 in. (Treasure Island x Spun Gold.) Velvety-appearing clean self of light cadmium yellow with heavy orange beard. Superb substance. HM '53 \$2.50
- JUNGLE BIRD** (Geo. Mayberry '58) ML 40 in. ((Tell sdlg.: Miogen x Campfire Glow) X ((Tell sdlg.: Aubanel x Mayday) x (Lady Albright)). Exotic rich blend. Standards amaranth, falls amaranth blended rich claret and violet \$15.00
- JUNGLE DRUMS*** (Plough '56) EM 28 in (Craig sdlg. No. 5: Purissima x Capitola) x (Joppa Parrot). Odd novelty, standards greyed lavender flushed brown, falls buff heavily splashed deep purple \$5.00
- JUNGLE ROSE** (Mayberry '58) ML 40 in. (Sister to Jungle Bird.) Wide, rounded petals—falls flare horizontally. Color old rose. Great breeding prospect \$10.00
- JUST MUSIC** (Branch '57) ML 34 in. ((Harriet Thoreau x Hall 45-34) x (Hall 49-13)) X (52-12: Chantilly x Hall 49-13) Strawberry pink self, red beard. Great blood for pinks, orchids and lace \$2.00
- KALIFA BALTIS*** (White '55) E 30 in. (Oncobred.) Standards yellow-buff, falls golden olive-buff, flushed red. Small red signal below bronze beard \$17.50
- KALIFA GULNARE** (C. G. White '55). E 30 to 40 in. Oncobred. Exotic, stunning, and all the adjectives one might conjure for want of better power of descriptive portrayal. Surely Mr. White realized the fulfillment of many of his hopes when he saw this, and other of his creations, open their first blooms in his Redlands, California, gardens. This has palest lavender standards with falls of dark brown, sporting a crimson signal and falls edged in golden buff. Broad bronze beard. Fertile both ways. Vigorous. HM '59 \$12.50
- KALIFA KABUL** (C. G. White '56) EML 40 in. Oncobred. This is said to be olive-green splashed brown, however, in my garden two clumps in widely separated areas both were of a chartreuse yellow without the splashing. Established plants sent up 40-inch stalks carrying 12 to 16 buds. Fertile both ways. Truly a grand achievement \$15.00
- KANAB** (Crosby '54) EM 4 in. (Aztec Copper x Tobacco Road) x Midwest Gem x Honeyflow). Reddish brown with heavy substance. Flaring falls edged gold. Great pedigree for rich coppers, tans and browns and perhaps some ruffling \$2.50
- KANGCHENJUNGA** (H. Miller '56) ML 40 in. (Jane Phillips x Desert Song). White of flaring form and conic standards. I thought the hafts a bit narrow for modern standards, yet with this blood it could be a tremendous parent for many colors including pinks, orchids, blues, whites, etc. I would suggest using Glittering Amber, June's Sister and other wide hafted varieties with it. Selected for Trial at Wisely, and winner of the Towndrow Trophy '57 \$10.00
- KARACHI** (R. Schreiner '58). ML 35 in. (Port Wine x Bazaar.) Stunning red-purple plicata. Standards almost solid red-purple, falls same with a bold splash of white in center below beard. HM '58 \$12.00
- KAREN MOHR*** (H. Knopf '58) M-VL 34 in (Lady Mohr x Lela Dixon). Dainty white ground plicata sprinkled blue-violet with solid violet hafts and style arms. Lush brown beard. Crossed to Master Neil, Marbled Hohn, Gay Stripes and some of the new C. G. White hybrids this should give some unusual and beautiful seedlings \$10.00
- KAZAK** (Craig '57). E-VL 38 in. (Joseph's Mantle x Rich Haiment) X (Sib.). Large sulphur-yellow ground plicata. Standards stippled Kazak (red), (hence the name), falls yellow with sharp, broad stippled margin of Kazak. Ideal branching. Good grower \$7.50
- KEN** (Rundlett '56) M 40 in. (Lake George x Brunhilde) x (Ebony Queen). Hyacinth blue self, blue-tipped gold beard. This I envision as a great breeder for blues, violets and blacks for it has the branched stalk that any of these could use. Would like, also, to see this and Sea Lark crossed (relatives). HM '57 \$5.00
- KIKI** (Graves '51) M. (Helen McGregor x Great Lakes.) The 39-inch stalks display a marvelous blue fully worthy of its two Dykes Medal-winning parents. Cannot be anything but a wonderful breeder for blues and whites. HM '53. \$5.00
- KING'S CHOICE** (Shreiner '57). ML 38 in. (Top Hat) X (Black Belle x Blue Glow). Deep, rich, almost black—Midnight blue. HM '58 \$7.50
- KLEINMOHR*** (Frieda Boshoff-Mostert, S. Africa). E. 28 in. (Elmhor x Snow Carnival.) Green-budded white. Flowers shot with green and lilac tints. Lovely onco form. Should be a great breeder. Lacks branching. \$3.50
- KOL NIDRE** (D. Lyon '53) M 36 in. (Vice Regal x Down East.) As might be expected from this cross a deep violet-purple bi-tone. Does especially well in warm areas \$3.00
- LABAN EFENDI*** (C. G. White '54). EM 32 in. Lavender and purple bicolor with black signal \$3.00
- LACY ORCHID** (Noyd '57). M 30 in. (Prairie Sunset x Cigarette) X (Pink Sensation). Name describes this orchid-pink self with rosy-tan hafts and tangerine beard \$5.00

LADIES DAY (Marx '56). M 42 in. (Snow Flurry x Sky Chief.) Personable, well branched, ruffled white self with yellow beard. **\$3.00**

LADY ALBRIGHT (Muhlestein '50) ML (Veishea x Bronzed Copper.) Standards "Dianthus" (copper), falls Amaranth (rosy deep lavender) edged color of standards. One of the most colorful blends I have seen and surely the richest I have introduced. C.O.C. '49, HM '50 **\$2.00**

LADY APRIL (Suiter '57). ML 34 in. ((Snow Flurry x Wabash) x (Caroline Burr)) x (Snow Flurry x Wabash)) x Fairday). Fluted yellow amoena. Has pollen and sets seed. Breeding really fine yellow amoenas. Great blood for both yellow and purple (possibly blue) amoenas **\$5.00**

LADY BLUEBEARD (Suiter '55) EML 36 in. (Snow Flurry x Sun Lakes). Ruffled white with heavy blue beard **\$5.00**

LADY DOZIER* (Dr. Dozier '51). M. (Ormohr x Brunhilde.) A rich cobalt, or violet blue, very wide of parts due to its onocylus blood. It is, without doubt, the finest Ormahr seedling we have seen. HC '49, HM '51 **\$3.50**

LADY ILSE (K. Smith '51) M (Jane Phillips x Kenne Valley.) Superb blue, worthy of its great heritage. **\$2.00**

LADY ROGERS (G. Rogers '54) EM 32 in. (Helen McGregor x Sylvia Murray) Large, full light blue that is breathtaking when grown to perfection. HM '54, AM '58. Pres. Cup '59 **\$5.00**

LADY RUFFLES (Dr. Shirmer '53) EM 36 in. (Snow Flurry x 14 A.) Gorgeous ruffled white **\$5.00**

LAKE CHELAN (Noyd '58) ML 32 in. ((Plough W 1 cream x Treasure Island) x (Gloriole) X (Chivalry). Deep blue self including beard with lighter area around the beard **\$10.00**

LAKE ISABELLA (C. Salzer '59) ML 40 in. (Pinafore Lass x Kim). Big, full white ground plicata nicely marked with violet. There is no blaze mark down the falls to mar its chaste beauty. We feel it should be tremendously good as a parent — especially to Blue Freckles, Dotted Swiss, Orchid Queen, Memphis Lass, Jane Ellen or Belle Meade. HM '59 **\$20.00**

L'AMOHR* (Craig '54). EM 34 in. (Lady Mohr x Tangerine pink seedling.) Bi-toned orchid-pink with violet onco-markings and red-violet dash at tip of beard. Unusual **\$2.00**

LAND'S END (Watkins '56). M 38 in. (Chivalry x Snow Carnival.) Medium blue self with less lavender than other blues of this shade. Full, flaring, falls lightly fluted. Very fragrant. Proving a truly great parent. HC '55, HM '57 **\$8.00**

LA NEGRAFLOR (Crosby '57) EM 38 in. (Storm King x Solid Mahogany) x (Sable Night.) The name means "BLACK FLOWER" in Spanish, and this is really very black. Not only that it is a superb grower, has height and branching, and is fertile both ways. Good size, fine form and substance. Dark Beard. HC '56, HM '58, Winner of the Premio Firenze, Gold Medal, Florence, Italy, 1959. **\$18.00**

"What's new, Dream Girl?"

LANGDALE (Randall '52) E 36 in. Clean combination of lemon and white. The white falls are bordered lemon and have gold thumb prints on hafts. Could be good for plicatas, creams and lemon yellows. **\$2.00**

'LASSES TAFFY (Albright '55). EM 36 inches. (Mexico x Moontide). Lovely flaring golden russet self on well branched stalks. Grand pedigree for rich things. HC '54 **\$5.00**

LATE APRICOT (Tell '57) L-VL 34 in. (Sister to June Meredith.) Tailored wide peach or apricot with light area in falls. Self beard. Good parent for this color **\$5.00**

LAVANESQUE (Schreiner '53). M 36 in. (Dreamcastle) x ((Angelus x ?) x (Matula x 8-37)). Beautifully smooth lavender. HM '55 AM '59 **\$2.00**

LAVELLO (McClanahan '57) M 36 in. (50-15½ x Chivalry.) Bicolor; standards buff, falls lavender **\$5.00**

LAVENDULA (Branch '57) MVL 38 in. (Yesterday x 52-65: sib. to Yesteryear). light lavender bi-tone that is ruffled with wide horizontal falls. One of the best for perfection of form. Must be a wonderful parent. I'd cross with Lady Kay, Mademoiselle, Dr. Wanlass, Glittering Amber and Jan Elizabeth. HM '58 **\$12.00**

LAVISH LADY (Buttrick '54) ML 36 in. (Snow Flurry x Ave Maria) x (Cloud Castle). Ruffled self of sea-lavender with lighter flush. HM '54, AM '54 **\$6.00**

LEGONNAIRE (Graves-Watkins '53) EM 44 in. (Snow Flurry x Kiltie.) Light blue self, deeper flush near hafts. A charmer. HC '52 **\$2.00**

LEMON MERINGUE (Noyd '57). ML 29 in. (Midwest Gem x New Horizon) X (Song of Songs). Standards lemon, falls white edged bright lemon; very laced and ruffled. Well branched. **\$5.00**

- LIBRETTO** (Tompkins '57). M 40 in. (Spanish Peaks x One Clear Call) X (Blue Throat). Well branched stalks carry milk-orchid or Wisteria-violet flowers with white beards tipped violet. Should breed both whites and blues with blue beards as well as whites with self beards. **\$10.00**
- LILAC BOUQUET** (Crosby '58) EML 40 in. (Swan Ballet X Mount Emmons.) Wide light lilac with enamel-like finish and round flaring falls, lightly waved. **\$20.00**
- LIMELIGHT** (D. Hall '52). M 36 in. (Sunray x Hall pink sdg.) Somewhat ruffled and serrated light yellow with greenish hints near white on falls. HM '52, AM '54 **\$2.00**
- LIPSTICK** (O Fay '57). M 32 in. (Involving Snow Flurry x Pink Cameo) X ((New Snow x Cherie) x New Horizon)). White with light orange-red beard. A great breeder for this color. HM '57 **\$10.00**
- LITTLE GEM** (F. Harris '56). ML 24 in. ((Hall's 42-10 x SQ 72) x Courtier) x (Rosedale). This medium-sized, ruffled, charming flower is a Gem indeed. One of the loveliest border iris for the modern garden. This crossed with Yellow Lresden, Yum Yum, Golden Flash, June Meredith and Cathedral Bells should produce some lovely things and among them some border or table iris. HC '55, HM '56 **\$8.00**
- LITTLE SWEETHEART** (Crosby '56). EM 30 in. (Snow Flurry x Sylvia Murray) x (Azure Skies x Mirror Lake). Ruffled, flaring pure white for the front of the border. Great blood for Blues, Whites and ruffled things. Try it with Azure Lake, Dr. Wanlass, Queen's Lace or even Gold Ruffles **\$5.00**
- LOIS CRAIG** (Craig '56) M and Re. 45 in. (Red-boy x Mexican Magic) x (Savage x Molten). Blend of rich dahlia carmine, hazel brown, rose-ebony blazed Bishop's violet. HM '57 **\$15.00**
- LOVELY DIANA** (Tell '59) EM 36 in. (Cathedral Bells x Pink Enchantment) Bright orchid-fuchsia with a colorful fuchsia-cerise beard. This should produce some lovely rich colors. I have bloomed some nice things from this and May Hall. HC '57, HM '59 **\$22.50**
- LOVE POTION** (Craig '57) M 40 in. (Breeding unknown). A gorgeous big, wide variegata with honey-cream standards and rich maroon falls. **\$5.00**
- LUGO*** (D. Dennis '59) E, Border B 26 in. (Contra Costa x Capitola) Reddish-purple self with brown beard and onco-type veining. Hardy and floriferous. **\$4.00**
- LULA MARGUERITE** (DeForest '56). M 38 in. No. 12, reverse sister to First Violet x Cloud-cap.). Iridescent blue blend, haft bright gold leaf, standards and falls bordered gilt. Mid-ribs of standards flushed gold—radiating lines of same color. Could breed whites and blues with red beards. One of the great breeders of our time. Would suggest using widely flaring things to it. HM '59 **\$9.00**
- LYNNETTE** (Eva Smith '58). EM 36 in. (Sunray x Raspberry Ribbon.) Broad pale bluish-lavender with a small white blaze on the falls near the beard. Breeding possibilities here for many colors: tangerine bearded plicatas, pinks, orchids, yellows, blends, etc. Most distinct. **\$10.00**
- MAC-O-CHEE** (Wickersham '56) M 34 in. (Garden Glory x Argus Pheasant.) A blend of Rosy-brown, with deeper falls, and an electric blue flush in center of hafts. Brown beard. Somewhat on the order of Grand Canyon. **\$5.00**
- MADAM MOHR*** (Becherer '51). M. (Morera x sdg.: Dauntless x Tropic Seas). Lovely, smooth powder-blue with onco form. The only Morera seedling we have seen. A wide flower of quality we know you will like. Very easy to grow. 40 inches **\$2.00**
- MADEMOISELLE** (Gaulter '59) ML 38 in. (Lavanesque x Pathfinder). Gorgeous wide, lavender-rose, hafts brushed sienna. There is a little ruffling on horizontally flared falls, and the substance is about all one could desire. This should be an ideal mate for Amethyst Flame, Pretty Carol, Lavendula, New Adventure, Crispette, Lady Kay, Charmed Land, and Magic Halo, to name but a few. HM '59 (Withdrawn this year to increase stock)
- MAGIC HALO** (Coppedge '58) M 36 in. (A 8-51 x Mary Randall) Blended pearl gray, iridescent gold, mauve and purple. Lemon-yellow beard. A lovely flower. HC '57, HM '58 **\$20.00**
- MAGIC LIGHT*** (Austin '55) EM 30 in. (Onco-Reg. Theseus x Pink Formal.) Standards silvery pink veined darw crimson. Falls silvery-rose to dark blackish maroon signal at end of bronze beard **\$5.00**
- MAGIC MOOD** (Branch '57) EM 36 in. (Bright Song x New Horizon) X ((51-32: (Harriet Thoreau x Hall's 45-39) x (49-13)). Lacy medium orange self with 10 or 11 buds **\$3.00**
- MAGIC SAILS** (Nesmith '51) EM 28 in. (Helen McGregor x St. Regis.) Very large, wide blue that should be a fine parent. HM '51 **\$4.00**
- MAID OF COTTON** (J. Pierce '53) M 40 in. (New Snow x Winter Carnival). Has been overlooked, but even with the latest additions this lovely warm white looks good. HC '52. **\$1.50**
- MAJOR EFF** (Watkins '55) M 39 in. (Shining Waters x Gloriolo) x (Great Lakes x Cloud astle). Bluebird blue, ruffling at tops of falls. Beard almost white. HC '53, HM '56 **\$8.00**
- MAJORETTE** (Miess '53) HM 38 in. (Golden Gleam x Wayfarer.) Unusual red-violet bicolor with lighter area around beard. Superb blood for plicatas. HM '54, AM '56 **\$4.00**
- MAMA*** (Mrs. V. Savage '54) M 38 inches. (Snoqualmie x Loomis Wm. Mohr Sdlg. No. 2). Large, warm white self whose special qualities are those of a "mama" and as such she is a producer of quality children strong of vigor and charm. **\$3.00**

- MARbled MOHR*** (Tell '58) EM 40 in. (William Mohr X ((Midwest x M. L. Aureau) x (Aldura)) Medium violet splashed white. Easy Grower, could be useful breeder for plicatas. **\$5.00**
- MARDI GRAS** (K. Smith '52). L 40 in. (Extravaganza) x Mme. M. Lassilly x Ilse Louise) Very colorful neglecta with campanula-violet standards, violet-purple falls, brown overlay at hafts **\$2.00**
- MARILYN C** (Crosby '58) EM-L 36 in. (Frances Kent) X (Tell's 49-11D, sister to Pink Fulfillment, x 48-18A: 45-13 x Pink Formal.) A vastly more colorful Frances Kent or Palomino-type. Actually the color is difficult to describe. Standards are warm pink changing to peach-apricot near the edges. Falls creamy white edged in apricot, deepening at the haft. A rich tangerine beard and heavy substance add to its charm and quality. HC '57, HM '58. **\$30.00**
- MARION** (Dubes '55) M 36 in. (Snow Flurry x Chivalry) Gorgeous blue-white from a cross that has produced so many grand iris. HM '57 **\$2.00**
- MARION HAMILTON** (Roberts '58). EM 38 in. (Tell's 50-6: Pink Formal x 46-24 B: SQ72 x 44-67, sister to Gold Ruffles) X (Sweet Marie). Large apricot-cream self, lemon haft. Blood for many colors. **\$7.50**
- MARION MARLOWE** (C. Benson '57) M 38 in. (Spanish Peaks) x (Helen McKenzie x Jane Phillips.) Waved, heavily substance white, including beard. HC '54, HM '57 **\$8.00**
- MARRIOTT** (Marriott '59) M 30 in. (White Wedgewood x The Admiral) Flaring pale blue self with a striking blue beard. A very smoothly finished flower and one that is destined to be most useful in breeding for blues and whites with blue beards. I believe Marriott could be crossed with any of the following to produce great seedlings: Zara, Lady Ilse, Lady Bluebeard, Exotic Blue, Allegiance, Royal Canadian and Blue Cliff. **\$15.00**
- MARSALA** (DeForest '51) M (Sister to Color Carnival.) Deep orchid with tangerine beard. **\$3.00**
- MARY ELLA** (Rundlett '56) EM 36 in. (Love Story x Apricot Glory) Smoothly finished apricot with a lovely shape, good stalk, well branched. HM '56. **\$5.00**
- MARY McCLELLAN*** (Craig '52) M 50 in. (Blue Ox: Acropolis x White onco-bred) x (Chivalry). Giant deep blue of perfect quality. Heavy stalks, good branching and an excellent parent either way. Try it with New Snow, Cascadian, Cliffs of Dover, Swan Ballet, Lady Ilse, Black Hills, Royal Canadian, Marriott and Headlands. HM '54, Winner of the Clarence G. White (Arl) Award '59. **\$5.00**
- MARY RANDALL** (O. Fay '51). M. (New Horizon x sdlg.: Pink Cameo x Cherie.) Deep orchid or "Bengal Rose". Rich, smooth and lovely self with tangerine beard that is a superb parent. HM '51, AM '53, Dykes Medal '54 **\$3.50**
- MARY VALENTINE*** (Craig '52) EM 4 inches (Purissima x Capitola.) Said to be the finest blue Mohr hybrid. Large, good substance, and color does not fade **\$3.50**
- MARY WAIS** (Gatty '58) ML 34 in. (Extravaganza x Red Torch) Standards pale orchid, falls deep red-black, flushed brown at hafts. **\$15.00**
- MASTER NEIL*** (Jensen '52). EM (William Mohr x Stained Glass.) A plicata directly out of Wm. Mohr, and a charming one, although it actually shows little of its mother's Onco-type. With things like Capitola, Ib-Mac, Mohr Velvet and White's fertile onco-breeds it may prove a superb parent. Cream ground delicately marked cinnamon. Reblooming tendencies. **\$1.00**
- MAUVE DUST*** (Craig '54) EM 36 in. (Mitchell 514 x seedling: China Maid x Tiffany) x (Capitola.) Unusual bicolor. Standards mauvedust, falls same veined pansy violet. Wide Mohr-type flower. **\$2.00**
- MAUVE QUEEN** (Whiting '54) 30 in. (Mexican Magic x Gypsy Rose.) Mauve shaded phlox-purple with pansy-violet flush in center of falls, beard and haft wax yellow. Great blood for rich blends, reds, etc. **\$1.50**
- MAXIMOHR*** (Maxim '58) EM 36 in. (Elmohr x Mulberry Rose) Bright mulberry with a definite onco-type flower. **\$12.00**
- MAYFLOWER** (Knowlton '59) M 34 in. (Chivalry x Jane Phillips) Medium blue self with lighter area at haft. Should be an exciting parent crossed with Utah Valley, Pinafore Lass and Violet Grace. HC '57, HM '59 **\$9.00**
- MAY HALL** (D. Hall '54) M 36 inches. (Dolly Varden x 49-13.) Beautifully formed light salmon-pink with ideal flaring form and superb substance. HM '54, AM '56 **\$5.00**
- MAY MAGIC** (Schreiner '56) M 38 in. (Crispette x Pathfinder.) Flaring orchid-pink self with great substance. This with Gracelle, Rosedale, Mary Randall, Gay Adventure, Gay Orchid, should be tops. HM '56, AM '59 **\$5.00**
- McLEOD*** (McLeod '59) EM 36 in. (Snow Flurry x I korolkowji). A true classification for this type of flower is being worked upon. Small flowers of Green-white coloring set off with a deeper chartreuse beard. No pollen, but will pod. May be a useful parent for breeding greens, border irises, or for getting hybrid vigor into many colors. **\$12.00**
- MELISSA** (Hinkle '56) ML 36 in. (Zara x blue sdlg.) Medium deep blue self with bluish beard. Wonderful growth and well-branched stalk assure this flower's success both as a parent and show flower. Won Queen of the Show at Denver last spring. HM '58, Runner-up for The Primio Firenze, Italy, '59. **\$12.50**
- MELODRAMA** (P. Cook '56) M 36 in. (Dreamcastle x 6050: Progenitor x Shining Waters.) Big, broad, spectacular new color. Standards pale violet, falls lilac. HM '56, AM '58 **\$20.00**

- MELODY** (H. E. Sass '55) ML 37 inches. (Amigo x Wabash). Another grand amoena from this cross with velvety blue-violet falls. Vigorous.
..... **\$2.00**
- MEMORIES** (Henry Sass '53) M 34 in. (Pink Sails x Cotton Candy.) Described as Carrot Red, actually it is a medium salmon-pink. Used with Mary Randall and some of the better new pinks is giving some good seedlings. HM '53 **\$5.00**
- MEMPHIS BELLE** (J. Pierce '52) M (Fantasy x Pink Cameo.) An orchid-pink with considerable garden value — giving a very pink effect. Only the highest praise has been given it. Tall stalks show the well spaced blooms to perfection. HC '51, HM '52 **\$2.50**
- MEMPHIS LASS** (Schortman '57). ML 34 in. (Snow Flurry x Orchid Queen) X (Snow Flurry x Gibson Girl). Ruffled white plicata marked burgundy. A most charming plicata that should be a truly great breeder for it has Snow Flurry in its pedigree three times. HC '56, HM '57 **\$17.50**
- MERRY LYNN*** (Henry Till, Jr. '58) EML 38 to 42 in. (White Leather x Sdlg.) x (Snow Goddess.) Very smooth self of Mignon (M & P 43-F-7) or near lobelia violet. Beard of cream. Heavy stalks, vigorous rhizomes and foliage. Should look well under artificial light. Most potent of pollen parents even on difficult things. HM '59 **\$10.00**
- MEXIGLOW** (L. Crosby '53) M 34 in. (Mexico x Mellowglow.) A large, wide, flaring luscious golden-brown blend with flush of violet in falls. C. of C. '52, HC '51 and Seedling Cup Salt Lake City '52 **\$1.50**
- MIDNIGHT BLUE** (Schreiner '54) M 36 in. (Black Forest x Chivalry.) Dark blue. With such blood can anyone doubt its value as a parent? HM '56 **\$1.50**
- MILLIONAIRE** (Roy Brizendine '58) ML 36 in. (((Changing Lights: ((Mattie Gates x Ola Kala) x Ola Kala) X ((Golden Age x P. Sunset) x (Midwest Gem x Dore) x (Prairie Sunset) x (Sunset Serenade))) X (Arab Chief x Bryce Canyon). Glamorous light golden brown self—falls only slightly deeper than the standards. Bright, lightly ruffled blooms are indeed lovely and outstanding in this color class. Wonderful grower and dependable bloomer, and is especially suited to Midwestern conditions to which most browns do not respond. HC '56, HM '58 **\$15.00**
- MINNESOTA SKIES** (Hartkopf '58) M 38 in (Blue Rhythm x Blue Valley). Sky blue self. With this pedigree this can only be a great breeder for blues and whites. **\$7.50**
- MISCHIEF** (Reinhardt '54). ML 34 in. (Red Torch x Gypsy.) Very bright medium-sized variegata of different hue. Yellow standards, burnt-ocre falls **\$5.00**
- MISS B HAVEN** (Reynolds '57) ML 38 in. (Memphis Belle x Pink Formal). Very large, wide white ground plicata with good substance. The best shape of this type with a tangerine beard. **\$15.00**
- MISS CHRISTINE** (Watkins '54). M 36 in. (Spun Gold x Katherine Larmon.) Broad creamy yellow, ruffled, fluted, great substance and well branched **\$4.00**
- MISSION GLORY** (M. Hamblen '54) M 36 in. (Bryce Canyon x Garden Glory.) Rich, flaring, reddish-brown. Superb blood for reds, coppers and browns **\$1.50**
- MISSION MELODY** (Hamblen '55) EM 38 in. (Floradora x Cherie). Bright orchid-pink, falls slightly darker than standards. Has a large, wide tangerine beard. Strong reblooming tendency **\$2.00**
- MISSION ROSE** (Mission '55). M. 38 in. (Mary Randall x Hall pink seedling.) Light purple or "old Rose" falls have lighter area. Bright red beard. Well branched, many flowers **\$3.00**
- MISSION STARLITE** (Hamblen '56) ML 36 in. (Chivalry x White Wedgewood.) Silvery French Blue with rich violet veining at the haft which gives it charm and distinction. HC '54, HM '56 **\$5.00**
- MISS MOHR*** (Austin '53) EM 27 in. (Golden Majesty x Capitola) Somewhat similar to Lady Mohr with lighter area around bronzy-gold beard. **\$1.25**
- MISS MARTHA*** (McLeod '59) Ex. EM 21 in. (Andelia x True Delight) X (Karolkowi Violacea) Mr. McLeod named this little regelia hybrid for his daughter. This could stand more substance but the coloring is lovely. Standards are light raspberry veined deeper raspberry red. Falls creamy-white changing to light Raspberry at tips and veined deeper raspberry red. The Heavy veinings form a signal patch at the top of the bronze beard. Carries plicata blood. **\$8.00**
- MISS ST. LOUIS** (C. Benson '58) ML 32 in. ((Salmon Shell) x (SQ72 x Tell's 44-67) x (Pink Formal) X (Flirtation). Gorgeous bright, ruffled Salmon-pink self. HM '58 **\$15.00**
- MISTY CHIFFON** (Jacobson '56) EM 36 in. (Jean Cayeux x Midwest Gem.) Horizontally flaring, tailored blue blend. Standards off-violet with hints of gold. Falls gold, have a misty blue overcast. A novelty blend that looks especially well under artificial light. Should breed lovely tans, browns, blends and lacing. Won seedling cup at Salt Lake City, and received HC in '55 **\$10.00**

MIXED EMOTIONS (N. Sexton '59) ML 36 in. (Golden Ruffles x Azure Skies) Pearl-tinted white with smooth brushing of chartreuse at hafts and beard, stigmatic lip blue. The very round falls flare horizontally and have a bit of ruffling at hafts. This one likes hot weather, always having better color and form when the season is warm and dry. HM '59 **\$20.00**

MODERN DESIGN (Muhlestein '58) MVL 36 in. (Ola Kala x Fabulous Kate.) Cleanest and brightest real yellow. Shape of the flower leaves much to be desired, unless, for arrangement purposes, this shape is desired — open standards and falls that twist. **\$4.00**

MOHAVE GOLD (Henry Sass '55) ML 40 in. ((Yel. seedling x O.K.) x O.K. x Ella Callis) x (Mattie Gates x Yel. seedling). Deepest yellow. Velvety, deep orange beard **\$7.50**

MOHR and MORE* (Tell '53) M 40 inches. (Aldura x Capitola.) Very heavily substandard rich purple self. This has a strong tendency to make four and five standards and falls as well as styles—hence the name. HC '51 **\$2.50**

MORH BEAUTY* (Miliken '49) EM 34 in. (Elmohr x Sdlg. from: Dauntless, Easter Morn, Alta Calif., Loudon, New Albion, Lady Paramount and Chosen). Light yellow. This crossed with Nomohr, Mohr Lemonade and the new White hybrids should throw some lovely things **\$1.50**

MOHR COURAGEOUS* (M. Naylor '54) EM 34 in. (Wm. Mohr) x (Snow Flurry x Winter Carnival). Flaring, heavily substandard violet-blue with brownish cast in falls. A fine iris with great blood **\$3.00**

MOHRESQUE* (A. D. Keith '50) EM (Doxa x Zwannenburg.) Standards light brown. Falls yellowish-buff at edges deepening to near chartreuse at hafts with purplish flecking all over the falls. Wide and full. Oddly colored so some will like it—others will not. Sets some seed. Height 38 inches. **\$1.50**

Let's see, I've used up the normal excuses it'll have to be a straight request.

MOHR FUN* (Gibson '59) EM 36 in. (Nomohr x Capitola) Light violet standards, falls mauve shaded violet and tan, beard tipped violet. Vigorously and rampant grower. Substance of standards could be better (as with many Capitola derivatives), but the color is lovely and crossed with the fertile C. G. White hybrids will produce some grand things. **\$8.00**

MOHR GLORIOUS* (Tell '52) ML 32 inches. (Elmohr) x Tompkins' 42-58: ((Wm. Mohr x Mussolini) x (The Red Douglas x Joycette.)) A richer heavier substandard Elmohr. A front-of-the border plant. Seedling Cup Utah Iris Society Show '51, HC '51, HM '54 **\$7.50**

MOHR HAVEN* (Reynolds '57) EM 35 in. (Snow Flurry x Capitola.) Gray-blue self, violet shadings at throat. HM '57 **\$10.00**

MOHR LACE* (H. Recknor '58) ML 36 in. (Elmohr x Snow Flurry.) Yes, from Snow Flurry pollen. Looks as though it were a child of Chantilly with its violet coloring, laced edges and gold at haft. Will pod—pollen not proven very fertile **\$5.00**

MOHR LEMONADE* (Tell '58) EM 36 inches. (Ormaco x Cool Lemonade) X ((I. hoogiana x Indian Chief) x (Cool Lemonade)). Refreshing lemon self with wide style, standards somewhat open. Fertile both ways. Vigorous grower and fast of increase **\$12.50**

MOHRNING HAZE* (W. Luhn '59) EM 36 in. (54-1, Snow Flurry x Prof. Mitchell blue sdlg.) X (Capitola). Large lavender blue self of perfect form, the blue-tipped beard and suggestion of a signal patch give this hybrid mark of distinction. I am anxiously awaiting the day we see seedlings from this crossed with Marriatt and Royal Canadian. HC '57, Gold Cup for Best Seedling Sacramento '58, HM '59 **\$17.50**

MOHR VELVET (Tell '52) ML 36 inches. (Elmohr x Hall flaminga pink) x (45-41D: sister to Salmon Shell.) A smooth rich yellow self with velvety falls. The plush-like appearance of this flower is almost without counterpart in yellows. Pure Pogon iris in appearance. Has most fertile pollen even on difficult hybrids. C. of C. '51 **\$2.00**

MOLTEN (Craig '50) M (Prairie Sunset x Sultan's Robe.) Burnt sienna, rose and ocre. Falls have a blue blaze. Superb breeding for rich blends and reds **\$1.50**

MONKEYSHINE (J. Nelson '57) M 38 in. (Port Wine x Tensleep.) Novelty plicata. Standards dark violet, falls all different in violet and white stripes. **\$3.50**

MONKSHOOD (Emery '55) ML 38 in. (Blue Monarch x Gloriole) x (Campanula). Large bicolor blue with domed standards and flaring falls. HM '55 **\$3.00**

MONTECITO (Milliken '50). EM 40 inches. (Looks to have Spring Sunshine blood.) A large light yellow with white area in falls. Form delightful with domed standards and flaring falls that have a dip in the center—giving the flower charm and distinction. One of the finest things Milliken has produced. Altogether lovely. **\$1.50**

- MOONCHILD*** (Moon Goddess x Ib-Mac.) E. 22 in. Delicate pastel grays blended. Mulberry signal. A novelty border plant. Wiry stems. **\$3.50**
- MOON RINGS** (Rex Brown '56). EM 38 in. ((Burning Bronze x Snoqualmie) x (Berkley Gold)) x Hi Time). Ruffled yellow to ivory standards, horizontal falls, ivory with border of bright yellow, serrated edges. With this Dominion blood most breed great yellows, creams, pinks, apricots and orchids **\$4.00**
- MOULIN ROUGE** (Tompkins '54) EM 34 in. (Caravan x Bandit.) Dark red. Purple sheen over falls **\$3.50**
- MR WONDERFUL** (Crosby '59) EL 36 in. (Tell's 49-31: Hall's 44-09 x Pink Formal) X (Pink Enchantment). Rich, wide, tailored pink with pink beard and lots of substance. Hafts have a light brushing of yellow. Falls flare horizontally. Should be a wonderful parent for pinks, salmons and oranges as well as whites with tangerine and pink beards. Won an Exhibition Certificate '58. Vigorous grower **\$17.50**
- MT. EMMONS** (Crosby '55) ML 40 in. (Snow Carnival x Sister to Story Princess.) Very large, flaring white with yellow beard. **\$2.00**
- MULBERRY SNOW** (Austin '55) ML 45 in. (Sis. to Nnicorn. Violet and white plicata. "Horned" projection from beard. **\$10.00**
- MUTED MUSIC** (D. Palmer '56) ML 38 in. (Tosca x Distance) X (Snow Flurry x Blue Valley) Large, wide, heavily substanced medium light blue carried on heavy well-branched stalks. The beard is white-tipped. Altogether a grand blue of quality and with this blood must surely be a fine parent for blues and whites. HC '55, HM '56 **\$8.50**
- M. VIOLET MOYER** (Varis) M 36 in. Henna blend about one shade deeper than Bryce Canyon. **\$2.00**
- MY DARLING** (Darling '56) M 38 in. (Chantilly x Lavender and Gold Lace) X (Alexia x Easter Bonnet.) Charming blend. Standards white, suffused orchid-lavender. Falls white suffused darker orchid-lavender: Petals edged brilliant gold, orange beard. **\$5.00**
- MY HAPPINESS** (Sass '56) M 38 in. (Long line pinks from Melitza, Flora Zenor, Sea Shell, P. Sunset, and Matula) x (?). Violet-blue with tangerine beard. This might be good with Gay Adventure, Enchanted Violet, Mary Randall Gracelle, or Berta B. HC '55, HM '57 **\$10.00**
- NASHBOROUGH** (J. Wills '57). M 36 in. (Involving Brown Thrasher, Hermitage, Hernani, Marvelous, Jerry, Chief Poking Fire, Gay Troubadour.) Beautiful and bright variegata with Indian Yellow standards, rich ruby red falls. HC '54, HM '57 **\$18.00**
- NATIVE DANCER** (O. Fay '54) M 38 in. ((48-41: Pink Camea x I. Pallida) x Sib.) x (Mary Randall). Light peach-pink of lovely form. 12 flowers to the stalk. HM '55, AM '57 **\$3.50**
- NEGRURA** (Crosby '58) EM 34 in. (Sister to La Negrator.) Wide, very dark purple that is near black. The name is Spanish and means DARKNESS. This made quite a hit at the 1956 Utah Iris Society show. A grand dark for front of the border. Fast grower. **\$5.00**
- NEVERMOHR*** (Craig '55) EM 40 in. (Purissima x Capitola.) Very dark violet — much darker than the bulk of seedlings from this wonderful cross **\$4.00**
- NEW ADVENTURE** (Tell '54) EM 38 in. (Loomis Sea Shell Plic. x Pink Formal). White ground plicata with violet markings and a bright tangerine beard. Crossed with Surrender gave a host of plicatas with tangerine beards. It throws tall, well branched stalks. **\$4.00**
- NEW LOVE** (Hinkle '56) ML 36 in. (First Affection x Faught 19 H) Creamy white self with a cream beard. This carries the blood (heavy on Purissima lines) to produce the finest in blues and whites. **\$5.00**
- NEW PENNY** (Dubes '60) M 35 in. (Sib. to Golden Cascade x Golden Splendor) (Wide ruffled, warm brown and copper blend. A few reticulations at the haft give it life, and for breeding they may be eliminated in the next generation by using Bingham, Glistening Copper, Privateer, and Doctor K. We are pleased to offer New Penny the year of its formal introduction **\$15.00**
- NICOLE LASSAILLY** (Cayeux '38) M 36 in. (Palichinelle x Don Juan) Pale neglecta with light blue standards and darker falls. Some reticulations at the haft. French Dykes Medal '37. **\$1.00**
- NIGHT 'N DAY** (DeForest '55) ML 38 in. (Extravaganza) X (Casa Morena x General Patton) Neglecta that turns to an amoena as the pale violet standards fade in the sun. The violet falls have a black overlay. Not a fast grower. **\$9.00**
- NIGHT PATROL** (C. Benson '54) M 38 in. (The Admiral x Dymia.) Deep violet-blue with matching beard. Great blood for breeding the darks from blues to "blacks". Has horizontal falls with heavy ruffling. There is nothing at all like this iris. A stunner. HC '50. HM '55. **\$2.00**
- NIGHTSHADE** (Louise Marx '56) M 36 in. (Two seedlings.) Deep violet-blue self, blue beard. **\$1.50**
- NIGHT SHADOW** (Sass '55) EM 36 in. (Lost.) Fine "black" from the red side. Beard brown tipped yellow. Wonderful grower. **\$3.50**
- NIGHT STORM** (DeForest '54) EM 34 in. (Black & Gold x Red Torch). Name misleading for this is a smoothly finished variegata. **\$2.00**
- NOMOHR*** (Gibson '55) EML 40 in. (Snow Flurry x Elmohr). Light yellow or bamboo-cream with a few violet "onco" lines at hafts. The wide heavily substanced flowers show their onco-cyclus blood to a marked degree. Proving a wonderful breeder for quality seedlings. Mr. Gibson had some beauties from Nomohr x Palomino, Starshine and others. Pods easily and has somewhat fertile pollen. HM '56 **\$4.00**

- NONA** (Davidson '58) ML 38 in. (Char-Maize x Clovelly) Lime-yellow self that appears quite green. Has fine width and good substance. A sister to Truly Violet. I think this should be good crossed with Green Echoes, Irish Whim, Mixed Emotions and Olivette for greens. **\$2.00**
- NORAH** (Papham '52) M 40 inches. (Bonny x Paradise Pink). Apple-blossom pink. Heavy substance. **\$1.50**
- NORTHWESTERN** (F. Cook '51) EM 38 in. (Blue Glow x Gulf Stream.) Wide, flaring rich royal purple. Should be a wonderful breeder for darks. HM '51, AM '53 **\$1.50**
- NORWOOD** (C. Benson '54) M 38 in. (Amandine x Mattie Gates.) From such a cross how could it be anything but a beautiful lemon-cream self. **\$2.00**
- NUEVO LAREDO** (Kleinsorge '56) ML 40 in. (Sis. to Spanish Fandango x Cascade Splendor.) Red-brown self with gold beard **\$5.00**
- OEDIPUS REX** (Zurbrigg '55) L 38 in. (Mexico x Gaylord.) Variegata with bright yellow standards and rich red falls. Great blood here to breed this color, reds, browns, blends, amoenas and bi-colors like Queen's Taste. **\$5.00**
- OLIVE ORCHID*** (Austin '56) ML 40 in (Butterfly Wings x Chivalry.) Pale lilac-blue, deeper lilac flush at end of beard; olive veins on the white ground at sides of a bright yellow beard. Fascinating blood for oncobreds as well as for breeding blues. **\$3.50**
- OLIVETTE** (Jonas '57) M 38 in. ((Golden Spike x Alice Harding) x (Soldano x China Clipper)) X (Coronet x Green Pastures). Standards citrine yellow deepening at base. Falls olive-yellow with light cadmium beard. Large, broad and ruffled. Very fertile pollen. An advance in Green breeding lines. **\$10.00**
- OLYMPIC TORCH** (Schreiner '58) M 38 in. (Inca Chief x H 92-A: 49-46 x Watchfire). This large golden bronze self looks like a real "comer". This will be a natural to cross to the new brown, copper and bronze things I'm introducing this year. HM '58 **\$15.00**
- OLYMPUS SKIES** (Carlston '55). EM 40 inches. (Snow Flurry x Aldura). Very wide white ground plicata lightly marked with blue. Will surely produce superb seedlings. **\$5.00**
- ON PARADE** (Crosby '56) ML 32 in. (Louise Blake x Step Up). This stunning variegata with golden-tan standards and red falls is very smooth. It should be great crossed with Fire Chief. HC '54, HM '56. **\$10.00**
- ON STAGE** (Lapham '56) M 36 in (Paradise Pink) X ((Melitza x Spindrift) x (Forerunner)). Well branched stalk shows off the golden-apricot flowers (flushed pink) to advantage. **\$5.00**
- OPERA PINK** (Whiting '51) M 36 in. (Shannopin x Pathfinder) Pale pink blend sister to Pathfinder that is proving most useful to cross with Flamingo Pinks. Vigorous. **\$1.00**
- ORANGE APRICOT** (Tell '55) EM 36 inches. ((Sis. to Gold Ruffles x Spindrift) x (D. Hall's 43-04)) x D. Hall's 44-55 x Pink Salmon). Between apricot and cadmium yellow. Wide, smoothly finished flowers. Standards open. **\$4.00**
- ORANGE BANNER** (Waters '55). ML 34 in. (Orangeman x Orange Gem.) Very deep, rich Indian Yellow flushed cadmium yellow. Flowers a little large, perhaps for height of stalk. HM '55, AM '59. **\$7.50**
- ORANGE CREAMO** (Tell '53) ML 38 in. (Salmon Shell x Pink Formal) x (Apricot Glory). Flaring apricot-orange self with good substance. **\$4.00**
- ORANGE CRUSH** (Suiter '59) MVL 38 in (((Midwest Gem x Chantilly) x (Gold Ruffles)) x (Salmon Sheen))) X ((Chosen x P. Sunset) x (Tell's 47-72 A x Pink Formal)). Vivid orange of large size that will attract garden visitors like a magnet. Branching is high, but it should be a tremendous parent crossed with shorter, flaring mates. **\$10.00**
- ORANGE FRILLS** (Suiter '54) ML 36 in (Gold Ruffles x Chantilly) x (Hall's 44-55, sister to Hit P. x Pink Formal). Frilled or laced bright Apricot with light area in center of falls. Very striking. This will be a wonderful parent for pinks, apricots, oranges, yellows, creams and those laced things. "Grandpa" is proud. HM '54 **\$4.00**
- ORCHID QUEEN** (Schortman '55) EM 40 in. (Snow Flurry) x (Inspiration x Balmung). A novelty you will either like or dislike. There is nothing quite like it. Cream ground and the falls are heavily patterned with lines of orchid like the wings of an exotic butterfly. Producing unusual seedlings in plicatas, reds and fancies. Could be useful with onco-blood iris. **\$5.00**
- ORCHID PINAFORE** (E. Smith '59) M 40 in. Pinafore Lass x ?) Orchid-violet self with white center at haft. White beard. This and Lake Isabella are the first introductions from Pinafore Lass. Might be good crossed with Three Signals, Utah Valley, Violet Grace and Polka Time. **\$10.00**
- ORCHID RUFFLES** (Schreiner '54). EM 36 in. (Harriet Thoreau) x ((Angelus x ?) x (Matula x sdlg.: Noweta x Violet Cr.)). Delicate orchid color and a charming laced edge. This is great breeding material to use with other lace-edged things. HM '56 **\$2.00**
- ORIENTAL PEARL** (Lyon '56) M 38 in. ((Spindrift x Hall seedling) x (Carabella) x (Pink Formal). Orient pink flushed coral pink, brushed Spinel pink in center of falls. Beard Mars Orange. HC '55, HM '57 **\$12.00**
- OWYHEE** (Suiter '56) ML 34 in. (Rich Raiment x Tobacco Road). Large red-brown bicolor. Great breeding for reds and plicatas. **\$3.00**

- ORIENT PINK** (Whiting '55) ML 34 in. (Radiation) x (Hall 42-05 x Pathfinder). Orient pink with Chinese-red beard, flaring. Strong and well branched stalks. Great blood for breeding pinks and orchids. Suggest using Gracelle, Pink Enchantment, June Meredith, Palomino, Rosedale, Happy Birthday, Mary Randall, or related things. HC '54 **\$5.00**
- OZIE WATERS*** (Linse '56). E 36 in. (Spellbound x Capitola.) Deep rose-red with brownish suffusion at the haft, old gold beard and prominent "black" signal patch. Huge 8-inch flowers. Fragrant **\$11.00**
- PAGAN GOLD** (G. Douglas '51) ML ((White Prince x Easter Morn) x (Golden Hind)) x Mimosa Gold.) Rich, gleaming gold. The falls appear quite velvety. HC '48. **\$3.50**
- PAGAN ROYAL** (G. Douglas '51). M (Gulf Stream) X (The Bishop x The Black Douglas). Glowing red-violet that is very commanding in the garden. Superb blood for dark things. HM '52 **\$2.50**
- PALOMINO** (D. Hall '52) M 36 in. (Hi Time x 46-31) Creamy-white ground, borders of white petals edged buff-pink, tangerine beard. Different. HM '52, AM '54 **\$2.00**
- PANAY** (McKee '55) M 38 in. (Fairday x self.) Standards oyster white edged gold, falls jonquil with bronze-green cast edged gold. Very different and distinct. HC '50. **\$2.00**
- PARACHUTE II*** (Loomis '52) EM (Wm. Mohr x White sdg.) Large blue-white with the full Mohr-type. Fertile pollen. **\$1.50**
- PARMA VIOLET** (Savage '56) EM 44 in. (Snow Flurry x Great Lakes.) Violet blue self, light blue area around pale lemon beard. Vigorous rhizomes and foliage. Should breed good blues and whites. **\$2.00**
- PARTY DRESS** (Tell '51). ML (45-22: Lancaster x D. Hall's 42-10) x (46-22B: sister to Pink Formal). Charm, personality and quality all wrapped up in one ruffled pink. Its seedlings are the quality we had hoped, and it produces the longest, most varied and colorful beards in its seedlings. Party Dress will appeal to those who like ruffled, quality flowers and hybridizers will bless the splendor of its seedlings. HC '50, HM '51, AM '54 **\$1.50**
- PARTY PETTICOATS** (L. Crosby '59) EL 40 in. (Snow Flurry x Gold Ruffles) X (Little Sweetheart). Small heavily ruffled white flowers that look especially well in arrangements. Should throw grand creams, whites, blues and laced things. **\$15.00**
- PARTY PINK*** (Crosby '59) EL 38 in. (Tell's 49-19 A: ((Elmohr x Golden Eagle) x (Pink Formal)) x (Pink Papa)) X (C 52-6: Sib. to Pink Formal x Tell's 48-36A: Hall flamingo pink sdg. x Pink Formal) Pink with slight orchid influence which makes it actually more pink than those flamingo pinks with the yellow and salmon influence. Beard same general color as the flower. The slight Elmohr blood makes it most fascinating. Should be a fine pink breeder. **\$12.50**
- PATRICIAN** (H. F. Hall '53). M 36 in. (W 36 x W 28.) White with overlay of barium-yellow on falls surrounding beard of the same yellow. HM '53, AM '58 and Pres. Cup '58 **\$4.00**
- PATIENCE** (Schortman '55) EML 40 in. (Snow Flurry x Inspiration). Stunning, wide, majenta with pale lemon beard to set it off. This is one of our favorites and we've used it with a great many things like Gracelle, Mary Randall, Sable Night, etc. A fine garden subject. HM '56, AM '59 **\$6.00**
- PEACH BROCADE** (D. Hall '55). M 32 in. (Cascade Splendor x Melody Lane.) Peach-apricot self. Here is some new blood in this color and should be most useful for blood refreshment to the pinks, apricots and oranges **\$2.50**
- PEACHERINO** (J. Dolman Jr. '54) M (Spanish Cream x Orangeade.) This peach-blended, somewhat of a Palomino-type, brings some new blood to this class of iris. Vigorous and hardy **\$2.00**
- PEARL BLUE** (Buss '56) M 36 in. (Chivalry x Spanish Peaks.) Large light pearly blue intensified by deeper styles and inside surfaces of standards **\$2.00**
- PEARLY DAWN** (Anley, Eng.) M 36 in. (Hall's 42-10 x Pink Cameo.) Pastel rose-pink and white picolor. Effective under artificial light. Small flowered. **\$1.50**
- PEARLY MORN** (Thorup '51). M (Snow Flurry x ((Dolly Madison x W. R. Dykes) x (Souv. de Mme. Gaudichau x Ricardi)). Very large full white with pearly undertones. In a wet season these pearl tones sometimes concentrate in lavender flecking, but we have only experienced this once since its first blooming. Best Seedling Salt Lake City, '49. HC '49 **\$4.00**
- PEGASUS** (Fothergill '56) EM 38 in. (White City x Sea Lark.) Tailored pearly-white self with bluish beard. **\$5.00**
- PEPPERPOT** (Whiting '54) L 25 inches. (Technicolor x Lodestone). Not tall but a stunning pepper-red with lacquer-like finish. HC '51. **\$3.00**
- PEQUOT** (McKee '52) M 36 inches. (Lights On x Moontide) x (Moontide). Grand new red showing what can be done with line breeding and the use of Moontide. Really a splendid iris in every way. **\$1.50**
- PERSIAN ROBE** (Henry Sass '55). M 38 in. (((Amigo x Ballet in Blue) x (Matula x Rameses seedling)) x ((Beau Ideal x Rameses) x (Amnitola) x (Miss Calif.))) x (Louise Blake.) Standards pale buff flushed rose. Falls rich wine-red with buff-pink border. This could breed amoenas, bi-colors, plicatas, blends, pinks or variegatas. **\$8.50**
- PERSIAN SARI*** (Lyon '57) ML 44 in. (Aldura x Patrice) x (Mohr Majesty). Fancy plicata. White with phlox-purple and garnet-lake markings, lemon-yellow beard. This should be good to cross with Mohr Lemonade, Nomohr, etc. **\$4.00**

- PERSONALITY PLUS** (K. Smith '56) EM 35 in. (Angela Borgia x Radiation.) Four-way branched stalks carry large, ruffled flowers of flamingo pink standards, lilac-pink falls which have deep tangerine beards. Good blood to use with pinks and their by-products **\$6.00**
- PHLOX PINK*** (Linse '56) E 40 in. (New Snow x Capitola.) 7½ in. flowers of phlox pink, falls shading to orchid and adorned with a slight violet signal patch, yellow beard. **\$5.00**
- PHOEBUS APOLLO*** (White '54). EM 38 in. (Some onco blood.) Bright yellow of commanding form and substance. HM '55 **\$5.00**
- PICTURE BOUQUET** (O. Brown '56) EM 36 in. (Hit Parade x Pink Formal) x (Party Dress). Lovely pink self nicely ruffled and laced, with a coral beard. Medium-sized, so could breed excellent small-flowered kinds as well as conventional T.B. **\$5.00**
- PINK BOUQUET** (D. Hall '53). EM 28 in. (Sunray x Dolly Varden.) Shorter edition of Cherie. **\$2.50**
- PINK CHIMES** (D. Hall '57) M 34 in. (Two pink sdgls.) Pinker Pink Sensation-type. HM '57 **\$5.00**
- PINK CLOVER** (Whiting '56) ML 30 in. (Hall 42-05 x Pathfinder). Wide mallow orchid (clover-pink) with very heavy substance. I look on this as a very promising breeder put to June Meredith, Pink Enchantment, Lovely Diana, Pretty Carol, Fair Luzon, Gay Adventure, Heartbeat and Jan Elizabeth. HM '56. **\$3.50**
- PINK CONFECTION** (Tell '53). EM 38 in. (Salmon Shell x Hall's 44-09) X (Pink Papa) A real pink. **\$3.00**
- PINK ENCHANTMENT** (Tell '54) EM 24 inches. (Raspberry Ice Cream x Pink Papa). Deep true pink with cerise beard. Wonderful parent. Limited stock. HM '54, AM '57 **\$20.00**
- PINK FULFILLMENT** (Tell '54) ML 36 in. (47-72: Gold Ruffles x 45-64-1A: Alice Harding x Dr. Loomis "Type Dore" a Sea Shell sdg.) x (Pink Formal). Large, wide, flaring medium-deep pink with light area in falls. Lots of substance. Produces remarkable seedlings. HC '52, HM '54, Pres. Cup. '54, AM '56 **\$20.00**
- PINK MARBLE*** (Austin '55). E 24 in. ((Cherie x Capitola). Orchid-rose flower. The green leaves are marbled white. Good possibilities using this with other variegated leafed iris, or for use in onco-type breeding. **\$3.50**
- PINK MELODY** (F. Harris '59) M 22 in. (((Hall's 42-10 x SQ 72) x (Chantilly)) x (Heritage)). Clean pink with nicely ruffled standard, falls slightly recurved. Makes a delightful border plant. This should produce lovely border irises crossed to some of the 1960 border introductions: Lady Kay, Saucy Peach, Cockel Shells, Baby Doll, etc. **\$15.00**
- PINK POMP** (Madsen '56). ML 34 in. (((10-49G: (Sister to Pink Formal) x (Hall pink seedling x Pink Formal))) x (Pink Enchantment). Deep pink self that gives a very pink garden effect and should be a top parent for pinks. HC '55. **\$5.00**
- PINK PORCELAIN** (Crosby '56) EM 36 in. ((Sister to Pink Formal x 48-34: Sister to Salmon Shell x Dr. Loomis' V20)) x (Pink Fulfillment). Clean, pink with light area in the falls. Should be a breeder for pinks and laced things. **\$4.00**
- PIN UP GIRL** (Noyd '56) M 34 in. (Midwest Gem x Heritage) x (Dolly Varden). The first introduced peach-pink amoena. A good flower of quality and clean contrast. This should be a superb breeder and sure to be popular. Dependable reblooming quality. **\$7.50**
- PIRATE KING** (Whiting '51 (L 34 in. (Vatican Purple x Vagabond Prince.) Very deep blue-purple, hafts have a brown overlay. **\$1.50**
- PLUMED DELIGHT** (L. Austin '55) M 32 in. (Sister to Unicorn). Cream plicata brushed and washed in greyish-lilac, bordered in pale yellow. Falls stiffly horizontal carrying yellow and white beards from which extends the violet horns extending out about ½ inch from the falls. No pollen, but seeds easily **\$12.50**
- POLAR CAP** (Stevens '56) M 33 in. (Lilac Arbor) x ((Magnolia x Wabash) x (Southern Alps)). In the manner of Step Up: white standards, pale lavender-blue falls. HM '56. **\$7.50**
- POLKA TIME** (Schortman '58) EM 36 in. (Snow Flurry x Violet Symphony) X (Sable x Chivalry) Gorgeous, ruffled, bi-toned violet with an attractive white area in the falls. This is sure to breed grand things. I should like to see it crossed with Utah Valley, Blue Cliff, and Violet Grace. HM '58 **\$25.00**
- POET'S DREAM** (O. Brown '58) M 36 in. ((Gold Ruffles x Chamois) x (Altar Light)) X (Rehobeth). Most attractive white self with light yellow beard. Marvelous breeding for lace, ruffles, blues, whites, tans, pinks, blends and creams. HM '58. **\$15.00**
- PORT** (Craig '53) M 43 in. (Garden Glory x Molten.) As the cross would suggest this is a rich port-wine red self — very smooth with warmer hafts **\$4.00**
- PRAISEWORTHY** (Tell '55) ML (Sky Song x Blue Rhythm.) Different to any other blue this has a wonderful flaring form and a smoothness that sets it apart. Actually has a hint of violet, yet I have looked on it as a powder-blue self. HC '54, HM '56. **\$2.00**
- PRECIOUS CARGO** (Schmelzer '57) L 34 in. (Arlene Wood x Mary Randall) Pearly rose-pink self. Good blood for lace as well as pinks. **\$5.00**
- PRECIOUS DAYS** (K. Smith '53). EM 39 in. (Keene Valley x Jane Phillips.) Royal-blooded soft blue **\$3.00**
- PRETTY CAROL** (Hamblen '59) ML 40 in. (Radiation x Pink Tower) X (Mary Randall). Stately, wide, lightly ruffled Orchid-pink that makes a stunning garden subject or show flower. Pretty Carol is breeding wonderful seedlings. Exhibition Certificate and HC '56, HM '59 Net **\$20.00**

PRINCESS ANNE

PRETTY GAY (Plough '57) ML 34 in. (Party Dress x Mary Randall.) White with red beard. Crossed with Lipstick, Frost and Flame should give fine whites with red beards. HC '56, HM '57. **\$7.50**

PRETTY QUADROON (Kleinsorge '49). M. (Mexico x Tobacco Road.) Smooth, wide and full metallic copper-brown. Lovely queen. AM '50 **\$2.00**

PRETTY REDWINGS (Schortman '57) M 38 in. (Orchid Queen x Bryce Canyon.) Wide, flaring bicolored burgundy red with some haft markings which do not detract but make it distinct. Could breed great things in reds, coppers, browns, or even plicatas. HC '56. **\$17.50**

PRINCE OF MONOCO (Kleinsorge '56) M 42 in. (Spanish Fandango x (Goldbeater x 46-57). Blue-lavender standards, falls deep red-purple edged paler, brown at haft, gold beard. A rich and commanding flower which I like **\$6.00**

PRINCESS ANNE (Zurbrigg '58) ML 36 in. (Cascade Splendor x Armour Bright.) Wide, roundly flaring ruffled falls are white edged yellow. Standards light yellow. Heaviest substance. Proving a great breeder. HM '58. **\$20.00**

PRINCESS MICHELLE (Loebner '56) M 30 in. (Dreamcastle x ?). Slightly bitoned orchid-pink, falls a shade darker. Wide of parts and very smooth. **\$4.00**

PRIVATEER (Tompkins '54) EM 34 in. (Ebony Echo x Technicolor.) Very rich brown-toned red. Finest red breeder. HC '53, HM '54 **\$3.00**

PROSPECTOR (Kleinsorge '50) M 30 in. Lovely flaring yellow with light area in falls which surely harks back to its progenitor, Treasure Island. HM '51, AM '53 **\$1.00**

PUFF* (Craig '53) E 24 in. (Purissima x Capitola. Lovely violet "Mohr" **\$1.50**

PUNCH BOWL* (Craig '51). E 36 in. ((Tiffany x L.A.) x (Sib.)) x (Joppa Parrot). Unusual onco plicata; burgundy on white, standards veined all over, falls bordered and have stripe down center. **\$2.00**

PURE SUE* (Samuelson '56) M 40 in. (Purissima x El Capitan) x (Susiana x Parisiana). Big, tall and bold white with yellow beard. Somewhat fertile. Scarce. **\$3.00**

PURPLE HAVEN (Reynolds '57) EM 36 in. (Vatican Purple x Carpenter 67-8.) Smoothly finished flaring purple with purple beard. A quality flower and a standout in this color. HC '53, HM '57. **\$8.00**

QUADRILLE (Beaty '57). EML 38 in. (Hermit Thrush x Ebony Echo.) Well branched carmine red. With this blood can be nothing but a great breeder. **\$10.00**

QUEEN'S CHOICE (Rex Brown '59) EL 40 in. (Snow Flurry x Chantilly) X (Chantilly x Palomino). Blend of orchid and rose-pink with wide orange beard. Falls flaring and daintily edged with lace. **\$20.00**

QUEEN'S LACE (Tell '55) ML 32 in. (Clara B. x (Gold Ruffles x Chantilly). Heavily laced white with creamy yellow edges and center. So intense is the lacing the flowers sometime have difficulty opening. HC '54, HM '55; AM '57. **\$7.50**

QUEEN'S TASTE (G. Douglas '52) M. Criterion x Olympian: (Bonnie Lass x Red Bonnet) x (Red Amber.) Standards lavender-pink. Falls rosy-red. Really grand. HM '53, AM '55 **\$2.50**

QUEST (Plough '56) M 40 in. (Midwest Gem x Chantilly.) Standards light cyclamen purple, falls deeper. Heavily laced, hafts empire yellow. A great breeder for lacing. Could breed pinks, yellows, blends, brown, etc. **\$2.00**

QUEEN'S LACE

- RAINIER VALLEY*** (F. R. Crandall '55). E 36 in. (I. hoogiana x Shining Waters). Flaring medium blue self with bright yellow beard. Can be highly useful for breeding since its pollen is very fertile. **\$2.00**
- RAMPAGE** (Tompkins '59) ML 36 in. ((Great Day x (Ebony Echo x Defiance)) X (Moulin Rouge) Giant red of carmine and ruby. Domed standards, wide and flaring. **\$30.00**
- RARE GOLD** (C. O. Schirmer '58) M 38 in. (Goldbeater x sdlg. of Ming Yellow.) Pure, rich golden yellow self. HC '56, HM '58. **\$5.00**
- RARE PEARL*** (E. Schramm '54). EM 34 in. (Elmohr x Mt. Wash.) Cream with tones of pearl and buff, which fade, leaving a flower of a delicate self color. Flaring falls. Hardy and easy to grow. HC '53 **\$2.00**
- RASPBERRY ICE CREAM** (Tell '53) ML 36 in. (46-24: SQ 72 x 44-67, sister to Gold Ruffles) x (Pink Formal). Raspberry toned pink. The pod parent of Pink Enchantment. **\$2.00**
- RAVEN COUNTRY** (Tell '57) L 34 in. (Night Life) x (Black Forest x After Midnight). Dark black-purple self, including beard. Very heaviest substance. Slow and difficult to grow. HC '54, HM '57. **\$20.00**
- REAL GLORY** (Tompkins '59) ML 40 in. (Columbia x Pagan Royal) Royal violet self with violet beard. Sleek and glossy in finish, heavy substance, well branched. This should be crossed with Allegiance and ROYAL CAN-ADIAN **\$20.00**
- REAL GOLD*** (Austin '52) M 20 in. (Golden Majesty x Capitola.) Gold and golden-buff bi-color with golden-bronze beard. A good and different Mohr hybrid **\$2.50**
- RED BUTTERFLY** (Linse '56) M 40 in. (Butterfly Wings x Spellbound.) Striking medium sized flowers with rose-red standards, falls white, lined dahlia purple. Four way branching. **\$3.50**
- RED CHIEFTAIN** (H. E. Sass '55) M 36 inches. (((The Red D.) x (Ossar x H. Sass' Red Sdlg.) x (Aleppo P. x Solid M.))) x (((Midwest Gem x Dore) x (P.S.3 x (Flora Z.) x (Loomis' SQ 73)) x Golden Age x P.S.) x (Casque D'or x Chestnut x Rameses)). Medium red from the brown side. Wide, flaring and lots of quality. This pedigree may be useful for a host of other colors including plicatas, pinks, blends, browns, etc., and ruffling **\$7.50**
- RED FLURRY** (Fielding '56) EM 40 in. (Snow Flurry x diploid plicata.) Much red in this ruffled flower, but haft marked badly due to the plicata blood. Could be a useful breeder for plicatas as well as reds. **\$3.00**
- REGINA MARIA** (Hinkle '55) ML 36 in. (Azure Skies x Pierre Menard.) Very large, wide, heavily subtanced smooth medium blue. Sturdy well branched stalks. HC '54, HM '55, AM '57 **\$10.00**
- REHOBETH** (DeForest '53) M 40 in. (Snow Flurry x Lake Shannon.) Every report indicates this to be a most superb blue. HM '54, AM. Winner of the Premio Firenz, Florence, Italy, 1957. **\$3.00**
- REJOICE** (Dubes '58) EML 38 in. (49-26-1: Snow Flurry x Gudrun x (Great Lakes) X (Arctic Splendor). Competition in new whites is keen, but this one will stand the competition. Wide, ruffled, shapely with unusual fluting about the domed standards that permits one to look into the flower. A very long blooming season and substance to spare. HC '57, HM '58. Scarce. **\$35.00**
- RICHMONDTOWN** (K. Smith '58) ML 36 in. (Helen Collingwood x Mardi Gras.) Quite the most finished of the amoenas. Standards white, falls royal purple. Close and high branching, otherwise it is superb. **\$12.50**
- RIGHT ROYAL** (Wills '54) ML 36 inches. (Display) x (Prairie Sunset x Lancaster.) Rose-red with brown-red beard. I think it holds promise as a wonderful parent for reds and rich blends. A grand one. **\$3.00**
- RIPTIDE** (T. Craig '58) EM 38 in. (Frosty x Vengeance) Fine plicata. Standards blended violet over a white ground; falls white bordered campanula violet with plum at haft. **\$10.00**
- RIVIERA** (Plough '57) ML 34 in. (Gold Ruffles x Cherie) X (Twenty Grand). Dresden yellow with blue-white flush below a yellow beard. Ruffled, wide and well branched. Marvelous blood for pinks, blends, lace and ruffling. HC '58 **\$10.00**
- ROSEDALE** (D. Hall '52) ML 30 in. (Chantilly x Fantasy) x (Fantasy). Short stalks carry a mass of much ruffled salmon-pink flowers with hints of orchid undertones. If bred to tall things will surely give some lovely seedlings. A parent for border iris. Charming! HM '54 **\$2.00**
- ROSE GARLAND** (Wills '54), M 37 in. (Hoosier Sunrise x sis. to Right Royal). Light rose self, similar in coloring to Rose Glow **\$4.00**
- ROSE SAILS** (J. Pierce '55) M 36 in. (Memphis Belle x Twilight Sky) Bright orchid or Rose-pink self. HM '57. **\$5.00**
- ROSY SPANGLE** (Schreiner '58) M 36 in. (Challenge x Merry Rose). This 8 in. rosy-colored iris will draw a lot of attention in any planting. There is a glow of dusted copper over the falls. Should breed fine blends. Crossed to Jungle Bird and Jungle Rose, and Gracelle should breed lovely blends **\$6.00**
- ROSY VEIL** (Henry Sass '53) M. 36 in. ((Minnie Colquitt) x (Maid of Astolat x Sib.)) x (Minnie Colquitt x Jake). Glistening white ground with edge of cobalt violet or rosy-heliotrope. HM '54, AM '59 **\$3.00**

ROYAL RUBY (R. Goodman '58) M 36 in. (Red Hussar x Savage.) Wide flaring (3 in. wide hafts) falls, closed standards, three branches perfectly spaced are the attributes of quality that mark this fine oblood red beauty. Purity and smoothness mark this iris with quality. A good grower. This should produce rich seedlings in reds and blends. **\$30.00**

RUFFLED APACHE (M. Wallace '54) ML 36 in. (Matula x Midwest Gem) Red bi-tone with haft markings and blaze down falls done up in a heavy laced edge. Fertile both ways. Should be a breeder for ruffled and lace-edged things. HM '54. **\$5.00**

RUFFLED ELEGANCE (R. M. White '55) EM 40 in. (Easter Bonnet x Remember Me.) Bicolored violet, margins of standards and falls darker. Some yellow inside and in beard. Charming flower. Holds breeding potentialities **\$3.00**

RUFFLED GEM (Muhlestein '51). M (Midwest Gem x D. Hall's 42-10.) Ruffled tan blend. Quite different. All our garden visitors have wanted it. A breeder for ruffling and pinks. **\$1.50**

RUFFLED ORGANDY (Brenan '53) EML 42 in. (Gilt Edge) x Snow Flurry x Nylon). Ruffled translucent creamy ground, all petals bordered with edge of buff. Good substance, the flowers are ruffled and the well branched stalks carry up to 23 buds insuring an extra long season of bloom. C.O.C. and HC '52, HM '53, AM '55. **\$1.50**

RUFFLED PETTICOAT (Reinhardt '54) M 36 in. ((Purissima x Matula) x (White Goddess)) X (Midwest Gem x Great Lakes). Ruffled lavender blue with darker flush in falls **\$2.00**

RUFFLED ORGANDY

RUFFLED SKIES (P. Maxim '58) M 40 in. (Snow Flurry x Chivalry). From a truly great cross comes this heavily substantiated, charming, ruffled sky blue self. **\$14.00**

RUFFLED SNOW (Hamblen '56) M 36 in. (New Snow) X (Katherine Fay x Chivalry.) Wide ruffled white with yellow beard. Great blood for blues and whites. I'd like to see this crossed with Royal Canadian and Marriott. **\$1.50**

RUFFLED STARLITE (Hamblen '56) M 34 in. (Chivalry x White Wedgewood.) Ruffled light blue-white with bluish-tipped beard. This could be useful crossed with Marriott. HM '57 **\$3.00**

RUFFLED TAFFETA (Miess '54) EM 40 in. (Snow Flurry x Great Lakes) x (Lake Tenaya). Very light red-violet self. Wide and full and very smooth. HM '55, AM '59 **\$6.00**

RUFFLES AND BOWS (Hickenlooper '57). ML 30 in. (Azure Skies x Gloriole.) Very ruffled medium blue self. Should be useful to hybridizers for ruffled blues and whites **\$5.00**

RUTH COUFFER (Craig '56). EM 36 in. (Savage x Cordovan.) Somewhat similar to Bang — a vibrant deep red. Grand breeding possibilities. **\$15.00**

RYDAL WATER (Randall '51) M 36 in. (Helen McGregor x blue sdlg.) Selected for trial at Wiseley this is said to be a smoother Blue Valley type. **\$3.00**

SABLE NIGHT (P. Cook '52). M 38 in. ((Captain Wells x Indiana Night)x (Modoc x Black Wings)) X (Sable). Corrected pedigree. This gorgeous, tall, black with reddish undertones is undoubtedly the great stride forward in the blacks together with Black Forest. We will owe much to these for years to come. HC '50, HM '52, AM '54 and Dykes Medal '55 **\$3.50**

SAFFRON CHARM* (Benbow, England '54) E 28 in. (Stolonifera x T.B. yel. sdlg.) Standards yellow, saffron-stitched, blending to blue giving a translucent effect. Falls lavender-blue blended with paler yellow. Fertile pollen, and foliage remains green during the summer. HM '58 **\$2.50**

SAILS AND SEAS (Zurbrigg '56) M 38 in. (Extravaganza x Wabashine: Gudrun x Wabash.) Not a finished flower, but has breeding possibilities. Fine branching and vigor. Bicolor with white standards, falls white with overlay of violet-blue **\$5.00**

SAINT JUDE (J. Gatty '58). ML 36 in. (Sky Song x Granny Sherman: Missouri x Great Lakes.) Flaring light blue self that holds its color perfectly. HC '57. **\$10.00**

SALEM (Schreiner '58) M 36 in. (Harbor Blue) X (Blue Rhythm x Sylvia Murray). Wide light blue self of excellent quality. HC '57, HM '58. **\$10.00**

SALEM LASS (M. Olsen '57) EM 36 in. (Wish Again x Pretty Pansy.) Red-violet fancy plicata—white area around lemon-yellow beard. White edging **\$5.00**

SALLY ANN (K. Smith '45) EML Rebloomer. (Kalinga x Jelloway.) Large, clean yellow that produces the reblooming habit in its offspring. **\$1.50**

SANDY MOHR* (Loomis '57) M 36 in. (Wm. Mohr derivative.) In shades of yellow and tan. Big unusual flower. **\$7.50**

SATAN'S CHOICE (Plough '59) EML 32 in. (Garden Glory) X (Black Forest x Pink Sensation). Blackish-red with violet beard tipped red-violet. A most unusual pedigree; this should be a grand parent. **\$20.00**

SCENIC* (Plough '56) M 42 in. (Futuramic x Laurel Hill x Gems of Topaz.) Ruffled, flaring mineral violet, upper part of falls barium yellow sprinkled with gold dust glitter. **\$2.00**

SCIMITAR (J. E. Wills '54). E. 34 in. (Auburn x Centurion.) Striking rich blend somewhat similar to Lady Albright. Medley of brown, rose, copper flushed blue in falls. **\$5.00**

SEAFARER (Buttrick '49). M. (The Admiral x Great Lakes.) Clear, smooth blue highly praised from every quarter. Beautiful form, finish and substance. Top blood for blues. HM '59 **\$1.50**

SEA MASTER (Sass '57) M 38 in. (Chivalry x Porcelain Blue) Moorish blue (soft bluish violet) of quality and bearing. Must surely be a wonderful parent. **\$10.00**

SEATHWAITE (H. Randall '52). M. (Helen McGregor x Cahokia.) Dykes Medal 1952, England. Wonderfully bred smooth blue. **\$5.00**

SENIORITA ESTELLA (Crosby '58) EML 38 in. (Snow Flurry x Great Lakes) x (Jane Phillips). Smooth, rich lavender-blue with white area below beard. I am interested in this type and should like to see crosses of this, Pinafore Lass, Utah Valley, Lake Isabella, etc. **\$12.50**

SENIORITA ILSA (G. Rogers '53) M 40 in. (Helen McGregor x Sylvia Murray.) Huge, beautifully formed, wide white. HC '52, HM '53 **\$2.50**

SERENE DUSK (D. Lyon '57). M 32 in. (Kol Nidre x Cardinal's Robe.) Rich petunia purple self, beard cobalt blue. Free of any reticulations. **\$10.00**

SERENE VALLEY (K. Smith '52) EM 40 in. (Keene Valley x Jane Phillips.) With such breeding how can this smoothly finished seven inch blue fail as a breeder. HC '51. **\$3.00**

SERGEANT BUCK (DeForest '53) M 36 in. (Melodist x Casa Morena.) Blend of Mars-yellow and Sudan-brown **\$2.00**

SESPE* (M. Walker '52) EM 38-60 in. (Brown Betty x Fort Knox.) Graceful greenish-yellow or chartreuse self. Could be useful for breeding both greens and onco-breds. **\$2.00**

SEVENTEEN (Noyd '57) M 32 in. (Midwest Gem x Heritage) X (Dolly Varden). Rich pink self with tangerine beard. Great blood. Crossed to laced things should breed them. Carries factors for small-flowered kinds as well. **\$5.00**

SEVENTH HEAVEN (Lapham '55) M 24 in. (E 2 x Paradise Pink.) Smooth pink self with pink beard. **\$2.00**

SHADRACK (Watkins '56) M 38 in. (Snow Carnival x Katherine Laron.) Unusual blend of violet and soft chartreuse. Wide semi-flaring falls are violet bordered with the chartreuse of the standards, flush of brown at center of flower. Yellow beard. **\$3.50**

SHILOH (J. Wills '54). L 35 in. (Vatican Purple Wabash). The most distinctive of all the new neglectas. Ruffled blue bi-color with white tipped beard. Great! HM '57 **\$5.00**

SHORT SONG* (L. Peterson '54). ML 30 in. (Or-mohr) x (Happy Days x Dep. N.) Beautifully smooth, wide, heavily substantiated light lavender-blue. For the front of the border. **\$2.00**

SIERRA SKIES (W. Schortman '54). EML 38 in. (Santa Barbara x Sierra Blue) x (Chivalry). This is nearest spectrum blue of any iris we know. Leaves little to be desired in all-over quality. HC '53, HM '54, AM '56 **\$5.00**

SILKEN DALLIANCE* (Fothergill '58) E 28 in. I. stolonifera x Bright Melody.) Electric violet-blue, petals edged sienna brown. Easy growing hybrid. **\$5.00**

SILVER CHALICE (Hamblen '56) EL 34 in. (Helen McGregor x Chivalry.) Wilson color chart identifies the color as Gentian blue (42-2) shading to silvery white at the hafts. The broad, ruffled petals are heavily substantiated and have a finish like crisp taffeta. This will produce great blues and whites, and with Violet Grace some "dillies." HC '55 **\$3.00**

SILKEN DALLIANCE

- SILVER FLAME** (Wills '53) M 39 in. (Involving Lily Pons, Happy D., Golden Eagle, At Dawning and Shannopin.) Pure white standards and yellow falls **\$2.00**
- SILVER HAWK** (K. Smith '54) H 42 in. (Spanish Peaks x Golden Hawk). Cream self, pale chartreuse overlay. Green midribs, light yellow beard. **\$3.00**
- SHARKSIANA*** (E. Roberts '59) E 25 in. (Sharkskin x I. susiana). A 44 chromosome hybrid for the breeder as it will pod. Pale greenish-blue with a few splashes **\$12.50**
- SINA MARIE*** (Paul '59) ML 38 in. (Elmohr x Three Oaks) Mulberry-red with undertone of warm rosy-tan. The large flowers have wide style arms. Makes pollen, but I am not sure of its fertility. A splendid achievement **\$15.00**
- SKALLAWAG** (Beaty '57). EM 38 in. (((Good News) x ((Old Parchment x Golden Majesty) x Sib.))) X (Black and Gold x Cascade Splendor). Standard golden yellow, falls same overlaid with pattern of red-brown; ruffled falls edged yellow. Well branched. **\$7.50**
- SKY CRYSTAL** (H. E. Sass '55) M 38 in. (Sdgs. from Snowking, Moonlit Sea, Lake Huron) x (Snosheen). Wide gardenia-like white with slight blue cast, lightly ruffled. HC '54, HM '55 **\$7.50**
- SKY HOSTESS** (Suiter '57) ML 48 in. ((Golden Eagle x Buffawn) x (Tell's 47-72 A x Pink Formal)) X (Pandora). Tall, well branched flamingo pink of very smooth finish with red beard. Another "sleeper" that should become very popular when well known. A grand breeding potential. I should like to see this crossed with Pink Enchantment, Flamingo Bay, Jan Elizabeth, June Meredith and Lynn Hall. **\$8.00**
- SKY TINT** (Tell '59) EM (Sparkling Frost x Gloriole.) Slightly similar to Cloud Castle, but standards are very conic (closed). It is proving a remarkable parent with Sea Lark, other blues and whites. A really delightful light violet-blue. No pollen. HC '48. **\$1.50**
- SLEIGHRIDE** (Craig '52) EM 38 in. ((Purissima) x (mesopotamica x Dominion)) x (Chivalry). Beautifully wide blue-white self. Great breeding material for blues and whites **\$1.50**
- SMILING LIGHT** (Tompkins '54) ML 38 in. (Vatican Purple x Chivalry.) Smooth, gleaming, medium violet with great substance. Falls flare horizontally **\$5.00**
- SMILING THROUGH** (Naylor '57) M 36 in. (Distance x Blue Valley.) Distinct blue-white self. Should be a tremendous parent. **\$5.00**
- SMOKED SALMON** (Tell '55) EM 36 in. (Sis to Orange Creamo.) Unusual salmon with smooth blending of orchid-smoke. **\$2.00**
- SMITHSONIAN*** (G. Plough '56) ML 32 in. (Elmohr x Sis. to Pink Formal.) Called the RED, WHITE, AND BLUE iris. Blue-white to white with deep olive hafts, deep tangerine beard. A very different and distinctive iris. This should be a breeder for color breaks as well as onco-blooded things. **\$5.00**
- SMOOTH** (Tell '59) M 36 in. (Hall's 44-09 x Pink Formal) X (Apricot Glory) Light apricot delicately flushed with hints of fuchsia. Had pink, apricot and white sisters with Tangerine beards. **\$5.00**
- SNOW BALLET** (Palmer '56) ML 36 in. (Snow Flurry) X (Gloriole x Great Lakes). Ruffled blue-white with light yellow beard. Grand breeding for both blues and whites and proving a fine parent. HC '55, HM '58 **\$5.00**
- SNOW BONNET** (M. Suiter '58) ML 28 to 34 in. (Pinnacle x Summit.) Usually short this gorgeous yellow amoena certainly has a strong and clean contrast. A grand addition to this color being better than either parent for form and substance. **\$10.00**
- SNOW DREAM** (DeForest '57) M 33 in. (Katherine Fay x Rehobeth). White with standards having a slight bluish cast. **\$3.00**
- SNOW EMPRESS** (McClanahan '57) M 40 in. (Snow Flurry x white sdg.) x (Sharkskin). Good white self liked by several leading judges after the Memphis convention. **\$5.00**
- SNOWFIRE** (DeForest '56). M 34 in. (Cluff sdg.: Purissima x Hall's 42-05) x (Cloudcap). Tall white with tangerine-red beard. **\$3.00**
- SNOW GODDESS** (Becherer '55). EM 38 in. (Snow Flurry x White Goddess.) Beautifully formed, wide, ruffled white with yellow beard. A grand, quality iris. HM '56, AM '58 **\$5.00**
- SOFT ANSWER** (J. Wills '53) M 33 in. (Sis. to Silver Flame.) Standards warm white, falls rich yellow. **\$2.00**
- SOLAR MAID** (Sass '55) M 38 in. (Ola Kala x Sdlg. to the F 2) X (Bali Rose). Deep bright yellow self. **\$5.00**
- SOO PREME SOO** (G. Dubes '56) M 38 in. (Katherine Fay x Violet Symphony.) Light violet self, beautifully branched. HM '57 **\$5.00**
- SOUTH PACIFIC** (K. Smith '54) ML 40 in. (Cahokia x Lady Ilse.) Broad, flaring, tailored blue without the personality of its pollen parent, but should be a fine parent for blues and whites. HM '54, AM '58. **\$5.00**
- SPECKLED BIRD*** (Crandall '58) EM 34 in. (Tiffany x Capitola) Purple self with light fancy, plicata-like veining throughout. Unusual and striking. Could be a fine plicata breeder as well as a good Aril parent. **\$5.00**
- SPELLBINDER** (K. Smith '52) ML 34 in. (Amandine x Gold Ruffles.) Oyster-white with under sides of petals naphthaline yellow giving a chartreuse effect against the light. Petals picoteed, fluted and edged in bright yellow-gold. Well branched stalks carry the large flowers to perfection. Marvelous blood for creams, whites, greens, blends and possibly pinks. **\$1.50**
- SPELLBOUND** (Linse '51). M (Tobacco Road x Prairie Sunset.) Beautifully formed red with golden overlay. Outstanding. HM '52 **\$1.50**
- SPICE** (Craig '53) M 36 in. (Molten x Golden Perch.) Golden-tan blend with orchid blaze and a gold beard. Great blood for rich things in tans, blends, reds and yellows. **\$5.00**

SPRING FESTIVAL (D. Hall '58) M 36 in. Light apple-blossom pink with geranium red beard. Flowers nicely formed and well spaced on branched stalk. HM '58 **\$15.00**

SPRING MOON (R. Goodman '52) EM 32 in. Snoqualmie x Fay 44-57. Gigantic flaring light silken yellow. Superb blood for creams, yellows and whites. **\$1.50**

SPRING SONNET (DeForest '53) M 38 in. (From pink lines) White standards, creamy-yellow falls. This might be good to cross to Pin Up Girl and Baby's Bonnet. **\$2.00**

SPRING TONIC* (Crandall '58) M 36 in. (Lady Mohr x Pink Formal) Yellow neglecta. This should be good crossed with Lady of Nepal and some of the new C. G. White hybrids. Pods easily. **\$5.00**

STAR CROSS'D (Hinkle '55) M 36 in. (Spanish Peaks x Faught 19 H.) Big, heavily substance white with white tipped beard yellow at heart. Crossed on Swan Ballet gave me "WONDERFUL WHITE". This has round, full petals. **\$4.00**

STARFIRE (Wills '54) EM 36 in. (Star Shine x Ola Kala.) Beautifully formed yellow with light area in falls. Lots of substance and quality. Must surely prove a great breeder for yellows, creams, blends and possibly even pinks and apricots. HM '56 **\$5.00**

STARLIFT (C. Benson '54) M 40 in. (Tosca x Distance.) When I saw this smooth, tall, ruffled blue beauty I lost interest in several new blues just introduced or to be introduced. This is certainly a great addition to the cornflower-blue class. HM '56. **\$3.50**

STEP UP (Muhlestein '52) ML 36 in. (Madam M. Lassilly x Mist Glow.) A different amoena. White standards, light violet falls. Difficult to pod but pollen is very fertile. Should be good on the new and larger amoenas. A step up the ladder to better amoenas. Crossed to Louise Blake gave Mrs. Crosby On Parade and several good amoenas and neglectas **\$2.00**

STORM WARNING (Schreiner '53) M 36 in. (Down East x Black Forest.) Large, imposing "black" from the blue-side. HM '54, AM '59 **\$1.50**

STORMY SKIES (G. Plough '53) M 40 in. (Arctic x Tobacco Road.) Here is a blend that can surely be called "different". Smoky buff with a violet flush below the big, conspicuous, rich yellow beard. Very wide flowers due, no doubt, to the blood of Tobacco Road. Should be a superb parent with things like Char-Maize, Empress Eugenie, Lady Albright, Chamois and Snow Flurry derivatives like Hellebore. HC '52. **\$2.00**

STORY PRINCESS (Crosby '53) EM 38 in. (Snow Flurry x Cloud Castle.) Smooth silky finished light violet self devoid of any mark or off color save the inconspicuous beard. **\$2.00**

SUB DEB (Nesmith '55). EM 36 in. (Dream Girl x Wash. 1-46) x (Radiation). Rosy-mauve set off by full pink beard. Ruffled standards, broad, flaring and lightly fluted. HC '54 **\$3.00**

STRIPPED BUTTERFLY* (Noyd '58) 34 in. (Butterfly Wings x Cahokia) Light blue falls veined darker violet blue with olive at hafts. Striking and unusual. This should be an interesting parent for good blues as well as Arils. HM '58. **\$20.00**

SULGRAVE (Randall '52) ML 40 in. Brownish-rose standards, falls same with violet brown at hafts. Round petals, good substance. Selected for trial at Wisley **\$2.00**

SULTAN'S ARMOR (A. K. Edmison '54) M 24 in. (Armour Bright x Sultan's Robe.) One of the richest and most charming border plants. A wide, beautifully shaped brown self with deeper colored hafts **\$3.00**

SULTAN'S CAPITOL (Edmison '58) EM 36 in. (Sultan's Robe x Capitola.) Reddish-brown blend with that very wide onco look. Falls flare horizontally, there is a slight suggestion of a signal below the beard which carries a protruding crest on to falls. HM '59 **\$15.00**

SWAN BALLET

SUMMER SONG (Nesmith '51) M (Sunset Serenade x Sequatchee) X (Bryce Canyon.) Glowing orange-gold. Stunning. HM '52 **\$2.00**

SUN FESTIVAL (Noyd '57) MVL 35 in. (Midwest Gem x New Horizon) X (Song of Songs). Bicolored yellow with light area in falls. Beard yellow. Blood for pinks, yellows and lace. **\$5.00**

SUNFROST* (L. Peterson). EM 36 in. ((Wm. Mohr) x (Happy Days x Wabash)) x (Moon-tide). Medium sized flowers with horizontally flaring falls. A lovely yellow amoena — white standards, light yellow falls. Compatible with the new White hybrids. Slightly fertile both ways. HC '56 **\$10.00**

SWAN BALLET (Tell '55) ML 40 in. (Spanish Peaks x ? Prob. Azure Skies Sdlg.). Wide, ruffled, flaring all white including white-tipped beard. Winner of the Primio Firenze, Florence, Italy 1958 and these A.I.S. awards: HC '54, HM '55, AM '57 and the Dykes Memorial Medal 1959 **\$12.50**

SWANDALAY (Crosby '59) EL 40 in. (Swan Ballet x Mt. Emmons) Very large white with lemon-tipped beard. Heavy, well branched stalk. Sister to Uintah and Lilac Bouquet. **\$20.00**

SWAN PRINCESS (Ruby Birch '57). EM 38 in. (White Ruffles x Palomino.) Beautiful white self. Isn't this great blood for whites with tangerine beards? **\$7.50**

SWEET ALICE LEE (Suiter '57) EM 36 in. (Sis. to Lady Bluebeard x Courtesy.) Blue-white with blue beard. **\$5.00**

SWEET GIRL GRADUATE (Vallette '55). EM 36 in. (Chantilly x Tell's 47-72 A; Gold Ruffles x Alice Harding x Type Dore). Pale creamy-pink with texture veining. Substance is all one could desire. A breeder for many colors as well as lace. **\$2.50**

SWEET HARMONY (Branch '56) EM 30 in. (Sib. to Dream Dust) Ruffled novelty. A blending of very attractive apricot and chartreuse; falls have a center of creamy-white and a tangerine beard. **\$2.00**

SWEETHEART (D. Hall '59) M 30 in. Large baby-ribbon pink with pink beard. **\$15.00**

SWEETHEART'S FOLLY (Cassabeer '57) EM 36 in. (White Sprite x Cherie) Standards creamy white tinted yellow; falls same with bright yellow at haft. Wonderful foundation blood for blues and whites with tangerine beards. HM '58 **\$12.50**

SWEET REFRAIN (D. Hall '56) M 36 in. (50-13 x 50-09.) Medium pink self with flaring falls and tangerine beard. A lovely shape. HM '56 **\$10.00**

SWEET TOMORROW (Lyon '57). M 33 in. ((Char-Maize) x (Char-Maize x Cordoran)) x (First Curtain.) Smooth bitone of lilac purple (Orchid or Bengal Rose) with Indian-orange beard. The size of this gorgeous flower will amaze you. I am quite sure the pod parent of this is not involved with Char-Maize and Cordovan, but must have Flamingo-pink blood since it was a pink. While I have used Char-Maize with dozens of pinks it has never thrown a pink seedling. Sweet Tomorrow should make an excellent mate for Pretty Carol and Lovely Diana. A rebloomer in favorable climates (like its pollen parent) **\$15.00**

SWING TIME (Crandall '57) M 40 in. (Desert Song) X (National White x Spring Sunshine). Tall, wide pale cream self. Proving a great breeder. Could be most useful in a yellow, cream or pink program, but can breed wonderful whites, ruffled and laced things. **\$3.50**

SYMPHONY (Hinkle '58) M 38 in. (Cahokia x Azure Skies) X (Melissa) Wide, flaring medium blue with darker texture veining. It is proving a fine parent for blues. Bred to ruffled things it should throw ruffles (Azure Skies blood). HM '58. **\$17.50**

TABASCO (Craig '51) M (Rich Raiment x Joseph's Mantle). Stunning big yellow plicata. Strikingly different. Like paprika sprinkled over an omelet. HM '54 **\$1.25**

TABU (Schreiner '54) M 34 in. (Black Forest x Storm King.) This looks to be the blackest of the Schreiner "black" series. Nicely finished. HM '54 **\$3.00**

TAFFY BROWN (Chandler '56) M 36 in. (Casa Morena x Tobacco Road) Taffy-brown with a light bluish flash on falls. Another good one from a much-used cross. **\$6.00**

TAHOLAH (Gibson '56) M 36 in. (145 A, seedling from Gibson Girl) X (Firecracker). Large, wide creamy yellow plicata with standards marked dusky rose (light), falls marked with darker dusky rose. The flower grows lighter and more attractive with age. HM '56. Judge's Choice, 1957, AM '58 **\$10.00**

TALL CHIEF (DeForest '56) M 38 in. (Argus Pheasant x Garden Glory) x (Lockwood x General Patton). Bright, rich, Brazil-red and carmine. Very smooth, and well branched. Could be useful for height in reds. HM '57. **\$6.00**

TANGELO (Lyon '58) ML 40 in. (Cherie x Mel-lowglow) X (Dolly Varden) Standards salmon, flushed orient pink; falls peach-pink with orange beard. Not a strong color, but has fine blood refreshment and should throw some excellent pinks and apricots. Good branching. **\$7.50**

TANGERINE SNOW (L. Austin '57) M 36 in. (Cloudcap x Party Dress.) Lovely white self with bright tangerine beard. Should breed laced whites with the beard, pinks, orchids. **\$2.00**

- TARN HOWS** (H. Randall '53) M 36 in. (Alpine Glow x Melodist.) Self of Tobacco Brown. Selected for trial at Wisley. Dykes Medal, England '58 **\$5.00**
- TATAI PASHA*** (White '55) EM 30 in. The most orange-yellow of any of these new White hybrids. The falls are marked with pencillings of russet. The signal is bright buff-orange. Simply stunning. **\$10.00**
- TECHNY CHIMES** (Mission '55) EM 36 in. (Involving: Sunray, Dolly Varden, Overture, etc.) Gorgeous light yellow with deep orange (almost tangerine) beard. Very wide, ruffled petals. This comes from Pink breeding and will produce pinks and apricots. Makes a beautiful show specimen since it produces three or four blooms out at once. HM '55 AM '57 **\$7.50**
- TEMPLE BELLS** (D. Hall '52) M (Fuchsia x Dolly Varden.) Deep apricot-yellow of good form and size. Will be a superb parent for many colors. HM '53, AM '54 **\$1.50**
- TEXAS WAY** (DeForest '54) M 34 in. (Black Orchid Sdlg.) Very large dark purple. **\$5.00**
- THE CITADEL** (Graves-Watkins '54) M 36 in. (Helen McKenzie x Jane Phillips.) Classic white self. HM '54, AM '59 **\$5.90**
- THE TANNER** (Muhlestein '51) ML (Fortune x Tobacco Road.) Flaring mustard-tan. Quite different to anything we have grown. A wonderful parent both ways, but should be bred to something with height. 30 inches **\$2.00**
- THISTLE BLOOM** (Whiting '51) M 36 in. (Sib. to Maytime) Light pinkish orchid blend proving most useful in pink breeding programs. **\$1.00**
- THORWALD** (Knowlton '55). 38 in. (Prince of Orange x Redyen). Orange-tan self. Great blood for blends and reds. **\$2.50**
- THREE SIGNALS** (W. Marx '54) M 42 in. (Sky Chief x Los Angeles). Violet with white area below beard. A fine addition to this class and will be useful for breeding with Mr. Wadland's Violet Grace and Pinafore Lass. Should throw fine blues and plicatas **\$1.50**
- THUMBS UP*** (M. Suiter '58) EM 38 in. (Sunlakes x Capitola.) Fine lavender-blue with strong suggestion of signal. Typical Capitola-type width. **\$5.00**
- TINTED PORCELAIN** (Dr. G. P. Brown '53) M. 36 in. (Allumouse x Snow Carnival.) Pastel-lavender self with porcelain-like finish. Could be highly useful for Amoena and Neglecta breeding as well for blues and whites. HM '55 **\$2.00**
- TOAST AN' HONEY** (Kleinsorge '53). M 36 in. ((Mexico) x (Aztec C. x Prairie S.)) X (Cascade Splendor x Daybreak). Quality tan blend somewhat like Mexiglow. Great blood here for this color, blends, variegatas, yellows and possible reds. HM '55 **\$5.00**
- TOM TOM** (Craig '55) M 32 in. ((Ball Gown sib.) x (Naranja x P. Sunset)) x (Tob. Road). Vigorous blended variegata. Falls quite wide. This should throw great reds, browns, plicatas and variegatas **\$5.00**
- TOP FAVORITE** (Schreiner '57). M 36 in. (Pink Plume x Pathfinder.) Lovely orchid self. HM '57 **\$7.50**
- TOP FLIGHT** (D. Hall '53). ML 42 in. Flaring, deep, rich, orange-apricot with the huge, long deeper apricot beard. HM '53, AM '55 **\$1.50**
- TOP HAT** (Schreiner '54). ML 34 in. (Prob. Velvet Dusk x Down East.) Large, flaring tailored black-purple. HC '53, HM '54 **\$2.00**
- TOTAL ECLIPSE** (Fay '56) M 38 in. (Black Hills) X (Black Valor x Black Forest). Great addition to the very dark class; this is a deep blue-violet with almost a self beard. HC '54, HM '56, AM '59 **\$7.50**
- TOWN TALK** (Lapham '54) M 36 in. (Drum Major x P. Cook 745). Big, wide bi-red **\$5.00**
- TRADITION** (K. Smith '53) M 42 in. (Snow Flurry x Sea Gull.) Ruffled, flaring medium lavender self. Well branched **\$4.00**
- TRAVERTINE ROSE** (Gibson '55) M 36 in. (Misty Rose x Gibson Girl seedling.) Cream ground plicata. Standards speckled rosy lavender, falls speckled rosy-brown. Lovely, and a grand breeder. This will be interesting with New Adventure, Surrender, Olympus Skies, Red Chieftain, and other plicata derivatives. **\$3.00**
- TREASURE CHEST** (G. Douglas '53) ML 40 in. ((Soldano x China Clipper) x (Yel. sdlg.)) x (Ola Kala). A treasure-chest of brilliant saffron yellow, with 12 or more buds **\$4.00**
- TRIM** (McKee '56) M 36 in. (Pequot) x (Redwyne x Moontide). Very smooth coppery brown-red which is beautifully branched and has many buds. Great breeding blood. HM '53, HM '56. (Plant Patent No. 1592.) Sold subject to patent law. **\$10.00**
- TROPHY*** (Linse '58) EM 36 in. (New Snow x Capitola). Lobelia-blue, wide, flaring and lots of substance. Simply huge. A good grower that will set seeds. HM '58. **\$20.00**
- TROPICANA** (Sass '57). M 36 in. (?) Looks to be related to Pretty Pansy. A fancy plicata of white ground overlaid reddish mulberry, brown beard. **\$3.50**
- TROUTBECK** (H. Randall '53) ML 34 in. (Alpine Glow x Melodist.) Medium brown, selected for trial at Wisley **\$5.00**
- TRULY FAIR** (Plough '56) EML 48 in. (Cloudcap x Pink Formal.) Large, wide clear pink with bright tangerine-red beard. Should be a fine parent for many colors. HC '55, HM '56 **\$4.50**
- TRULY VIOLET** (L. Davidson '57) EML 38 in. (Char-Maize x Clovelly.) Several good chaireuse-green seedlings came from this cross, but Truly Violet was outstanding for color and quality in a lovely spectrum violet self with pale shoulders, beard soft yellow. Vigorous rhizomes, foliage and heavy stalks. HC '57, HM '58 **\$10.00**

TRULY YOURS (O. Fay '49) M (44-43: ((Rameses x Far West) x (D. Hall's 42-35)) x (Zantha). Huge, unusual yellow and white combination with heavy ruffling. Rather anxious to see what this and Song of Songs will produce. Highly popular because of its size and distinction. HM '49, AM '51, Dykes Medal '53 **\$2.00**

TULA MOA (Knopf '57) ML 32 to 38 in. (Snow Flurry x Lothario.) A very attractive, clean, violet neglecta. Holds breeding possibilities for this color and amoenas. **\$10.00**

TWENTY GRAND (Norton '53) M 36 in. (Rainbow Room x Chantilly.) Blend of canary yellow orchid and tan-gold; ruffled. Wonderful blood for ruffling, blends, orchids and possibly pinks **\$1.50**

UINTAH (Crosby '57) ML 40-45 in. (Swan Ballet x Mount Emmons.) Big, broad ruffled white. Well branched, many buds. Yellow-white-tipped beard **\$10.00**

UNICORN (Austin '54). ML 42 in. (Mitchell J S M 176 B) x (638: Mitchell Sdlg. of Advance Guard v self.) Small mulberry plicata with a tendency to throw some flowers with raised beards giving novelty to this one. Crossed to the larger plicatas like Bearded Lady, New Hope, Joseph's Mantle, Aldura, should throw some interesting seedlings. **\$6.00**

UTAH CREAM (Tell '54) ML 36 in. (Gold Ruffles x sister to Cream Gold.) Delightfully formed, flaring, waved cream of good size and late blooming habits. Should be a great parent. HM '54 **\$8.00**

URANIUM BELLE (Freudenburg '59) M 28 in. (Snow Flurry x Tobacco Road) Creamy Parchment with greenish glow. Could be very useful for green breeding. Exhibition Certificate '58. **\$15.00**

USTINUF (Tompkins '59) EL 39 in. (((Honeyflow x Sea Shell) x (3 Oaks) x ((Spring Maid x Far West) x (F. Zenor))) X (((Spindrift x (Spring Maid x Far West) x (50-116, parent of Brigadoon and Ahoy))). Cherry-red blend with bluish glow around beard. **\$15.00**

UTAH SKY (Tell '55) EM 36 in. (Sky Song x Gracious Lady.) Very wide cornflower-blue with a bit of ruffling at the hafts. Won the blue class at the 1953 Utah Iris Society show. HC '54 **\$4.00**

UTAH SPECIAL (Tell '50). ML (Old Parchment x Mellowglow.) Delectable, luscious, delicate blend of peach, apricot, pink and yellow. Beautifully formed, ruffled flower. Should have partial shade from extreme sun for it will fade. Charm personified. **\$1.50**

UTAH SUNRISE (Tell '58) E 36 in. (D Hall's 44-27 x Sunset Road.) Blending of onionskin pink, tan and yellow. Large flowers. **\$8.00**

UTAH SUNSET (Tell '51) EM (Honeyflow) x 46-16: sister to Sunset Road.) The largest and smoothest blend we know. The hafts are so smooth we know it will be a boon to hybridizers. Its seedlings are very fine. Luscious in its smooth blending of onion-skin pink, buff and salmon tones. HC '49 **\$2.00**

UTAH VALLEY (Tell '59) ML 40 in. (C. Rees Snow Flurry sdlg. x Violet Grace.) Large, lightly ruffled violet self save for the prominent, round, white area in the falls in the manner of Pinafore Lass. This makes a stunning clump for the garden or a magnificent Show specimen. Heavy, well branched, stalk. From a cross Don Waters of Ohio grew and selected. Awarded HC under number WAD '56, HM '59 **\$25.00**

VALE YNDAIA (Brownell '58?) M 38 in. (Azure Skies x Blue Valley) Chicory blue self. Yellow beard tipped blue. With such breeding who could doubt its breeding ability? **\$10.00**

VALIMAR (Hamblen '58) ML 36 in. (Helen McGregor x Radiation) X (Palomino). A very smooth apricot-pink self, broad and heavily substantced. Holds unlimited breeding possibilities. HC '57, HM '58 **\$15.00**

VALLEY DAWN (Lyon '57) M 34 in. (Convention Queen x June Meredith.) Large ruffled, smoothly finished, Venetian pink self. HM '59 **\$10.00**

VANDA (Miles). M 36 in. (Sister to Elizabeth of England.) Still one of the most beautifully formed blues. This crossed with some of the new blues like Sierra Skies, Lady Ilse, Blue Cliff, Praiseworthy, Galilee and Butterfly Blue should produce excellent blues. **\$2.00**

Cloud-seeding, yet!

- VENGEANCE** (Craig '56) EM 36 in. (Frosty x Gene Wild.) Large creamy-white ground plicata brushed and stippled lavender. Wide and ruffled. Very floriferous, well branched and vigorous. **\$4.00**
- VICTORIA** (Whiting '55) ML 38 in. (Vatican Purple x Cornflower.) Smoothly finished rich deep Victoria violet with purple beard lightly tipped yellow. Outstanding. Great for breeding dark blues as well as "blacks". HM '56 **\$5.00**
- VIKING** (Nelson '57) EM 38 in. (Edith Rorke x Port Wine.) White plicata edged dark violet. HC '56. **\$10.00**
- VIO*** (Linse '58) EM 36 in. (Sib. to Trophy) Bishop's violet self with 8 in. spread **\$6.00**
- VIOLET GRACE** (Wadland '55) EM 36-40 in. (Violet Symphony x Gloriette), Aster-violet with prominent white area in falls. Wide, ruffled and good substance. Runner-up for the Pres. Cup '55, HM '55 **\$8.00**
- VIOLET HARMONY** (E. Lowry '52). M 38 in. (Snow Flurry x Cloud Castle). This gorgeous, wide violet is worthy of its parents as well as its careful hybridizer. Another good one from a superb cross. HM '52. Winner of the President's Cup '53, AM '54, Dykes Medal 1957. **\$2.50**
- VIOLET HAVEN** (Reynolds '57) EML 38 in. (Pierre Menard x Danube Wave.) Lovely formed violet blue about the color of the Kansas Wood Violet. HC '55, HM '57, AM '59 **\$15.00**
- VIOLET HILLS** (DeForest '56) M 38 in. ((Her Grace x Sable) x (Storm King)) X (Her Grace x Black Forest). Attractive florite violet with blue-violet tipped beard. Fine branching. This should be a wonderful mate for Allegiance, Royal Canadian and Indiglow. HM '56, AM '58. **\$10.00**
- VIOLET LEATHER** (Tell '59) ML 36 in. ((Pierre Menard) x (Sky Song x Cahokia)) X (Utah Sky). Light violet (near chicory blue) with horizontally flaring falls of tremendous substance. Branching high. HC '58. **\$18.00**
- VIOLET MOHR*** (Suiter '58) EM 38 in. (Silver Tower x Capitola) Very wide, ruffled, violet self with that lovely "Mohr" shape. Sure to please. **\$5.00**
- VIOLET RHYTHM** (Whiting '58) MVL 36 in. (Vatican Purple x Windsor) Gorgeous heavily sub-stanced spectrum violet self free of haft markings. The beard is bronze-yellow. What a potential for breeding blues and purples. HC '57, HM '58. **\$25.00**
- VIVEZA*** (White '54) EM 40 in. (One-fourth Onco. looks to be out of Gay Senorita.) Yellow standards, falls burnt sienna **\$1.00**
- VOLUNTEER FIREMAN*** (Cline-Durrance '57) EM 20 in. (Oyez x ?.) The first seedling introduced from Oyez. Standards Indian Lake, falls cardinal red with longitudinal black stripes. HM '59. **\$7.50**
- WAR DANCE** (Craig '52) W 42 in. (Prairie Sunset x Tobacco Road) x (Molten). Blend, chocolate or Java-brown. Rich blood for browns and reds. **\$2.50**
- WATERMELON** (D. Waters '54) M 36 in. (Dream-castle x SQ 72). Some of the colors of an un-ripe watermelon — greenish-lemon and water-melon pink. Could be very useful parent. HM '54. **\$5.00**
- WAXING MOON** (Fay '57) M 34 in. (47-2 X Sdlg.: Sunray x Dolly Varden). Clear yellow with yellow beard. **\$10.00**
- WAYWARD WIND** (O. Baker '58) EML 36 in. (Sylvia Murray x Rocket) X (Cordovan). Burnished Antique-bronze with slight infusion of Chartreuse. Self, even to the beard. Not unlike The Tanner. Proving a good parent. HC '57, HM '58. **\$12.50**
- WEDDING BOUQUET** (Buttrick '52). M (Snow Flurry) x ((Easter Morn x White Goddess) x Cloud Castle)). Big, ruffled, beautifully formed white that has been highly praised. Surely wonderful breeding for whites and blues. HC '51, HM '52, AM '56 **\$2.50**
- WESAMEQUIN** (G. P. Brown) EM 30 in. (Two brown sdlg.). Reblooming brown variegata. **\$1.00**
- WELL CONTENT** (J. Wills '54) ML 36 in. (Chosen x Conestoga) X (P. Sunset x Lancaster) Blend of Salmon, gold and copper. **\$3.00**
- WHIMSEY** (DeForest '57) M 36 in. (13-47H x Cloud-cap) X (Sib.) Standards medium violet, falls brown. This should be a wonderful parent for many colors, and I'd like to see it mated to Gay Adventure, Jan Elizabeth, Heartbeat, Graduation Gift and Magic Halo. **\$7.50**
- WHIRLING GIRL** (Rundlett '58). M 34 in. (Snow Crystal x Aldura.) White ground plicata. Standards white with prominent violet stitching. Falls lightly edged blue-violet. Blue crests (Styles). HM '58. **\$15.00**
- WHIR OF LACE** (Schreiner '58) M 35 in. (F 315 x New Snow) X (Hall ruffled, white, Limelight sdlg.) Nicely laced snowy white with yellow beard and haft. This should be good crossed with Yellow Dresden, Queen's Lace, Gussie, Jan Elizabeth, Party Dress, etc. Breed to something with a good, strong stalk **\$15.00**
- WHITE CHALICE** (Eva Faught '57). L 34 in. (20 K 1: 19 H x Cahokia) x (Spanish Peaks). Large heavily sub-stanced white. The standards cup, as do the falls giving the flower the appearance of being a tulip rather than an iris. Makes unusual arrangements. There is a green cast to the white which should be useful to the hybridizer for breeding blues, whites and possibly greens. No stamens. **\$2.00**
- WHITE CINDERELLA** (M. Wallace '54) EM 40 in. (Snow Flurry x Cloud Castle.) Wide, full, somewhat ruffled white. Another fine iris from a great cross. **\$2.00**

- WHITE COCKADE** (Nesmith '53) EM 38 in. (Helen McGregor x Mount Blanc.) Large, heavily substantanced classic white. HC '48 **\$2.50**
- WHITE FLAMINGO** (Tell '55) ML 36 in. (Hall's 44-55, sister to Hit Parade x Pink Salmon.) Large white with tangerine beard. **\$3.00**
- WHITE FOAM** (Knowlton '58) M 36 in. (Snow Flurry x Cloud Castle.) Big, ruffled white self. Makes a gorgeous clump. HM '58 **\$9.00**
- WHITE PALOMINO** (D. Hall '58) M 36 in. (Palomino x sib.) White duplicate of Palomino sporting a heavy tangerine beard and coppery overlay at haft and on lower portion of standards. Could be good for breeding if used with things that are wide at hafts and have a horizontal flare. **\$10.00**
- WHITE PEACOCK** (Pattison '52). M 36 in. (Lady Boscawen x Katherine Fay.) Quality and charm mark this lovely new white with distinction. The big ruffled flowers are perfection. HM '52, AM '55, President's Cup '56. **\$2.00**
- WHOLE CLOTH** (P. Cook '58) M 36 in. (Cahokia) X ((Blue Rhythm x 5651 amoena: (10942 x Progenitor) x blue sdg. 5247: Distance x 12342 a Great Lakes sdg.)) This is the first "blue amoena" with white standards and blue falls. The flower is large, flaring and nicely shaped. HC '56 HM '58. **\$20.00**
- WIDE AWAKE** (Lapham '53) M 36 in. ((Premier Peach x HL: Isabellina x Spindrift) x (Paradise Pink) x (Paradise Pink). Light buff-pink self with flame-carlet beard. Beautifully formed. HM '53 **\$1.50**
- WIDE WORLD** (P. Cook '54) M 34 in. (Blue sdg. 16048) X (17048: ((blue sdg.)) x (Pink sdg. x imbricata) x [blue sdg.]) Very pale blue standards, falls white. Actually in some soils there is very little contrast, but the breeding potential is here for this color and other lines. The dwarf imbricata blood makes it most fascinating. HM '54 **\$7.50**
- WILD BLUE YONDER** (Knopf '58) ML 34 in. (Chivalry x Danube Wave). Moorish-blue self, beard deep orange in throat. The quality one would expect from this fine cross. **\$20.00**
- WILLIAM MOHR GIANT*** Selected strain that grows larger, more vigorous both in foliage and flowers **\$1.50**
- WIND SHADOWS*** (R. Conrad '59) EM 40 in. (White Ruffles x C. G. White onco, "B" series) Soft pearl grey lightly flushed lavender when first opened. Haft washed golden-brown. Sports a most novel and fascinating dark bronzy-brown beard. HC '58: HM '59 Net **\$20.00**
- WINGED GODDESS** (Lyon '56) ML 36 in. (Char-Maize x Green Pastures) x (Self). Most attractive flower that gives quite a green effect on close-up inspection. Standards uranium green flushed blue, falls same overcast bluebird blue. Edges of falls have a slight flush of mimosa yellow, deepening at haft. HC '55, HM '56 **\$12.50**
- WINTERSET** (Hickenlooper '57) M 36 in. (Snow Flurry x Billowy Sea.) Ruffled, heavily substantanced blue-white with deeper blue throughout throat. Non-fading, weather resistant. HC '56 **\$3.00**
- WITCH DOCTOR** (G. Plough '55) EM 28 in. (W 1 x Capitola). Unusual blend somewhat similar to Conquest. Huge! HM '56 **\$2.50**
- WONDERBAR** (Schreiner '53) M 38 in. (Desert Song x Bellerive.) As might be expected from this cross, a beautifully formed wide cream with plenty of substance. **\$1.50**
- WONDERMENT** (P. Cook '58) ML 36 in. (Cahokia X 11253: Blue Rhythm x sdg. grandchild of Progenitor). White standards; falls bluish-violet paling toward upper part, deep chrome beard. Different and I like its width, substance and over-all quality. HM '58 **\$20.00**
- WOODLAND SPRITE** (G. Copedge '57) M 34 in. (Char-Maize x Green Pastures.) Dresden yellow self (pale greenish-yellow), beard violet tipped blue. Most unusual and personable. **\$10.00**
- WOODMOUNT PLACID** (Mitchell '52) M 34 in. (Plicatas). One of the most charming light yellow plicatas I have seen. Lightly marked pinkish-cinnamon. This looks to be one of Mitchell's very best. **\$1.50**
- WOOD PIGEON** (Brummitt '59) M 36 in. (Golden Alps x Headlines). White standards; falls unusual blend of brown, lavender and gray. According to one's taste it is either beautiful or ugly. It could be most useful in a varied amoena program. **\$10.00**
- YELLOW DRESDEN** (Albright '56). EM 20-24 in. (Rees seedling: (Ruffled Bouquet x Hall's 42-10) x (Heritage). Delightful light yellow, flaring, ruffled and laced border iris that is breeding lovely laced things in both tall and table iris. Fertile to Little Gem. **\$5.00**
- YESTERYEAR** (Dr. Branch '56) M 36 in. (Harriet Thoreau x D. Hall 45-39) X ((D. Hall 44-05 x Radiation) x (Sib.)) Blended light orange-toned self. Ruffled and flaring. Wonderful parent for many colors and lace. This should be good crossed to Gracelle, New Adventure, Gay Adventure, Mademoiselle, Jan Elizabeth, Valimar, Yellow Dresden and my new border Lady Kay. HC '55, HM '56 **\$5.00**
- YOUNG BRAVE** (Les Peterson '56) ML 34 in. (Happy Days x Depute Nomblot) x (Red Waves) Big, bold, rich, velvety, smooth brown-toned bo-colored red. Heavy stalks carry the huge blooms well. The falls bordered with the lighter color of the standards. Here is a red that does as well in So. California as in severe climates. HC '55, HM '56 **\$10.00**
- YULETIDE** (Nesmith '56) ML 39 in. Cool, frosty light blue with flaring falls that are ruffled. Fragrant **\$3.00**

YUM-YUM (Albright '56) EM 30-24 in. (Sister to Yellow Dresden.) This light salmon or peach colored border iris has perfectly round, flaring falls of superb substance. A grand breeder. Put to something with good closed standards. Should be fine with Mary Randall, May Hall, June Meredith, Cathedral Bells, etc., for borders, falls and perhaps table iris. **\$3.00**

ZARA (Hinkle '54) ML 36 in. (New Snow) X Fought 19-H: ((24-F-3: Purissima x Santa Barbara) x (Hall brown sdlg.) x (Great Lakes)). Well branched, heavily stalked violet blue self that has produced a host of wonderful seedlings for its breeder. I'd like to see it employed with Marriott and Royal Canadian for a blue-bearded blue program. It could breed good whites, too, or used with Capitola for an onco program. **\$3.00**

ZOMBIE (Craig '57) ML 36 in. ((Port x Molten) x (Cordovan x Rosired)) X (Bang) Red of very dark influence that carries wonderful genes for red breeding. **\$30.00**

ZULU WARRIOR (Craig '54) EM 40 in. (Joseph's Mantle x Burgundy Splash.) Big, bold yellow plicata marked and stippled rose on standards, falls amber-yellow with wineberry band. This should be excellent crossed with Taholah, Travertine Rose, Echo Valley, Port Wine, and some of Schreiner's new bright yellow plicatas. HM '54 **\$7.50**

MEDIAN IRIS AND INTERMEDIATES

The medians, or so-called Lilliputs derived from the dwarf pumilas, are found to be very fertile (usually both ways) and therefore hold much promise for the unleashing of new genes to the hybridizer. Vigor and much increase are two qualities these might bestow upon their descendants. Most of these bloom at the time of the late dwarfs on into the early tall bearded season.

ALLAH (Doriot '57). EE 15 in. (Snow Flurry x Welch K 305 pumila.) Standards blue-lavender edges flushed deeper, falls blue-lavender. Spot pattern of brown purple, yellow, lavender, appearing parrot green. Fertile. HC '56, HM '57 **\$3.50**

ARCTIC CROWN* (Tompkins '55) E 26 in. (I. hoogiana x Sound Money.) Hybrid yellow amoena. If its pollen is fertile wouldn't this be great to use on Pinnacle, Golden Alps, and Sun Frost? **\$2.50**

ARUBA (Greenlee '57) 24 in. (Golden Eagle x I. mellita) X (Twilight Sky) Unusual blend. Standards yellow; falls rose-mauve flushed gold-leaf. Bred to pink bloodlines this could produce some wonderful and unusual things. **\$2.50**

BARIA (P. Cook '51). Three flowers on 8 to 12 inch stems. Flaring. Lovely **\$.75**

- ZUA** (Crawford '14) EM 14 in. (Sport of Florentina.) Blooming at the end of the dwarf season this pale blue-white with its heavily crinkled and serated petals make it entirely different. Good for arrangements. Not fertile, but someone may succeed with it. **\$.60**

SPURIA IRIS

Spurias belong to the beardless species. Their hard, strong, rhizomes are ideal for holding banks. They bloom after the tall bearded season has closed. Their orchid-like flowers are splendid for corsages or for bouquet work and arrangements. Here is an open field for hybridizers who desire to work with this species. Their disease resistance make them the easiest iris to cultivate.

If spurias become affected with disease (or rot, which rarely occurs) Carco X (a coal-tar product quite similar to creosote or stock dip) used according to directions sprayed over the leaves and rhizomes will clear up the trouble, or in stubborn cases it might be wise to lift, wash and dip all rhizomes in the solution. It is good to wash all new (incoming) rhizomes in this solution before they are planted to insure health. (Creolin, Creosote, or Lysol solutions may be used in place of Carco X if it is not available.)

(Spurias will be shipped after Sept. 1st —

Order these on a separate sheet).

- AZURE DAWN** (Nies '47) (ocroleuca x Monspur F2.) Blue-lavender with lemon-chrome signal patch. **\$.75**
- BIG CLOUD** (Craig '50) (Shelford Giant x Sunny Day) x (Wadi Zem Zem). Big white with some yellow influence. HM '56 **\$3.00**
- BLACK POINT** (Nies '55) (undoubtedly Bronzspur blood.) Buds appear almost black at the points when color first appears. However, it should have been better named with Brown or Chocolate in the title since the color is rich brown. HM '56 **\$3.00**
- BLUE ACRES** (Mrs. T. A. Washington '48) 40 in. Beautifully formed, flaring light silvery blue-white. Surely will be most useful with other varieties for new colors, and may be the one to breed the first all white spuria. **\$3.00**
- BLUE NIGHTSHADE** (M. Walker '57) 48 in. (Color Guard x Dutch Defiance.) Blue-purple effect; Victorian violet standards, falls same with lemon-yellow at base. HM '57 **\$10.00**
- BLUE PINAFORE** (Craig '50) (Alice Eastwood x Fifth Symphony.) Pale blue with yellow influence **\$2.00**
- BRONZE BUTTERFLY** (Brenan '51). (Bronzspur x Ochraurea.) A fine brown spuria. HM '51 **\$1.00**
- BRONZSPUR** (Nies '41) (ochraleuca x Monspur, F2.) Blend of brown and yellow veined sepia. Splendid parent for many colors. **\$.75**
- CANARY ISLAND** (M. R. Walker '48) Canary yellow falls edged white. Standards white with yellow at base. Styles show a white crest. 44 in. HC '47, HM '55 **\$1.50**
- CHEROKEE CHIEF** (Nies '52) 38 in. (Undoubtedly from Russet Flame.) Stunning rich coppery-brown. No pollen, ordinarily, but will set some seed. HC '50, HM '51 **\$2.00**
- COLOR GUARD** (Nies '51) 40 in. (Undoubtedly from Dutch Defiance.) Very wide, ruffled, heavily substanced blue with yellow signal. A honey. HM '51 **\$2.50**
- DRIFTWOOD** (M. Walker '57) 48 in. (Grace Perry Nies) x (51-S-25: Color Guard x Cherokee Chief). Like driftwood weathered by sun and sand. Broad brown-shaded lemon-yellow. HC '56, HM '57 **\$10.00**
- FAIRY LANTERN** (Nies '56) 40 in. Blue and yellow. Standards wisteria blue, falls canary yellow bordered flax blue; ruffled. HC '55 HM '56 **\$4.00**
- FAIRY LIGHT** (Thorup '49) (Shelford Giant x yellow spuria.) Lemon-chrome. Flaring falls bordered one-eighth of an inch white. Very vigorous of growth and increase. HM '48 **\$1.00**
- FAIRY WAND** (Washington '31) Unusual blended tan, and a large flower. Pollen, but a little difficult to pod **\$1.00**
- FIFTH SYMPHONY** (Nies) A golden-brown veining over a background of deep yellow which gives an almost orange effect. Falls frilled and flaring. **\$0.75**
- GOLDEN AGATE** (Nies.) Stunning brown with gold undertones and a dark brown band running around falls. 42 inches tall **\$0.75**
- GOLD NUGGET** (Milliken '31) Rich golden yellow self **\$0.75**
- HAZY HILLS** (Washington '31) Standards delft blue; falls hazy blue with old gold flush **\$3.00**
- INVESTMENT** (Craig '51). 40 in. (Russet Flame x Sunny Day) x Wadi Zem Zem). Big, wide, clean golden yellow self. **\$7.50**
- KATRINA NIES** (Nies '56) Standards light dauphin's violet, aureolin at base of petals working up into the veining. Falls deep aureolin outer section about color of standards. HC '55, HM '56 **\$4.00**
- LARK SONG** (Nies '46) 36 in. (Bronzspur x sdlg.) Critics generally agree that this is the loveliest spuria. The flowers are heavily frilled, falls flare horizontally, are wide and full, and of a rich yellow, styles and standards nearly white. Destined to be popular. **\$1.50**
- MICHIGAN STATE** (Nies) 40 in. Undoubtedly Bronzspur blood — a flower of somewhat similar coloring with loose veining over both standards and falls gives the effect of a light bronze self. **\$1.00**
- MONSPUR** (Foster 1890) (monieri x spuria.) Love-ly blue with purple influence **\$1.00**

MORNINGTIDE (M. R. Walker '56) (Grace Nies Perry x Wadi Zem Zem.) Large ruffled palest blue (Astor-violet) with light sulphur in center. Almost white. This might breed a white. HM '56 **\$5.00**

MT. WILSON (Milliken). 36 inches. Blue with the yellow signal. **\$0.75**

ORANGE DELIGHT (Nies-Walker '57) M 44 in. (Undaunted x Grace Perry Nies) Satin-textured orange-yellow. Standards paling to cream; falls faintly edged cream. HM '57 **\$7.50**

PASTORAL (Nies '43) 32 in. (Bronzspur x Saugatuck) Flaring falls orange yellow, edged pale lavender, while the erect standards are yellow changing to lavender, styles light lavender with deeper crests. **\$1.00**

RUFFLED GOLD (Taylor '57) 36 in. Broad, ruffled medium yellow **\$3.50**

RUSSET FLAME (Nies). 36 inches. (Bronzspur blood, surely) Russet-copper. **\$0.75**

SAGATUCK (Nies '41) (Ochrалеuca x Monspur, F2) Standards lavender shading to yellow at the base; falls yellow, veined with bronze and bordered with lavender. Wonderful parent. **\$0.75**

SUNNY DAY (Hans Sass '31) Lovely, large, full, very rich yellow. Should be a fine parent. Eric Nies Award '57 **\$1.00**

SUNNY SIDE (Craig '51) (Alice Eastwood x Sunny Day) x (Wadi Zem Zem). White and yellow bi-color. Very large **\$3.00**

SWEET BUTTER (Craig '50) (Cream-yel. sdlg. x Sunny Day.) Beautiful light yellow. **\$4.00**

TWO OPALS (Nies '46). 36 inches. (Fifth Symphony x Eaugatuck.) Blend of pale lavender and cream. Falls very wide, the flower is delightfully ruffled. One for close-up inspection. Great substance. HM '46, AM '50 **\$1.00**

VIOLET VEIL (Walker '57) E 48 in. (Dadi Zem Zem sdlg. X Saugatuck sdlg.) Dresden yellow veiled in aster violet. HM '58. **\$7.50**

WADI ZEM ZEM (Williken '42). Beautiful large, clear creamy-yellow of very wide, flaring parts. Proven a wonderful parent for many colors. HM '52. Winner the Eric Nies Award '56. 1958 Nies Award **\$2.00**

WHITE HERON (Milliken '58). Perhaps the giant of all spurias. The shape, size, and over-all quality is superb. Almost white with cream-yellow shadings at the center. HM '50 **\$2.00**

YELLOW SWALLOTAIL (Nies '43) Low growing cream and yellow. A real charmer. **\$2.00**

ZAPHROSO (Nies '53) Heavily substandard ruffled flower of light honey with a rosy overlay. **\$4.00**

DORTHEA K. WILLIAMSON (Williamson 1918). (fulva x foliosa.) Hexagona hybrid. Not a spuria, but a lovely violet hybrid that requires somewhat the same growing condition. Weak stalks. **\$0.50**

HEMEROCALLIS

(Daylilies)

Hems, as they are called, are fast becoming one of the leading perennials in America. Perhaps their great popularity is due to their ease of growth and the fact that hybridizers have made such masterful advances in the last two decades. Daylilies bloom in the late spring and all through the summer and many of the rebloomers continue until frost. The fact that they bloom during the heat of summer (before the annuals have started with their showing) makes them welcome additions to the summer garden. They are lovely planted in the borders interspersed with other plants. The "fountain-like" foliage is always attractive even when they are not in bloom.

If you have not tried some of the newer kinds treat yourself to some and they will capture your heartstrings. If you have a natural "yen" for hybridizing you will enjoy working with these for they are easy to cross, the seeds germinate well, and they transplant easily and grow quickly. The seeds may be held until spring for planting or may be planted in the fall—either way germination is excellent and if transplanted early and given water and care will bloom within a year or two.

There are few diseases that plague daylilies. We think you will find them wonderful garden subjects as well as delightful for cutting and for flower arrangements.

ROSE EMERALD (V. Christensen '54) La. 39 in. Dor. (Dawnglow x Cedartone) Rose and cream bitone. **\$2.00**

ROYAL CHAMP (Sass.) Dor. Large full flower of deep purple **\$1.00**

ROYAL GUEST (Douglas '49) Ev. 38 in. Smoothly finished rose-purple with a cool green throat. AM '50 **\$1.00**

ROYAL RUBY (Nesmith '46) 38 in. Dor. Medium sized flowers of near crimson red. AM '50 **\$1.00**

RUBY SUPREME (Wheeler) 36 in. M. Ruby red with salmon overcast. Best in 3 yr. clump **\$0.75**

RUTH LEHMAN (Kraus '51) M 36 in. Dor. (Gypsy x J. S. Gayner (x (Amaryllis x Golden West) x (Gypsy)) Clear melon with light cast of flesh pink. Very Scarce. **\$12.00**

SALAMANDER (Wheeler '55) EM 32 in. Semi-Ev. (Cerise x) Crushed strawberry self. **\$3.00**

SAMARKAND (Stevens '54) M 35 in. dor. (Sdlg. x) Resembles an amaryllis in its full, broad form. Yellow suffused with English red. Crimped and ruffled has a green-gold throat **\$5.00**

SALMON SHEEN (Taylor '50) 33 in. E., Re. Ev. Symphony in sunfast tones of salmon pink with veining of Canna red. HM '53 **\$1.00**

SUN IDOL (E. Christensen '53) M 40 in. Dor. (Soudan x 60-47) Medium yellow with shape of Soudan. Should be a great parent. **\$2.00**

SUN LOVE (V. Christensen '56) M 33 in. Dor. (Golden Gate x Sdlg.) Descended from Vivian's famous Golden Gate this lovely rose and pale yellow bicolor should be popular for itself and for breeding. **\$4.00**

SUNSET SKY (Taylor '52) 36 in. E., Re. Ev. Dandelion yellow overlaid with pink, deepening to rose on the outer margins. Wide, the blooms open flat. Darkens as it ages. HM '54 **\$2.00**

SUSAN TREADWELL (Sass) Pale yellow trumpet. **\$2.00**

SWEET MYSTERY (Lester '54) EM 36 in. Dor. Pink with light yellow that deepens as the day passes. JC '53, HM '55 **\$4.00**

SLYVAN NYMPH (Nesmith '56) M 37 in. Semi-Ev. (From two pale yellow sdlgs.) Creped and ruffled wide open flowers of frosted yellow with suffusion of pale chartreuse. A charmer. **\$15.00**

TAMARA (Milliken '48) M 36 in. Ev. Outstanding bicolor of rosy-red and light yellow. **\$1.00**

TANTO (K. Craig '57) EE 32 in. Semi-Ev. Bronze with slightly deeper eyezone. **\$5.00**

TARUGA (Stout) 36 in. E.-Mid. Large 6-7 in. clear lemon yellow with faintest halo of cinnamon. Full flower slightly ruffled **\$1.00**

THE CHAMP (Russel '47) De. 36 in. Immense, broad pale yellow with light copper eye **\$1.00**

THE DOCTOR (Claar '50) M 36 in. Broad, rich, dark red. One of the very best. **\$3.00**

THISTLEDOWN (Nesmith '52) Dor. 38 in. Ruffled pale cream. Opens evenings and holds through the next day. **\$1.00**

TIARA (Wheeler '52) 40 in. M. Ev. Broad frilled petals. Golden dusted russet on petals, sepals dusted heavier russet. Vigorous. A great promise as a breeder **\$1.00**

TOOTIE (Claar '54) M. La. 33 in. Evelyn Claar x ?) Gorgeous self pink with bluish undertone. **\$5.00**

TOP BANANA (Marx '56) Ev. 30 in. EMid. (Undoubtedly of Milliken blood.) Lovely big, wide banana yellow with soft tan eye-zone **\$15.00**

TRUE LOVE (Hogg '52) EM 36 in. Semi-Ev. Fine light red. **\$2.00**

TWILIGHT TRYST (Nesmith '49) Dor. 46 in. Mid. Ruffled light forsythia yellow with morocco red on petals but not on sepals **\$1.00**

VALESCA (T. Craig '56) ML 30 in. Ev. (Cream Frills x Ivory Chalice.) Lovely pale yellow-buff self. **\$10.00**

VALIANT (Cook '43) M 42 in. Wide, nicely fluted, satin-finished deepen orange. AM '53 **\$0.75**

VESPERS (Nesmith '41) 40 in. M. Pale cream lightly ruffled at edges, opens evenings and lasts through the next day. Selected for Trial at Wisley, England **\$1.00**

VESTMENT (Ashley '50) ML 42 in. Gorgeous orange-yellow **\$2.00**

VULCANO (Milliken) 36 in. E. Re. Light orange heavily striated in yellow. Deep orange and vermilion from the yellow throat. **\$1.00**

WAR EAGLE (D. Hall's '57) EM 35 in. Ev. Dark red self. One of the very best of the recently introduced reds. JC '55, HM '57 **\$20.00**

WAU BUN (Stout) Dor. Pale yellow **\$0.75**

WESTERNER (Alexander '53) EM 30 in. Semi-ev. Cinnamon red, greenish throat. Velvety and sun resistant. 5½ in. bloom **\$5.00**

WHIRLWIND (Marx '56) 40 in. Mid. (Sdlg. of Naranja.) Clear canary yellow with 6 in. ruffled and reflexed, fragrant blooms. A distinct personality. **\$10.00**

WHITE TRIANGLE (Bach '56) Dor. 26 in. M. Palest creamy-yellow self. **\$3.00**

WIDEYED (T. Craig '54) E 34 in. Ev. Re. (Aladdin x (Aladdin x Painted Lady) Wide yellow with a wide, dark port-wine eye zone. This should be good crossed with Spectacular, Ruffled Pinafore and Madrigal. **\$3.00**

YELLOW ORCHID (Bach '55) M. 40 in. Semi-Ev. Twisted petals give this orchid-like yellow a lovely charm. Opens wide, scapes well branched. JC '54 **\$2.00**

1960 RANDOM NOTES and Hybridizing Hints

Dear Friends, Customers and Fanciers,

You will note a slight change in the format of our catalog this year. We hope through listing many of the older varieties without lengthy color descriptions and pedigrees that we can eliminate some of the cost of the catalog, which remains our greatest single overhead. However, we still have available the following old issues at 50¢ per copy that carry the breeding records of most of these varieties: 1954, 1955, 1956, 1958, 1959. The last three issues each have a hybridizing section. We appreciate those who cannot order yet send 50¢ to cover part of the cost of printing and mailing the catalog. Heart-warming, also, are the many letters expressing appreciation for the catalog and our services. We hope, always, to merit this confidence. Our business has developed what we think the most rewarding of experiences—the making of friends throughout the world. This we would not exchange for anything else that we know of. If the time should come when we could not give personal attention to our friends and customers I am sure this business would lose the charm it now holds for us.

We hope you will study the new introductions and acquire some of these that appeal to you. Last year we offered several new introductions as premiums and it surprised us when their recipients wrote to ask about these since they did not find them listed in the catalog. Had they studied the pages of introductions it would have saved some further correspondence on this matter. To me the introductions are always of greatest interest since, through study of these, we learn the trends in hybridizing and “keep up-to-date,” so to speak. We think our 1960 introductions are as fine a group of iris as we have ever assembled under this heading and of these and their breeders I shall write later.

1959 proved wonderfully rewarding as a blooming season here in Utah. It was my privilege to visit most of the hybridizers' gardens in this area and the advances and interesting lines being developed by many of them is very gratifying. In Hyrum, Utah (near Logan) a Mr. H. C. Stauffer is working, quietly, primarily with the difficult William Mohr and its derivatives. Blooming here were several William Mohr x Lady Boscawen seedlings—all whites with excellent heavy, well branched stalks. Mrs. Jensen in Logan had some gorgeous seedlings from Dr. Wanless x Queen's Lace, the best of which, a flaring, wide, ruffled warm white had no increase and a pity, too, for here was the answer to any hybridizer's desire for marked advancement. Several sisters were good and one from an earlier cross gave Mrs. Jensen the incentive to make the cross again. Another line that holds promise for further work was Sierra Skies x Palomino that yielded a violet of tremendous substance—here is one that will be useful crossed back to pinks as well as with pink-and-blue bloodlines such as Anembo and Mrs. Hamblen's three fine sister seedlings: Gay Adventure, Valimar and Enchanted Violet. Mrs. Therer in Wellsville, just out of Logan, had promising seedlings from very wide crosses.

Warren Kirk of Linden bloomed several outstanding seedlings from New Snow x Capitola. It would seem New Snow has a little more to offer than its parent Snow Flurry when crossed with Capitola.

The Salt Lake Valley was full of good seedlings. The show had one of the finest displays yet staged by the largest number of breeders. Mr. Thorup had a very fine plicata which came through a long line of work which goes back to his original Wasatch. Bion Tolman had several seedlings of excellent finish stemming from Rosedale and Pathfinder bloodlines, and an eye-catching red out of Ranger. Val Jacobson had a wide yellow and white combination from First Kiss x Collegiate—here is one I'd like to see crossed with Queen's Lace, Cream Crest and Anembo. Margaret Albright had fanciers spellbound with her lovely Top of the World (Blue Sapphire x Blue Flight) which resembles its pod parent for color, but has an unusual gray-blue-tipped beard. This is one I am anxious to see crossed with Marriott to intensify the blue beard. Margaret had several by-products of the pinks and a lovely little border iris out of Yum Yum and Palomino in the same color range as Palomino. Her desire is centered on producing a spectrum blue iris and success seems to be coming in the plan she has pursued to bring this about. When the lines of Blue Flight, Pierre Menard and Azure Lake are crossed with her Top Of The World I feel she will have achieved what she is after in blues, although her personal likes are centered on medium to dark rather than pale blues.

Les Peterson continues his search for greens and has a host of lines going—some of which I am sure are going to be rewarding. His main interest seems to be centered on reds and for form and substance his 1960 introduction MAIN EVENT

is going to be a very useful parent. Les also has a keen interest in Aribred and has many crosses for these.

Betty Wanberg had her Desire Me just a day late for the show. It looked mighty fine in the home garden and should be a terrific breeder. Betty is making some very wide out-crosses, too, and getting interesting results.

Don Nebeker has been working with plicatas quite some time and at last he has several of very high quality that combine the good things he has been seeking—width, substance, branching, clarity of colors, etc. Don also had excellent blues and whites and some good laced things.

I bloomed several of Helen Fitzgerald's little fellows from Baria x Pink Formal. Most of these were yellow and two of them appear good enough to name—one a laced yellow, the other a very diminutive, tailored, 10 inch tall yellow. These were crossed with various tall bearded pinks and the next generation should yield some pink and apricot seedlings.

George Mayberry continued to have a host of fine new seedlings and they were just starting to flaunt their lovely colors, beautiful lacing and unusual forms, when a heavy late frost hit the seedlings and no further selections could be made. 1960, therefore, holds unusual excitement at the Mayberry plot.

Luzon Crosby bloomed fewer seedlings than in years past, but had several new ones that were outstanding. One deep pink from Pink Porcelain x Flamingo Bay sported a deep pink beard—had height and good branching coupled with a fine heavy stalk. Baby Doll on established clumps showed how charming these small-flowered border irises can be.

Raymond Solomon exhibited a pink which came from several generations of breeding which started with Snow Flurry by a pink, and Snow Flurry's lovely form could be seen as a mark of distinction.

Frank Williams continues to have excellent seedlings, and a Tabasco seedling of a light tan blending, wide of parts, flaring, brought considerable admiration and good comment from all who saw it. Frank is making very wide crosses, too, and these are made with the hope of bringing new genes into the iris family for future generations—it is a long-range program sure to be crowned with much excitement and success. The seedlings involving Snow Flurry x Party Dress blood hold a high point of interest here.

Many lines of color are going in the Mel Wallace Garden—some of these are from a long-range program also. His red Tom Howard is of unusual breeding interest having come from Captain Wells x Pink Formal. Big Ute is producing some excellent red blends, reds and I personally had a very dark purple of excellent quality by pollen of a Carl Larsen seedling out of Sporting Thomas. In the Wallace seedling field were a host of good seedlings out of Cathedral Bells, many laced things involving Ruffled Apache and the lines that produced Gracious Helen. Of special interest was a white with “horns” projecting from the sides of the standards. And several whites out of Snow Flurry and either Party Dress or Pink Fulfillment that were certainly excellent in every way and these hold unlimited possibilities for further breeding work for pinks, whites with tangerine or pink beards, blues with tangerine beards, orchids, etc.

Among my own seedlings many interesting things bloomed. I had thought to make use of the height of Mary McClellan and crossed this with an 8 inch seedling out of Fairy Flax x Mary Randall—from the blooming of only 15 to 20 seedlings no definite conclusions might be formed, but these ranged in height from 6 inches to 14 inches, and were mostly coarse at the hafts as the pollen parent “Illipup” had been. Several clumps, unbloomed, indicate a possibility for greater height due to their heavier foliage. We expect further use of these for dwarfs, medians and tall. Mary Randall x Queen's Lace produced several ruffled beauties. May Hall x Lovely Diana a very smooth Orchid. And perhaps the one cross that gave more quality seedlings than any other was Jan Elizabeth x Fair Luzon and these all carried the heavy substance of their pollen parent. Jan Elizabeth x Glittering Amber was a good cross for blended aprichots with lace and ruffles yet the best of those that bloomed was without increase. Some very rich blends resulted from Jungle Bird x Bang. Several good blues from Swan Ballet x South Pacific. A wonderful wide white from Front Gate x Cream Crest and a most unexpected laced plicata from Queen's Lace x Gracelle which, unfortunately, had no increase but had plentiful pollen and made some seed. Both Gracelle and Queen's Lace carry recessive plicata genes, of course, through the blood of Sea Shell and plicatas could be expected, but several hundred seedlings, or even thousands, have to be brought to blooming before the plicata pattern might

appear. This seedling (#59-70) was crossed with several other plicatas from New Adventure crossed with laced pinks such as Convention Queen so it is hoped this seedling did not bloom in vain and that one of its "children" may have the good qualities this fine iris possessed. Graceline x Merry Lynn produced a gorgeous violet with a self beard which I was anxious to cross with Marriot. Lula Margurite I'd crossed with a seedling from Green Ivory so here was line breeding to Snow Flurry three times and the results were very satisfying—a very pale Mauve self had no increase, but during the summer made one. I look upon Lula Margurite as a potentially great breeding iris if bred to things that will overcome the down-hanging fall of her one parents, Cloudcap. It would seem May Hall, Gay Adventure, Dr. Wanlass, Pink Fulfillment, Mr. Wonderful, Berta B. Poet's Dream and Lovely Diana should all be good mates for Lula Margurite. I'd like to use pollen of Lula Margurite on my new border iris, Lady Kay, for here is further Snow Flurry and pink blood to bring out recessives that might yield many colors and the round, flaring, falls should be "just what the doctor ordered" to give this next generation wonderful quality.

I spent almost as much time in Melba Hamblen's garden as I did among my own seedlings last year. To say her seedlings were fabulous is actually an understatement. One had to see them to know what she has accomplished. The original cross of Helen McGregor x Radiation is now well founded in most of the various lines Melba has going for pinks and their by-products. Her very deep pinks with pink beards were involved with these lines, Hall's other good pinks and my own Pink Enchantment, Pink Fulfillment and June Meredith—some of there appearing in the pedigrees two and three times. Many of her finest blends were from H 53-27 K (a sister to Valimar)—a seedling that should have been named—a light violet with large, heavily substantiated flowers—this and all of its sisters have been good breeders. Melba had excellent things from Valimar x Glittering Amber—a natural cross that closed the standards and yet retained the wide ruffled falls of the pollen parent. Melba had several "heartbreakers" since they had no increase—one of these a gorgeous blue with a rich full blue beard was from a (Seedling sister of Blue Cliff x Canadaway) x (Marriot) — this being an only seedling from the cross, although a second plant germinated last year. So fine was this plant that Melba has plans to repeat the cross. Mrs. Awalt's Graduation Gift had been used by Melba to good advantage—the seedlings from one cross were all of uniform high quality but she saved only the one finest flower which, undoubtedly, will be named and introduced. Two of the lost chords out of Queen's Lace (and I believe Glittering Amber) were also lone seedlings from the cross and may reproduce themselves for the did pod them. Melba is continuing with some very wide crosses and most of these are planned not for immediate results but for several generations hence, and in this she is very wise. It is this type of breeding that unleashes new genes, then with careful line breeding, or using related plants, recessive qualities may be recovered and in the process some color breaks are bound to show up and combinations of the best qualities of the bloodlines being used are likely to appear in some of the seedlings.

Margaret Albright, Melba Hamblen and I were invited to Judge the Region 20 Iris Show in Denver June 6th and we were warmly received. Our work was cut out for us with a great number of exhibition spikes any show would be proud to display. Ev. Long had a wonderful commercial display of superbly grown specimens—among them the most perfect stalk of Swan Ballet I have ever seen. Later we saw in the Long Gardens at Boulder a wonderful planting of this iris, as well as other fine varieties growing to perfection. We were glad to find the Longs (yes, a family project actively engaged in hybridizing and know some grand things will soon come to the market through their breeding efforts. But back to the show in Denver: There were at least a dozen stalks of First Violet all vying for honor in the violet class. Jack Riley showed a beautiful stalk of June Meredith and won the pink class. Dr. Durrance won Queen of the Show with a magnificent stalk of Melissa and later we saw several clumps of this fine iris in the Durrance garden and at least a dozen stalks could have been cut for exhibition—all beautifully branched, flowers nicely spaced on the stalks. This is one, like Blue Rhythm, that grows consistently well in most areas. Runner up was another exhibited by Dr. Durrance—a superb stalk of Nomohr. He was runner up with one of his apricots in the seedling class to "Chuck" Gordon's sumptuous large, wide, clean pink out of May Hall x Pink Fulfillment. We later visited the Gordon planting full of beautiful clumps of modern tall bearded irises and a small group of seedlings. A visit to the Cline garden found us watching seedlings and our eyes fell on several that were already tagged for saving. The day following the show we had

breakfast in the Baker garden and "found" a charmer that especially appealed to us—a miniature Utah Valley or Pinafore Lass type—the white area in the falls was so clean and distinct it is one that will have wide appeal. Growing in a crowded row of seedlings it might surprise its breeder by being a normal large-flowered kind when divided and grown under ideal conditions. Whether large or small this will be one to bring Mr. Baker joy and fame. We saw growing here fine plantings of Wayward Wind and Baby's Bonnett, and seedlings from them. Also of interest here were several Progenitor seedlings that clearly showed how this fine parent inhibits the color in the standards of many of its first generation offspring. We saw more of Progenitor's seedlings in Dr. Durrance's garden. Just down the street from the Bakers is Bill Wood who is doing excellent work in the reds. He is approaching the breeding of reds from quite a different angle to any other breeder I know. I dare not divulge here, his successful crosses for fear of "jumping the gun" on his own reporting of these, but he certainly had several worthy of a place in any garden and breeders of reds would be happy to have his work for further advances in this color. Also of interest here were several fine blends and beautifully laced seedlings. Bill has quite a scientific mind and approach to hybridizing and we shall see good things from his hands very shortly. Staying with Stella and Dr. Durrance I was able to arise early and study the garden rather well. I was taken with many of the selected seedlings and one red from Garden Glory x Bang was exceptionally smooth and contained more red than either parent—it will probably be short, but that, perhaps is an asset these days where Medians are growing in popularity and tall stalks may not be wanted in windy areas. Dr. Durrance, as with myself, seems to be playing the field of colors and types. His dwarfs and medians (Lilliputs) were covered with pods. The germination of a single seedling from William Mohr x Gatesii has all aril lovers anxiously awaiting its first blooming, probably in 1960 or 1961. I noted several outstanding blues from Melissa breeding. A particularly fine blue from Symphony x South Pacific holds promise. Actually there were too many to give adequate mention in these notes.

After leaving Denver we drove to Colorado Springs to visit Dr. and Mrs. Loomis and were warmly received as always. The garden was especially fine and Dr. Loomis had added a wonderful collection of the newer irises. His "Mohr" seedlings are still in strong evidence and I brought home several of these, for one does not visit the Loomis Garden without leaving with some "Samples" of his latest work. Dr. Brown lives on the other side of Colorado Springs but is a frequent visitor in the Loomis garden. After reluctant farewells to our gracious hosts we drove to Dr. James Brown's home and spent as much time as possible among the fascinating seedlings, of which the doctor had quite a patch and among them were several I liked so their breeder insisted I bring them home with me and I hope to study them daily; after all—the real test of quality. Among those I brought home were three sister seedlings from Black Hills, a couple of Melissa seedlings, and a charming Border iris from Fuchsia. After the heat of the noonday sun at this high altitude we were refreshed with luscious Colorado-grown strawberries and cream. Again it was difficult to say goodbye to Dr. Brown and his family, but we hope to return again and again to see the fine progress he is making in his hybridizing.

So, you can see we had a busy time traveling about Utah and Colorado last year. On the way home from Colorado, we saw great fields of *I. missouriensis* in the meadows some 15 to 20 miles before we arrived at Gunnison, Colorado. I made several stops to look at these and to study the variation—without really going deep into the moist meadows where they were so rampant. There was some variation in them—and I am sure we saw several clumps of whites or near-whites as we drove by. I gathered some seed which remained in pods from the previous season and these I sent to a fancier in Oregon interested in this species.

Now I should like to make some mention of the breeders and fanciers for whom I am introducing this year. As you know I introduced for Mary Ollmann her first named seedling Happy Talk (this while the Ollmanns resided in Illinois) but they are now in Menlo Park and this has changed Mary's hybridizing efforts to a marked degree since many of the things she liked would not perform well in their new location. Mary had to make hard adobe soil into rich loam that irises would love and she has succeeded to a marked degree. Mary is active in a local iris club—all keenly interested in hybridizing. I was pleased with her Christmas Primrose for it is a beautiful iris. I like its pedigree and potential, therefore, as a great breeder. It will be useful to hybridizers working for rebloomers, although it may not rebloom in areas where frosts come early or

where there are long winters and short seasons. But the factors for reblooming are there and it is, indeed a gorgeous flower.

F. Harold Alexander of High Point, N.C. and his wife are "bundles of dynamite," and both keenly interested in irises. They are young and busy raising a family, but find time to be active in the North Carolina Iris Society. Harold's first named iris I am pleased to introduce this year. DELIGHTFUL has been highly praised by critics who have seen it, and it is, indeed, properly named. With such breeding it can be nothing but a great parent for whites, blues and violets. Harold has more fine things flaunting their colors in his seedling rows yearly. He is destined to give us many great irises through the years.

Betty Wanberg and her husband, David both enjoy irises, but it is Betty who does the hybridizing. We have enjoyed this couple in an intimate small group who get together several times yearly because of our mutual interests in irises and good fellowship. We thought Betty may be a little prejudiced about her seedlings when she would "bubble over" at some of our gatherings, yet when we saw her seedlings we knew she had just cause to be proud of some of her "efforts." It pleases me to introduce her first named iris, DESIRE ME, and I feel it holds tremendous possibilities as a breeder with the proper choice of mates. I wish all of my readers might know Betty and David and to see their work in photography. Betty is a sculptress of marvelous talent and we hope one day to have a copy of one of the pieces she is presently working, for we understand once a cast is made any number of "copies" might be accomplished.

We have known the Z. G. Bensons of Wichita Falls, Texas for many years. "Ben" does the hybridizing, but the real "critic" of the family is Mrs. Benson who is Ben's "right-hand-man" in the garden and on his many hunting and fishing trips. Truly this couple enjoy a rich life together. Ben's hybridizing is not confined just to irises as he is doing much work with hemerocallis and we understand having great success with these. Fall Gold is introduced for the hybridizers working in this class and we think it a splendid addition as well as a nice iris in its own right without considering the re-blooming habits.

Les Peterson is a mail clerk in the Salt Lake City post office and about to retire. What fun Les is going to have when he can spend full time at the hobbies he loves so well—hybridizing irises and composing music. We hope he hits the "BIG TIME" in both fields. Neither success or failure will stop him, however, and for this we are glad. Perhaps Les' first love is the breeding of Red iris and we like the quality he has achieved in MAIN EVENT and believe it's going to do great things as a breeder, for here is a red that has inherited the shape of its mother, Char-Maize—what this might do for reds is heartwarmingly hopeful.

I have been in correspondence with Ted Elstrom of Concordia, Kansas for many years and have enjoyed this relationship for we have one thing in common (other than irises)—we are near the same age, yet Ted was wise enough to marry early and has some young people in college. A busy farmer, he knows how to grow plants and has an understanding of heredity. His modern seedlings are a vast improvement over his early work and a know his SULTAN'S MUSIC will be well received by discriminating fanciers. It should be a great parent and I should like to see this crossed with many things including JUNGLE BIRD, BANG, GENEROUS, BINGHAM, ARGUS PHEASANT, DOCTOR K, GAY ADVENTURE, LULA MARGURITE, MIXED EMOTIONS, DREAM DANCE and many others. Ted has produced some fine whites from this, but I do not know their background so I cannot, at this point, tell you more, or where they inherited their white color.

Many of you know Margaret Albright personally, for she was one of the main reasons for the success of the 1954 A.I.S. Convention here in Utah. Those who are using her Yellow Dresden in breeding border irises will be happy to know that this variety's pollen is evidently compatible and will cross with Fisher Harris' Little Gem—a cross George Mayberry has been successful with—needless to say it is a tremendously interesting cross. Those of you who have seen the seedlings Margaret has produced from Venetian Pink know what a good parent it is. We have heard of fine things in the Lyon seedling beds from this iris, also. Therefore we are introducing this as a breeder only for it blooms too heavily and would never make a good commercial venture. Happily its seedlings do not inherit the slow propagation quality. We have to thank Margaret for a concerted effort to give us "New Genes" even though she didn't get much encouragement from most of us at the start. We shall bless her work for years to come, I am sure of that, for Gracelle and Blue Flight are going to be great contributors for future generations. But there are more to come.

Undoubtedly Lloyd Paul "inherited" his love for irises. He actually did little or no hybridizing with these plants while

under his father's roof, but became interested, no doubt as he watched his father's work. After he had left home, married, and started to raise a family his interest in iris grew and of his move to California I have previously written and while there he engaged in embryo culture of iris seeds and MAKE BELIEVE is one of the results of this work. Whether or not MAKE BELIEVE might have germinated normally I do not know, but it is, indeed, a fine iris—actually I believe the best Capitola seedling I have ever seen, although I want to study those of Warren Kirk's from New Snow x Capitola before I definitely make such a rash statement. But MAKE BELIEVE is Lloyd's first masterpiece and his first registration. He's keen on the Arils and working among these almost entirely. We have other of his seedling here on trial—many of which have exciting pedigrees.

Eugene Sundt is another working almost exclusively among the Arils, but he and Mrs. Sundt have a wide interest in iris and do have some splendid pure Tall Bearded seedlings. Gene grows many of the collected ocnoclycus and Regelia species and is using these in many fascinating ways both with his own seedlings and with many of the new fertile C. G. White hybrids. We think you will find Gene's work fascinating if you want easy plants to grow and like the arils. All of these are easy of culture and fast of increase. Next year we shall offer the exciting rosy-red ROJO GRANDE out of I. susiana x Pink Formal. What a "melting pot" Gene's stirring up in the New Mexico soil.

Luzon Crosby is well known to the iris world. A pity we have almost lost her hobby-time for irises, since she has turned to teaching and has joined with her husband, Sam in the fascinating Lapidary arts, going to many almost inaccessible earth-spots in search of mother nature's rarest gems and stones. But in spite of this Luzon has a few seedlings coming along and several boxes of seeds of great crosses so perhaps she will still have time to devote to this area which has made her a multitude of friends around the world. Luzon had an exceptionally lovely seedling from Marilyn C last year which bloomed without increase but after sent up three nice little plants so we are hoping it will have wintered and be on its way to one day being named for it was worthy. If you stop by to see the Crosby family you will undoubtedly end up looking at the collection of gorgeous stones and lapidary shop recently built.

Geddes Douglas needs no introduction to the iris world. His contributions to this flower and the American Iris Society are monumental. Geddes has a wide interest in plants of every kind and his daylilies and irises have received wide acceptance throughout the world. It was Geddes who coined the name "Lilliputs" for the race of plants he and Paul Cook introduced to the iris world—crosses of tall bearded and pumilas which we are happy to know are fertile and giving us new genes. Among the most exciting of the seedlings from these lilliputs is Geddes' LILLIPINKPUT which I am introducing this year—certainly a lovely little flower for it is as clean and "smooth as a whistle."

Needless to say, 1959 was an exciting year for me with Swan Ballet being the recipient of the Dykes Medal. I would be ungrateful not to express appreciation to the judges who liked it well enough to give it their vote of confidence and to thank the Iris Society of Great Britain for the Medal itself. The happy event that came about by the Jorys of Berkeley inviting the Randalls to tour Western America with them and to have Harry and Mrs. Randall deliver the medal in person, and formally present it to me in the lovely setting of the Fitzgerald home in Magna, is an event that will never be forgotten.

1960 will be an eventful year with the A.I.S. convention at Portland and the anticipation of many visitors to Utah after this meeting.

SEED AND "CUTTINGS" BED

Most fanciers need either a seed-bed or a spot for saving bits and pieces of rare rhizomes. I use one bed for both and believe the secret of success for good germination and the saving of plants lies in the fact that enough moisture is used with the fine blow-sand that makes up about 50% of the four inches of top soil. When the bed is prepared during the late summer (or fall) a top dressing of compost, well rotted barnyard manure, fine peat moss and two inches of finest blow-sand (that is sand that wind could easily blow about, although fine sand or silt from river beds could be used which contains soil elements, humus, etc.) this is worked to a depth of five or six inches with a garden tiller and on top another dressing of at least an inch or two of blow sand and a bit more Peat Moss which is gently mixed with the sand by raking. When seeds are to be planted each parallel side of the "frame" is marked

off three to four inches (depending upon the size, space, etc. one desires for distance (apart of the rows). A board or plank is used for marking the rows, although a string could serve the same purpose. Another wide plank is used to stand upon as seeds are being planted. After every four or five rows I leave about 12 or 14 inches for a pathway which is helpful in a large bed for the time when weeding and the digging of seedlings rolls 'round. As alluded to this type of bed is most useful for starting bits and pieces of rhizomes or "sick" plants. When I find a rare rhizome affected with any type of rot I scrape, dust with du Pont's Zerelate and plant in this sandy mixture—making sure to water the plants almost daily since the sand dries out rather quickly during the heat of spring and summer. The secret of good germination, of course, is ample moisture until the seeds have all germinated in the spring. I carefully dig the young seedling and line these out, if possible, as soon after the blooming season is over, but as they are dug the sandy mixture is carefully pulled away from the plants on either side;—a trowel or small shovel is then used to lift the plants and all the soil and sand shaken off into the spot so that any remaining seed may be given a chance for second or third year germination. Of course if one is not interested in slow-germinating plants the soil can be removed and the bed started again in the fall, but the soil must be removed if proper records are to be kept of parentages. As mentioned last year I like the Tri-Chem marking pen for marking either wood or metal stakes for both seed bed and field. This writing tube may be purchased at department stores and office supply houses—it is a type of textile-writing plastic used, actually, by many for textile painting and embroidery work. Black is best for markers, however.

Getting back to the frame for savings bits of rare plants. One often finds upon digging that an eye or piece of "toe" is broken off which would not live if planted in a garden or field where careful attention could not be given. If such eyes, or bits of "toes," are planted in the seed-bed, properly marked and cared for they will grow and thrive until the following year when they may be planted in the open garden or field. I dust all such material with Zerelate as with rhizomes that have been scraped or cut free of rotted portions. Occasionally one digs a rhizome containing many eyes that would be too deep for quick growth in the field or garden—these may be cut off (leaving as much rhizome attached to each eye as possible) planted in the seed-bed—they will, if planted about one-half inch deep, grow quickly under these conditions and make healthy plant. Of course the bed should be planted in full sun, if possible.

HYBRIDIZING SUGGESTIONS

This will be written for the neophyte since experienced hybridizers will have learned through years of work and study sound practices of selected parents and the value of making long-range plans in hybridizing. I would suggest, first, that every fancier should have the new and comprehensive GARDEN IRIS published by the A.I.S. at \$7.90 and well worth every penny. Not only will it help one to understand heredity and other scientific aspects of this flower it has a pronouncing dictionary of species names that will be most useful.

In hybridizing irises it is important to get the proper start. Some varieties are known to be good parents while others are known to be notoriously poor parents. One could hardly expect to use a narrow, long, dog-eared variety, badly haft marked, and expect to get seedlings from such a one that could win any wide appeal in this age of extreme competition. On the other hand if you start with wide-hafted varieties as free of reticulatons as possible, and in the colors you are working for your goals will be much easier to achieve. Remember, always, you should make use of the successes of others, but have imagination and the will to do daring things on your own, regardless of what others say, for there is still much in the iris world that has been unexplored and only now are many of the species being brought into some use. The addition of pumila blood (a dwarf of three or four inches height) is proving of inestimable value for dwarf, median and tall breeding. Remember when new blood is introduced or very wide crosses made that new genes, and often different chromosome courts, are brought into the resulting plants. If one is seeking only to maintain a line of one color he may stay pretty well within the color and through long and careful breeding select the slight variations and improvement that come along. If one is seeking new colors, new forms and greater substance, width, etc. the use of new blood will furnish these possibilities. If lace is wanted in some color class where lace is non-existent one has to go to varieties that carry the factor (or factors) such as Midwest Gem, Marula, Chantilly or their descendants. Perhaps some of their descendants have better breeding qualities

and have more refinement or finish. Some of these may already be started toward goals in colors you seek. For instance Dr. Wanlass being Chantilly x Chivalry might be used for breeding blues, purples or blacks with lace. One of the parents (Chivalry) is known to produce ruffling, so this added charm might bless some of the seedlings even though lace might not appear in the first generation further line breeding or using of other lace-factor carrying mates will produce desired results. If one were to envision an iris with pink coloring bearing a rich blue or black beard (Perhaps Black Forest) or if a blue beard is wanted, Marriott, Exotic Blue, Lady Bluebeard, etc. would be used. Unusual beard color will add to the charm of iris of the future, as it does with modern sorts. Many breeders are working for pinks with pink beards, pinks with yellow beards, pinks with cerise beards, etc. Anything might be possible. One must set goals, work at them and take advantage of any breaks that may come along.

Hardiness and vigor are two factors we should always keep in mind. True, many of our new varieties are quite startling in form and color, but many of these lack hardiness in some areas and others are not vigorous in growth (that is slow of increase) so they cannot be completely successful. To overcome these faults we must seek the right blood. We know the regelia hybrids are usually fertile either as pod or pollen parents and many of the hybrids have overcome the narrowness associated with the pure regelias. I had quite a nice lot from Snow Flurry x Hoogie Boy that should be useful for further work since these all had good width, size, height and branching, and better than average increase—a factor well-known among regelia derivatives. Since my own Swan Ballet is not a fast increaser in some areas (other than mild climates) some of this Regelia blood should be useful to cross for greater increase and hardiness. I am sure C. G. White made good use of Regelia blood to get hardiness and greater increase into lines that are now so successful. The so-called Lilliputs derived from crossing tall bearded irises with or by the dwarf pumilas—are, themselves, six to twelve inches in height—they pod rather easily by pollens of either dwarf or tall bearded irises. Several generations breeding to tall will produce heights that may be desired, although dwarfs will continue to appear for several generations. Progenitor, coming as it does from dwarf and tall breeding, throws both short and tall offspring. But hybrid vigor continues to carry over into the generations that follow. Along with this hybrid vigor will be new shapes, heights, sized, colors, etc. What fun is in store for the modern hybridizer and what a wealth of material he has at his disposal. Many of the border irises and lilliputs have plicata blood, likewise have some of the dwarfs. Helen's Child, Lilliput and Tinker Bell are out of Helen McGregor and should be wonderful parents for good blues and whites. Baria, Fairy Flax and Green Spot are all related and each is an excellent parent—Baria being the very best for producing quality I have ever used. After seeing Walter Welch's LILLI WHITE one could easily ask how this might be improved for it's almost perfection and will surely receive wide acclaim and much use for hybridizing purposes. Already Allah's being much used. Dale Dennis (a plicata) has a good breeding potential and I have selected as a mate for this one Charlie Salzer's LAKE ISABELLA to give the falls greater width and flare in another generation. Garnet Treasure should carry plicata genes. I have crossed this with Mary Randall (Also a plicata carrier) and the seedlings from this cross have been bred to Joseph's Mantle, New Adventure and other plicatas. Results of the Joseph's Mantle cross started to show last season and some plicatas bloomed—mostly fanciers. Although Seventies (theoretically) Tall Bearded blood these that bloomed were all under 18 inches. Bred again to pure tall bearded plicatas the next generation should yield some progenies up to 36 inches, if varieties with height-factors are used. One might also incorporate good branching habits into the line as well as other qualities wanted. The blood of pinks and their associated colors (orchids, apricots, salmons, etc.) can now be obtained yet it will be a simple matter for one to start his own lines. The holding over of pollen of the pumilas to be used on the medians and tall bearded is no great problem since this should keep well for at least six weeks at ordinary room temperatures. Or if you have friends living in widely separated blooming areas the exchange of pollen will be of great help. Some tall bearded varieties set seed with ease such as Snow Flurry, Purissima and Helen McGregor. These, and others, will be excellent parents to start such a program. There is one drawback in using Purissima and its derivatives—the fact that many seedlings from these lines will not produce pollen, however, like their parents they usually will pod rather easily. One thing of interest the pumilas and their hybrids are compatible with and usually pod easily by pollens of the onocyclus and their pollen-fertile hybrids.

ON "LOST CHORDS"

I have been asked what, if anything, can be done about "Lost Chords." These are seedlings that bloom without increase. It is my belief that we often "cause" these by improper planting—that is we plant the seedlings too shallow or allow the soil to wash away or be worked away from the plants—leaving the little round rhizome on top of the ground—sitting, as it were, like a duck sits upon water. However, some of the "lost chords" are naturally without increase and there is, I believe, nothing that can be done to induce them to make increase if they are normally blind and no increase "eyes" are present. If I see that a seedling is blooming without increase I take these precautions: I place soil back around the rhizome (if it is partially uncovered) and if the flower is worthwhile and one I want to save (Many of these often are, although they can be deceiving, too, for when they bloom without normal increase they often bloom with larger flowers and heavier substance than they might have if they were blooming on normal plants with increase since all the strength has gone to the making of the bloom.) I pollinate every bloom for this keeps the plant growing and green since the stalk must remain green to feed the pod (if a pod has formed.) Some of these "lost Chords" will bear pollen, others will not, and still others will refuse to set seeds by a wide variety of pollens. In no case do I recommend cutting the stalk to try to "force" increase—this will only hasten drying up of the stalk and quicker loss of the plant. Often these "lost chords" will, if forced to pod or left alone, make stem proliferations at some point along the stalk—after these have grown enough to make little rhizomes, a few leaves and perhaps slight root formation, they can be cut (leaving attached to the stalk) and started in sand and peat mixture. The lost Chords may be fed during the growing season from time to time with liquid manure, liquid fish fertilizer, or other liquid fertilizers to stimulate growth. Caution should be used, however, that too much fertilizer is not used or the plant may be destroyed or "burned" in an effort to obtain growth and increase. I would not, in any case, either recommend lifting and moving such "lost Chords" this would cause shock and might, in the process, cause the loss of a tiny increase that may be starting. Leave the plant in the garden, making sure to water regularly, feed and watch over it. If proliferations start and there are no pods to keep the stalk green and weather is hot one may have to provide partial shade to keep the proliferation and stalk from drying. If no increase shows by late fall the plant is probably a true LOST CHORD.

BREEDING THE SPURIAS

I have alluded to the breeding of spurias in some previous catalogs. Now, however I have seen the results of some recent hybridizing the past two years which I would like to touch upon. Last year I bloomed two seedlings with falls bearing laced edges—both of these were out of the use of Blue Acres and a Nies spuria (two different crosses) so I strongly suspect Blue Acres to carry the factor, yet further work must be done to establish this fact. I found that one could hardly predict, to any degree of accuracy, what the color of any given cross might be, since all of the Nies spurias are involved in rather wide color crossings. Two yellow parents gave predominantly yellows, but the blends, browns and blues crossed with yellows (and in other combinations) might produce any or all of these colors, (the range being rather limited, yet, to some combination of these colors), yet one could find in a cross yellows, blues, coppers and some blends. Aside from Blue Acres, which I believe is a tremendous parent, Wadi Zem Zem and White Heron are excellent parents for yellows and creams and near-whites (there still remains the yellow area in the falls which is difficult to eliminate both in the whites and the blues); Color Guard I believe will be the finest parent for blues and violets and, undoubtedly having stemmed from Dutch Defiance, is a step forward in breeding although the later is an excellent parent. Two Opals and Lark Song each produced some interesting blends and Lark Song is quite dominant to throw its own coloring. Two Opals' offspring often carry a "horn" projection at the base of the under side of the falls which might be used to advantage with the laced things from Blue Acres. I also had what I believe to be crosses of various Nies Spurias and Dorthea K. Williamson—several of which proved quite difficult parents. Also accomplished were crosses of Fairy Wand and Monteagle. Many of the Fairy Wand seedlings had the same Orange pollen of the parent.

In the crossing of the beardless irises one must be sure to open the flowers well in advance of opening (preferably the day before)—to remove all stamens and to bag the flower—or if this is not possible to emasculate the flower (remove both standards and falls and to pollinate the stigmatic lip at once with the desired pollen.

EXPRESSION OF THANKS

Again we are indebted to Tywla Olmstead of Kelso, Wash. for the "Squiggles" that frame the catalogue cover and add humor to the inside pages.

Very sincerely,
UNCLE TELL

Wait 'til she sees her new iris bed!

TERMS OF SALE

DISCOUNTS and extras. To show our appreciation for your orders we offer the following discounts: Orders over \$25.00 select 1/4th more in free iris from the catalog. Orders over \$50.00 select 1/3 more in free iris. Then list a few you would like and from this list we will select EXTRAS, for we like to be generous. It might be wise, also, to list a few alternates in event some variety may be sold out. Let us know if you do not want substitution, however, and in that event we will refund.

We are proud of our reputation for generosity. We do not make sensational discounts and collection offers. This all takes time and space in the catalog. We would rather have you list the varieties you do not have and might enjoy from which we can choose the extras for your order.

SHIPPING DATES. We ship from first of July to end of September, although if weather permits, and we are able to dig, later shipments may be made. However, unless you live in a climate suitable to late planting this is not advisable unless you are prepared to give adequate winter mulch.

Please do not write instructions or personal letters on the order sheet. Be sure your order is all on one page or if, of necessity, you must make the order on more than one page, clip these together and have your address plainly written on each order.

CASH WITH ORDERS, PLEASE, UNLESS YOU HAVE AN ACCOUNT WITH US. POSTAGE RATES HAVE RAISED AND WE ARE OBLIGED TO ASK 75c ON ALL ORDERS UNDER \$15.00.

POSTAGE OFFER: As you know postal rates have continued to climb. If you wish to include \$1.00 extra for postage in your order you may select \$2.00 worth of plants of your own choosing.

GUARANTEE: We guarantee all varieties to be true to label and to be normal rhizomes for the variety. We also guarantee live delivery and satisfaction. Please notify us at once of any discrepancy in your orders, or if you are not completely satisfied. We will replace any variety lost over the winter if such loss is listed together with a new order. In event we have discontinued the variety you may select the value in something we do list.

JOIN THE AMERICAN IRIS SOCIETY AND THE IRIS SOCIETY OF GREAT BRITAIN

Membership in these societies is necessary if one is to be fully informed on iris matters. Four quarterly bulletins from the American Iris Society and the annual Year Book of the Iris Society of Great Britain are full of informative articles, pictures and the new registrations.

American Iris Society Memberships: 1 year, \$5.00; Family (husband and wife), \$6.00; Triennial (3 years), \$12.50; Triennial—Family, \$15.00; Sustaining \$10.00; Research, \$25.00, and Life, \$100.00. Make yours a Family Membership which will greatly enlarge the A. I. S. and give husband and wife voting privileges, etc., and a judge appointment for each ten members — giving your region greater activity and prestige.

AMERICAN IRIS SOCIETY SECRETARY IS CLIFFORD BENSON, Office: 2237 Tower Grove Blvd., St. Louis, 10, Missouri.

If you wish to have me forward your memberships to either society please make these out to: American Iris Society. Membership in the Iris Society of Great Britain is \$3.00 annually.

I will give to any new members, to either society, a fine seedling for breeding purposes in any color you may desire, but please give several choices in event I do not have your first choice. I have a host of Pink and Orange crosses and many of these will be too good to discard and may help you in your hybridizing program. I also have many interesting 3/4ths Tall (1/4th pumila) seedlings if these are of interest. This seedling offer good only when accompanied with an order.

Membership is \$1.50 per year. Send dues to: Mrs. Ora Burton, 303 — 11th Ave., Salt Lake City, Utah

OLD CATALOGS — 50c Each

We have a small supply of the following catalogs: 1954, 1955. And these with hybridizing sections: 1956, 1958 and 1959. Our catalog is mailed to all A. I. S. members and those who send 50c and a request.

OUR GROWING FIELDS ARE LOCATED on 8th South in Vineyard, just East of the Vineyard Ward Chapel (Church). Approach 8th South either from Orem (Highway 91) turning West, or taking the Lower Geneva Road, which is the first lane to the right on Highway 91 after the railroad underpass (at Pleasant Grove) when traveling South from Salt Lake City, Utah.

Our mailing address and home are in Provo.

Notes

IRIS SEED

- Tall Bearded Seed in various color classes
..... 10c each
- Tall Bearded Seed from new Pinks and
Oranges 15c each
- Dwarf Iris Seed, various colors 15c each
- Spuria Iris Seed, various colors 10c each

No less than 20 seeds from any given cross due to the work involved in making the crosses and labeling the envelopes. Order seeds on separate order blank for they will be sent in September.

SELECTED SEEDLINGS

This year we will have available many fine seedlings from such things as Jan Elizabeth and Fair Luzon, Pretty Carol, Glittering Amber, First Curtain, etc. at \$2.00 each. Other colors \$1.00 each

Just say it's mulching!
