Mission Bell Gardens

Greetings,

With the sincere wish that your spring may be filled with beauty to match our beautiful world. Our colorful world — with its bright parade of flowers against back-drop of blue skies and lush greenery.

For the irisarian, spring is a very special season. Some of us (most of us!) have spent the past ten (at least!) months preparing for this particular time. How great is the anticipation as each new bud appears. Will the blossom live up to expectations? Will the plants be in "good" bloom on the day of the garden tour? Will they produce a "blue-ribbon" show stalk?

Iris people are an expectant people. They keep abreast of new developments in their favorite flower. They know that un-dreamed-of beauty in form and color is "just around the corner," and they are ever hopeful that they will be among the first to view the premiere showing.

Above all, iris people are wonderful people. There is, among them, a bond which strengthens with each passing year. A bond that transcends ordinary friendship. Should you doubt this, just attend a National convention and take note of the enthusiastic welcomes that take place in the hotel lobby. Difficult to describe — the sparkling eye, the inner glow, the prevailing sense of excitement — but it catches you up and carries you along, and once experienced can never be forgotten.

In our garden, this year, you will find many guest plants, some named, some still under number. If you find something you really like, let the hybridizer know; yours could be the opinion to balance the scales in favor of introduction.

In our catalog we have listed many "proven" varieties as well as some of the newer kinds which are "trying their wings." We hope you will find among them some that are on your "want list" and some of your "must haves."

Special thanks for your fine orders and wonderful letters — they are indeed the "frosting on the cake."

Sincerely yours,

Melba and Jim

1971 INTRODUCTIONS

CANYONLANDS (Hamblen) ML. 34 in. Exciting blend of vivid colors. Standards apricot-orange (27B, RHS) with half inch border of yellow (13C); white falls with texture veining and border of yellow (12C). Orange haft (17C) suffused with amber and white. Beard is tangerine-orange (28A). Domed stands, heavily ruffled and flaring falls. Good stem and branching. ((Blue Valimar sib x June's Sister) x Marilyn C) X (Claudia Rene). # H61-44A HC '70 Net \$25.00

COUNTRY LILAC (Hamblen) EM. 34 in. Wide orchid blend of RHS purple 75B, C, D, and 76B, C. Standards are a self color. The falls show a graduation of light pink orchid through light blue orchid. Hafts are pink with pink coloring extending into falls. Center of fall petals is lighter with green-gold texture veining showing through. The full bushy beard is orange-red, 33B. Domed, touching stands; horizontally flared falls. Ruffled, frilled, touched with lace. Excellent stalk with well placed fowers. (Gay Adventure x Fair Luzon) X (Rippling Waters). # H64-25-8 (Sib to Orchid Wings). HC '70 Net \$25.00

ORCHID FROST (Luihn) M. 36 in. Diamond dusted lavender-orchid self with slightly lighter area in fall petals which accentuates the shrimp-pink beard. Standards are closed, falls semi-flaring. Beautiful, ruffled form. Strong stalk. (Kiss of Fire x Arctic Flame) X (Morning Breeze). # 66-22 Net \$25.00

ROYAL TRUMPETER (C. Reynolds) ML. 30 in. Velvety, rich, maroon-red self. (RHS 187A. and 187B.) Beard bronzed brown. Wide, lightly ruffled petals. Domed, over-lapping standards; flaring falls. Smooth texture, heavy substance. Well branched with many buds which provide a lengthy bloom season. ((Savage x Ib-Mac) x Red Slippers) X (L.P.: Barbizon x Fire Ruby). # 75-64 Net \$25.00

VEGAS (Hamblen) ML. 34 in. Cool yellow self (RHS 12A) with deeper toned beard and small white blaze at tip of beard. Petals are extremely broad. Standards domed, and touching; falls ruffled and flared horizontally. Good stem and branching. (Royal Gold) X (Coraband x Sib). # 63-43F HC '70 Net \$25.00

BORDER BEARDED

HONEY SPICE (Hamblen) ML. 24 in. Lacy bronzy-tan flushed lightly with violet. Orange beard. Cupped standards; flaring falls. Fine branching with many buds. (Ruffled Organdy x Rosedale) X Muhlestein sdlg.: (Yellow Dresden x Golden Flash). # H7-7-1 (Sib to Tulare). Net \$10.00

INTERMEDIATE BEARDED

STANDARD DWARF BEARDED

ELFIN DUET (Hamblen) E. 10 in. From the reciprocal cross that produced Grace Note, this is a departure from the conventional, and none of the fifty-odd sibs carried a similar color pattern. Standards are toned-down violet-blue deepening at base; falls are chartreuse-yellow lightening at edges. Beard violet. Excellent form with nicely balanced petals. (Easter Holiday X Truce). # H603-10 HC '65 Net \$5.00

GOBLIN (Hamblen) ML. 11 in. Antique gold stands (close to RHS 163B); falls deeper toned with brown overlay. Brown haft and beard. Wide petaled. (Regards) X (Grace Note sib x Grace Note). # M67-3-1 Net \$7.50

PANSY TOP (Hamblen) EL. 10 in. Silky stands of violet-blue (RHS 90C). Falls have violet spot (83A) over violet (86B). Beard is violet-blue (94D). Standards domed and over lapping; falls have horizontal lilt. All petals lightly ruffled. (Grace Note sib x Grace Note) X (Regards). # M67-8-3 HC '70 Net 7.50

RANGERETTE (Hamblen) EL. 12 in. A self of Garnet Lake red (Wilson 828) overlaid with Beetroot purple (Wilson 830). Matching beard with touch of Royal purple (Wilson 834). Wide, lightly ruffled petals. Domed stands; lilting, horizontal falls. As they grow here, Rangerette is a smaller version of its famous pollen parent, Cherry Garden. (Regards X Cherry Garden). # M67-1-3 HC '70 Net \$7.50

STARFLIGHT (Hamblen) EM. 12 in. Standards are primrose yellow (RHS 8C) with green midrib; falls same with gold-chartreuse thumb-print. Blue tipped beard (RHS 100C). Violet-blue styles, tipped yellow. Conical stands; horizontal falls. Ruffled. (Sunny Heart) X (Grace Note sib x Grace Note). # M67-4-3 HC '70 Net \$7.50

MINIATURE DWARF BEARDED

GINGER TART (J. O. Riley) E. 9 in. Pert little medium yellow with falls lightening to creamy yellow in a small area around the dark yellow beard. Ginger-brown markings at haft develop into stippling on fall edges. (Lilli Yellow X Brownie). # R62-28. Net \$7.50

THE AIS AWARDS

HC (High Commendation): for an iris seedling, named or numbered, not introduced at time of judging.

HM (Honorable Mention): for an officially registered and introduced variety. A variety is eligible for HM one year after introduction.

AM (Award of Merit): for the top 12 Tall Bearded varieties.

AM: for the top 3 Border Bearded, 3 Intermediate Bearded, 3 Standard Dwarf Bearded varieties.

The following awards are equivalent to AM:

CAPARNE AWARD: for the top Miniature Dwarf variety each year.

C. G. WHITE AWARD: for the top Arilbred variety each year.

WM. MOHR AWARD: for the top "quarter-blood" Arilbred variety.

DM (Dykes Medal): the highest award an iris receives; it may be given annually to one AM winner, Special Medal winner, or Special Award winner.

THE KNOWLTON MEDAL: for the top Border Bearded variety each year.

THE HANS AND JACOB SASS MEDAL: for the top Intermediate Bearded variety each year.

THE COOK-DOUGLAS MEDAL: for the top Standard Dwarf Bearded variety each year.

IN OUR CATALOG: We list *only* the highest honor a variety has received since the lesser awards are a prerequisite.

IRIS PLANTING AND CULTURAL DIRECTIONS

WHEN TO PLANT. For best results plant June through September. Early planting establishes the new Iris before winter. This is the time to reset clumps of Iris that are crowded, generally clumps 3 to 4 years old.

WHERE TO PLANT. The ideal location for Iris is a sunny, well drained position. Sunshine at a minimum half days; Iris will not do well in deep shade. No water should stand in Iris beds. Raise beds slightly above the level of garden paths if necessary.

DEPTH TO PLANT. Place rhizomes just below the surface of the ground with the roots well spread out underneath so that the rhizome is within reach of the warmth of the sun's rays while the roots beneath are in moist (not soggy) soil. Be sure to firm the soil tightly around each rhizome when planting. Follow ordinary good garden practice of watering and settling soil on newly set plants.

DISTANCE APART. This will depend on your particular plans. Generally iris are planted from 14" to 2' apart. If you desire immediate clump effect plant 8" apart in groups of 3 or more of one variety. You may have to divide and separate your plantings more often, but you will have a wonderful splash of color sooner than if you planted only one rhizome of one variety.

FERTILIZATION. Iris will thrive without feeding but will respond to its application. In the preparation of a new Iris bed, spade in a good application of compost below the roots. Then an application of a well balanced fertilizer applied as a top dressing dusted around and in between the plants in early spring or very late fall is desirable.

CULTIVATING. Do it shallowly. Iris feeding roots are very near the surface. Keep your Iris free of weeds and do not allow neighboring plants to encroach upon them. Remember, they should have sunlight right down to the rhizome. Remove the outer leaves as they begin to brown. At all times keep litter, old Iris leaves, grasses, etc., away from the rhizomes. Clean cultivation is the finest precaution for Iris troubles.

A WORD ABOUT SYMBOLS USED IN THE CATALOG

In the description, E, M, and L, signify Early bloom, Midseason, and Late. In the pedigree, the pod parent is on the left of the capital X and the pollen parent is on the right.

— NOTES —

1941

The first part of the report deals with the general situation in the country. It is noted that the economy is in a state of depression and that the government is unable to meet its obligations. The report then discusses the various measures that have been taken to deal with the situation, including the introduction of a new currency and the imposition of price controls. It is concluded that these measures have had little effect and that the situation is likely to worsen unless more drastic action is taken.
