Where Quality and Price Are Pleasing

DEAR FRIEND:

Again, let us say "Thank You" for your many orders in '71, making it our biggest year since we began in '56. We will do our best to please you again this year.

All are welcome to visit our garden, especially at bloom time, normally at its best May 24th to 30th. If coming a distance write and we will tell you when it will be at its best as weather conditions do vary it some.

Payson is located in West Central Illinois, not far from the Mississippi and our garden location is 4 miles northwest of Payson, or 7 miles southeast of Quincy on State Route 96.

A few words about our prices and policies.

PRICE—Our iris are priced according to amount of increase. Some varieties increase much faster than others, so if increase is good we price them lower. Don't let our lower prices mislead you.

QUALITY—We spare no expense or labor to grow the finest rhizomes possible for your selection. Our aim is to produce a good sized, firm rhizome. Some varieties produce larger than others, so in an order some varieties may be smaller and others larger, yet be the best of their variety, that will grow well and bloom.

PLANTING—Please plant as soon as possible after receiving as they will start to grow more quickly. Full sun is preferred but half day will do. Plant where no water stands on the beds, raising them slightly if necessary. Firm soil well around roots and water sparingly only until new growth begins. A winter mulch will prevent heaving of the plants in colder climates.

Send us an order and be convinced. We always include quality bonus iris, not just garden surplus.

MARION and EDNA CRAMER

TERMS—Cash with order; check, draft or money order.

GUARANTEE—All stock to be fresh, free from disease and true to name. All iris we ship are grown in our gardens and are healthy mature stock.

SHIPPING—Begins when rhizomes have fully matured, usually July 10th, continuing to September 1st.

POSTAGE—Paid on all orders over \$5.00. Less than \$5.00 please .60 per order.

SPECIAL NOTE—To offset constantly increasing costs, hereafter we will charge .75 on all orders as a "handling & packing" fee.

PLEASE—Be sure to give names, address and zip on your order. We are holding an order payment from last year with no address.

GENERAL LISTING

- AFIRE**—(Craig '67) M. A red with less brown than usual \$1.25
- AFTER DARK**—(Schreiner '63) E. 44". Tall well branched, dark violet-blue black \$7.75

YANKEE BOY—(Gadd '67) Ruffled dark violet. Very popular. H. M. '70 \$7.00

Some Letters From Our Customers

Dear Mr. and Mrs. Cramer: My order arrived this a.m. in excellent condition. It was great fun unpacking and checking the various varieties in the catalog. Never dreamed you would send so many. The color selection is wide. Thanks for being so generous. I am sure the iris will be a joy for years to come. Thanks again for Christmas in July.

Chicago, Ill.

Received the iris in perfect condition and they are such nice strong plants and thank you so very much for the extras. You sent real expensive ones. Thank you again.

Big Stone City, S. Dak.

My iris order arrived yesterday. I was simply thrilled with each and every one. It was "just like Christmas". You were most generous. The plants are beautiful.

Gorham, Me.

You go past the last mile with your lovely extras. You can bet they are appreciated and cared for.

Unionville, Mo.

I had the opportunity to compare the rhizomes you sent me with some from both and While your packaging and labeling were not as fancy as theirs, your rhizomes were. My rhizomes were just as nice as the ones received from the bigger companies, only mine were much more reasonable on my budget.

Pleasant send me a copy of your 1972 catalog as soon as it is off the press. I am enclosing 25c for the handling charge.

Beatrice, Nebr.

It will be a pleasure to recommend you as a supplier of fine quality iris. I shall be looking forward to an interesting variety of blooms next summer from those you just sent me.

Madison, Wisc.

What a pleasant surprise to find such healthy, strong rhizomes and extra plants, too! You sure can't beat a combination like that.

My only wish is that I had more space in my city lot garden for plants such as yours.

Chicago, Ill.
