

1980 IRISES

"LATITUDE"

IRIS COUNTRY

"WHAT'S NEW"

Select new varieties from other growers and the maiden bloom of what should be a super group of new seedlings. Combine to generate the excitement in the "What's New" category in Iris Country this season. Last summer I added over 100 new varieties to the already select list of quality varieties that I grow plus lining out approximately 1100 seedlings from what I feel are the best crosses I have ever succeeded in making. Thus, enthusiasm runs high and patience grows weak in anticipation of a new season.

This listing marks the return to a formal price list with special prices quoted on most varieties. Of course, new introductions and scarce items remain full price. My new offerings, HOMBRE and LATITUDE are being introduced by Contemporary Gardens of Blanchard, Oklahoma. Beginning in 1981, I will commence introducing my own originations.

Please remember that Iris Country is open to visitors from sunrise to sunset during bloom season. Special tours can be arranged at most any period during the peak bloom season. Make plans to visit often as some varieties bloom later than others.
