1980 INTRODUCTIONS OF MOHR GARDENS

Effervescent (H. C. Mohr '80) TB, 35"

(Bubbling Springs X Winter Panorama) Very heavily laced light blue on a tall 35" well-branched stalk. Petal edges are a mass of lace, reminding one of the bubbles on the inside of a glass of champagne. Pale yellow beards blend well. Plant vigorous and floriferous. Three branches plus terminal \$25

Enthralling Pink (David Mohr '80) TB, 32"

(Baby Face X Peachtree) Many fine pinks are being introduced now. This one is competitive from the standpoint of beauty, as the name implies. Furthermore it has exhibited great vigor of growth and rapid increase. Three branches plus terminal on 32" stalks. Large very ruffled, well-formed flowers of superior substance. Color is "Orient Pink" with tangerine beard \$25

Epic Journey (Ken Mohr '80) TB, 33"

(Odessey X Charmed Circle) Violet blue on white plicata. Striking blue beard. Hafts very broad and touching. "Saddle shoe" effect at hafts. Silky texture on a ruffled and fluted flower \$25

Valentine Roses (David Mohr '80) TB, 32"

We send these beautiful pink flowers to you with our greatest love and affection. Soft to rich shades of pink are held to perfection in these dreamy ruffled laced petals of thickest substance. Each flower represents our highest ideals of perfect form. Like many ballarinas, each flower performs with grace and elegance. Many buds on tall, sturdy stalks with excellent branching. (Picture on back cover of January A.I.S. bulletin) \$25

Velvet Eclipse (H.C. Mohr '80) TB, 35"

(Study in Black X Nightsong) The falls are deep, rich black velvet; standards just a shade lighter in deep violet. Beard is deep violet. Petals are ruffled. Show stalk branching, with abundant stalk production by a vigorous plant. Long bloom season \$25

INTRODUCTIONS OF PREVIOUS YEARS
