

IRIS FOR 1983

Mission Bell Gardens

MR. AND MRS. J. R. HAMBLIN
2778 West 5600 South
ROY, UTAH - 84067

TERMS

MINIMUM ORDER \$25.00; payment with order by check, draft or money order. Please add \$2.50 to help defray packing and shipping costs. AVAILABILITY OF ALL VARIETIES IS SUBJECT TO PRIOR SALE. We ship by UNITED PARCEL SERVICE unless otherwise requested. PLEASE GIVE COMPLETE street address for UPS delivery. If you wish UPS BLUE LABEL SERVICE (Airmail) please advise; we will bill you after shipment for the difference in price.

EXTRAS

EXTRAS in line with the size of an order, will be included with all orders. WE PREFER to send extras of your selection when stock permits; therefore, we welcome your suggestions.

STOCK of NET and LIMITED varieties is in short supply. On extras selected from these varieties, PLEASE LIST ALTERNATE CHOICES.

WE DO NOT SUBSTITUTE unless authorized to do so; in such cases please list alternate choices.

SHIPPING DATES

We ship from July 10 to September 1. Orders are filled in rotation as received; however, we will comply with your preferred date if possible.

SPECIAL PRICES QUOTED to Garden Clubs; we do not pay postage on these orders.

GUARANTEE

All rhizomes are healthy, true to name and guaranteed to live and grow. Our irises are transplanted each year to assure you of fine stock.

A WORD ABOUT SYMBOLS USED IN THE CATALOG

In the description, E, M, and L, signify Early bloom, Midseason, and Late. In the pedigree, the pod parent is on the left of the capital X and the pollen parent is on the right.

Mission Bell Gardens

Greetings,

You are cordially invited to visit and share with us the thrill of approximately one hundred of the best of the newest irises which were added to our garden last year, many are "On Display" because of scarcity. In addition are selects from the last five year's introductions and our seedlings.

Last year's bloom approached perfection, although a late frost damaged some varieties in a totally unprotected area. We sincerely hope that, despite unseasonable rains your gardens were equally beautiful.

Space prevents mention of the many varieties deserving recognition, but some that still bloom in memory include Snow Palace, ruffled fluted white self, yellow hafts and beards, with impeccable form and large blossoms lasting four and five days. Laced Cotton in pristine white was its usual cool faultless self.

In yellow, Catalyst was outstanding for its purity of color, stylish flowers and multiple buds. Among the golden-yellows, in this garden, Gold Galore is still without peer. Of the Ghio browns Indian Territory seemed to be our best grower; Rustic Cedar, in blended golden copper-tan gave us something pleasing and different.

Dawn Glory is a lovely combination of rose-pink standards, apricot falls, salmon-orange beards, wide and ruffled — also different. Light garnet-red Lady Friend is not only a "new" color in irises, it is also a tall well branched, long blooming beauty. Al Fresco, blooming next to Lady Friend, is a satin-textured wide ruffled green from the blue-white side.

Mulled Wine in raspberry burgundy, terra cotta beards and broad lovely form brought another "new" color to last year's panorama. Among many gorgeous pink irises, deep toned Custom Made with wide deeper pink beards, stole the late show. Marian Ackermann took the honors in pink/blue bicolors, showing lovely contrast between the ruffled lacy standards and falls, as well as good vigor.

If you haven't seen Evening Mist, Bob Dunn's large well formed, pale greyed blue-green with green-tan halos and matching beards, well . . .

Our special thanks for encouraging letters and nice orders; and special wishes for glorious, rewarding bloom in your 1983 gardens.

Sincerely yours,

Melba and Jim

1983 INTRODUCTIONS

TALL BEARDED

EXTRAVAGANT 34 in. EL. Swirling ruffles and tantalizing lace embellish large broad petaled flowers carried on strong well branched stalks. Vigor and flower habits, excellent. Color — elusive, depending on time, light, the eye of the beholder, Robert F. Wilson (Royal Horticultural Colour Chart) might select "Mineral" on "Amethyst" violet, or some other apt term from the pages which encompass the gamut of pinkish violet through rosy purple. We color-read Extravagant as (RHS 72C) with lighter fall centers and deeper toned edging. Cerise beards. (Lilac Flame X Glory Bound). HC '82 No. H-78-104-1. Net \$25.00

FRANCES GAULTER 34 in. ML. Vivacious, feminine, desirable — possessing many of the fine qualities of the charming lady for whom it was named. Full ruffled glowing pink standards (RHS 36A); flaring horizontal falls edged with bright violet ruffles and lace, lightening toward centers; showy tangerine-red beards (28A). Excellent branching, many buds. (Sugarplum Fairy X Heavenly Harmony). HC '82 No. H76-26C. Net \$25.00

RAGTIME 36 in. EL. Bold, audacious . . . valiant, confident. Brilliant yellow standards (RHS 11A) slightly deeper at base with this more vivid color spilling partly down the fall petals, ending near the tips of bushy yellow-orange beards. The falls are finished in violet blue (91A) bordered tan. Broad ruffled parts. Superb stalks and branching. From Star Spangled x Betty Simon, with siblings showing very little variation, Ragtime seems to have inherited the "hybrid vigor" sometimes resulting from wide crosses. HC '82 No. H74-64 Net \$25.00

SONG OF SPRING 34 in. ML. With the 1975 introduction of the T-bearded neglecta, Rippling Clouds, we thought we were writing "Finis" to this series of by-products from lines developed for pink/blue irises. That was before Song Of Spring bloomed One of those rare irises destined for introduction with maiden bloom. Beautifully formed with an abundance of lacy ruffles. Light violet blue closed standards (RHS 97D), deeper toned violet blue falls (90 D), arched, flaring and finely edged palest blue. Vibrant tangerine-red beards. Strong well-branched stalks. ((Flamingo Fling x Lilac Flare) X Sugarplum Fairy). HC '82 No. H76-27B. Net \$25.00

STANDARD DWARF

INGLENOOK 10 in. ML. Saucy creamy little blossoms flushed greenish-blue (RHS 124D). Closed Standards, horizontally flared falls. Char treuse halos (154C) frame intense violet blue beards (89A). Three and four buds. Fertile. (((Sunny Heart x Blue Canary sib) x Canary Isle) X Sapphire Jewel). HC '82 No. M76-25 Net 7.50

TALL BEARDED IRIS FOR 1983

(*designates an Arilbred)

ACCLAMATION (Corlew '80) M. 35 in. Ruffled stately yellow with lighter area in fall center; darker yellow beards. (Proclamation X Cream Taffeta). HM '82 15.00

IRIS PLANTING AND CULTURAL DIRECTIONS

WHEN TO PLANT. For best results plant June through September. Early planting establishes the new Iris before winter. This is the time to reset clumps of Iris that are crowded, generally clumps 3 to 4 years old.

WHERE TO PLANT. The ideal location for Iris is a sunny, well drained position. Sunshine at a minimum half days; Iris will not do well in deep shade. No water should stand in Iris beds. Raise beds slightly above the level of garden paths if necessary.

DEPTH TO PLANT. Place rhizomes just below the surface of the ground with the roots well spread out underneath so that the rhizome is within reach of the warmth of the sun's rays while the roots beneath are in moist (not soggy) soil. Be sure to firm the soil tightly around each rhizome when planting. Follow ordinary good garden practice of watering and settling soil on newly set plants.

DISTANCE APART. This will depend on your particular plans. Generally iris are planted from 14" to 2' apart. If you desire immediate clump effect plant 8" apart in groups of 3 or more of one variety. You may have to divide and separate your plantings more often, but you will have a wonderful splash of color sooner than if you planted only one rhizome of one variety.

FERTILIZATION. Iris will thrive without feeding but will respond to its application. In the preparation of a new Iris bed, spade in a good application of compost below the roots. Then an application of a well balanced fertilizer applied as a top dressing dusted around and in between the plants in early spring or very late fall is desirable.

CULTIVATING. Do it shallowly. Iris feeding roots are very near the surface. Keep your Iris free of weeds and do not allow neighboring plants to encroach upon them. Remember, they should have sunlight right down to the rhizome. Remove the outer leaves as they begin to brown. At all times keep litter, old Iris leaves, grasses, etc., away from the rhizomes. Clean cultivation is the finest precaution for Iris troubles.

WEEDS. For the past few years we have used Treflan, a preemergent weed killer. It prevents weeds but will not kill those that have already germinated. Follow directions closely, and enjoy a practically weed-free garden.
