## SHANNON GARDENS of Oak Brook Farm 30545 Tern Avenue Shafer, MN 55074

GREETINGS! Everyone thanks previous customers, but indeed you are mighty important, not only for financial support through orders, but also for your feedback and encouraging words. If you are getting my list for the first time, I hope you will try me out with an order. I want the opportunity to demonstrate my commitment to service and quality.

1983 was a strange growing year. We had a mild winter, a cold and snowy spring, followed by unbearably humid summer heat and excess rainfall! Iris have a way of surviving and performing against remarkable odds. Bloom season was delightful, and almost on schedule. Many plants grew extremely well, and everything took hold quickly after a rather late replanting.

Due to a family wedding in Michigan, I was unable to attend the Boston convention. On the way to Grand Rapids, I had very pleasant visits with Fred Spahn, the Rudolphs, Marge Hagberg, and Robert Mallory. Raising flowers is rewarding in itself, but once you are a fanatic, you get to meet wonderful people too! In February, I visited my good friend Paul Black in Oklahoma, and got in on Ben Hager's fascinating seminar on hybridizing. It was great to see other old friends, such as Larry Harder, and Perry and Kitty Dyer. I now have my reservations booked for Seattle: hope to see YOU there!

PROFESSIONAL ATTITUDE: I grow most of the stock on first-year plants, in well-spaced rows, to assure that you get healthy plants, with maximum growth for our climate. I am using a limited number of chemical controls, again to insure health and quality. The selection is improving; eventually, every variety listed will carry some sort of personal recommendation. To determine available quantities, I use a conservative inventory system. You get the top grade rhizomes in my garden, and I replant the leftovers!

PERSONAL ATTENTION: I let you know as soon as possible if anything goes wrong with your order. You get a complete explanation and prompt refund if necessary. I frequently share comments on individual varieties.

These new slogens may be seriously tested this year. I have found it necessary to return to fulltime employment in social work. Hopefully, I have learned to be efficient, and will make good use of limited time. The commitments to you are indeed still there, in spite of the extra struggle.

PRICES have been set, based on year of introduction and my own supply, with rare adjustments for popularity. Since I intend to build my reputation on quality as well as competitive pricing, the minimums are set high enough to make it worth my while. Particularly with older varieties, you will get an excellent product, and sometimes surplus rhizomes. Prices are NET with no extras, but I try to be generous on gift orders and with people who include a list of ACCEPTABLE SUBSTITUTES! Thank you!

DEADLINE for ordering bearded iris is August 1, 1984; and for beardless orders September 1, 1984.

SHIPMENT: Early August ONLY for bearded; early September, beardless. MINIMUM ORDER is \$10.00 — Please include a \$2.50 handling charge. CHECK or MONEY ORDER must be included with your order. MINNESOTA RESIDENTS, Please add 6% sales tax.

OAK BROOK FARM is owned by my long-time friend Lee Haugen, who very generously allows me the run of the place. I am always glad to share the gardens with you, but I ask that you call in advance for appointment and direction. (612) 257-1153. We all deserve Spring now: Cheers!

David E. Shamon
