GREETINGS 1987

Dear friends, How nice it was to renew old friendships last year after having not catalogued, so to speak, for several years. Thanks too for spreading the word around that Fleur de Lis was back. How exciting and pleasant it all was and also a heartfelt thanks to all of you new friends and customers we made last year. I wish all of you could come and visit the gardens this season. We all worked apace last year getting new show areas laid out and planted and new stock fields finished. With everyone busy at that, a couple of neighbors jumped in and helped. Also our thanks to one of our customers, Mr. Rod Lysne, who came from Wisconsin and used his vacation to plant out the several thousands of Iris and Daylily seedlings as I dug and prepared them, thanks to him they will be blooming this season. We have added many new Iris and many new Daylilies so there will be countless things of great interest to bloom this year. We have more new introductions this year than we have had for a long while due to continuing many lines of breeding but only releasing a couple of things per year during our years of no catalogues. The past winter months have been summery and almost frost free and things look fine as I write this but who knows what the coming spring will bring. We hope it brings the best season ever for all of you and for us too, so if it's possible for you to do so, please drop in and visit us during bloom time or just to visit. Thanks for your many fine orders last year and we hope that we may continue to be of service to you in the future. Do have a good year.

Sincerely,

Chet and everyone here at Fleur de Lis.

NEW IRIS FOR 1987

ALL 1987 INTRODUCTIONS "NET" EXTRAS OUR CHOICE

CALLIOPE TUNE (Tompkins '87) M.L. 39 in. (Bandera Waltz x Jig Saw) X (((Tinsel Town x Darktown Strutter) x (Ribbon Round x(Tinsel Town x Stepping Out)) x Jig Saw))). This is a huge, perfectly formed flower with very broad, heavily substantced, ruffled petals, perfectly domed standards and wide, fluted semi-flaring falls. The Pristine white of the falls is beautifully edged with a wide border of dark blended Royal and sooty Navy blue while the richly contrasting standards are almost completely washed with the same rich blue. A bronzey blue tipped beard and a few flecks of white at the base of the midribs adds to its beauty. Tall, excellently branched stalks with fine placement and 9 to 12 buds. A Stunner that drew all eyes last season.

No. 83-13C \$35.00

CANDLE POWER (Tompkins '87) M.VL. 40 in. (((Tinsel Town x Bayberry Candle) x Recip. Cross)) x ((Radiant Bride x Bayberry Candle) x (Tinsel Town x Trudy))) X 69-79:-Sdlg. lines from Ice n Lime, Pinnacle, and Sdlgs from Jesse Wills yellow amoena lines x ((Tinsel Town x Bayberry Candle) x Sib))). One of the largest iris we have grown, this is an enormous ultra broad petaled flower. While it has perfect form, it has a showy, massive and blocky appearance; due no doubt to its huge size and great width. The very broad but perfectly domed, ruffled standards of snowy white glow with inner highlights of rich cream touched foggy gilt; rise like white fire above the smooth, velvety finished, semi-flaring, gracefully fluted falls of deep rich Chrome to Sulphur yellow which is accented by a sulphur gold beard and faint glimmerings of a "Now you see it - Now you don't" hint of ethereal white on some of the fluted edges. Tall, strong, widely branched stalks carry the enormous flowers in perfect show bench position. After trying this cross many times with no luck, we finally got a pod with two seeds. One gave this and the other its glittering creamy lemon counterpart "Runaway Star."

No. 79-68 \$35.00

COSMIC DAWN (Tompkins '87) M.L. 39 in. ((Wayward Angel x (Hilight x Elegant Era)) X Nile Flower. A stunning new Lemony gold and Lavender bicolor, this is very large with broad, heavily fluted and ruffled petals. The standards are of bright lemony toned Nankeen yellow with a faint creamy undertone and sparkling gold dust finish, colors which are intensified by a touch of lavender bronze at the very base of the midribs. The flaring ruffled falls are cream based and have a full overtone of rich lavender orchid that is heightened by a vivid stripe of deeper antique fuchsia from the tip of its heavy Chrome gold beard, which is set on a clean Nankeen touched haft, to the end of the fall which has a gleaming border of Cocoa infused Nankeen. Strong, very well branched stalks with 12 buds.

No. 83-15B \$35.00

ENDLESS LOVE (Tompkins '87) M.VL. 40 in. (Easy Grace x Pretty Please). A huge, elegantly formed flower with broad, ruffled and neatly domed standards and broad, flaring, fluted and ruffled falls. The standards of this are of creamy peachblossom with a bright aura and undertone of Arbutus pink. The falls are of the same color with a base of Ivory over which the rich pink tones are laid, leaving a creamy, pearl pink glow in the center of the falls which is accented by smooth orange toned Opera pink haft under a vivid Opera pink or Orange red beard. Tall stalks with wide branching and perfect placement and up to 12 buds helps make this a real standout in the garden.

No. 79-30C \$35.00

FORTUNE'S FLAME (Tompkins '87) M.L. 38 in. ((Allegany Moon x Pretty Please) x (Christmas Time x Ovation)) X ((Royal Gold x Tinsel Town) x Christmas Rubies)). A massive, very dark Dandelion or Capucine yellow by Ridgeway, this is a good match for Candle Power and Runaway Star. It too is extraordinarily large and blocky of form with the ends of the falls being almost square. Its smooth, velvety finished, heavily substantanced flowers are highlighted by a fat wide beard of deep Orient Orange which at times seems to be a deep red. We have noticed that the intensity of Red beards on yellows seems to vary with the season or weather conditions. This one is usually quite red and is certainly the best we have had so far. One way or another it is certainly a stunner as the massive, ruffled flowers on tall widely branched stalks almost hypnotically draws one to it.

No. 79.26A.....\$35.00

GENTLE SHEPHERD (Tompkins '87) M.L. 38 in. (Ballyhoo x Pencil Sketch) X ((Wind-walker x Ballyhoo) x Desert Echo)). A bicolor plicata of the washed or fancy type, this has standards of bright Picric yellow undertoned with a very faint, almost hazy tint of ethereal Pinard Gold and falls of the same golden yellow with an overall wash of rich China Blue which pales at the edges to give a glimmering border of yellow that deepens at the haft around a broad golden beard. Large, clear colored and quite bright, it somehow stays serenely compelling. Strong, excellently branched stalks with 9 or more buds.

No. 83-28.....\$30.00

LILAC BREEZE (Tompkins '87) M.L. 38-40 in. Endless Love Sib. X ((Emissary x Petite Point) x (Pretty Please x Grand Waltz)). Like the Memory of Lilacs floating by on a cool, sparkling spring breeze. The icy Lilac flowers of this, perfect of form with broad heavily ruffled, laced and domed standards and ultra broad, fluted, ruffled and laced falls; seem to hover on the air as if anxious to take flight and a bare breath of gilt at the edges of the wide hafts which sport heavy pure white, pink tipped beard furthers the airy effect. Large and truly delectable, the blooms are beautifully placed on tall well branched stalks with 9 buds.

No. 83-303D.....\$30.00

MIDNIGHT LACE (Tompkins '87) M.VL. 40 in. (From involved lines from Darktown Strutter, Tinsel Town, Stepping Out, Far Galaxies etc.). Something totally new! This spectacular plicata will shock and entrance you. Quite large and beautifully formed with showy semi-flaring flowers, its ground color is like pure white slipper satin. Its standards are heavily colored with brilliant Seville or reddish Royal violet except for oval window areas over the midribs just above the flaring falls which gives the stands a lighted up appearance. The falls have a two inch wide border that is almost pure black on the outer part and lightening to a deep sooty red toned violet on the veins radiate outwards from the throat past the heavy white, blue tipped beard to form a butterfly wing, Belgian lace pattern over the satiny white to where they meet the outer border. Striking is the word for this one. Tall, well branched with 7 to 9 buds.

No. 83-10.....\$35.00

RUNAWAY STAR (Tompkins '87) M.VL. 39 in. (Sib to Candle Power). This sister to Candle Power is equally as large and just as showy. It has the same ultra broad petals and size but is not quite as flaring and is not as distinctly bitoned, the standards being white with a full flush of deep true cream throughout and an inner glow of icy green whereas its falls are of smooth creamy lemon with a lime yellow overtone. Similar to its sister as to stalks, branching and placement of its huge flowers. Some visitors have preferred this and others its sister. Both are exciting and we plan on extending this line.

No. 79-68A.....\$30.00

SAM'S SONG (Tompkins '87) M. VL. 40 in. (((Stately Mansions x ((Royal Gold x Ovation) x Tinsel Town)) X ((Petite Point x Grand Waltz) X Tinsel Town)). A flower of dramatically vivid colors, this has heavily ruffled stands of brilliant lemon gold and canary yellow. This same color seems to wash out from the throat of the flower over the haft around a deep gold beard to form a two inch wide border around the snowy white center of the heavily ruffled, semi-flaring falls. Very showy with three to four flowers open at once on tall extremely well branched stalks that carry 9 or more buds.
 No. 80-82-203.....\$30.00

SCINTILLATING LADY (Tompkins '87) M.L. 40 in. (((Spartacus x Hamblen 70-20n.) x (Sky Kissed x Spartacus)) X ((Tinsel Town x Hamblen 70-20N) x (Spartacus x Royal Coachman))). Our choice of the many seedlings from our Red Bearded Blue lines, this has very large, ruffled flowers with domed standards and widely flaring falls. It is a rich Sapphire blue, clean and clear in its coloring which is accented by a flashy red beard and heavily substantanced beautifully laced and picoteed petal edges. Tall widely branched stalks with lots of buds gives it a long season of bloom.
 No. 79-18C.....\$25.00

SHEER BLISS (Tompkins '87) M.VL. 38 in. (((Columbia x Blue Rhythm) x (Chicory Blue x Deep Space)) x ((Chivalry x Mountain Music)xFlagship x Babbling Brook))) X (((Radiant Bride x Babbling Brook) x (Cahokia x Chalk Talk)) x ((Silver Song x Brook Song))) x (Sterling Silver x Silver Song))) x Crown Sterling. The bluest of any Iris we have grown, And when we say blue we mean BLUE. Everyone who has seen this has wanted it. Elegantly formed it has enormous flowers with perfectly domed standards and beautifully fluted, semi-flaring falls. The heaviest substantanced of our iris, its huge blooms hold much longer than any other iris in the garden. It is a very bright and intense shade of Cornflower or Chicory blue by the color charts and it has a smooth porcelain like finish. Strong, wiry, nicely branched stalks.
 No. 83-95.....\$35.00

TIME LORD (Tompkins '87) EM. L. 35 in. (From long lines of sdlg's from Manana, Defiance with red x pink reds etc). Chart on request if needed). Our first red introduction in some years, Time Lord seems to us to be at last an advancement toward a goal of real reds such as we see in other flowers. We think it might be a big step in that direction. We weren't getting any closer in our other efforts so we figured that before we reached the point of no return we had better go backwards in time to where we started so once again we began with our first reds, Manana, Defiance and Password etc and took another route. At last this one appeared. Its vivid coloring and huge size simply refused to be ignored so when its first offspring appeared last season and gave even greater promise of things to come, we decided to open the door of its Tardus at this point in time to "Time Lord," in hopes that you might enjoy it as much as we have. Its enormous tailored flowers have well domed stands and great round horizontal falls which in this case adds to its shock value for at best it's never more than 36 inches tall so its blazing color and huge size shows to the utmost. A clean haft and full mustard brown beard adds to its color. Strong stalks and good branching with up to 9 buds.
 No. 80-77.....\$35.00

NOVELTIES

BUSY BUTTERFLY (Framke '87) M. ML. REB. Rebloomer. ((Summer Sandman x Kalahari) x (Stepping Out x Tinsel Town)) x Smoke Rings. This has been a most welcome addition to our garden as it has given us a sure fire succession of bloom the past three seasons. Mrs. Framke called it her busy plic and that fits it well because it keeps busy all summer making bloom stalks and good plants as well. Besides that it's a real beauty, large, ruffled and well formed with standards of pure white heavily washed over with Royal Purple and Velvety white falls with a broad stitched and flecked border of vivid red purple around the ruffled edges. Tall, well branched stalks.
No. Fr. 83-12D. \$25.00

MAYAN POPPY (Tompkins '87) EM. L. 36 in. (Easy Grace x San Leandro) X ((Bayberry Candle x Hilight) x Copper Capers) x (((Bandolier x ((Orange Parade x Grand Teton) x Cosmopolitan))). This created a real stir at every garden club that had slides of it last winter and letters and inquiries about it are still coming in. It has had the same affect here the past 3 seasons as well. Its color is Chrome yellow with an allover finish as if dusted with Brass flakes and then splashed and spotted all over with various markings of violet toned copper brown. It has well formed flowers of good size and the stalks are well branched with lots of buds. Everyone who has seen it seems to want it. It is certainly an attention grabber and we have seen some spectacular arrangements made with it as we have cut stalks for various local garden club people. Personally I think there's some Dorian Gray in its parentage somewhere though I will admit to its fascination.
No. 82-158D. \$25.00

BORDER BEARDED IRIS

CAT NAP (Tompkins '87) E.M. 24 in. (From long lines involving Garnet Glow, Manana, Defiance, Cape Bon, Mary Randall, Password, up to and including Pink Pussycat and others. In 1983 these lines mentioned began showing great promise with deeper colors, redder beards and larger flowers. From one cross this seedling was the lone exception. It turned out to be a minnie version of its larger sisters but with the vivid garnet red color and fiery ruby red beard of its ancestors plus the added floriferousness and charm of its later parent Pink Pussycat. Perhaps its genes for size took a little "cat nap", awakened to see its larger sisters, blushed a deeper cerise red and just refused to grow up. At any rate we think you will enjoy it and its companion "Courtin' Time".
No. 83-83A. \$25.00

COURTIN' TIME (Tompkins '87) E.M. 24 in. ((Ovation x Fancy Frosting) x (Ovation x Venetian Dancer)) X Ovation. If you need something for the front of your border that seems to shout Pink! Pink! Pink!, then this is for you. It is a fair sized flower of excellent semi-flaring form with clean petals and a glossy, satiny finish. In color it is a smooth rich self of Rhodonite pink that is further brightened by a deeper pink beard. Stalks are well branched and carry up to 12 buds. If you don't want all of your iris in the "Jolly Green Giant" size, you'll find this one and "Cat Nap" both delightful.
No. 80-52. \$25.00

PERSONALITY PARADE

\$10.00 Each — Net, or 1 each for \$50.00

Thank you for welcoming back our Personality Parade series with such a Hearty Bang. Sorry we could not fill a few of the last orders for them but in spite of what we thought was an abundant supply of them, the demand was even greater. We think we have enough stock of this new series of Paraders for 1987 that we will not run short. We had many letters last fall telling us that Bittersweet Gold had bloomed nicely early in the fall and had made plants for this spring. It had bloomed in the fall a few times here but we were not sure it would do so elsewhere. It was nice to know that so many of you enjoyed it as a fall bloomer too.

We hope you enjoy these new Paraders as much as the former ones. We think you will find they are all quite exceptional and as good as they come. We are giving their parentages this year due to your requests.

BLUSHING BUTTERFLY (Tompkins '87) M.L. 36 in. ((Camelot Rose x Whole Cloth) x (Amigo's Guitar x Camelot Rose)) X (((Clarion Call x Ice N Lime) x Pinnacle)) x ((Clarion Call x Ice N Lime) x Margarita))). A bitone of large size and nice form with broad heavily ruffled, slightly picoteed petals. Standards are of shimmering Orchid undertoned Dawn pink and the falls are of bright blended Fuchsia and Magenta Rose with a border of pale orchid over cream. Touches of Chestnut rose at the throat accents its bright Tangerine rose beard. Strong well branched stalks with 9 buds. Exciting offspring from this and Melba Hamblens bicolors. Beard colors galore.

LUNA MOTH (Tompkins '87) E.VL. 36 in. (Sib. to Gentle Shepherd). The ground color of this is a brightly glittering tone of Lemony Amber. Its nicely domed and ruffled standards are of lemon amber with an inner light or undertone of Lime green that offsets the rich amber lemon falls which have a wide brushing of deep Gilt yellow across the hafts that continues around the falls in a glowing border. Myriads of minute Heliotrope buff and blueish orchid specks cover the central areas below Amber Gold beards. Well branched stalks and a fast grower.

MERRY WITCH (Framke '87) M.L. 39 in. (((Cimbay x Latin Lover) x Dulcey)) x ((Latin Lover x Out Yonder) X (Whole Cloth x Ice N Lime))) X Meredith Hues. A great favorite here in the garden and one of the Amoenas that is giving fascinating seedlings. Large and nicely formed with closed stands and flaring falls, it has glistening white stands and falls of vivid manganese violet undertoned fuchsia rose that are bordered with a ruffled edge of lilac tinted white and a thin stripe of the same color extends from its white, mustard tipped beard to the tip of the falls. Well branched with lots of buds.

NILE FLOWER (Tompkins '87) M.L. 38 in. ((Stately Mansions x Close Up) x (Tinsel Town x Butterscotch Ripples)) X (((Password x Raspberry Ripples) x Blodgett 69-37B)) x ((Tinsel Town x Cimmarron Strip) x Pretty Please))). Different, Intriguing, Exciting, Fascinating and even Gorgeous! Besides it's lovely to look at and we think you will find it delightful to own. Blend Pearly Agate, Dawn Gray, Creamy flesh and light Heliotrope and you have its color, especially if you add a good touch of Taffetalike Iridescence for a finish. Its wide ruffled stands have a flush of Anemone pink and Orchid over the midribs and the broad, flaring falls have smoothly painted hafts of Orchid under full, thick, blue based, shockingly bright Ember red beards. A flushed stripe of Deep orchid extends from the beard tips to the ends of the falls where it merges with a misty border of pale Cocoa orchid. You can add Exotic to the description if you like for it surely is. Parent of Cosmic Dawn.

PAINTED CLOUDS (Tompkins '87) EM.L. 38 in. ((Stately Mansions x Outreach) x (Venitian Dancer)) X ((Stately Mansions x Ovation) x (Quinella x Pink Pusycat)). This new pink is quite large and has elegant form with ruffled, domed standards of richly glowing Hermosa or Baby Ribbon pink set over ruffled, flaring falls of Icy pink undertoned white with a smooth clean haft of Watermelon pink and a glowing beard of bright Begonia Rose. Many members of the various garden clubs who saw slides of this and wrote about it, saw it as number 79-20Z.

SNOWY THRONE (Tompkins '87) E.M. 36 in. ((Vaudeville x Ribbon Round) x Charmed Circle) X (Ballyhoo x Easy Street) x (Ribbon Round x Whole Cloth)). One of our earliest blooming varieties, this lasts well into Midseason, sometimes longer. Snowy Throne has a ground color of pristine white and its glittering, pure white, ruffled standards rise, perfectly domed above brown falls which are bordered by a quarter inch edging of Bright Flaxflower blue. A white beard accents the purity of the flower and its lovely edging. Strong and well branched.

\$6.00 each or 3 or more different @ \$5.00 each

BITTERSWEET GOLD (Tomp. '86) M.L. 38 in. This is a very large flower with perfectly domed standards and widely flaring falls. A self of very deep and bright Fulvous or apricot orange, it is very smooth and velvety with no veining or haft marks and this smoothness is accented by a very full beard of deep orange red.

ENCHANGED LAND (Tomp. '86) M. V-L. 37 in. A very brilliant self of Raspberry wines with a full undertone of Fuchsia red with a bronzy chocolate red haft under a vivid marischino red beard. The large flowers have excellent form with flaring falls. Stalks are strong, tall and well branched with many buds.

PASSWORD PLUS (Tomp. '86) E.L. 38 in. An extremely large flower, this has wide domed standards and broad, round, semi-flaring falls so wide they overlap at the hafts. It is cleanly finished like shimmering silk and is a self of orchid toned fuchsia pink with a very bright self colored beard. A descendent of Password Plus, it does its parents proud.

ROWDY (Tomp. '86) E.L. 37 in. This is such a screamingly loud combination of colors that it is a rowdy riot all by itself. Standards of gilded, glowing copper are offset by falls of vivid blended mustard and brass with overtones of orchid pink and blue violet. A tawny shining red brown haft and border and a wide copper orange beard add to its flamboyance. It has tall, very well branched stalks and gives a long season of bloom.

SPRING SHARING (Tomp. '86) M. VL. 38 in. This is a pink amoena of large size with broad petals and excellent form. It is so bright and beguiling it just seems to beg one to come and share with it the colorful joys of spring. Its standards are clean warm white and the falls are clear, pale baby ribbon pink with just a foggy hint of a deeper pink lighted up by a jewel-like pink beard. Tall, strong, well branched stalks with lots of buds. A real showpiece.

STORMY WEATHER (Tomp. '77) E. VL. 39 in. A very brilliant blended bicolor. The flowers are very large and are of excellent, semi-flaring form with ruffled edge. The color is a smoldering mix of bishops violet, fuchsia rose and rich coppery chestnut. The velvety falls have a brownish edge that is reflected in the rather brassy sparkle of the standards. So many have asked for it we have again grown a good stock.

UNTAMED MELODY (Framke '86) EE. L. 40 in. This is a great favorite with all of the garden visitors. A tall, widely branched stalk carries far more buds than most other iris, making for a very, very long season of bloom. Its huge showy flowers have a basic color of Hot greenish brass overtone with vivid copper and the falls have a full central pattern of glittering tones of blended Electric blue, rose, red and violet with molten gold mixed in.

HOSTA COLLECTIONS

The following plants are from our huge blocks of Hosta seedlings. From these we have selected some for naming and others for further study and use. The balance we have found to be in great demand by Landscape gardeners and for general garden work. Due to requests we are listing the following groups below.

Prices are \$1.25 per field grown divisions. If ordering more than 10 plants please add 50¢ more per plant. Add \$2.50 per order for handling.

- GROUP #1 Large leaf Sieboldiana types, gray, silver to blue.
- GROUP #2 Extra large to Mammoth leaf types.
- GROUP #3 Rich green, large, taller growing. Showier blooms.
- GROUP #4 Wide leaf, medium sized with gray to silver and blue.
- GROUP #5 Mixed, smaller leaf, border types.
