

**Mid - America Iris Garden**

**1987**

**PAUL BLACK**

**\$1.00**

BE SURE YOU GET WHAT YOU WANT - ORDER EARLY !!!

TERMS

PLEASE READ BEFORE ORDERING

This catalog cancels all previous catalog listings and prices. Do not order from catalogs dated prior to 1987. Minimum order \$10.00 plus \$2.50 packing and handling. Full payment with order by check or money order please. Your cancelled check will serve as your acknowledgement. If you wish an acknowledgement, please send a self-addressed postcard with your order.

ALL PRICES ARE NET - No further discounts or extras are offered in this catalog except specified introduction specials.

ORDER CUT OFF DATE - NO ORDERS ACCEPTED AFTER AUGUST 10, 1987.

SHIPPING - Shipping season is from July 1 through approximately August 15. Shipments will be made by United Parcel Service except to areas where their use is not possible. Please include your full street address, phone number, and instructions on locating your residence if it is difficult to find. If you wish shipment by PRIORITY MAIL or UPS SECOND DAY SERVICE, send \$2.00 plus .50¢ per plant to cover these charges. This is in addition to the \$2.50 handling charge.

FOREIGN ORDERS - MINIMUM ORDER \$50.00. All payments should be made in U.S. funds. If there is more money sent than is required to meet exact air shipment expenses, extra irises will be included to make up the difference. To avoid confusion with monetary exchanges, please have your order acknowledged by me prior to remittance in case there are sold out items on your order. Please include the city through which the parcel will enter your country so this can be entered on the phytosanitary certificate. Following is a list of approximate shipping charges.

DOCUMENTATION: \$5.00 ALL ORDERS.

| COUNTRY  | CARTON PLUS<br>1st RHIZOME | EACH ADDITIONAL<br>RHIZOME ADD |

SUBSTITUTIONS - Supplies of plants are limited to available stock. I reserve the right to make substitutions on the iris in the \$1.50 and \$2.50 listings although there should be adequate stock of most. A list of acceptable substitutes is suggested if ordering later in the season from these groups. Some of the newer varieties are in short supply and so if you want to avoid the disappointment of not getting a variety you really want, please order EARLY. You will be notified and a refund check sent immediately on the more expensive varieties that happen to be out of stock. If your order is received after July 20, the refund check will be sent with your parcel.

OKLAHOMA RESIDENTS - Add 5½% sales tax.

PLANT QUALITY - The garden is state inspected thus assuring you of quality, disease free plants. Let me know by November 30 and I will try to replace any plants that failed to perform. These will be replaced the following season providing the variety is still in the catalog. If it is not, a substitute variety will be sent.

CLUB ORDERS - Please send request for further information.

BONUS OFFER - See 1987 Introductions page under Special Offer.

With each year of growing iris comes more rewards than I could ever have imagined. New customers become tomorrow's friends and the iris friends I have are certainly one of the greatest rewards given to me. You are the ones who have made this a wonderful and prosperous year. I wish for each of you the good things that have been given to me.

This years catalog I want to dedicate to my sister Lois and her husband Arlie. Year before last, Lois washed and packed most of the iris you received. Arlie was always on the spot when the tiller or tractor took a nosedive or to help move furniture in that final move to the house here at the garden. Even more important is the constant emotional support given by Lois and Arlie. Whenever the days got too long, they were there with words of encouragement and a hot meal. No amount of money can repay what Lois and Arlie give to me. Can you believe they aren't even irisarians!

This past year Chris Vizvarie, newly moved here from Connecticut, packed your parcels and helped with garden chores. Chris is a real asset to our local group and we look forward to his future contributions to the iris world as his own hybridizing program gets underway. Best wishes, Chris.

Sometimes the rewards of irising come in the form of awards. Here at home, TOWERING INFERNO, HAT TRICK, and PECAN SPOT received Honorable Mentions with Hat Trick receiving next to the highest HM. Two seedlings, B81-124 (tall bearded) and 85458A (intermediate bearded) received High Commendations as well as Exhibition Certificates.

I was really excited when I was notified that my iris had placed well in the International Competition for Iris in Florence, Italy. This is a garden trial based on three year clumps and judged under coded numbers by an international panel of judges. It is a true garden trial. ROBUSTO received the second place silver medal and trophy for most original color. B81-30, now named INTERNATIONAL INTRIGUE, received the fourth place silver medal and trophy for best garden variety. AUTUMN BLUSH received the trophy for best early variety and I additionally received the Premio Regione Toscana trophy awarded to the hybridizer with the most number of winning varieties in the top five! Believe me this was quite an experience for my first entry into this competition. In addition, TIGER PRINT placed second in the standard dwarf bearded class of the International Competition for Low Iris in Vienna Austria. I am grateful for the confidence shown me by iris judges. It helps to know ones efforts are being noticed.

Bloom in the garden was variable this year, but the area where the newer varieties were planted put on an exceptional show. There are a number of new varieties that deserve a spot in the permanent garden.

Seedling bloom was less than average this year but certainly not disappointing. The finest SDB was from Azure Gem X Chubby Cheeks. It had the perfect form of Azure Gem and absolutely smooth sooty black purple color. I hope it continues to grow well. Interesting plicata/luminata patterns are coming from Gentle Air X Chubby Cheeks. Twink X Chubby Cheeks is also yielding nice and unique plicatas. Chubby Cheeks does seem to quite a wonderful parent. This coming spring there will be about 200 more new seedlings to bloom from Chubby crosses. Prediction X a Chubby Cheeks sib gave a beautiful white ground IB with pink plicata marks. The form was wide and round as I've come to expect from Chubby Cheeks.

The cross of Muchacha X Skyhooks gave several nice IBs with horns. Autumn Blush X (Old Flame X Instant Charm) gave a border sized bright yellow with bright orange beards. Some of the best horned seedlings came from Frances Gaulter X Skyhooks. The color variation in this cross was really diverse. Sorceress X Planned Treasure gave super branched and vigorous seedlings in varying bicolor and bitone colors with varying amounts of plicata sanding on the falls. (Breath Of Morn X Galen) X Soap Opera gave a lot of unique banded seedlings. Some very strongly colored blue amoenas with red beards came from (Flamingo Blues X Firewater) X Condottiere.

Two seedlings from last years bloom continued to be unexcelled in their class. The yellow and purple luminata 8543E (Betty Simon X Magic Candle) X (Spinning Wheel X Focus) is still showing super vigor and terrific branching. The lavender amoena with gold rim around standards, 85154B (Old Flame X Instant Charm) X (Tequila Sunrise sib X Entourage) also continues to perform well. I am looking forward to the introduction of these two seedlings.

This coming years seedling crop will be somewhat smaller than usual but there are some interesting crosses to bloom. I saw bloom this fall on two seedlings lined out this spring. The cross was Feedback X Blazing Sunrise. The parents are both strong remontants and so it wasn't too surprising to see these two bloom their first time this fall. There are a lot more of these to bloom this spring for the first time and also a reciprocal cross Blazing Sunrise X Feedback. Another seedling lined out this spring from the luminata 8543E crossed back to Spinning Wheel tried to put up a stalk but it froze before opening. I'm really anxious to see these seedlings because of the diverse genetic material involved.

This year was exciting to me because it saw the beginning of some landscaping projects I had dreamed about and that are now getting done. One area surrounding a large pecan tree was bermed and now has about 20 azaleas on it. Mixed in among these are hostas and some spring flowering bulbs. This area is always cool and peaceful. You'll find me here when there are a few moments to spare. The north side of the house is completely planted with azaleas. There is a mounded area on the south side of the yard that has large trees surrounding it and is terraced into several levels. Here you'll find a Japanese Maple, azaleas, more hostas, Japanese Iris, peonies, lots of spring bulbs, a bleeding heart, oriental poppies, Siberian Iris, astilbe, species cyclamen, bulbous iris, a daylilly and other plants I've forgotten are even there. Just to the east of this is an area planted solidly with true lillies and Siberian Iris. On the north side of the yard is a long awaited hoopsii blue spruce. There is also a new apricot tree, magnolia and a number of new rose plantings, some of which are old classics. You are welcome at any time to come by and enjoy these plantings.

It was a pleasure to return to San Jose for the AIS National Convention this past year. I attended one of my first conventions in San Jose in 1978 and so it was a real treat to return and see the gardens with a little different perspective.

Replant this year was a real trick with rains starting about a week after replanting started. The ground remained constantly wet for over two months and at one point there was 14+ inches of rain over four days time. It was at that point that I decided to fly to Los Angeles for four days during schools fall break since I didn't have to be here to drive school bus. It was a wonderful trip. I was able to see several extraordinary gardens out there as well as the Broadway play CATS. The estate upon which the Huntington Library sits is incredibly beautiful as was the refined landscape of the Getty Museum. Descanso Garden was like a nice nature hike among the over paced life of the city. It was also nice to visit the L. A. Arboretum again and just by chance they were having their fall Lawn and Garden Show. The world is indeed small for where you have flow-ers there will be gardeners and sure enough there was George Waters taking photos for another of the publications for which he provides his excellent work.

This summer, guest plants for the 1988 AIS National Convention to be held in Oklahoma City began arriving and are now all planted and growing. My garden will be one of those on tour and anyone wanting to preview the plantings here at my garden are welcome to come by during bloom season. You can also see my own seedlings and new introductions and many new introductions of other hybridizers.

You are encouraged to come by the garden at 3409 N. Geraldine (located approximately one mile west of Will Rogers Garden Center) and see all those beauties you've been waiting all winter to see. Peak median bloom is usually the last two weeks of April and for tall bearded, the first two weeks of May. These peak bloom times can be thrown off a week one way or the other by our strange weather patterns, so you might want to call before driving any great distance.

Best wishes for an exciting year in the garden and prosperity and health for each of you personally.

### THIS YEARS 20 FAVORITES

**APPRECIATION** (Hager 83) Here's a lovely medium pastel to add that subtle touch to the garden. Standards are warm caramel tan with a gilt edge and falls are orchid-lavender with red brown hafts. Beards are yellow. Emphasis is on rampant growth and super stalks.

**AZTEC SUN** (P. Dyer 82) If the Aztec's sun was anywhere as bright as this iris, they would all have been blinded. Classic flowers are bright sunfast yellow with orange gold beards. The only fault is that branching is sometimes closely spaced. Excellent garden value.

**CHAPEL BELLS** (Meek 82) Pretty describes this variety perfectly. Heavily ruffled flowers are medium lavender-orchid and red beards are highlighted by a paler area around them. Stalks and vigor are both good. Chapel Bells will make beautiful music in your garden.

**CHERRY SMOKE** (Meek 78) The name says it all. This sultry black cherry gem is ruffled just enough to keep it from being plain. It's never overlooked in the garden. Branching is a bit close and growth variable from year to year, but it is still well worth growing.

**EDNA'S WISH** (Gibson 83) I don't know what Edna was wishing for, but if this is it, she did very well. Flowers are large and have big full ruffles. Color is mauvish salmon accented by orange beards. Stalks and vigor are excellent. It is proving to be a good parent.

**ELECTRABRITE** (O.Brown 83) Here's a classy variety to extend and end the season for you. Heavily ruffled flowers are perfectly sculpted from what would appear to be porcelain. Color is a medium pastel pink that glows with warmth. Stalks are tall and perfectly branched. Buds open beautifully even in the hottest sun. Electrabrite will be grown here for a long time. See Photo.

**ENTHRALLING PINK** (D.Mohr 80) If you're looking for a lovely pink iris that performs under any circumstance, this one fits the bill. Stalks are great. Should be grown by more people interested in vigor.

**FLAMING VICTORY** (Weiler 83) Here's a glowing yellow flower set afire by bright orange beards. Stalks are tall and well branched and bloom is plentiful. Growth is rampant. Puts on a real show.

**FLIRTATION WALK** (Blyth 76) Even though this one has been around awhile, it is still a favorite. The baby pink flowers are born on show stalks and vigor is unsurpassed. This flirt will be in your garden a long time once you've grown it.

**GLASS SLIPPERS** (O.Brown 83) Cinderella would have been delighted to wear these beauties. Perfectly formed flowers have palest pink standards and creamy white falls. They have a warmth and substance as though carved from marble. Stalks are show branched and flowers never have trouble opening in hottest weather.

**LAND O' LAKES** (Schreiner 82) These rich blue flowers are stunning on tall well branched stalks. If you want a variety that will perform in spite of any adversity, this is it. Hardiness personified.

**LET'S DANCE** (R. Nelson 86) And what a rhythmic dance it is. Precisely ruffled flowers are uniquely colored. Standards are yellow and falls shaded red-violet with a tan edge. Stalks are strong and well branched and plants are super hardy. SEE PHOTO.

**PRAY FOR PEACE** (Plough 82) Definitely Dykes Medal quality. Its pristine white flowers are flared and have fluted ruffling. You can't go wrong with this one!

**ROBUSTO** (Black 84) This variety has gone overlooked here in the U.S. but in the International Competition in Florence, Italy, it received 2nd place and trophy for most original color. Color is a vibrant blend of apricot, orange, and pink. Full formed flowers are born in abundance on tall stalks. Vigor is as the name suggests - ROBUST! Excellent garden color.

**RUMBA RUFFLE** (Weiler 84) This variety came bounding into bloom with such zest and style that it definitely couldn't be overlooked. Giant sized, blocky flowers are deep sunfast yellow with fluted ruffling. Stalks are sturdy and well branched and vigor unbeatable. SEE PHOTO.

**SORCERESS** (Keppel 82) Perhaps the sorceress's apprentice conjured up this exciting bicolor plicata. Only a bit of magic could produce such a beauty. Standards are peach with a slight blush of lavender. Falls are creamy peach with red-violet sanded band and haft and soft orange beards. Flowers are well formed and ruffled. The best part is that it is the best growing and blooming of the pink plicatas here.

**SUGARTIME** (Meek 83) From Pink Sleigh and Blue Luster (obviously a pink and a blue parent) comes this equally classy, ruffled and lightly laced lavender orchid. The color has that same drawing depth that Blue Luster has. Stalks are taller than either parent and well branched. Growth is robust and bloom a bit heavy although never to the point of bloomout. Should be a very interesting parent. SEE PHOTO.

**WILD JASMINE** (Hamner 83) This has been a favorite since I first saw it in Indianapolis and has been no less popular here in my garden. It is a wild and crazy iris to brighten any garden. Standards are yellow and falls white with fancy plicata marks of yellow and golden brown over the entire petal except around gold beards. Flowers are big and amply ruffled.

**BAY RUFFLES** (Warburton 85) (SDB) Simply put, it is one of the most elegant little iris to bloom in the garden. The clear medium blue color combined with the lilting ruffles make it one you can't ignore. Growth is strong with no tendency to bloomout.

**CHUBBY CHEEKS** (Black 85) (SDB) These cute round cheeks will surely tickle your fancy. Standards are white heavily veined and dotted violet blending to a wide greyed chartreuse band. Falls are white with violet dotting around the outer portion of petals and a wide band of greyed chartreuse. Precise ruffling finishes these cheeks just as cutely as dimples. Proving to be an excellent parent for form and pattern. SEE PHOTO.

**BECOME AN AMERICAN IRIS SOCIETY MEMBER:** Dues - \$9.50 annual, \$23.75 triennial, \$11.50 Family, or \$28.50 family triennial. Includes informational pamphlets and 4 beautiful and informative bulletins each year. To join, make your check payable to **AMERICAN IRIS SOCIETY** and include it with your order. I'll send it in for you and include as a bonus with your order, one of my 1987 introductions worth \$30.00 (selection must be my choice). This offer is limited to new members only and must be sent to me before August 1, 1987.

**CARPETBAGGER**

**COCOA PUFF**

# 1 9 8 7 I N T R O D U C T I O N S

by PAUL BLACK

**CARPETBAGGER** - TB, 35" (89cm), Midseason. This tall candidate won't have to buy your vote of approval. The colors bring to mind the tapestry bags toted by the Carpetbaggers from history. Standards are shaded caramel gold and falls are medium blue-violet with deeper caramel colored band around them. Styles are contrasting yellow as are beards. Flower form is classic and tight with strong ruffling. Stalks have 3 branches and 8-9 buds. Excellent show stalks. Sdlg. 83319A: ((Bayberry Candle X Bamboo Curtain) X Copper Capers)) X Chartreuse Ruffles. SEE PHOTO \$30.00

**COCOA PUFF** - TB, 34" (86cm), Midseason. If you like your iris dainty and yet still full formed, try this fluffy beauty. The color is rather a unique blending I call cocoa pink, resembles the color of the breakfast cereal Cocoa Puffs. Standards are cocoa pink and falls have an ivory ground with a cocoa pink plicata wash around margins and line down center of falls. Style arms are apricot orange and beards purple overlaid on top with cocoa pink. Flowers are beautifully formed with fluted ruffling. Nicely branched stalks have 2 branches plus spur. Sdlg. B81-116: Infatuation X Rancho Rose SEE PHOTO \$30.00

**LACED DAISY** - TB, 32" (81cm), Midseason-Late. To begin with, it's no daisy, only white and yellow in coloring. What it is, is an iris with the most elegant heavy lace imaginable. Standards are buff gold and falls cream with tan gold band and haft. The flowers have substance as if carved from marble. The tightly formed flowers never distort or have trouble opening because of this lace. There are only 5-6 buds, but bloom is extended by opening blossoms one at a time. This elegant lady has been a hit in the garden each year it has bloomed. Interesting breeding. Sdlg. B81-124: Brandy X Chartreuse Ruffles SEE PHOTO \$30.00

**NO STYLE** - TB, 30" (76cm), Midseason. This novelty iris indeed has no style - no style arms that is. It does have class! It also has fertile pollen on a normal anther but with no style arm behind it. It refuses to inbreed any further. Flowers are pale orchid pink with central area of falls being almost white. Beards are lavender tipped pink. Flowers are beautifully formed with airy ruffling. Vigorous grower. Sdlg. 83350A: Pink Sleigh X Pink Sleigh SEE PHOTO \$20.00

**SPECIAL OFFER:** A gift plant of my 1987 introduction NO STYLE will be sent to anyone who wants it and WHOSE ORDER FOR 1987 IS \$50.00 OR OVER. No Style **MUST** be listed on your order form as a free rhizome in order to receive it. This offer is limited to the number of available plants. There is a lot of stock but not infinite, so order early since it is first come, first served until stock is gone. Only one plant per customer, please.

**SILVER CROWN** - TB, 36" (91cm), Midseason. A silvery white crown of standards grace these royal falls of vibrant blended violet. Falls are intense deep violet blending out to an almost white edge. Very much like Premonition except on a tall stalk with excellent vigor. Stalks have 2 branches and spur with 7-8 buds. Should be an interesting parent to breed dark amoenas. Sdlg. 8229A: Twist Of Fate X Premonition SEE PHOTO \$30.00

**CAR HOP** - SDB, 13" (33cm), Midseason. Here he comes to serve you up one of the brightest spots in the garden. From my kitchen window, Car Hop demanded attention apart from all the other varieties growing around it. It is a much, much improved Red Heart. Standards are deep blue-violet and falls dark maroon with a deep blue-violet band. Form is wide and crisp just like you'd expect a Car Hop to be. Beards are likewise dark blue-violet. Terrific vigor and usually sends up several late stalks with the tall bearded. Sdlg. 83125A: (Stockholm X Chartreuse Babe) X ((Puppet X Meadow Moss) X Sapphire Jewel)) \$10.00

**FORTE** - SDB, 12" (30cm), Midseason-Late. Strong, loud, and demanding of attention; that is Forte's color. Standards have an almost white rib overlaid with blue-violet veins blending rapidly out to vibrant rose orchid petal color. Falls are deep velvety black cherry with dark purple beards overlaid with bronze. Form is full but with an open, light feeling. Great garden color. Sdlg. 82202A: Clay's Caper X Crimson Velvet \$10.00

**MARY'S LAMB** - SDB, 10" (25cm), Midseason. Mary had a little lamb, its fleece was white as snow. This iris too is white as snow with a blush of yellow at the haft and a soft, pale violet beard. This was the stand out performer for overall quality this year. Plants are vigorous and very floriferous. Elegantly formed flowers bloom mostly on the same plane so there is a carpet of white spread before ones eyes with an intricate weaving of violet beards. This years best! Sdlg. 83161B: (Puppet X Meadow Moss) X Sapphire Jewel) X (Hamblen M73-12A X Sapphire Jewel) SEE PHOTO \$10.00

**STARDATE** - SDB, 11" (28cm), Midseason. Here's a true gem about as blue as the sky. Standards are clear medium blue and falls slightly darker with a deeper blue spot. The form is round and perky with pretty little ruffles to jazz it up a bit. Beards are blue tipped with orange gold. Should breed orange beards eventually. Tends to bloom a bit heavy because of its Dixie Pixie heritage. Sdlg. 84273C: (Ice Chalet X Dixie Pixie) X C. Palmer 8134 SEE PHOTO \$10.00

**TUMBLEWEEDS** - SDB, 12" (30cm), Midseason. Just like Tumbleweeds the comic strip character, this Tumbleweeds is a character too. He's just come in from the range with a fine dusting of sand and dirt. Standards are ivory tan with a grey violet midrib. Falls are about the color of peanut butter with lightly applied reddish brown diffuse spots. Beards are blue white with an orange throat. Form is round with a bit of ruffling. Sdlg. 83175C: Cindy Mitchell X Mister Roberts SEE PHOTO \$10.00

SPECIAL OFFER

All 10 Introductions Value \$190.00 Special Price \$145.00

NEWER TALL BEARDED IRIS

Characterized by large, showy blooms on well branched stalks over 27".

- 6.00 HUMOHR (Hager 87) Violet w/ irregular splashes of white.
- 7.00 JALIBA (Plough 81) Pinkish red & brown blend w/ dark brown signal.
- 3.00 JAZZ BABY (Noyd 60) Orchid blue S & lt green F SPLASHED violet etc.
- 6.00 KHYBER PASS (Kidd 81) Lt lavender S; terra cotta F veined maroon.
- 6.00 KUZA NAMA (Hager 83) Amethyst S; bronze F toned red; bronze beards.
- 3.00 LITTLE TROOPER (C.Palmer 83) ARIL-MEDIAN; white S; yellow & blue F.
- 4.00 LORETTA AARON (C.Palmer 78) Pale lav S; brownish-yellow F.
- 3.00 LOUD MOUTH (Rich 70) ARIL-MEDIAN; dark plum veined darker; white haft.
- 3.00 MARTHA MIA (Hunt 75) Blue violet w/ brown spot; tall branched stalk.
- 5.00 MAROON ELF (Rich 83) ARIL-MEDIAN; dark maroon red w/ deeper spot.
- 3.00 NELSON OF HILLY (White 41) White w/ light reddish pattern.
- 4.00 NEW DISCOVERY (Holden 80) Beautiful rose brown bitone; deeper in F.
- 15.00 ONLOOKER (Hager 85) Lt lilac-lav S; chartreuse F; big black signal.
- 14.00 ORA J. SEALE (Hunt 83) Pinkish-yellow S; yellow-peach F; rust signal.
- 3.00 QUINTA (Rich 76) Lav S & beige F blended red; PENTAPLOID; fertile.
- 10.00 RAMAYANA (Rich 84) Pale beige S; darker beige F; dark red signal.
- 16.00 SHADES OF SUNSET (Hunt 84) Lavender S; yellow overlaid burgundy F.
- 4.00 SHEIK (Hager 76) Fuschia S veined deeper & russet F veined deeper.
- 3.00 STARS OVER CHICAGO (Danielson 73) Tan S & F w/ darker rim; blue beard.
- 8.00 SULTAN'S JEWELRY (Hager 83) Yellow w/ deep garnet signals.
- 3.00 TOTEM (Crandall 77) Rose terra-cotta w/ small dark signal.
- 10.00 TURKISH TANGENT (Hager 84) Amethyst S; red F w/ tan edge.
- 3.00 TWILIGHT DANCER (Danielson 71) White S & dark maroon brown F.
- 4.00 VOLUNTEER FIREMAN (Cline 57) Red bitone w/ black stripes in F.
- 4.00 WELCOME REWARD (Sundt 71) Lilac S; gold bronze F; big brown signal.
- 5.00 ZIZAH (Rich 83) ARIL-MEDIAN; orchid S tan-brown F flecked maroon.

## IRIS PLANTING AND CULTURAL DIRECTIONS

**WHEN TO PLANT:** For best results plant June through September. Early planting establishes the new Iris before winter. This is the time to reset clumps of Iris that are crowded, generally clumps 3 to 4 years old.

**WHERE TO PLANT:** The ideal location for Iris is a sunny, well drained position. Sun should be present a minimum of half a day. Iris will not do well in deep shade. No water should stand in Iris beds. Raise the beds slightly above the level of the garden paths if necessary.

**DEPTH TO PLANT:** Place rhizomes just below the surface of the ground with the roots well spread out underneath so that the rhizome is within reach of the warmth of the sun's rays while the roots beneath are in moist (not soggy) soil. Follow ordinary good garden practice of watering and settling soil on newly set plants.

**DISTANCE APART:** This will depend on your particular plans. Generally Iris are planted from 14" to 24" apart. If you desire immediate clump effect, plant 8" apart in groups of 3 or more of one variety. You may have to divide and separate your plantings more often, but you will have a wonderful splash of color sooner than if you planted only one rhizome of one variety.

**FERTILIZATION:** Iris will thrive without feeding but will reward you amply for its application. In the preparation of a new Iris bed, spade in a good application of compost below the roots. An application of a well balanced fertilizer applied as a top dressing dusted around and in between the plants in early spring or very late fall is desirable.

**CULTIVATING:** Do it shallowly. Iris feeding roots are very near the surface. Keep your Iris free of weeds and do not allow neighboring plants to encroach upon them. Remember, they should have sunlight down to the rhizome. Remove the outer leaves, grasses, etc. away from the rhizomes. Clean cultivation is the finest precaution for Iris troubles.

## IRIS TERMINOLOGY

|                    |  |
|--------------------|--|
| <b>AMOENA:</b>     | White standards with colored falls.  |
| <b>BICOLOR:</b>    | Standards light colored; falls a different, darker color.  |
| <b>BLEND:</b>      | Combination of two or more colors, smoothly or unevenly applied.   |
| <b>FALLS:</b>      | Three lower petals of the flower; usually designated F.  |
| <b>LUMINATA:</b>   | An Iris having a small spot pattern of color surrounding the beard, different in color than the rest of the petal. |
| <b>NEGLECTA:</b>   | Light blue standards and darker falls.   |
| <b>PLICATA:</b>    | Stippled, dotted, or stitched margin color on lighter ground color.  |
| <b>SELF:</b>       | An Iris of one solid color.  |
| <b>SIGNAL:</b>     | A patch of contrasting color at the tip of the beard.  |
| <b>STANDARDS:</b>  | The three upper petals of the flower; usually designated S.  |
| <b>STYLE ARMS:</b> | The small, stiff segments just above the beard.  |
| <b>SUBSTANCE:</b>  | The thickness of the petals.   |
| <b>TEXTURE:</b>    | The surface of the petals - shimmering, velvety, diamond dusted, etc.  |
| <b>VARIEGATA:</b>  | Yellow Standards; deeper falls of brown, purple, or red.   |
