# THE WILD MOUNTAIN THYME

The irises listed in this catalog have been hybridized in Connecticut (Gadd, Schulz), Massachusetts (Roberts), and New York (Barry) and have proven hardy in this environment. The varietal descriptions are the observations under our growing conditions. Japanese, Siberian, and species irises are from a number of sources and available for custom plantings by landscapers. Please write for this separate list and pricing schedule for the landscape industry. Garden visits are by appointment only.

--Richard Kiyomoto

## SHIPPING

Shipping to areas in the Northeast will be by surface transportation. Outside this region, shipments will be made by UPS Second Day Air or by Priority Mail. If there is a preference, it must be noted on the order. Shipments will not begin until August. The cost of shipping (and 8% sales tax for Connecticut residents) has been included in the plant price. There is a \$2.00 handling charge on all orders. Commercial orders within Connecticut will be delivered to your site.

## ORDERING

Orders will be confirmed unless shipments are made within two weeks of your order. Please include a full street address for UPS shipments, a telephone number, and approximate date you can receive shipments.

## SUBSTITUTES

No substitutions will be made unless a list of alternate items is noted. Refund checks will be mailed for items out of stock.

## TERMS

Full payment in U.S. funds by personal check or money order is required before orders will be processed.

## GUARANTEES

We cannot guarantee that a variety will grow in another climate. However, please notify us at once if plants do not arrive in good condition or are not true to name.
