**GREETINGS 1995**

Again this year, thanks for your orders, comments, letters, visits and patience. All were greatly appreciated.

Last year was difficult in the extreme. I had given up on my knees, had to have help to get around. James came home and began to do most of the work and my Doctor put me on a regimen of derivative extracts or whatever from the gristle of Shark skeleton and skin which seems to promote the padding between joints and now my knees are or seem to be young again, so I no longer have to face the dreaded operations and inserts. No trouble getting around now.

This year we have complete the new show areas. Many new plantings and great areas of new seedlings and selections as well as new varieties from other hybridizers. Almost too many new Iris and Hems. So please feel welcome to visit our gardens at any time. One of us will be here to welcome you.

Thanks

Chet and Jim.

E-M.L. 38" (Beguine x Atomic Flame sib x (sib to Rosy Cloud x Wild Side) Closed, graceful stands of glowing mustard gold, heavily flecked and Striated with Ruby Red and semi flaring falls of deeper, velvety looking mustard gold heavily lined in a lovely full pattern of vivid Morocco Ruby. **FOUNDATION** (Tompkins 1995) ML. 35" (From long lines started in 1946 using only reds and pinks. See bulletin for Family Tree) Many of our named varieties come from this work and are used along the way. Foundation is a massive flower of excellent form, having broad well domed standards and widely rounded horizontal falls. It is a vivid blend of reds, extra bright and intensive as to color. Very difficult to describe as it seems to be a smooth self blend of Ruby, Cardinal, Hollyhock and Cordovan red melded with bright molten Copper and brass reds. It fairly shouts for attention, which it certainly gets. We think it may truly be the foundation for a whole new color range in the red and pink and in between spectrums.

#89-47.....Stock Limited.....\$45.00

**JUST ONE LOOK** (Tompkins 1995) M. 38" (((Intermezzo x Mendenhall lilac sib) x Intermezzo Orchid white sib)) x((Priscilla x Midwest Gem) x Lilac Matula sib))) X (Easy Grace x Easy Grace) x Grand Waltz) This is a self of smooth lavender, even to the beard. Its been known to a lot of Irisarians who have seen it here during the last four years, as "That true lavender". It is large with well domed stands and semiflaring falls. The petals are very broad with rather wide ends that gives the flowers a fascinating, rather squarish look. Stalks are excellently branched with elegant flower placement. border of dark Heliotrope purple around the petals edges  
and the rest of the Ivory fall is covered with large  
blackish purple spots as if it had been peppered with a  
shot gun. A strange brownish blue beard accents its  
distinct differences. Don't miss it.  
#92-3.....\$40.00

**TURN ON** (Tompkins 1995) T.B. 34" (Pagoda Goddess x ((Lux  
Aeterna x (Bon Bon x Tinsel Town))) X (Ming Porcelain)  
Silvery standards flushed or tinted very faintly with  
apricot orange pink. This color is a bit heavier around  
the outer parts of the broad heavily waved and ruffled  
petals. The standards are broad, semi-flaring with  
beautiful ruffling and an edge of picoteed lace. Their  
color is a compelling shade of deeper orange pink. When  
viewed close up the color seems to be an allover applied  
thread work of deeper orange over a silvery base. Pale  
pinkish orange silver based beards add to its beauty.  
One look and you'll find its a real "Turn On"  
#93-16.....\$35.00

**WITS END** (Tompkins 1995) E.L. 38" (Beijing x Dance  
Fever) X Hot Streak. Trying to describe this will drive  
you to distraction. Yea! To your very "Wits End". Huge  
flowers with broadly rounded nicely domed stands and  
great round flaring falls. Color it Chamois gold with an  
overtone of almost invisible lilac and a brushing of  
bronzey blue around the beard with a great wide splash of  
Amethyst blue from the beard to the edge of the fall.

## 1995 PERSONALITY PARADE

**\$10.00 Each -- Net, or all six for \$50.00**

As we write this, it is the year of the Oregon Trail. Which, incidentally ends very near here. The western theme of Wagon trains and Rodeos enticed us to give free reign to our imagination. "The Oregon Trail Story" ---The "Head Honcho" called a "Council Meeting" attended by the "White Hat Hero" as well as the "Dirty Coward" and sundry others. They decided to hire a "Gunslinger" or two and have a final showdown with the "Bad Guys" before joining the regular personality parade. These participants provide their Resumes. We hope they will become your lifelong friends

**HEAD HONCHO** (Tompkins 1995) M.L. 36 in. (Wheeler Dealer x Playin Around) A heavily ruffled, slightly picoteed, large flower with broad petals heavy substance and elegant lace. The ground color is white with standards blushed rosy orchid and falls bordered and nicely patterned of striated Cerise Red.

**COUNCIL MEETING** (Tompkins 1995) ML. 39 in. (Wind Walker x (Tinsel Town x Stepping Out F4) Tall with very strong, wind proof perfectly branched stalks that carry large showy flowers of excellent form. The ground color is a blend of Ivory and rich Country Cream with a pale touch of Heliotrope in the standards. Falls of the same color but are heavily sanded peppermint and edged in glittering shades of smoky amethyst.

**WHITE HAT HERO** (Tompkins 1995) M.L. 36 in. ((Candle Power x New Revue) X (Candle Power X Tulip Festival)) x (Comanche Drums x Wedding Candles) A fat flower with wide round petaled, nicely domed standards. Huge widely flaring falls of rich Plum wine, heavily undertoned orange. Different and very showy. Very popular here.

**DIRTY COWARD** (Tompkins 1995) E.VL. 38 in. (Luxury Lover x Apollodorus) Large flowers, excellently formed with wide petals. The standards are flame orange midribbed with red tints. The falls are smooth with a velvety finish in cleanly blended Pansy Purple and Plum with a brown gold beard. Perfectly branched stalks.

**GUNSLINGER** (Tompkins 1995) E.L. 38 in. (Apollodorus x Dance Fever) X Smart Alec Huge, broad petaled with fine form. This has standards of bright Sunflower yellow and falls of deep Valencia Orange which highlights a smooth overtone of vivid Mahogany red, leaving an edge of Sunflower gold. Viciously bright, it practically says "Defy me and you're dead!"

**BAD GUYS** (Tompkins 1995) M.VL. 36 in. (Suddenly its Spring x Heavenly body) X Revival Meeting Sib. Standards of glowing creamy chamois with a subtle infusion of greenish lavender, that's hard to detect, above round flaring falls of almost florescent orchid Cerise with shoulders of richer Cerise Purple delicately brushed on. A real eye catcher.

# 1995 HEMEROCALLIS INTRODUCTIONS

Prices are net. You will receive large,  
multiple field grown plants

This year we are releasing a few more of our own originations. We hope you like them as much as you have liked our earlier varieties. We have been working almost wholly with tetraploids. For over forty years we have been working with selections which have produced rebloom all season. Until almost all of our varieties send scape after scape till frost. Before the first scape is even reaching peak, another is well under way. Of course we've been working on colors, size and long lasting qualities at the same time. We think you will like our first brown to be released, see cover picture of Cowboy Country. If you can, come and enjoy our gardens, our listed varieties, our seedling and selections. We are printing a "Display" list of new intros from other growers which we can not price as yet. Come and enjoy them, you are always welcome.

**BLACK ON BLACK** (Tompkins 1995) EM.VL. 30" Dor. 5 1/2 to 6" Flowers. (Our converted Tet Potentate X Tet Auria) x Long allied seedling lines x ((Dominic x Midnight Magic) x (Caviar x Strutters Ball)). This new hem is as close to black as we have seen. It has a smooth clean, glossy finish like black patent leather, offset by a small apple green throat. It opens early and does not wilt, fade or change through the hottest days and is quite presentable well into the second day. It has clean dark emerald foliage and up to 25 buds and produces a steady stream of scapes from spring to heavy frost.  
#87-66.....\$100.00

**BREATH CATCHER** (Tompkins 1995) EM-L. 38" Dor. 5 1/2" to 6 1/2" Flower. (Long Tet Lines x Caprician Fiesta) This is a huge flower of Light Yellow with a Creamy undertone. Petals and sepals turn back a little at their tips to form a huge circled form, leaving a huge expanse of color which is set off by a dollar sized circle of rich Red called Kordite by the charts we use, leaving a tiny throat of green. It has heavy substance and thick plush like nonburning finish. Large fans of deep green and strong well branched stalks with beautiful flower placement. When you see this you'll discover it to be a real Breath catcher.  
#89-53I.....\$150.00

**CANDLE HAPPY EE-VL.** 28" Dor. 5 1/2" Flowers. (From long Tet seedling lines). This is a nicely rounded flower of good size with ruffled and fluted petals. Its color of deep blended melon pink and orange has a deeper rosy flush of color sweeping downward to its tiny lime throat. The petals have a glistening, very heavily picoteed or laced edge of icy gold. A truly gorgeous hem that has still another thing going for it. It has heavy strong stalks with all around branching that grows outward to make a flat spreading circle with as many as 40 buds. The buds all face upward, their rich melon color coated with a bright rosy glow so the whole stalk is like a huge bouquet of bright melony rose candles. Many visitors said, Wow! Ill buy this even if it never blooms. Which of course it does. The flowers open wide and full and stay long into the evening. Their glittering edges making them show up like candles and candle halos in the night.

#80-14A.....\$150.00

**COWBOY COUNTRY** (Tompkins 1995) EM-VL. 35" Dor. 6 3/4" Flowers. Cowboy Country is from a line we've been working with ever since Orville Fay sent us a set of tetraploids the first year they were released. It is a new color for us, an ultra gorgeous shade of blended Chamois and light Cocoa brown with a wide central halo of rich Buckthorn and Cocoa brown offset by a small throat area of cocoa tinted lime or "Lemeneau" by the Royal French Horticulture Color Chart. It has lovely form with broad gracefully fluted petals. A penciled edge like glittering ice appears as the season warms up, an icy glow on its rich velvety finish. It has excellent stalks and branching with up to 20 buds and rich, dark green foliage that produces stalk after stalk and was in bloom and even resisted when three or four hard freezes came along right after Christmas, whereupon it pulled itself to the ground for a short rest.

**DEAD EYE DICK** (Tompkins 1995) E.VL. 28" Dor. 5 1/2" Flowers. (Sdlg #4970 x Sdlg 49-66) This is with out a doubt one of the most loved, admired and wanted hems in our garden. Its shoots straight to the heart of every visitor. Flowers open early with fluted petals and a full flat, rather amaryllis like form with a heavily substantced, non fading, velvety looking finish. Its color by the French Chart is Neapolitan gold with a throat zone of Russian red. To my eye its what I'd call squash blossom yellow with a Ruby zone. One of our older seedlings, but one that becomes wanted more and more each year so here it is, but remember - Its a straight shooter and could be dangerous to your desire.

#84-32.....\$75.00

**IMPERIAL LUSTRE** (Tompkins 1995) M.VL. 34" Dor. Dbl. 5" Flower. (From long seedling lines). This is the first double we have named. As a matter of fact we've never bred for doubles. I guess like "Topsy" it just grew. All of its siblings were singles. Tracing it back over the years we've had but 7 other double and semi doubles from its lines. We think it must go clear back to a tet seedling from Orville Fay that he did not introduce. It was a sib to Tet Lucy. Orville sent me Lucy Two which in his letter in our files says he was dumping as he did not like doubles. I liked it and used it some for its color though it did not double until much later when it was put out in a keeper field at the farm. Its quite large with a horizontal circle of outer petals and a lovely central double bunch of petals standing upright giving a true daffodil look. Its heavily substanted and long lasting with blooms nicely placed on its spreading branches. It, like our others, throws scapes steadily. In color it is a brilliant mandarin or chinese orange almost neon bright and has a lacquer like finish.  
#89-36.....\$150.00

**INNER SANCTUM** (Tompkins 1995) E.M-VL. 35" Dor. 7" Flowers. (Sdlg 79-401 which we call Blue Beginning x Sib) x ((Dragonwyck x Self) x Drama) x Self)) X (Red Radiance lines) x Dragonwyck) Very large with extra broad petals and sepals. This has beautiful, wide open form, heavy substance, and a velvety looking nonfading finish. Visitors flock to it, not so much for its size but for its strange quite different and utterly fascinating color. "Pruza Roz" by the charts. Mix dusky rose with a light shade of violet, throw in some gentian to give it an overall sheen of twilight blue and you are as near its color as you can get. A real beauty with wide, every which way branching and up to 25 buds on scape after scape. Try this shimmering bluish Rose beauty. Exotically mysterious with its ever changing colors it brings Peace, quiet and beauty to behold!  
#89-13.....\$200.00

**MARIE BECKMAN** (Tompkins 1995) E.VL. 30" Dor. 6" Flowers. (From involved Tet lines). This is a huge, broad petaled flower of full, flat form. The flowers are heavily substanted with a sparkling velvety finish. Its color is quite different and it is a great favorite with visitors and ourselves. By the French Color Chart its almost a full match to that called "Vichy" which is a smooth blend of honey, pale copper and light peachy apricot. Here we call it Peach Champagne. It has very widely branched stalks and scape after scape, all season long. If you like thrills and chills try this sparkling brand of Champagne!  
#89-6A.....\$150.00

**PICTURE READY** (Tompkins 1995) EVL. 29" Dor. 5 1/2" to 6" Flower. (From involved Tet lines.) This is our favorite in pure true Cadmium yellow. It opens early and lasts much of the second day. It has broad petals, a beautiful, full faced, round form and a wonderfully ruffled edge to its velvety petals. Its stalks with showbench branching and bud placing perfection. Make it look as if it had spent the night grooming itself to be "Picture Ready" for the day to come. See picture on page #91-1..... **\$200.00**

**RIDER COWBOY** (Tompkins 1995) EM.VL. 36" Dor. 6" Flowers. (Poinciana X (Spellbreaker x Blenheim Royal)). This is a truly spectacular new red that has simply taken every visitor by storm. Non burning, extra rich and very clean with wide, heavily substedanced long lasting flowers. Offset by a very small jade green heart. It has strong stalks with every which way branching and up to 30 buds. It has lush, deep green foliage in excellent proportion to its stalks. Its a wonderful parent, producing fabulous seedlings. We can hardly wait each day to see its new children and grandchildren. #91-89.....**\$200.00**

**STOLEN MOMENT** (Tompkins 1995) M.VL. 38" Dor. 5 1/2" to 6" Flower. ((Pad Parents of Twilight Zone) x (Seductress x 29-401)) X Love Goddess This is a full flower with extra broad petals and sepals that open flat, recurving only enough to make a huge round bloom. Sunfast and heavily substedanced with a sparkling velvety finish. The color is a rich true Rose Called "Tyrea Rosa" by the charts. An English chart we have calls it Dusky Hollyhock Rose. which is closer we think and it has a rich undertone of blue velvet that gives it an allover Rosy blue cast. Lots of blooms and scapes. Exciting! #90-45.....**\$100.00**
