#### McMILLEN'S IRIS GARDEN

HWY. #59 SOUTH TO HOLBROOK, TAKE CO. RD. #13  
SOUTH TO PLEASANT VALLEY RD., TURN LEFT  
(EAST) AT OUR SIGN, GO 1/2 MILE AND WE ARE THE  
THIRD HOUSE ON THE RIGHT.

#### McMILLEN'S IRIS GARDEN

Greetings to our Iris Friends,

This warm weather makes spring seem just around the corner and time to plan what we want blooming in our garden next year.

Thanks to our many loyal customers for your continued support. It is our pleasure to know that we are helping our fellow gardener's bring such beauty to the world. We hope to be able to assist all of you to get the rainbow of the Iris in your garden. We enjoy your letters and pictures we receive of your colorful gardens and apologize if we don't answer all the letters.

We like to meet our customers and make new friends, so we attended several Flower Shows last year. Plan on meeting us again at the Canadian Garden & Flower Show at the International Centre, Mississauga March 20-23 and the Flower & Garden Show in Peterborough, April 4-6. We also hope to participate in the Flower & Garden '97, April 24-27 at Lansdowne Park, Ottawa.

We have been ask to speak at several Horticultural Societies again this year. If you are planning a meeting or event and would like a speaker or slide program give us a call. Is your group looking for a reason to get out for some fresh air and see some great gardens? Why not plan a group trip and spend the afternoon at McMillen's.

We now have a HOMEPAGE on the internet. This has been very interesting, we have received messages from all over the world. Visit our Website at: [www.execulink.com/~iris](http://www.execulink.com/~iris) or send us an e-mail at: [iris@execulink.com](mailto:iris@execulink.com) or Fax 519-468-3214.

Please read the ordering instructions carefully before ordering. Mark the order form, if you will accept substitutes. List suggestions or we will pick another iris or daylily as close to the same color or price with equal or greater value.

The garden will be open 7 days a week from 9:00 a.m. to 8:00 p.m. during bloom season, we look forward to visiting with you and your friends when you come to the Iris garden.

We wish you all the best for the coming season and look forward to serving you again in 1997.

Sincerely, Gloria and son Dan

To enjoy your Iris hobby to the fullest we invite you to join the **CANADIAN IRIS SOCIETY**. As a member you will receive the C.I.S. Newsletter four times a year. This will keep you informed about the latest varieties, the best methods of disease & insect control, plus many other interesting articles. You will also have the opportunity to exhibit your iris at the Spring Shows, dates of other functions such as the auctions in August and the annual meeting in September. Dues are \$10.00 for 1 year and \$25.00 for 3 years.

Anyone joining the C.I.S. for the 1st time may send their membership dues, payable to the: **CANADIAN IRIS SOCIETY**, with your order and receive a free iris. If you join the **AMERICAN IRIS SOCIETY**, send a separate U.S. money order for \$18.00 payable to **AMERICAN IRIS SOCIETY** and include it with your order. We will send it in and include an extra iris of our choice with your order. Extra iris do not apply to renewals.

SULTAN'S RUBY (Hollingworth'88) M, 30" D. Deep, deep red velvety ruffled falls which have large bright gold signal. Good grower. AM.....10.00

WHITE MAGNIFICENCE (Kitton'67) L, 42" Very large white self..... 3.75

WHITE SWIRL (Cassebeer'57) L, 40" Pure white self, widely flaring falls & very floriferous..... 3.00

## PLEASE READ BEFORE ORDERING

**TERMS** - Cash, cheque or money order to accompany your order. Make payable to: McMILLEN'S IRIS GARDEN.

PLEASE DO NOT order bearded & beardless on the same order form.

Bearded order form is for the bearded iris - T.B., M.T.B., B.B., S.D.B., I.B., & M.D.B.

**SHIPPING** - Ontario orders cost \$6.00 shipping and handling.

- All other Provinces is \$7.00.

UNITED PARCEL SERVICE (U.P.S.) is our main carrier, it will be used wherever possible that the shipping costs cover and all other orders will be sent my mail.

U.P.S. is fast, insured and can be traced, so that we know where the order is at all times. Please include complete address, street name, lot & concession and phone number is necessary with your mailing address. Maps are also helpful. U.P.S. can not be used if you use a box number. Please refer to the chart below to determine the rate for U.P.S. shipping.

**REGULAR POST** is used to ship all other orders by regular mail. Ontario cost \$6.00. All other provinces cost \$7.00. If you wish your order to be sent by Xpress post. Please add \$.50 per rhizome to your order.

Shipping of bearded iris will early August to mid September. Orders must be post marked before September 1st. Siberian iris and daylilies will be shipped in September and October. Orders will be shipped first come first served as they are received. If you are going on vacation, during our shipping season let us know when you order and we will ship accordingly.

**U.S.A. ORDERS** - Minimum order of \$30.00. Shipping is \$8.00 for surface mail.

The cost for the Phytosanitary Certificate is \$10.00. If you want your plants shipped via AIR MAIL, please include an additional \$.50 per rhizome. No U.P.S. shipping to the states.

**PICK-UP ORDERS** - Orders can be picked up on Tuesday or Thursday from 10 a.m. to 5 a.m. or Saturday morning from 9 a.m. to 12 p.m. Orders may be picked up between August 14th to October 14th.

**GARDEN CENTRES, NURSERIES and WHOLESALERS** - Call for our Wholesale List - 519-468-6508

Most newer iris are not available in volume and will be at catalogue prices. Shipping is extra and will be calculated according to size of order. Extra iris do not apply to wholesale orders.

**GUARANTEE** - We guarantee all plants to be true to name, healthy and disease free when you receive them. If you are not satisfied please notify us as soon as possible about the problem and we will be more than happy to correct it. Rhizomes vary in size, small plants are just as healthy, multiply and bloom as well as the large rhizomes.

**ACKNOWLEDGMENTS** - If you wish to receive an order acknowledgment please send a self addressed stamped envelope.

### CATALOGUES

Orders over \$20.00 will receive a catalogue the following year. If you are not on our mailing list send \$2.00 with your name and address to receive next years catalogue. Catalogues are sent out from March to September, while supply lasts. Request received after late August will be sent next years catalogue.

## CULTURAL INSTRUCTIONS FOR BEARDED IRIS

**PLANTING TIME** - Mid July through mid September. Earlier and later are possible, but earlier will reduce the following years bloom and later will lower the chance of winter survival. Replant every 3-4 years depending on variety, dig up the clumps and discard the old center rhizomes. Trim foliage of large fans to about 6" and replant. Plant in a well prepared, clean, sunny location, well drained, using a fertilizer containing low nitrogen. If manure is used it must be completely rotted and worked in well ahead of time. Wood ash is beneficial being very high in many trace elements. Plant level with ground surface in clay, about 2" deep in sand. Cultivate shallow, iris are shallow rooted. Water only when planting, no water is needed after this, unless it's extremely dry.

Occasionally remove dead and badly spotted leaves from the outside of the fans. Do not cut foliage back after blooming. Remove bloom stalks with a quick snap.

Foliage may be cut back to 6-7" from the ground in late fall. A mulch of wheat straw or weed free hay is beneficial in winter. DO NOT use leaves. They hold too much moisture and could cause rot.

**INSECT AND DISEASE CONTROL** - Number ONE rule - remove and burn all dead material from around the iris in the spring. Borer eggs and fungus pores of leaf spot are on these and must be destroyed.

**IRIS BORER** - Control with Cygon 2E as instructed. Watch for rugged leaves or water streaking, dig out borer.

**BACTERIAL SOFT ROT** - A soft mushy rot with a very strong smell. Caused by too lush a growth, too rich a soil, too much water, failure to clean dead leaves in the spring or injury to rhizome allowing the bacteria a place to become established. Agricultural gypsum sprinkled on infected plants is beneficial. Dig and scrape rot from rhizome and air dry for several days. Dust with sulfur or gypsum and replant.

## SIBERIAN IRIS

Siberians are suited to almost all garden purposes. They are ideal grouped with other herbaceous perennial plants and almost equally so in the front of the shrub border. They are effectively used with other flowers and shrubs. In informal settings they grow well beside streams and pools and they can be naturalized under trees provided the shade is not too dense. In all these uses they have exceptional value not only during bloom but throughout the entire growing season because of their attractive green foliage.

Siberians are also excellent as cut flowers and in arrangements. The flowers are dainty and remain fresh. Their many sizes, colors and forms suit them to almost any design the arranger may have in mind.

Siberians take about three years to get established and start to bloom.

## CULTURAL INSTRUCTIONS for SIBERIANS

A beardless species of iris that are very hardy in cold climate areas. They are trouble free and will grow almost anywhere. They do however, prefer slightly acid soil and lots of water. Peat moss is recommended to improve acidity.

Cover with at least 2 inches of soil into which peat moss has been worked.

Winter protection is advised for the first couple of winters.

**SIBERIANS MUST** be ordered on the **FALL ORDER FORM**, they will be shipped only in the fall. Late September and October.

## CULTURAL INSTRUCTIONS FOR DAYLILIES

Daylilies adapt to all soils and will grow in full sun or partial shade at least half of a day. They will benefit from an application of well balanced garden fertilizer one or two times a year. Spread the roots out over a small mound in the bottom of the hole and cover with two inches of soil and water in.

They are shipped dry to avoid molding or rotting enroute. Plant as soon as possible after receiving them and water.

**Daylilies must be ordered on FALL ORDER FORM.**

## DEFINITIONS

AMOENA - - - - White or near white standards with colored falls.

BICOLOR - - - - Two colors, light or medium standards & deeper contrasting falls.

BITONE - - - - Two tones of the same color.
