## NEW DECADE, NEW WONDERS-2010

Several New Decades have come along since our first collection of irises hit the ground in 1953. Each brings hopes and dreams of what New Wonders will make their appearance. Our 2010 Introductions made their first appearance in "the aughts". Enjoy the fruits of 57 years of hybridizing.

We will send you irises with a LIST value of about three times the monetary value which you send us. (Our listed sale prices are approximately half or less the NORMAL list prices.) We begin shipping SURPRISE PACKAGES at the end of our regular shipping season near mid to late August and continue until stock is depleted in September. Only Surprise Packages of bearded irises are available.

#### SUPER BONUS

On bearded orders of \$100 or more select one of the following as your super bonus: Be Original, Edifice, Expect Wonders, Latte, My Beloved, Star Appeal, Wedding Night. On orders of \$200 or more select any one of our 2010 TB introductions as your super bonus.

#### LOOK

## THE BARGAIN SECTION

To ship our large rhizomes is expensive. At the low prices that follow, in addition to the regular handling charge explained under "Terms", we must ask that you add an additional 25 cents for each three rhizomes purchased from the following four sections. Supply is limited, so to save time, it would be well to list some alternatives. We reserve the right to substitute a similar variety of equal or greater value for the sold-out items. (\*denotes medians).

## THE BEARDLESS ONES

Order Pacificas separately. They are shipped in October to early November. They are a separate order with handling fees as explained under "Terms". Priority or air shipment is recommended for areas outside Central California (Priority mail assures more immediate delivery even here, however). Note costs under "Terms".

### PACIFICAS

Plant Pacificas in an acid bed. In harsh climates place them in a protected location and mulch during the winter. In all but coastal locations, filtered shade seems to provide the best results. Some water seems necessary if your summer is hot and dry or your soil is sandy. Upon receipt soak in a bucket of water for about 24 hours. If new white roots are not showing, leave rhizomes in water until new roots begin appearing. New roots should appear in 7 to 10 days. Plant immediately, never allow the roots to dry out. Soaking in a fungicide such as "Subdue" and drenching the bed with same seems to be beneficial.

## TERMS

Extras are included on bearded orders and are of our choice in line with the size and type of order sent. Bearded orders are net without extras. Your cancelled check will be notification that your order has been received. If you wish a reply, please enclose a stamp, post card or email address.

Please send check with your order. Due to different shipping time, each of the following constitute different orders: (1) Bearded, (2) Surprise Packages, (3) Pacificas. There is a handling charge for each type of order sent since they must be shipped at different times of the year.

Bearded shipments begin around July 1 and continue to early September. Orders are filled in rotation, so it is impossible to meet special shipping dates. We replant all bearded irises each year in September, thus the only items we can assure you of during that period are Surprise Packages.

UNITED STATES: We ship mostly by parcel post and UPS on largest orders. If you wish faster delivery, add an additional 50 cents per plant for air or priority shipment.

Use the following charts:

- (1) Locate the first three digits of your zip code;
- (2) Note the zone number indicated;
- (3) Starting with the number of plants in your order, read across the chart to the appropriate zone;
- (4) Enter this amount on the "Shipping Charge" line on your order blank.
